Milliken™

Prism in Jadeite (large inset) with Rift in Charcoal (small inset) and Rift in Emerald (border), vertical ashlar plank tile installation

Continental - Prism

The magnitude of the earth's dynamic geological processes creates awe and inspires wonder. Propelled by deep underground activity, natural forces separate and merge the earth's crust to form new landscapes. Transformations are both steady and immediate. Continents are reconfigured slowly with the passage of time, or dramatically with volcanic and seismic activity.
