Veneer

DARRAN only uses HPVA AA Grade Flat Cut Cherry, Maple, and Walnut Veneers and AA Grade Quartered Oak. EdgeWorks is also available in double cut reconstituted walnut and oak patterns made from rapidly renewable wood veneer providing a repeatable consistent straight grain pattern. All veneers are selected and matched for balance and consistency.

Veneer Tops

EdgeWorks veneer tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1" thick on MDF core comprised of 100% recycled and recovered wood fibers. All veneer tops are slipmatched and feature a 3mm external solid hardwood band or profile edge.

Laminate Tops

EdgeWorks high-pressure laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1" thick on MDF core comprised of 100% recycled and recovered wood fibers. All high pressure laminate tops are available with a profile edge, laminate self-edge or 2mm PVC edge band. Laminates in wood grain patterns feature a fine grain texture that features the polish and luxe of a real wood veneer with a subtle narrow grain structure.

TFL top

Thermally Fused Laminate tops feature a 45-pound density substrate with balanced 3-ply construction. Tops are 1" thick on MDF core that is comprised of 100% recycled and recovered wood fibers. All Thermally Fused Laminate tops are available with a 2mm flat PVC band. Laminates in wood grain patterns feature Timberline Texture providing the grain pattern of wood.

Cleaning wood & laminate

In addition to regular dusting, give your furniture an occasional cleaning in accordance with our cleaning instructions. DARRAN wood and laminate products can be cleaned with a soft cloth and a mild soap and water mixture. Use approximately 32 oz of water mixed with one tablespoon of dish soap, always wiping with the grain. Dry with a soft cloth, going with the grain, to avoid spotting or streaking.

Wood products should be waxed periodically using a non-wax liquid; please do not use any waxy polish or cleaner. Interior of drawers may also be cleaned with mild soap and water mixture, or any household cleaner that is not petroleum or thinner-based.

Adjustable glides

Glides provide 1" of vertical leveling adjustment. Glide bottom is durable metal. Glides are secured in solid wood blocks that are screwed and glued for durability.

Power

A large selection of power pods are available and handle power, data, docking stations and communication. See options section for selection.

Wire management

Wire management capabilities include standard and optional worksurface grommets. Specify W21 under surface wire channels for organization and management of all communication wires and cords. Sold separately to conceal wire under worksurfaces.

Conference wire management

Power and data cables can be discretely housed and managed with the W21 Grey Wire Manager. This can be mounted in any location to metal frame or underside of conference tables and runs cables through a 1" channel from power module to hollow steel legs. This keeps cables organized under the table top. Release clips make it simple to snap on and off the Wire Manager for easy organization and access after attached to the table

W21: Grey Wire Manager (10.5") - \$35

Neat thinking

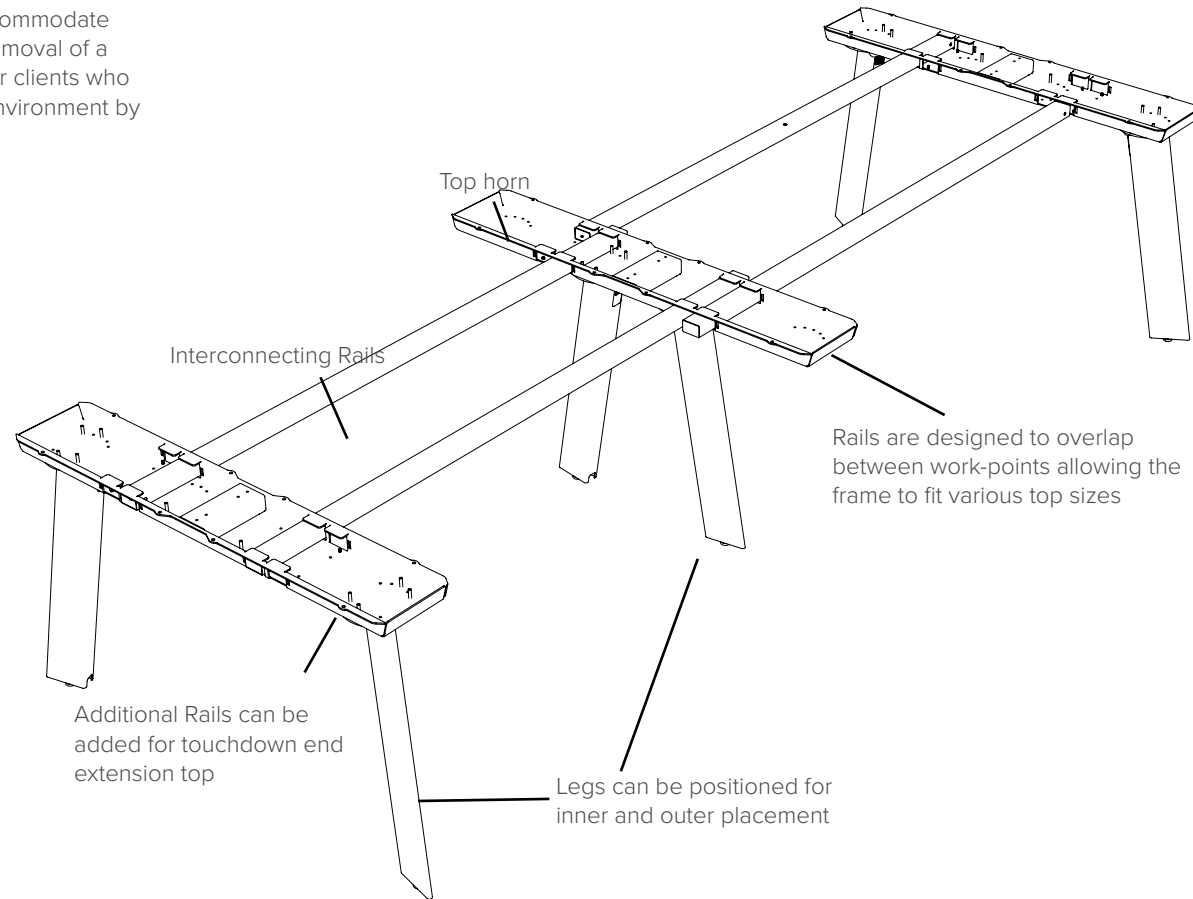

With ample capacity within the hollow steel leg for hardwired cables or data that can be discretely housed and managed.

DARRAN®

The EdgeWorks workstation top horn is designed to accommodate rails that interconnect to allow for the easy addition or removal of a section of the workstation. This is a good selling point for clients who are looking to expand in the future, and considers the environment by conserving materials.

management raceway

Style Number	List Price
W1	80 Per 4' section

Specifications

- 4' section for field installation.
- The "J" shape black thermoplastic wire raceway may be added to specified worksurface tops to provide concealed channeling of wires to and from worksurface grommets. For use in open kneespace areas, raceway is attachable to top of back panel with pan head screws. Interior dimensions are 1" x 1- 1/2" providing ample storage for multiple wires and excess cable. Front of raceway flexes out for easy cord insertion.

Specifications

- 10"W x 1.5"D x 1.25"H
- Grey Wire Manager (10.5")
- Power and data cables can be discretely housed and managed with the W21 Gray Wire Manager. This can be mounted in any location to metal frame or underside of conference tables and runs cables through a 1" channel from power module to hollow steel legs. This keeps cables organized under the table top. Release clips make it simple to snap on and off the Wire Manager for easy organization and access after attached to the table
