Hangout

Introducing Hangout, six new interrelated products that respond to the diverse demands of the modern world, and create spaces where people want to meet.

Personalize your Hangout

Easy to configure benches with complementary chairs and tables provide free-reign to customize each Hangout to any space and style.

Steel, Wood and Soft Curves

Recurring design elements create unparalleled design opportunities while maintaining a cohesive look and feel.

Visit

Visit

Tables, benches and sofas configure into intriguing organic shapes, and are able to adapt to the needs of any space and any use.

Modular by Design

Various configurations are made with and without the use of connecting in-line tables.

Design Details

With separation between the back and seat, and models featuring back ledges, Visit provides visual intrigue and increased functionality.

* Curve bench pieces are not available to be ordered as standalone seating.

Wood and Steel

Visit's signature look is derived from the strength of steel and warmth of wood. Both elements are available in a variety of finishes to match pre-existing decor.

Visit Tables

Visit tables separate, connect and define seating areas to activate multiple meeting spaces in a single Hangout. In-line and end table options feature an exposed plywood laminate edge band.

Optional built-in power supports wired-in working while hiding visually messy cable systems.

Standard power configuration features 2 power outlets and 4 USB slots.

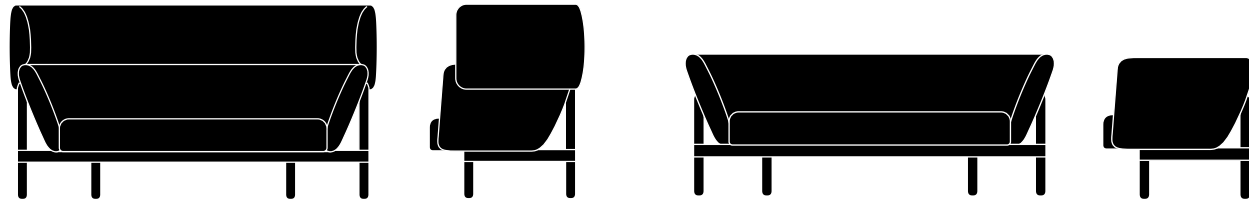

* In-line and End Tables are not available to be ordered as standalone pieces.

Visit Sofa **SCREENING
ROOM**

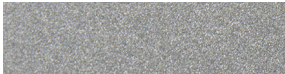

Visit Sofa

For more private conversations or a lounge-like feel, Visit sofas are available in high or low back models.
