There are no emissions to air, water or land during the production of Domo. The sound-absorbent core of Domo contains recycled materials. Domo Wall is recyclable. Improved Sound Absorption: Domo Screen is ideal for high frequency absorption and achieves an NRC 0.60 rating. Recyclable: The materials in Domo Screens are recyclable, either as material recycling or energy recovery. Care: To preserve the fabric color and appearance, Domo floor screen should be vacuumed regularly with a soft nozzle attachment. To remove wet stains, use uncolored paper towels or a cloth to soak up as much of the wet stain as possible. Dried stains should be vacuumed. Moisten the stain lightly with a clean cotton cloth, lukewarm water and a very small amount of pH-neutral detergent. Press a dry cloth or uncolored paper towel against the fabric so that moisture and dirt are absorbed. Repeat process if necessary.
