LAYOUTS

To configure Tailor Modular, please specify left to right facing the configuration.

Tailor has two arm styles - end arms which are tapered, and connecting arms which are straight. Please provide a layout drawing with your purchase order or quote request and Customer Service will determine the appropriate arm (end or connecting) depending on their position within the layout. Arms are shipped assembled on the chair.

Tapered End Arm

Straight Connecting Arm

- A** Choose from one-, two-, three-seat and bariatric modular designs.

Note: Single seat configuration is shown in the example below.

- B** Tapered End Arms are installed at the ends of the layout run.

Note: Exceptions apply, see next page for more information.

- C** When arms are specified between seats or seat-to-table, a Straight Connecting Arm will be used.

- D** To complete your configuration, choose from end of run, spacer or corner connecting tables.

The configuration above can be specified as:

9101MC	Single Seat, Two Arms (one Tapered End, one Straight Connecting)
9101MC-R	Single Seat, With Right Arm Only (Straight Connecting)
91RC	Corner Table - Radius Corner
9101MC	Single Seat, Two Arms (two Straight Connecting)
9101MC-R	Single Seat, With Right Arm Only (Tapered End)

TAILOR Lounge Collection - MODULAR

TAPERED END ARMS ON BOTH ENDS

Configurations with **arms on both ends** will have Tapered End Arms as standard.

Configuration above shows Tapered End Arms on outside of chairs, Straight Connecting Arms in center. Regardless of its complexity, when a configuration is ending in arms on both ends, the configuration will be specified with a Tapered End Arm as standard.

- A Tapered End Arm
- B Straight Connecting Arm

STRAIGHT CONNECTING ARM ON ONE END

Configurations with an **arm on one end** will have Straight Connecting Arm as standard.

Configuration above is ending in a table on one end, and an arm on the other end of the run. Regardless of its complexity, when a configuration is ending in one arm only, the configuration will be specified with a Straight Connecting Arm as standard. Customers may specify Tapered End Arm at the end of such run, but a special note must be given to Customer Service at the time of quote/order. Note that the arm beside the table will always be a Straight Connecting Arm.
