FLAMMABILITY   Inquire

ACOUSTIC   NRC: 0.75 (see graph on following page)

APPLICATION   Screen

DESCRIPTION   Softline is a modular screen partition system that easily adapts to the changing requirements of the functional work-space. Available in different sizes and shapes, Softline's solid wood frame, connecting system, and leg platform offers excellent stability. A sound-absorbing mineral wool core and cover fabric in many colors creates an attractive acoustically comfortable work-space.

BENEFITS

Designed for the Environment: Softline is manufactured on the basis of technical, environmental and production ethical requirements. There are no emissions to air, water or land during the production of Softline. The sound-absorbent core of Softline contains recycled materials. Softline is recyclable.
- Mindful MATERIALS
- Low-VOC
- Declare CDHP Emissions Compliant
- EPD
- HPD

Improved Sound Absorption: Softline Screens are ideal for high frequency absorption and achieves an NRC 0.75.

Acrylic Top Divider: Acrylic glass tops for the Softline floor and table screens are available. The top bracket can be mounted directly from the factory, or it is easy to mount the brackets and acrylic top yourself, on an existing screen. The acrylic top is compatible with all models of floor and table screens in the Softline series.

Care: To preserve the fabric color and appearance of the fabric, Softline floor screen should be vacuumed regularly with a soft nozzle attachment. To remove wet stains, use uncolored paper towels or a cloth to soak up as much of the wet stain as possible. Dried stains should be vacuumed. Moisten the stain lightly with a clean cotton cloth, luke warm water and a very small amount of pH-neutral detergent. Press a dry cloth or uncolored paper towel against the fabric so that moisture and dirt are absorbed. Repeat process if necessary.
