

LimeLite high-density chair offers a refined aesthetic with a slim profile and contoured shape for versatile seating in multi-purpose spaces. The seat shell architecture and a unique blend of materials provide inherent passive flex for responsive comfort. LimeLite high-density chairs are part of an extended seating line that provides design consistency.

LIMELITE HIGH-DENSITY STACK CHAIR FEATURES

- A. Flex Comfort**
Inherent flex comfort is provided by the one-piece seat shell architecture and unique blend of materials (see detail).
- B. Integral Handle**
Seat shell design integrates a handle for easy lifting, moving and stacking.
- C. Cushioned Seat**
Available as all poly or with an upholstered seat.
- D. Glides**
Optional glides are available in plastic, steel or rubber (non-marring) or felt to accommodate any flooring material. Glide caps are interchangeable and field replaceable. Ganging glides are available.
- E. Stacking**
Stacks 25-high on dolly and 12-high on floor (poly).
