Personal Storage for Today's Workers

Storage needs are changing. The use of paper files and physical reference materials is decreasing, while the number of personal technologies used for work is increasing. As part of the SOTO® line of worktools, SOTO Personal Console offers secure storage for bags, laptops, and other personal and professional items. Mountable on fixed- and height-adjustable worksurfaces, it also features integrated charging options to keep small devices powered all day long.

Diverse Needs, Varied Solutions

With multiple configurations available, Personal Console addresses a variety of workplace needs. In addition to locked personal and professional storage, charging options are also available.

Keyed or keyless lock: Offers storage options for people on the go. Keyless lock allows individuals to use their own code, ideal for keeping belongings safe in shared settings.

Fast USB charger (available on all models): Provides reliable, high-power charging at a full 2.1A for up to two devices at once.

Wireless charger (available on all models): Powers compatible devices quickly and conveniently with a Qi-certified charging station.

Worksurface-mounted: Mounts to fixed-, standing- and adjustable-height worksurfaces so users have access to storage as they change postures throughout the day.

FEATURES

All configurations are available in keyed or keyless lock.

Basic

USB charger

USB + wireless charger
