Magis Tom and Jerry Stool

Designer

Konstantin Grcic for Magis

Original Production Date

2012

Warranty

2 Years

The Tom and Jerry Stool is a new take on a classic piece of furniture: the workshop stool. Its legs and swiveling seat are crafted from natural solid beech. A joint and screw of polypropylene, which allow the stool to adjust smoothly in height, contrast with the wood and give the stool a hint of blue, red, white, or black color. Available in two heights, the versatile stool is an easy addition to a variety of environments. At a kitchen counter at home, as a working stool in a studio, or as a seat for children in a schoolroom, the design is appealing and useful wherever it is placed.
