

HAVEN PODS

POWERED BY PRIVACY

Advances in technology, changing work patterns and the trend towards open plan workspaces have resulted in an evolution of the modern workplace. Pods create both focused environments within open

plan offices and provide ideal spaces for ad hoc meetings and sharing ideas. The products across the range offer different acoustic and privacy benefits. Their innovative geometric shape

maximizes space efficiency while reducing surrounding noise.

DESIGN
Senator

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimise the impact on the world around us.

They come from all over the world, but are based in our Design Center located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test center and prototyping lab.

STANDARD FEATURES (*Selected models only)

- Internal Steel frame with multi layered foam construction
- Vertical panels upholstered in Camira Blazer fabric (two-tone is standard)
- Quick release panel connector system
- Leveling adjusters
- 1" TFL work surface*
