HermanMiller
Magis Stool_One

Designer
Konstantin Grcic for Magis

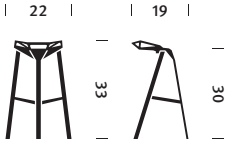

Original Production Date
2003

Design for the Environment
72% recycled content; 99% recyclable

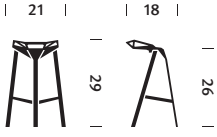

Warranty
2 years

Modeled from die-cast aluminum and constructed like a soccer ball, Konstantin Grcic's stackable and unexpectedly comfortable stool was designed to be more open space than solid. Available in two sizes and a choice of finishes, its striking, sculptural form garners attention in both casual and formal environments. Sold in sets of 2.
