Milliken®

Protect and Impress with Identity Tiles

One of the newest additions to the OBEX™ family, Identity Tiles combine the unrivaled performance of Milliken™ Cut textile with our expertise in color and print technology.

Optimized for remarkable performance, Identity Tiles don't just protect spaces from unhealthy, unsafe contaminants. They also allow you to create high-impact entryway statements with virtually any color or detail. OBEX delivers innovative custom capabilities for the highest quality brand messaging.

Performance That Protects Your Space

Featuring our Cut textile, OBEX™ Identity Tiles protect against slips and falls, unhealthy contaminants, and abrasive particles by capturing debris and moisture that can prematurely wear facility-wide flooring.

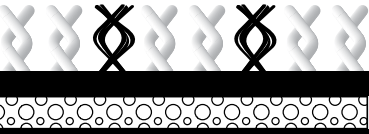

OBEX™ Tile: With multiple patterns and colors, Tiles offer high-performance dirt and moisture collection plus tailored design.

ZONE 2 | ZONE 3

OBEX™ Cut: A hard-wearing combination of nylon and scraping monofilament fibers attracts moisture and traps dirt in an open, cut-pile construction.

OBEX™ CutX: A more aggressive version of our Cut textile, CutX contains extra monofilament fibers for successful removal of moisture, damaging particles, and pollutants.

Design That Delivers Your Vision

Milliken's patented, highly agile Digital Dye Infusion (DDI) technology bonds color into the fiber. As a result, Identity Tiles offer unparalleled flexibility, color, clarity, pattern precision, and a range of additional benefits:

- Colors that diffuse and fade into one another
- Virtually flawless registration for seamless flow from Tile to Tile
- Unrivaled turnaround times
- Enhanced durability with cushion backing
- Opportunity to create large, high-quality images
- Available sizes in 1 M x 1 M, 1 M x 2 M, and 1 M x 3 M

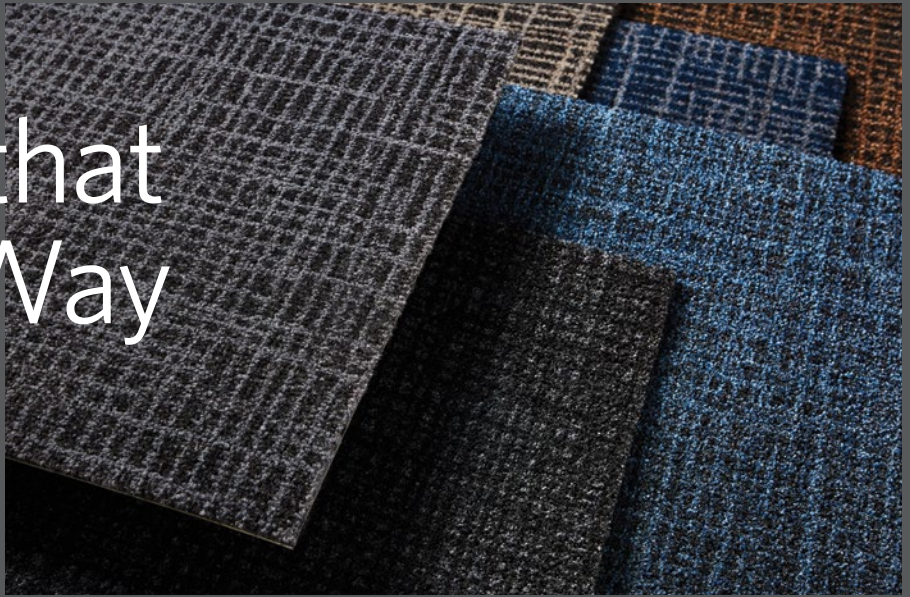

Ready to get started?

Our simple, cost-effective design process makes branding easy. You send us your information — including graphics and color references—and our team of skilled designers brings your personalized vision to life.

Protection that Leads the Way

Milliken's integrated OBEX™ system of Forms and Materials optimizes safety, wellness, and design from the outside in.
