ecoustic® V Panel + Tile Collection

ecoustic® V is a collection of acoustic panels and tiles with an elegant aesthetic and acoustic performance. The V collection is available in eight timeless designs, three solid color core thicknesses, six sizes, and a variety of colors for ultimate design flexibility. The panels and tiles can be installed both vertically and horizontally. NRC ratings, depending on the thickness used, are between 0.30 – 0.65 when directly fixed to the wall or 0.85 - 0.95 when using a 7 ⁷⁄₈" airgap. Designed for the environment, the ecoustic® SC panels are low-VOC, Oeko-Tex certified, and recyclable.

ENVIRONMENT

ecoustic® V panels + tiles are California 01350 Emissions Compliant, Declare CDHP Emissions Compliant, Low VOC, Oeko-Tex Certified, Global Greentag, HPD, and Rapidly Renewable Content.

LIGHTWEIGHT, EASY TO HANDLE + INSTALL

Compared to traditional panels, ecoustic® V panels are lower in weight, easier to handle, and results in reduced transportation costs. ecoustic® V can be trimmed and installed without the need for additional finishes, which reduces labor and material costs. V panels and tiles supplied are precision cut.

MOISTURE ABSORPTION

After four days at 251° F, 95% RH the moisture absorbency of the 0.47" and 0.94" panel + tile was less than 0.3% and 2.9% by weight, respectively. As ecoustic® V panels + tiles are made from 100% polyester, they will not degrade over time due to moisture, mildew, or rot in office environments.

TOXICITY

Polyester is non-toxic and is classed the same as wood under the State of New York Article 15 Part 1120. ecoustic® V does not contain any Red List Chemicals (USA EPA).
