

The USG logo consists of the letters "USG" in a bold, sans-serif font, followed by a stylized graphic of two overlapping parallelograms, one red and one grey.

## PROJECT PROFILE

**CLASS A  
HIGH-RISE BUILDING  
CHICAGO, IL**

# USG DUROCK™ BRAND PWT™ PRO FLOORS THE COMPETITION HIGH-RISE RENOVATION

550 West Jackson is a Class A high-rise located in the heart of Chicago's downtown. It was under renovation with MTH industries leading the project. It required a flooring solution that could handle heavy foot traffic while meeting the attractive design aesthetic of the building.

MTH was on a mission to find an alternative to dense concrete which can be difficult to use. They teamed up with USG to find the right solution. They combined USG Levelrock® Brand 3500 Floor Underlayment with USG Durock™ Brand PWT™ Pro Self-Leveling Topping. USG's underlayment provided a level foundation, while Durock™ PWT™ Pro was mixed with larger decorative aggregates for a more desirable look and feel after grinding the surface.

Durock™ PWT™ Pro Self-Leveling Topping is a fast setting, versatile design solution. It can be colored integrally or topically, and receives many different types of coatings and sealers that allow for a customized look of the floor. For MTH, the solution was a complete success.

## FAST AND STRONG

**“It's much easier to use  
than traditional concrete,  
plus the time frame is very  
quick to install.”**

**“I've been in this industry  
for 14 years. Not only is  
PWT a better material to  
work with, it's what people  
want when it comes to  
polished floors.”**

**KYLE RADER**  
MTH Industries

## PRODUCT HIGHLIGHT

Specially formulated to suspend larger decorative aggregates, Durock™ Brand PWT™ Pro Self-Leveling Topping is a high-quality polishable wear topping flooring product for interior use in new and renovation construction in residential and commercial applications.

## FAST SETTING

COMPRESSIVE  
RANGE OF  
**5,000-7,000**  
PSI

## DESIGN FLEXIBILITY

CONSISTENT  
AGGREGATE DISPERSION

UNIQUE AESTHETIC  
OPTIONS

## PRODUCT INNOVATION

“Our product development team works hard to create systems that are easy to install. When we launch new products and systems, we always like to be involved with contractors to ensure our products are meeting the needs of their business.”
