

# USG Exterior Ceiling Systems

For decades USG exterior ceiling systems have been utilized in a wide variety of exterior applications because they not only satisfy stringent performance requirements and design criteria, but also provide beauty and durability.

## OVERVIEW

USG provides six exterior systems for use in exterior environments that are not directly exposed to the weather, such as under soffits, parking garages, covered entrances or drive-throughs:

- Paraline® II Linear Metal Ceiling System
- Paraline® Plus Linear Metal Ceiling System
- Celebration™ Snap-In Metal Panel Ceiling System
- Celebration™ Torsion Spring Metal Panel Ceiling System
- ZXLA™ with USG Sheetrock® Lay-In Ceiling Panel
- USG Drywall Suspension System

These ceiling systems combine traditional modules, elegant linear pans, or metal panels with a specially engineered suspension system to create dynamic ceilings featuring clean, contemporary planes.
