Living bathrooms

badmagazin

How to order the easy way_

Open this fold-out page and you will see that the lines on the colour scale correspond to the lines on the edges of the individual product ranges. This shows you which sanitaryware colours and metal finishes are available for which designer ranges. To order, simply replace the * in the article number with the code for the metal finish you require and the remaining positions with the desired sanitaryware colour.

The Duravit brand

from product to personality. Branding permeates our lives. Whether we're buying shoes, jeans, cereals or toothpaste, we choose the brand that fits, looks or tastes best – and the one that offers us an extra ingredient: personality. The Duravit brand personality has had plenty of time to develop. Today Duravit, with its almost 200 years of history, is one of the industry's leading companies. An innovative company that has changed the face of sanitary products and played a major role in transforming the bland, sterile bathroom of old into a delightful sanctuary for the senses. Initially with sanitary ceramics, later with bathroom furniture, accessories, bathtubs and wellness creations: complete living bathrooms – from Duravit. The welcome consequence of the values that the Duravit brand stands for – and always has stood for. For Duravit, tradition is more than just a word. It stands for a special kind of continuity that has seen a family business grow into a public company and expand internationally whilst remaining loyal to its original home in Hornberg. Unquenchable curiosity and an unconventional approach to new challenges are the driving forces behind new ideas at Duravit. No other manufacturer has a record that can compare when it comes to innovative, individual, irresistible design. Or setting new standards for quality in both materials and workmanship. And our service structure is as professional as it is friendly, smoothing the way for Duravit products to reach your bathroom – and not leaving you on your own afterwards, either. The combination of all these attributes is what makes up the Duravit brand's unique personality – a feel-good personality that allows you to feel at one with our products. Enjoy!

DURAVIT

Experience first-class bathroom design where it originates. The Duravit Design Centre in Hornberg in the Black Forest is waiting for you to discover it. Designed by architect and designer Philippe Starck, the creator of many Duravit bathroom classics. Discover 5 floors of design highlights from Duravit: perfected bathroom fittings from attractive washing areas to practical bathroom furniture and comfortable whirl tubs. More about ceramics and furniture production and the evolution of the bathroom from its history through to architecture and ultimately design. Experience complete (dream) bathrooms in an individual atmosphere. Whether bath, whirlpool or multifunctional shower, here you can experience "Living Bathrooms" in "real life", because we have six fully functional test bathrooms waiting for you to try out. You don't even have to worry about towels and a bath robe – it's all laid on. When can we expect you for a test bath? We look forward to your visit!

Fancy a new bathroom?
Why not just make an appointment
for a test bath. Hornberg +49 7833 70 114,

The Duravit designers. **1** The maxim of architect and designer **Frank Huster** are functional criteria, coupled with high demands on design aspects. **2** Duravit's cooperation with **Sieger Design** goes back as far as 1984 – and has defined bathroom culture with a number of design classics. **3** Architect and designer **Michael Graves** owes his reputation to his very individual use of form and colour to create a highly decorative style. Examples are his buildings for Walt Disney or the kettle for Alessi. **4 Philippe Starck** needs no introduction. Citrus squeezers, TVs and houses: Starck simply does it, and does it simply ingeniously – just like the Duravit bathroom range that bears his name. **5** As well as working as a product designer for Duravit, Cassina and Ferrari, the Italian avant-gardist **Massimo Iosa Ghini** is also an architect in his own right. **6** The Austrian design group **Eoos** claims to operate on the principles of a rock band. The obvious success of this approach is evident in products for Walter Knoll and Matteograssi, and for the Armani and Adidas flagship stores. **7 Phoenix Design** have won a number of awards, among others for their work for Duravit, Loewe and Lamy. Unmistakable in their designs: clear-cut, classic lines and a reduction to the essentials. **8 Lord Norman Foster** is one of the most renowned architects worldwide. The new German Reichstag building is just one of many examples worldwide confirming this fact. **9** New in the illustrious list of designers working for Duravit is **James Irvine**, whose customers include Toshiba, Canon, B&B Italia and Magis. For Duravit, he developed a new lighting concept. **10 Jochen Schmidtem's** job is inventing pleasure – he designed the multifunctional shower for Duravit. Demonstrating that this versatile designer is heading for the very top of his profession.

Design by Sieger Design

Sculptures for the bathroom

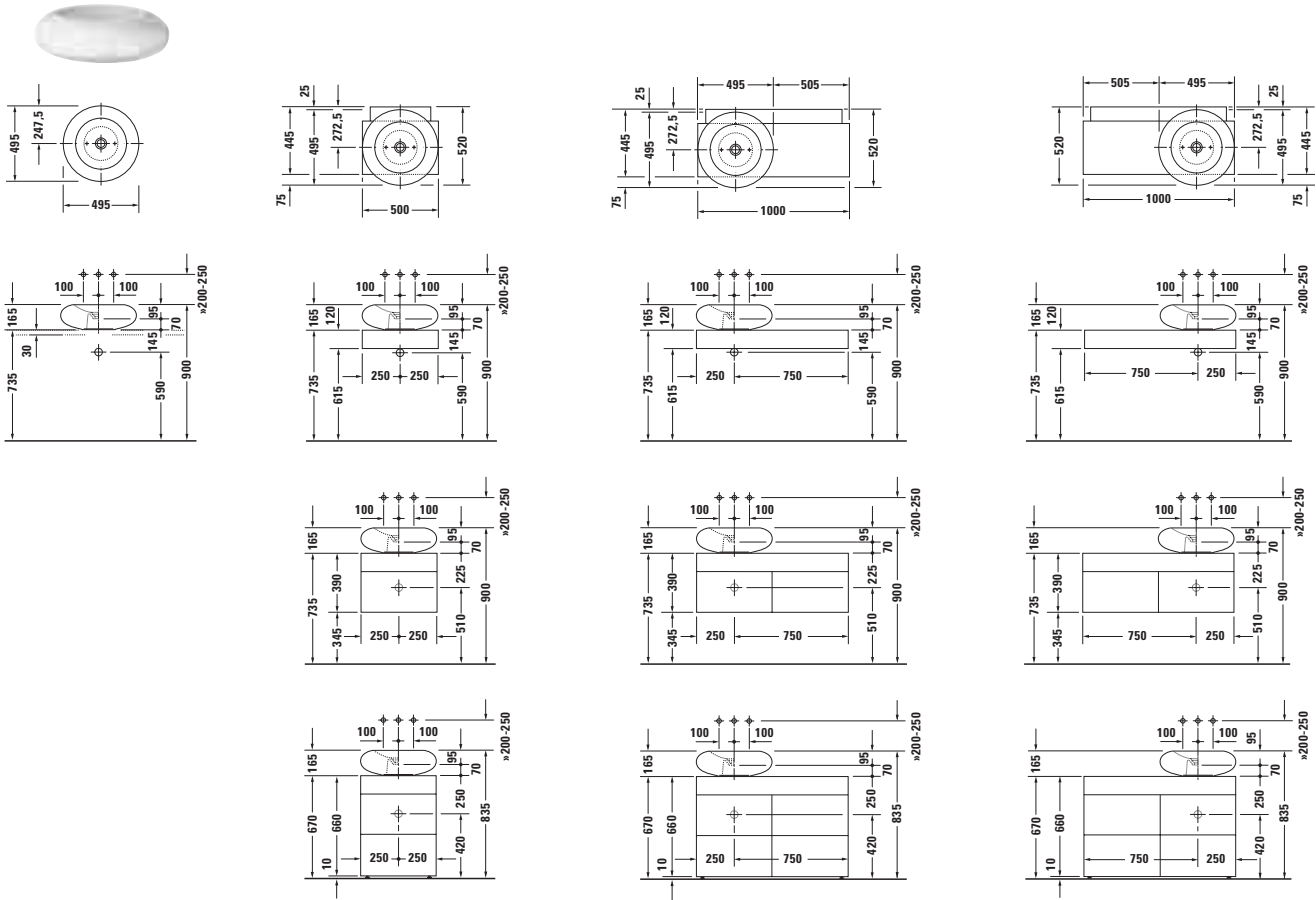

Ciottolo

Washbasin or sculpture? Ciottolo is both. Created by Sieger Design, the range sets new standards in the high art of extravagant bathroom styling. Circular or oval ceramic bowls reminiscent of pebbles rest on consoles or on wall-mounted or free-standing vanity units with elegant real wood veneer in ice birch or high-gloss palisander inside and out. The range is complemented by elegant towel holders and matching mirrors with new, attractive light panels at the sides.

Ciottolo represents a seamless transformation from pebble ("Ciotto" in Italian) to bowl. Seemingly weightless, the simple sculpture rests on the wall-mounted unit and elevates the washbasin to a work of art. The ensemble can be completed with elegant chrome towel rails. Unpretentious yet elegant - the droplet-shaped countertop bowl. The floor-standing unit is available in 2 widths, with either two or four drawers. The mirror unit, with pleasant side lighting, ensures that the wash unit is seen in the best possible light.

Design: Sieger Design

Fogo

Pure nature

The best supporting role in the bathroom. A beautiful washbasin is a good idea – but the logical next step in creating a perfect bathroom setting is a coordinating furniture console. Fogo from Duravit is just the ticket: the new, 8 cm thick furniture console made from real-wood veneer, pictured here in American walnut, is happy to play the supporting role for the washing bowls and countertop basins. The inside drawer and large pull-out compartment on the vanity unit or mobile container on casters provide plenty of space for all that additional bathroom paraphernalia.

Fogo's got what it takes. The tall cabinet is especially generous, measuring 176 x 50 x 42 cm. The inside of the 8cm thick door features glass shelves with practical rims, providing plenty of space for toiletries and bath accessories.

__The practical vanity units with plenty of storage space are available to complement the Vero washbasin range__

Minimalistic design. Interesting combinations result by combining the Vero washbasins with Fogo in Olive Ash. No matter which washbasin model you go for – 50, 60, 80 or an imposing 100 cm width – Fogo always provides a generous shelf surround. The chrome console brackets double up as towel rails. Mirrors including a lamp in aluminium finish glare-free illumination are available in slimline 60, 80, 100 and 120 cm widths.

Variety is the spice of life. Fogo is built within the concept of variety. This is reflected in the ingenious option that allows all consoles to be cut precisely and variably to measure between 80 and 200 cm. With such flexible dimensions, Fogo cuts a neat figure in small bathrooms and really brings larger bathrooms into their own. And thanks to the variety of available finishes, the furniture console harmonises equally well with just as wide a variety of lifestyles. For example, Fogo in Maple, shown here with the Bacino washbowl.

13 American Walnut

93 Olive Ash

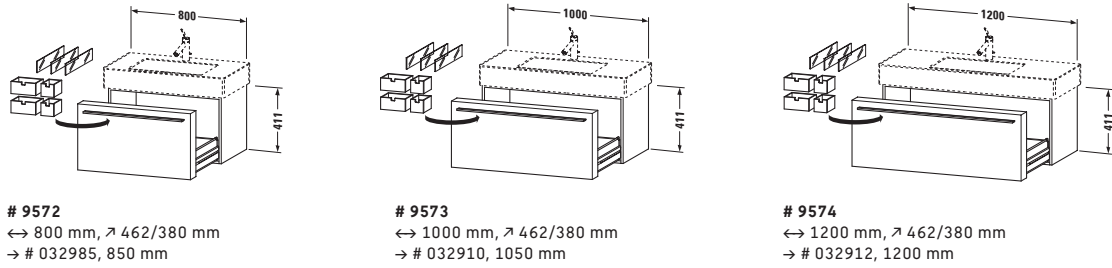

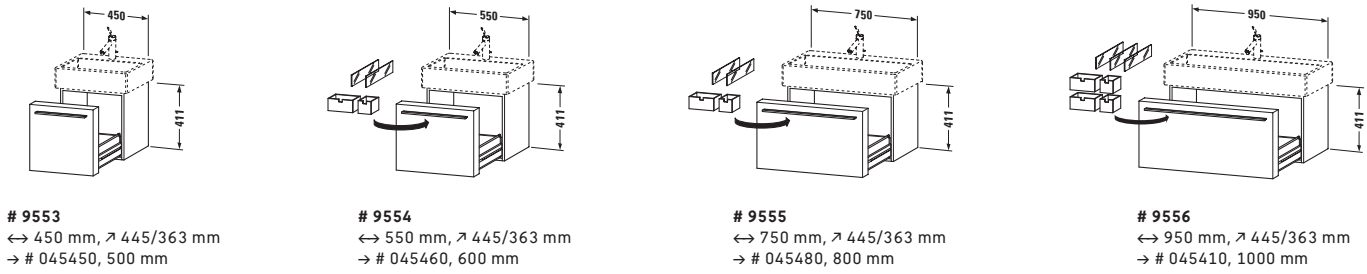

24 Macassar

26 American cherry

55 Maple

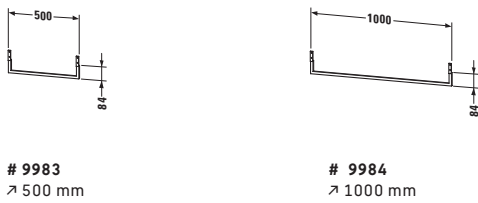

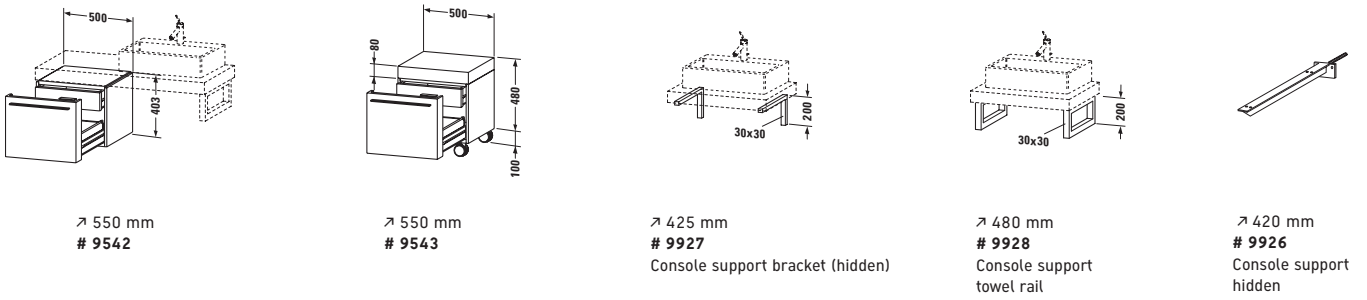

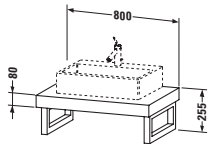

Front, Body, Consoles, Countertops. Laminated real wood veneer. Surfaces are moisture resistant. Wood is a natural material, differences in colour and structure are normal.

__Where space is at a premium. The handrinse basins and built-in undercounter basin that can be combined with any countertop you choose.__

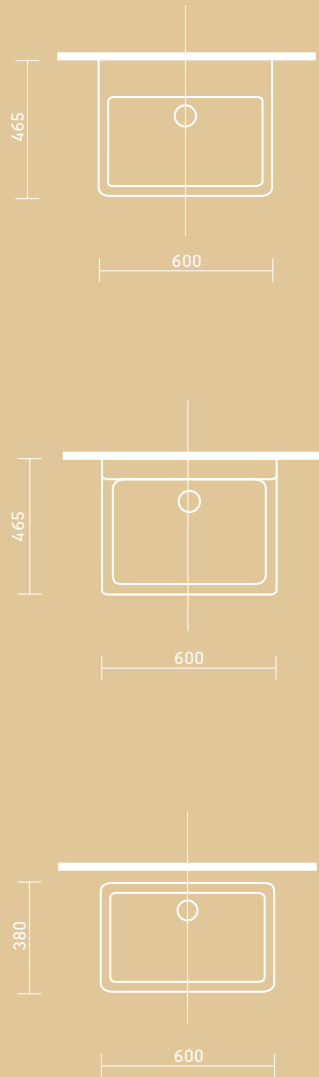

Vero

The classic rectangular washbasin

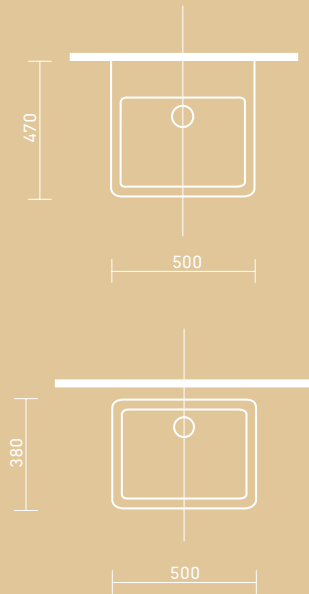

Design right down the line. The classic rectangular Vero washbasin has made a name for itself amongst lovers of design and architecture. That's why, in addition to the 60 cm-wide washbasin, we are now introducing three new models measuring 50, 80 and an imposing 100 cm, whose pre-punched tap holes offer the possibility to mount one or two tap fittings. Interesting combinations can be created with Fogo or with the matching chrome console on two feet, which is height-adjustable and features a decorative rail that doubles up as a practical towel rail. Vero – design in its purest form.

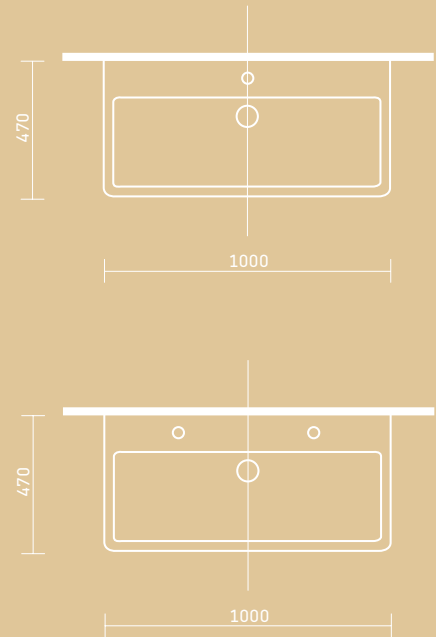

Vero 60 cm

Vero 50 cm

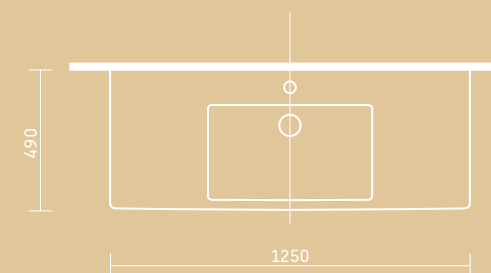

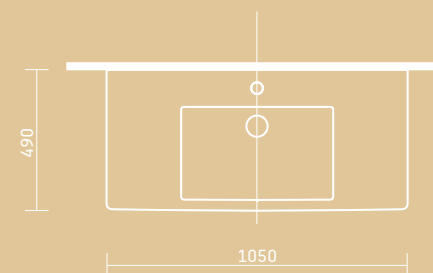

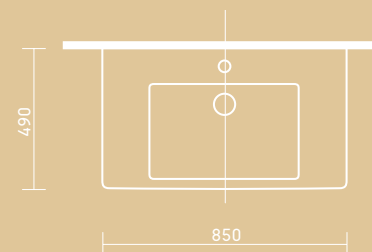

Vero 100 cm

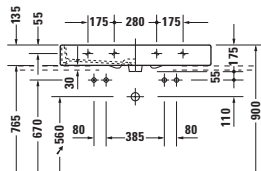

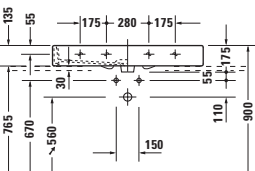

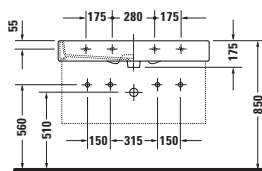

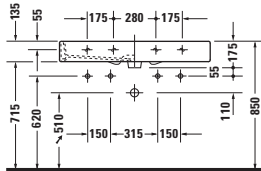

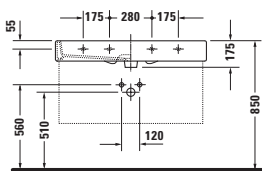

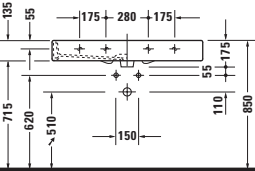

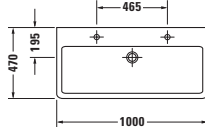

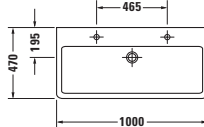

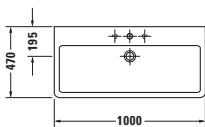

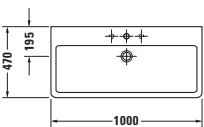

Vero is characterised by its clear lines. The washbasin range concentrates exclusively on the purity of the rectangle – and opens up totally new perspectives for washing area design. The chrome frame can be installed with all Vero washbasins in the widths 50, 60, 80 and 100 cm. New are the generous furniture washbasins in a choice of widths (85, 105 or 125 cm) – and with large surrounds.

Happy End with Happy D.

Happy D.

What a beautiful day: Happy D. is now complete – featuring ceramics, baths, furniture and accessories, this successful range is just waiting for you to discover it. Because Happy D. has got what it takes to make you happy. With a classic, archaic shape that has universal appeal. With a practical functionality that is just the ticket for the bathroom – for example the new individual and modular furniture items in real wood or melamine that offer convincing storage solutions. And all this with a cost effectiveness that's hard to beat. With enormous variety and attractive details, Happy D. simply makes everyone happy – what about you?

A happy end to an exciting day searching for shells - thanks to the generous-sized bowl on the metre-wide washbasin. The elegant stand-alone units in high-gloss White (décor), Maple (décor), Cherry (real wood) or Walnut (real wood) have lots of attractive detail features, both inside and outside. The furniture units come in various widths that perfectly match the form of the washbasins and bowls. The curved doors provide plenty of room for all kinds of bits and pieces.

___ Ample storage space! Happy D. consoles team up with the vanity units to ensure order with method ___

Purist. The clear-cut lines of this design are carried through to the wall-mounted and free-standing WCs and bidets. And just as their form is minimalist, so is their water consumption: an economical 3 or 6 litres. The space-saving hand basins, either 46 cm (bottom left) or 50 cm, projecting 34 cm or 25 cm, will fit in almost every guest toilet. The washbasin is available as a floor-standing or semi-pedestal model or with a matching chrome stand (top right).

Feeling free. The variable console version adds flexibility to your bathroom planning. With or without cabinet below, left or right – with bowl or washbasin as required. Happy D. across the full breadth of your wall – a tall cabinet, mobile storage unit, illuminated shelf and wall cabinets in a wide range of finishes make your bathroom complete. The tray drawers, the glass dividers with containers in the larger drawers and the removable, glass-lined tray of the mobile storage unit are especially easy to clean.

__The range also includes matching bathtubs in the characteristic Happy D. shape. Whether you choose a free-standing or a corner version, a back-to-wall solution with apron or a classic built-in bath - Happy D. brings your bathroom to life. More bathroom fun on page 232.__

__For a quick freshen up – the 40 x 40cm Happy D. washbowl with matching mini base unit. The storage space miracle no. 6284 is also available in the wood shades Macassar and Zebrano__

Design by Sieger Design

4 x 9

Your Bathroom just around the Corner

4x9. The young bathroom furniture from Duravit. Modern, flexible, instantly appealing. The design idea behind 4x9. The square serves as the basic form for all the elements, from the practical mobile storage to the spacious cubic cabinet. Original – Vertical or horizontal, 4x9 adapts admirably to all room layouts – just combine your favourites according to your personal tastes and the available space. It goes without saying that a family range such as 4x9 comes with easy-care surfaces. 4x9. A part of the bathroom, a part of your life.

Transparent elegance is created by the double-fronted safety glass doors and the glass shelves.
Even small bathrooms are welcoming thanks to the cabinets and sideboards with a depth of 17.5 or 36 cm.
A firm footing is provided for the tall cabinets and vanity units with a depth of 36 cm by the aluminium chrome feet.

What goes with what? Whether washing bowl, furniture washbasin or standard washbasin – 4x9 has furniture elements to match.

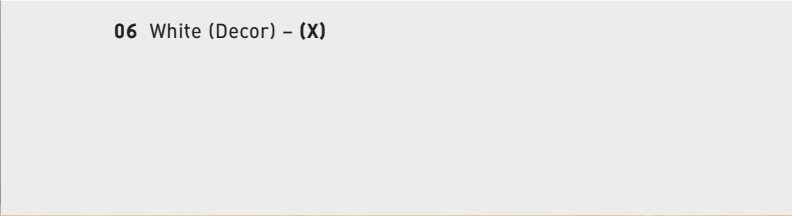

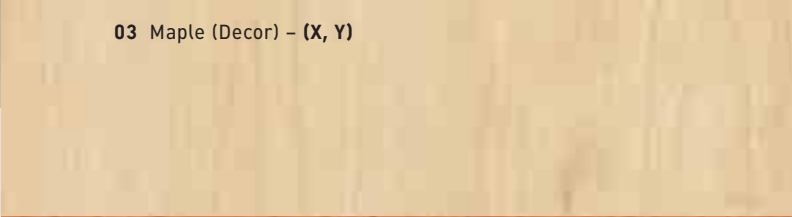

20 Opaque White

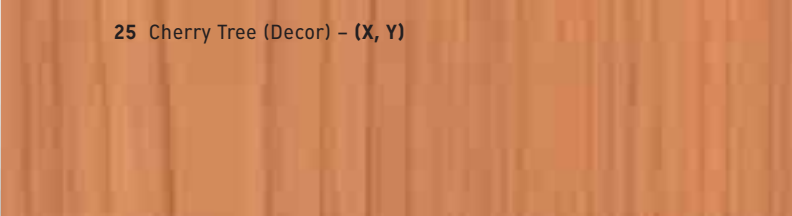

32 Pure White

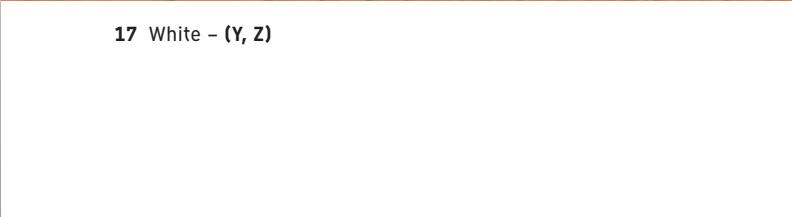

06 White (Decor) – (X)

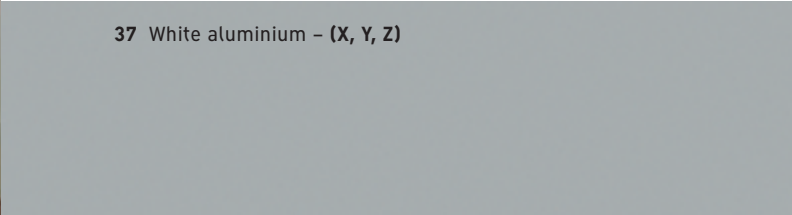

03 Maple (Decor) – (X, Y)

25 Cherry Tree (Decor) – (X, Y)

17 White – (Y, Z)

37 White aluminium – (X, Y, Z)

Door panel, countertops (mobile storage unit, vanity unit)
Double laminated safety glass with decor inlay.

Body (X)
Rear panel for mirror element
Panel for drawers
Melamine resin decor with recyclable ABS edges.

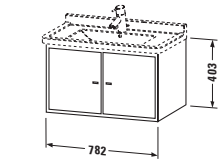

Panel for drawers (Y)
Melamine resin decor with recyclable ABS edges.

Box drawers (Z)
Coloured polypropylene, recyclable.

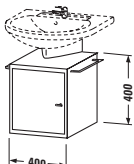

Nordic freshness_ 4x9 bathroom furniture in cool white brings a fresh breeze to the bathroom.
The washbasin vanity unit is endlessly adaptable_ All standard makes of washbasins can be fitted to the stylish chrome trim.

Design by Philippe Starck

Starck X

It's not Starck. It's Starck X

In mathematics the letter X stands for an unknown quantity. In Chinese Tao for elevation to the divine. In bathroom design, it stands for the beginning of a new era. With his Starck X range, designer Philippe Starck is maximising minimalism. A minimalism whose realisation required highly skilled craftsmanship. It was worth it. Ceramics, furniture, tubs, accessories: as a bathroom range, Starck X is in a class of its own, second to none. Is it luxury? Is it extravagance? Is it excess? No, Starck X.

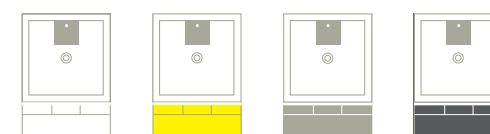

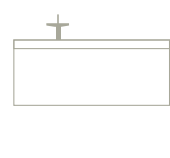

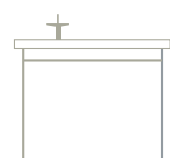

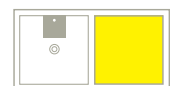

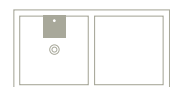

With Starck X, Philippe Starck has returned to our roots. To archaic cleansing rituals and life's most essential element – water, precious and indispensable. Thus, in their minimalism, his bathroom objects remind us of past, primordial times, albeit in a more sophisticated form. The imposing, cylindrical washbasins with a diameter of 400 or 495 mm rest on a rectangular, also ceramic base. Their sculptural character elevates them to works of art, unrivalled and matchless. A grandiose platform for the element water as well as for its user.

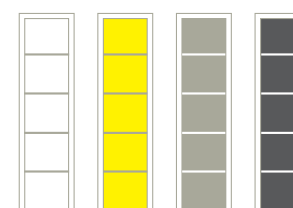

In the midst of our hectic life and loud world, Starck X creates an oasis that invites you to escape from the rat race and relax, and – literally – wash your cares away. Even the rectangular washbasin model measuring 705 x 520 mm develops an almost sculptural gracefulness with its clear-cut, cubist design. Exceptional in design, partitioning and colouring, the shallow, 110 cm-wide washbasin resting on a metal console features an additional shallow shelf recess in white, yellow or platinum.

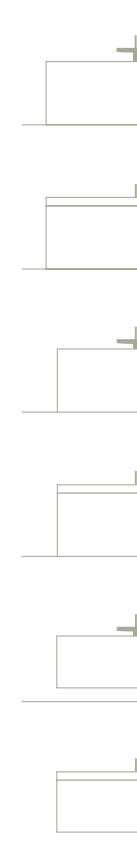

The concept of the Starck X bathroom furniture is intended to be just as unique. The pieces are not only brilliant thanks to their white high-gloss finish, but also because of the variety of aesthetic and constructive features and details. Philippe Starck has designed the carcass of the tall cabinet, for example, so that it appears to hover suspended from the wall. The interior of the cabinet reveals the optional colours white, yellow, platinum or black, which can also be found on the interior of the handle-free drawers of the vanity units. This leaves just the innovative mirror elements with all-round illuminated strips and contact-free sensor technology.

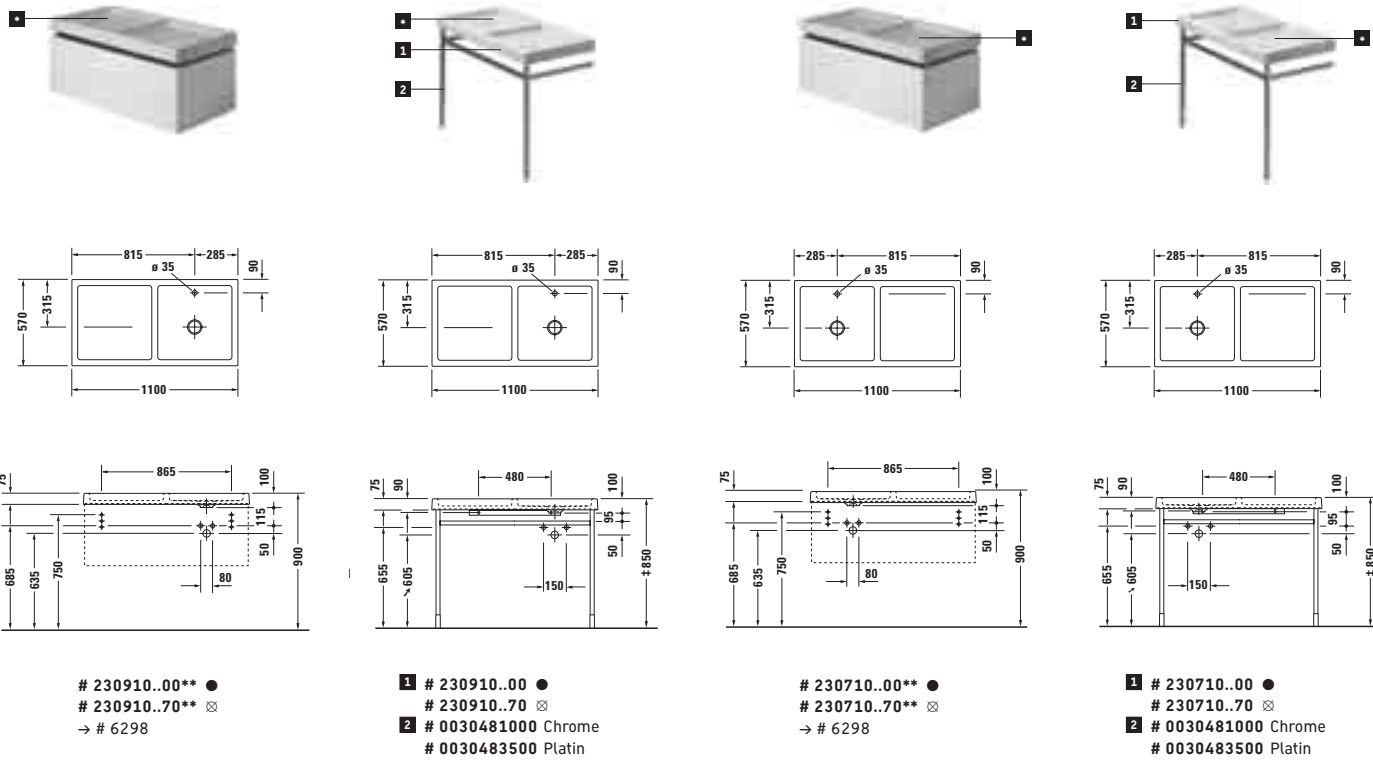

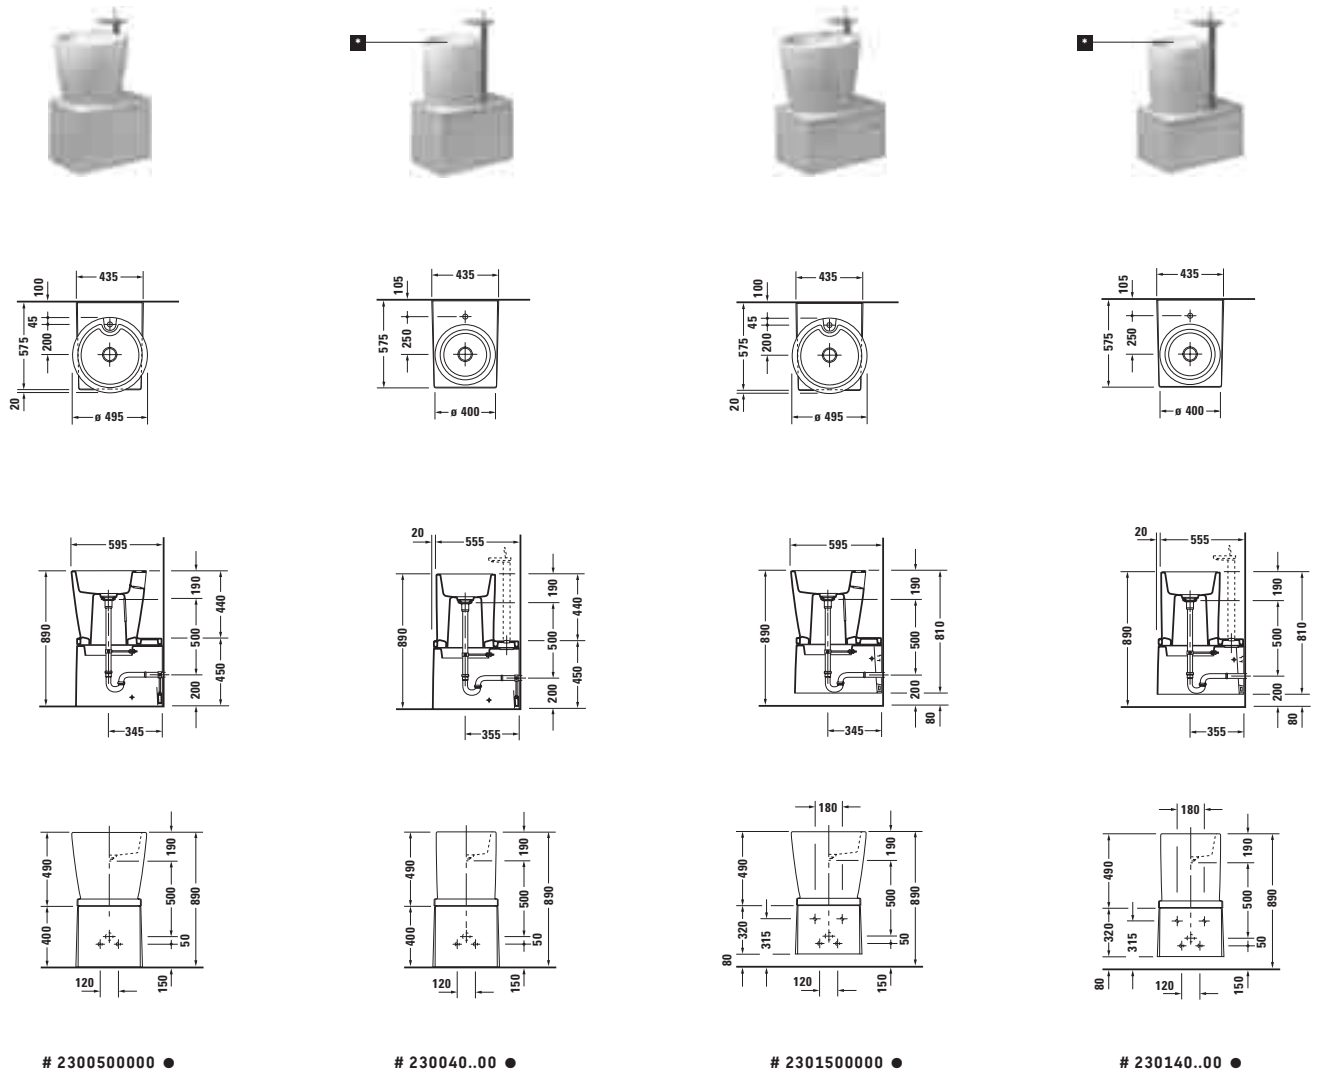

Consistency in the design of the ceramics:
the Starck X bidet and toilet, cubist and 40 cm high.
One innovative and functional detail is the recess on
the bidet cover which reveals the inset flat tap fitting.

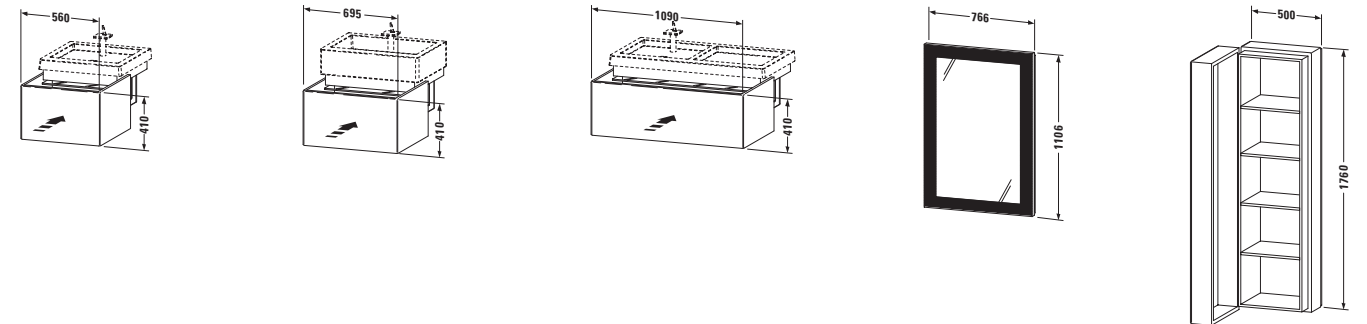

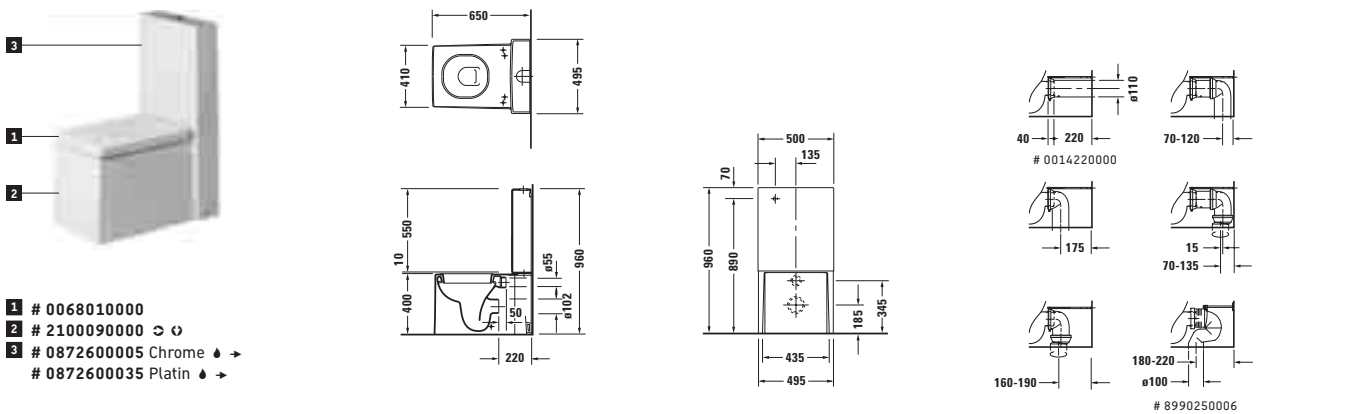

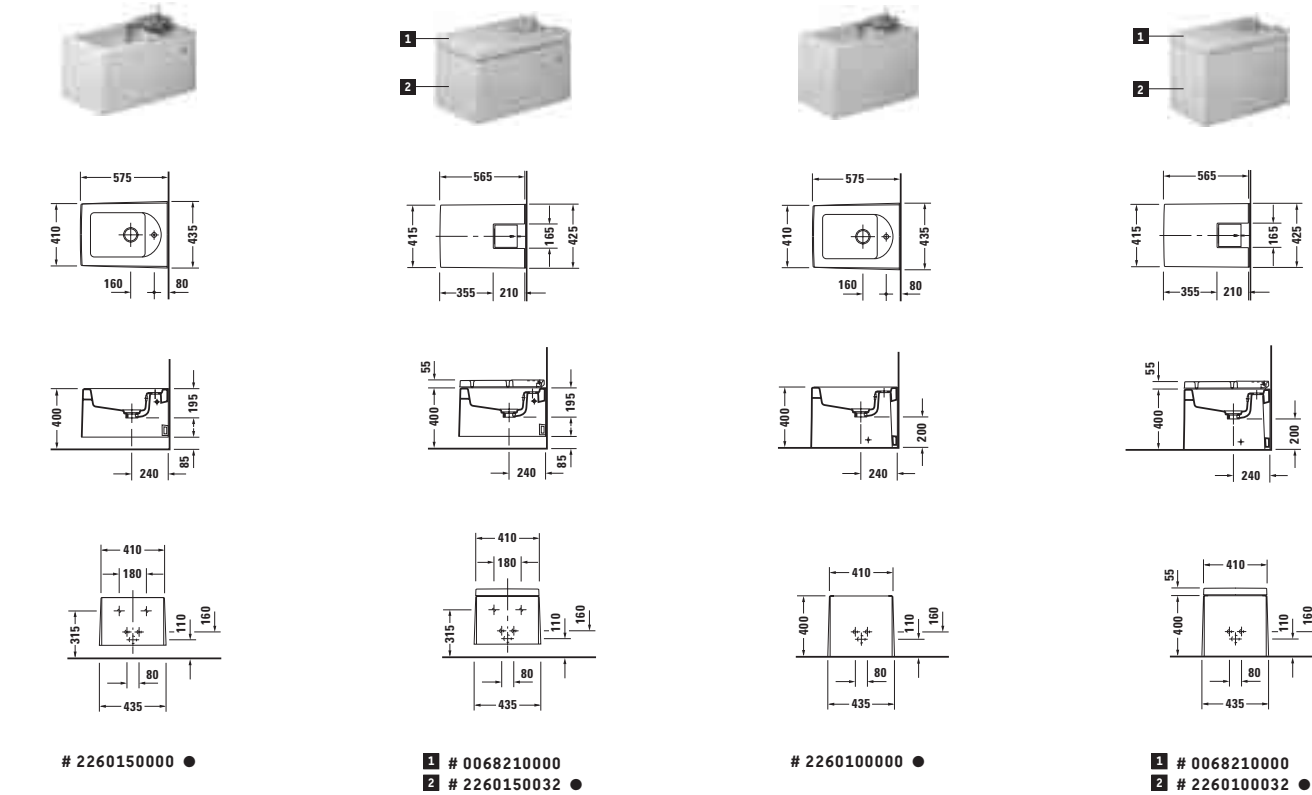

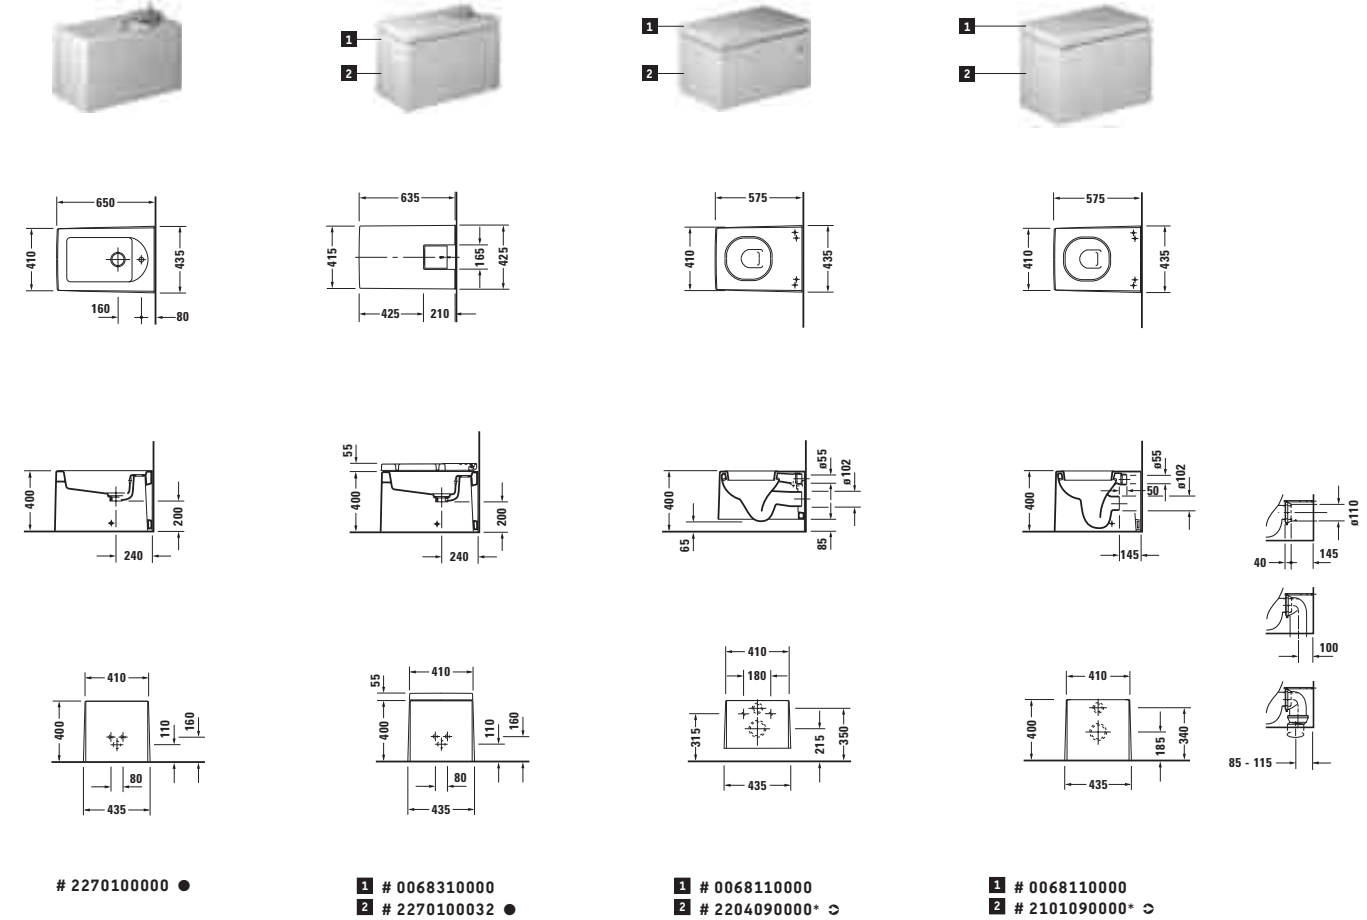

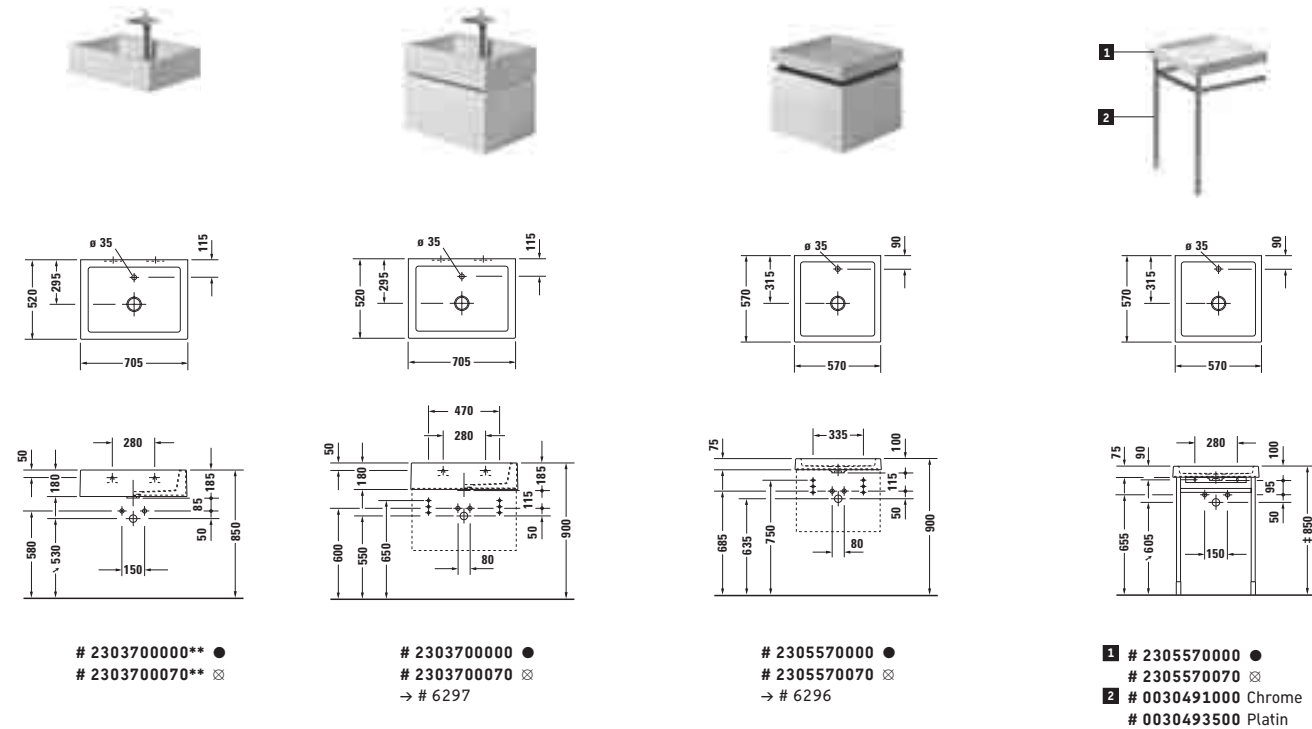

Cubist, understated and minimalist, the generous Starck X acrylic bathtub invites you to wallow in luxurious indulgence. Because it doesn't matter if it overflows, the water can come right up to the rim, allowing the bather to wallow in a feeling of wellbeing: a totally new concept, from the individual design of the all-round water channel through to optional remote-control lighting. Now new: the free-standing 180 x 90 cm bath with integrated overflow. The design focuses on the individual, who from the contact with water draws new energy to cope with the stress of everyday life – perhaps the greatest luxury of all.

Design: Philippe Starck

Design by Philippe Starck

The Poetry of Reduction

Starck 1

The bowl from which we scoop water is transformed into a washbasin. Different sizes to choose from, but all come to full circle when reflected in a mirror. Their ingenious finishing touch_ towel rails that can be integrated into siphon cover or pedestal. Conveniently positioned where you need a towel most.

"We are getting tired of the materialistic way of life, we can't stand it any longer, it's stifling us. Everywhere, we are surrounded by superfluous objects. We must get back to the basics." Philippe Starck perceives the soul of everyday objects that surround us. Tells us their stories, breathes life into them. Whether chair or juicer, TV set or prefabricated house, Starck's credo can be applied to all his creations. He thus creates ambiances which put our souls to rest. And he retraces our fundamental needs. Freshness, cleanliness, hygiene.

The metamorphosis of a bucket_ both come in wall-mounted and floorstanding versions – openly admit their origins. Naturally, all toilets feature both Stop-and-Go function and 6-litre flush – tight when it comes to water consumption, generous in hygienic comfort.

The barrel-shaped vanity unit, made from warm wood veneer, offers plenty of storage for towels and bath utensils. Washbasins, toilets and bidets all follow the same **clear-cut design** lines. Both toilet and bidet come in wall-hung or floorstanding versions. Naturally, all toilets feature both Stop-and-Go function and 6-litre flush – tight when it comes to water consumption, but generous in comfort.

We need to stop and think about the basic facts of life – a statement of somebody whose design provides answers instead of easy affirmations. For his bathroom series, Starck delves deeper. He's interested in matter per se, not in the matter of fact. Essence is the consequence. Getting back to basics. A cliché, certainly. But also_ A philosophy, a principle of life and design. The bathroom by Starck 1.

Design by Philippe Starck

Starck 2

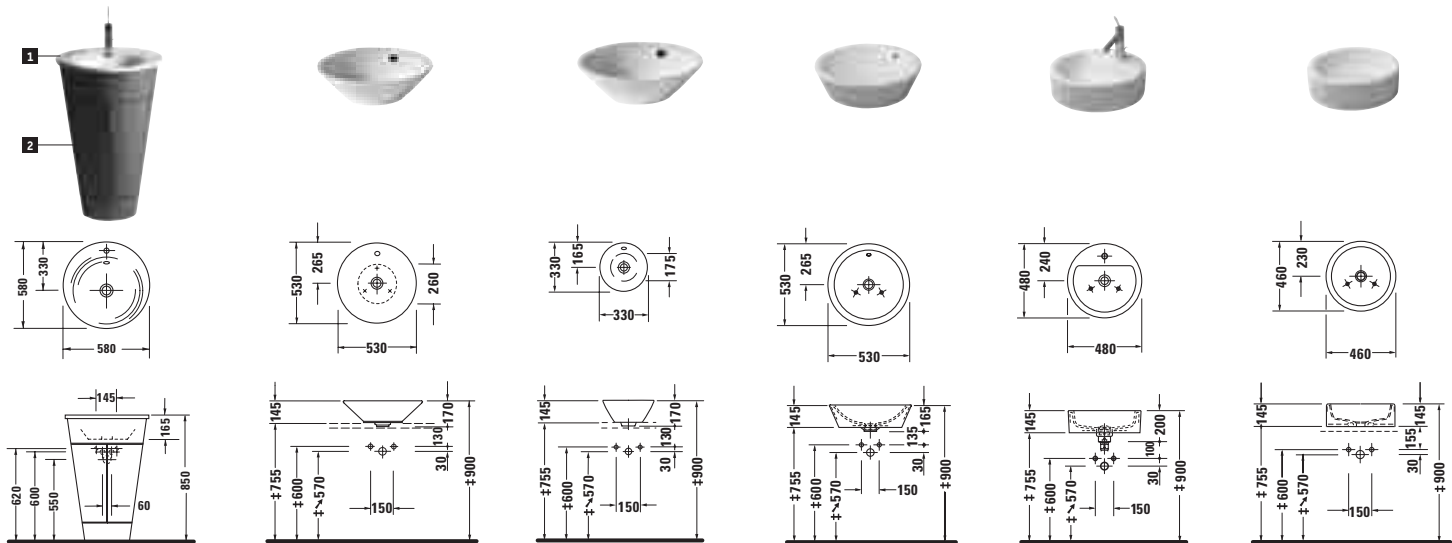

The Bathroom at Source

Philippe Starck has made history. Over the years, his many creations have turned into classics and his name has reached cult status. What more can a man offer, who has given the world lemon juicers that are alien look-alikes, toothbrushes from outer space, TV sets carved from cork and Mega-glow-worms? – A whole lot. Starck 2 – The bathroom at source. And once again, the world has become richer. In terms of design. But also in terms of life-style. History in the making.

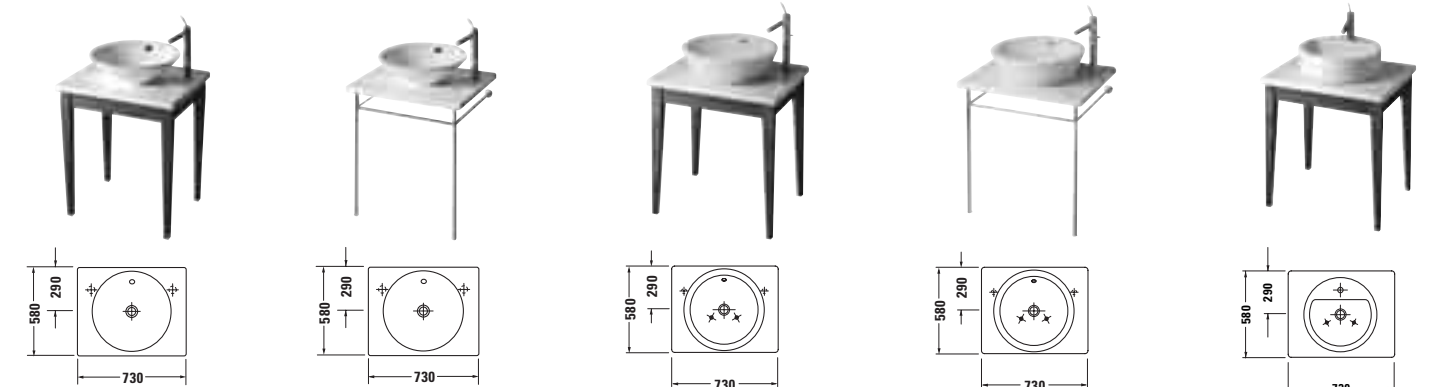

Philippe Starck has created a design object that is more than merely a bathtub. More like a vessel, a reservoir that collects, confines and calms the flowing liquid. With all-round exterior panelling and a sanitary acrylic surface, the free-standing oval bath is distinctive, clear-cut and without frills. The purist impression is not disturbed by the superfluous – reminiscent of the traditional washtub of days gone by. The whirl-version produces its own tides, giving the tub an invigorating appeal.

Design by Philippe Starck

Starck 3

Making a splash

How many elements does a designer really need? Line, circle and square are the basics of every object designed to last longer than just one season. Philippe Starck knows this – in his new bathroom range he is doing away with the unnecessary. The Starck 3 washbasin derives its distinctive character from its basic rectangular shape, an all-round rim and a low back panel. In contrast to semicircular washbasins of comparable size, the rectangular shape offers a wider variety of space-saving sizes. So smart, so brilliant, so very Starck.

The toilet – a fundamental part of every bathroom and yet often neglected by most designers. Not so by Philippe Starck for Duravit. Treated with the same care as everything else, the Starck 3 toilet with concealed trap becomes the unmistakable highlight of the range. Well-designed appearance shouldn't compromise on performance: all toilets are equipped with Dual-Flush and both toilet and bidet are available as a floorstanding and wallmounted version. A urinal with matching ceramic partition completes the wide range. In fact, Starck 3 suits all requirements. Not only for public areas, but also for your home.

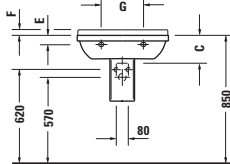

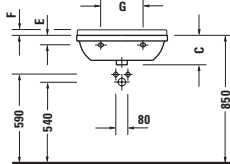

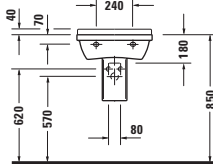

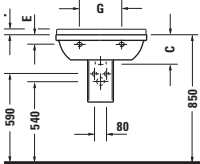

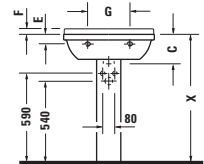

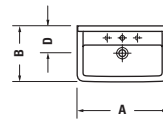

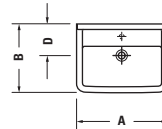

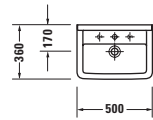

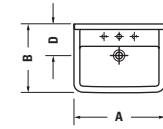

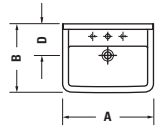

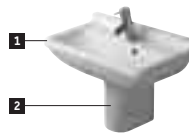

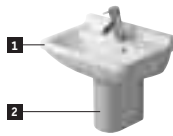

Ideal for the public sector, clockwise_ the Starck 3 urinal, optional with exposed water inlet from above or concealed water supply, the ceramic partition, the floor-mounted toilet with the seat height raised by 100-mm and the standard-height version.

Design by Philippe Starck

Starck 1.2.3

Design, material, color

Less is more_ for his new range of furniture Philippe Starck reduces to the max. But not at the expense of comfort and quality. Starck follows the classic lines while using new colors for the bathroom and an innovative choice of materials. The Starck 1.2.3 furniture range is not only the perfect partner for all the Starck ceramics ranges, it also handsomely complements other existing bathroom fittings. Starck 1.2.3 – a successful trio of design, material and color.

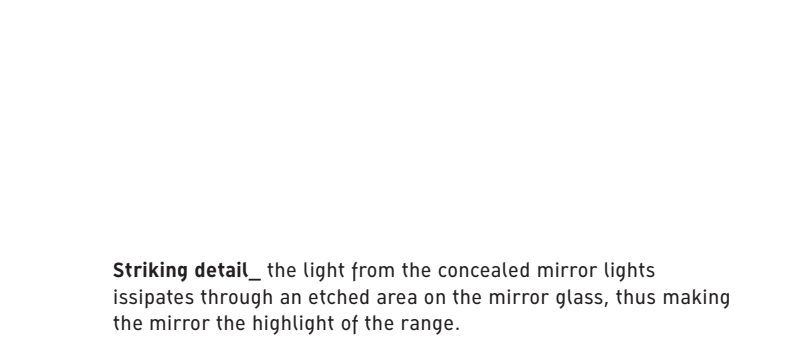

Hidden. The interior drawers of the tall cabinet keep everything neat and tidy – out of sight behind the consistent design of the door front.

Dual use. Two doors and a practical drawer find space in the practical vanity unit for the 1300 mm-wide Starck 3 double washbasin.
Modern material mix. The carcass in timeless white (décor), the front in sophisticated shimmering aluminium – combined with the Starck ceramics ranges, the ideal prerequisites for creating harmonious washing areas.
New feeling of space: the Universal vanity unit in refreshing white offers plenty of storage space in the cloakroom.
Storage on wheels. The practical mobile storage unit guarantees flexibility and an optimum use of space in small bathrooms.

Innovative furniture design_ the concealed lights on the generous-sized mirror cabinet create diffused lighting effects. The combination of light maple and metallic copper harmonises perfectly. **Versatility for small bathrooms**_ building up on a 40 cm square, Starck 1.2.3 cabinet modules can be used to produce creative designs even where space is at a premium.

Striking detail_ the light from the concealed mirror lights
issipates through an etched area on the mirror glass, thus making
the mirror the highlight of the range.

Design by Prof. Frank Huster

Architec

High design quality and functionality

Toilet hygiene is not a matter of chance. It is the result of visual appeal and functionality. Developed by Prof. Frank Huster, the Architec ceramics range epitomises this idea: with simple, understated styling. The agreeable result is an extensive, logically coordinated choice of dimensions and possibilities that offers planners and architects maximum flexibility. Originally developed for public and semi-public areas, Architec has become more and more attractive for private bathrooms as well. Due to the clear use of forms, Architec underlines a very special style of home decor.

- Horizontal outlet
- Economical 6 liters flushing

Scola

The Scola washbasin can either be used conventionally or for corner installation. Another option: Scola with a matching chrome base – two-legged, height-adjustable and with an all-round rail that doubles up as a practical towel rail. Only one question needs to be resolved: Bowl on the right or left side?

Bacino

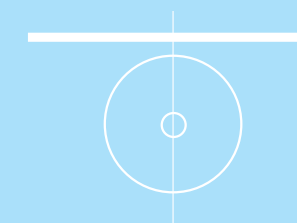

Bagnella

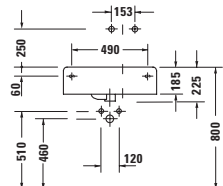

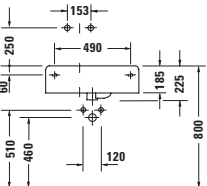

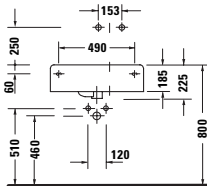

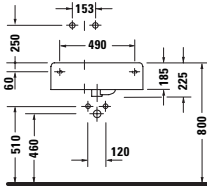

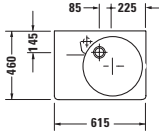

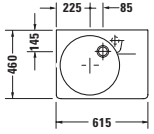

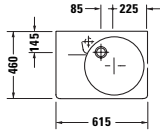

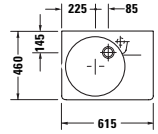

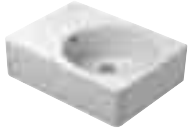

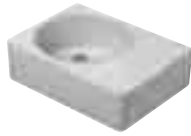

From the tradition of the washing bowl and the constructive element of the pedestal, Dieter Sieger of Sieger Design created the Bagnella washbasin, whose classically inspired origins lend a new dimension to innovative bathroom design. Goodbye boring, run-of-the-mill solutions, hello exclusivity.

Bacino leaves plenty of freedom of scope for designing individual and unusual washing areas. The simple, no-fuss forms leave nothing to be desired when it comes to comfort, making them ideal as individual solutions in small recesses, cloakrooms or cramped hotel bathrooms. Two together create a generous washing area. Whether square or round – the choice is yours.

Duraplus. With Duraplus, Duravit offers a wide range of washbasins, handrinse basins, toilets, bidets and urinals for all renovation, modernisation and conversion projects. The attractive, space-saving and easy-care sanitaryware items allow plenty of scope for generous bathroom design, especially where space is at a premium. Naturally, all in trusted Duravit quality and at excellent value for money.

Design by Sieger Design

X-tra wide _ X-tremely different

X-Large

Joe Average? Common or garden? Business as usual? No thanks. Here is X-Large, the bathroom furniture range with a difference. Sort of retro, certainly nuevo. Stylish natural colours in a cool look. Milk glass, backlit. Why X-Large? At up to 80 cm, the dimensions are almost twice as wide as those of conventional modular systems. Nevertheless X-Large displays surprisingly elegant proportions and a lightness of appearance. And the vast programme range incorporating countless details enables individual bathroom design – even when the available budget is not X-tra large.

Light and airy. With Bacino, the vanity unit, mirror and tall glass cabinet in white high-gloss (décor), it is possible to create a generous washing area even where space is tight. **Perfect platform_** With the new furniture consoles combined with washing bowls or countertop bowls, it is possible to create a wide variety of washing area solutions. Vanity units that can be fitted either on the left, right or both sides come in 40 and 60 cm widths.

Good match_ there is a wide selection of vanity units to coordinate with the Duravit furniture washbasins and countertop bowls (e.g. Vero, picture top). **Successful combination_** The scaled-down vanity unit with washbasin from the Starck 3 range – lots of storage space even for small bathrooms (picture bottom left).

Aesthetic. The vanity unit with Vero countertop bowl in Wengé (decor).
Elegant. The colour/material mix in Wengé (decor) and aluminium.

__Brilliant. The mirrored doors on the tall cabinet make the room look bigger.__

22 White Highgloss (Decor)

Fronts, carcass, consoles, rear panel mirror element 28, 30, 34
High-density 3-ply chipboard. Coated with melamine resin decor on both sides. Coated with melamine resin decor on both sides, with ABS trim. Humidity-resistant.

28 Wengé (Decor)

22
High-density 3-ply chipboard. With HPL pressed on both sides. ABS trim. Humidity-resistant.

83, 84
High-density 3-ply chipboard. Coated with real wood veneer on both sides. With real wood veneer trim. Humidity-resistant. Real wood veneer is a natural material, deviations in colour and structure are possible.

30 Helsinki Birch (Decor)

Tall cabinet door
Frame: matt aluminium
Panel: satin SPSP, thermally toughened single-pane safety glass or mirrored panel with aluminium safety foil on the rear. Other glass doors: float glass.

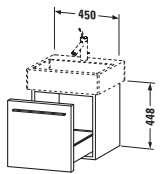

34 Light Maple (Decor)

Darling

Design for you and you and you

— The tub Daro comes in 170 x 75 cm
as well as in 180 x 80 cm, fitting every room size. —

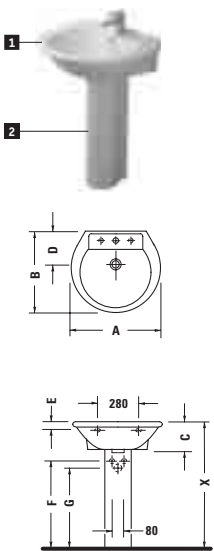

Design for you and you and you. Darling is different. Far removed from the one-size-fits-all credo, this range offers a very personal touch. Perfectly coordinated_ either solo or in combination with the fresh Darling furniture. Darling really offers the ultimate in versatility_ stretching to a maximum of 202 cm, which makes it the longest ceramic furniture washbasin in the world. And, before we forget_ Darling also comes at a heart-warming price.

As you like it_ The Darling washbasin is available in widths of 55, 60, 65 and 70 cm. On its own or in combination – with a siphon cover as shown above, with pedestal or with vanity unit.

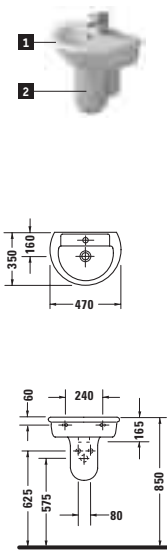

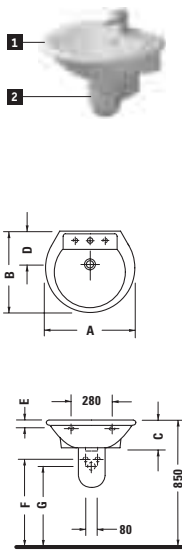

Unforgettable forms_ The Darling washbasin's sleek design is simply enchanting – a circle within a circle. Sieger Design has combined a striking circular form with modern technical features_ wall-mounted washdown or floorstanding toilet plus matching floorstanding or wall-mounted bidets. The fresh-up treatment for the guest bathroom_ the 47 cm Darling handrinse basin.

Racy Runabouts.

Always ready for a quick turn and at hand wherever you need them – the practical mobile storage units in the Duravit furniture ranges. Stylishly they guarantee mobility and optimal use of space in small bathrooms. The vehicle classes: from mini to maxi, with towel rail or removable tray, a large flap and integrated mirror, with pull-out compartments or laundry basket – whichever you choose, the storage space you gain is enormous. Fun on wheels guaranteed – with the mobile storage units made by Duravit.

— Fogo range #9543 with interior drawer —

— X-Large range #2701 with mirror flap and drawer system —

Racy runabouts on top from left to right_ 4x9 range #9339 with laundry basket_ X-Large range #2701 with mirror flap and drawer system_ 4x9 range #9340_ Starck 1.2.3 range #9337 with easy-care plastic front_ Happy D. range #9396 with tray

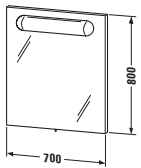

Change – developed from the idea to create individual light effects with the help of adjustable lighting on the mirror. At the turn of a knob, the atmosphere in the bathroom can be changed freely from a bluish to sunny hue. Thanks to Change, your makeup will look neither too heavy nor too pallid – whether for the office or in your time off, you will have the perfect start to the day and look the part whatever the occasion. Change – the innovative lighting concept from Duravit.

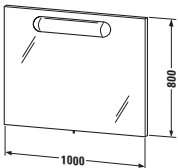

The innovative lighting concept Change

New additions are the mirror cabinets in 3 widths and with a practical interior_ glass shelves with rail, pull-out compartments and a magnetic strip for odds and ends. At the twist of a knob the atmosphere in the bathroom changes variably from a bluish to a sunny light.

Serie 1930

The Renaissance of Classic Modernism

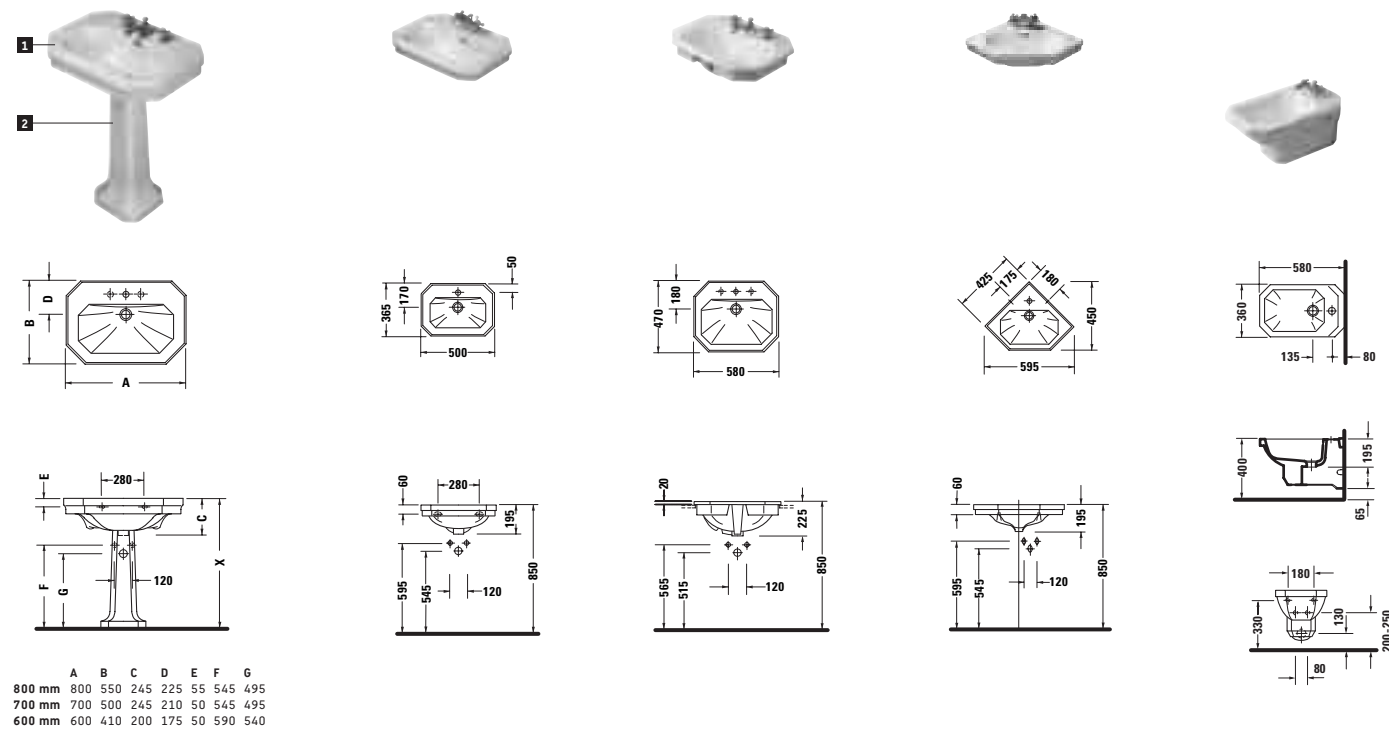

On 10 December 1930, Adolf Loos celebrated his sixtieth birthday. It was on this day that the great architect and father of modernism coined a remarkable phrase. "The culture of a people is revealed by the nature of its washing amenities and toilets." An incontrovertible affirmation of the importance of uncompromising interior design in the bathroom. Perhaps it was in championing this cause that Duravit was inspired to create a washbasin whose famous octagonal shape remains as modern today as it was 70 years ago.

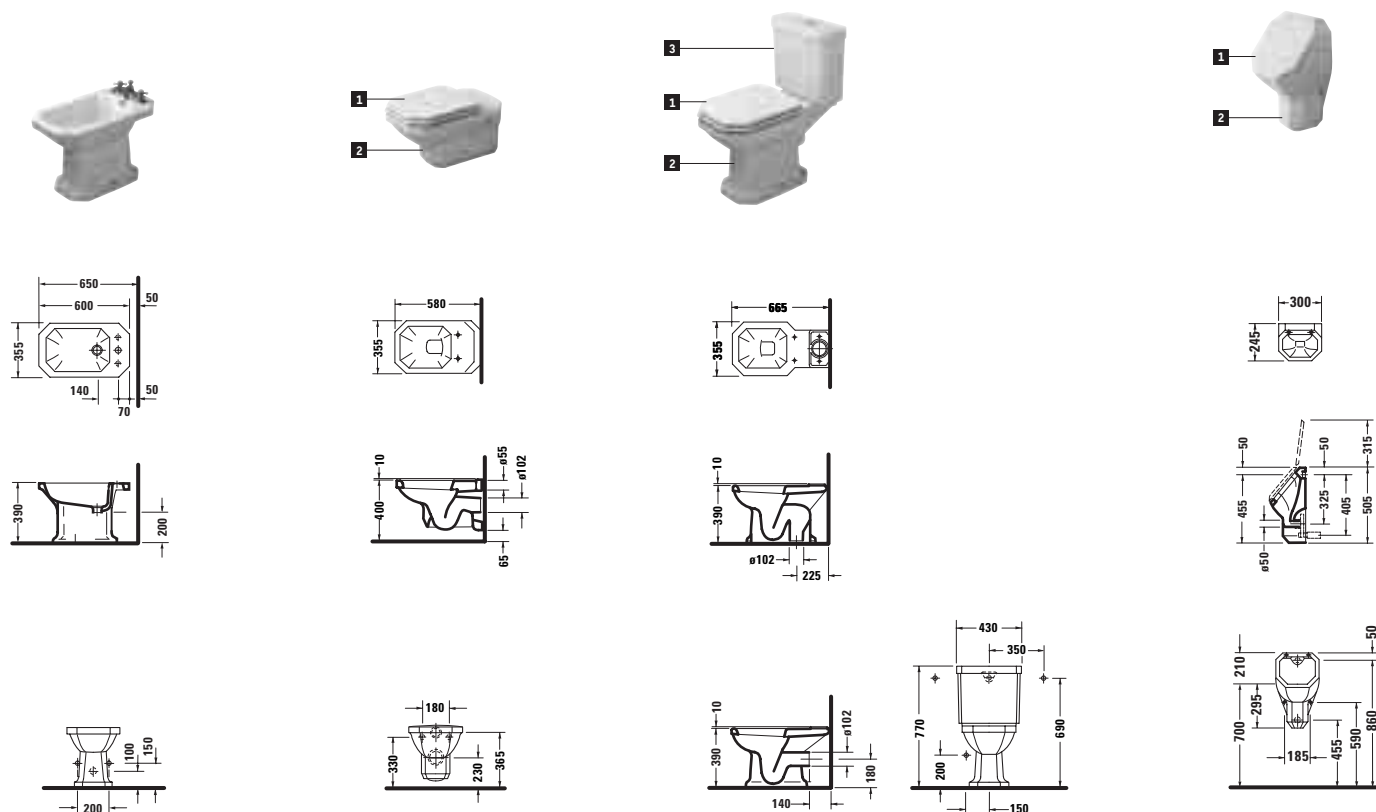

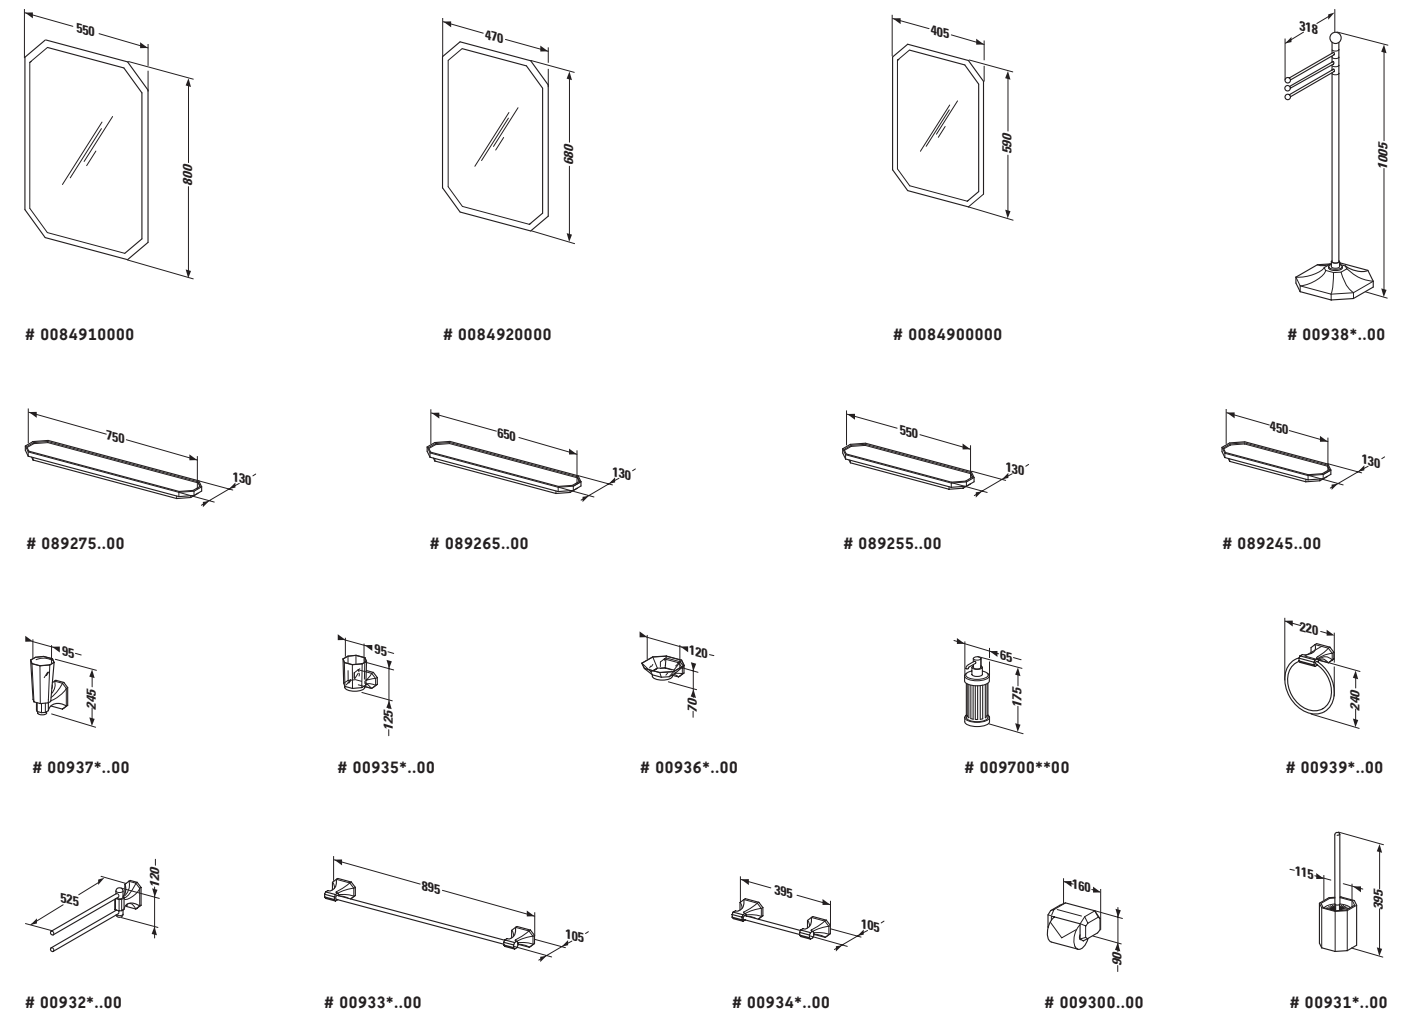

Co-ordinated down to the smallest detail_ Series 1930 sports the clear lines from the early days of design. From the washbasin with pedestal through to the floor-standing bidet and WC, all the beautiful items in this programme embody the flair and charm of the 1930s.

Cornering the retro market_ The design concept of Serie 1930 runs like a leitmotif through the entire programme, from the washbasin for one- and three-hole tap fittings through the corner handrinse basin to the WC and bidet, in wall-mounted and floor-standing versions. Plus matching accessories, towel rail and bath towel rail

Design by Norman Foster

Bathroom_Foster

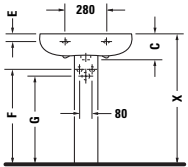

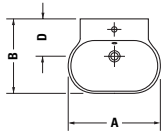

Is it design or is it architecture? In any case, it is genuine Foster. Sensational, like all his work: Stansted Airport in London and Chek Lap Kok Airport in Hong Kong, the Hongkong and Shanghai Bank and the new German Reichstag. Once again, the architect and designer Norman Foster has excelled himself and created a bathroom that pushes the boundaries, which defines the bathroom anew. Bathroom_Foster. Made by Duravit.

From the washbasin to the bidet_ Foster provides an exemplar of functional design – design that transcends its basic purpose. The basin rim_ finely modelled. The bowl_ generously proportioned.

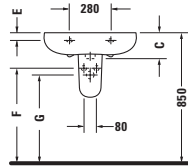

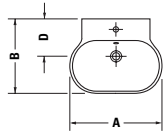

Both the built-in washbasin (428 × 280 mm) and countertop bowl (500 × 352 mm) can be combined ideally with all types of consoles. Creative ideas full of finesse for modern yet timeless interior designs.

Design by Sieger Design

The multifunctional mirror cabinet range

Multibox

What does "flexible" actually mean? According to the dictionary: adaptable. In other words the ability to adapt to a wide variety of different situations. For Multibox no problem: basic cabinet with or without add-ons, left or right or right or left - whatever you choose: Multibox is, quite simple, flexible.

Left_ [Drawerblock **9411 L** + Basic cabinet **9797 L** + Accs-Rail **9975**]_ Right [Side cabinet **9410 L** + Basic cabinet **9797 L** + Combi-Shelf **9413 R**]

Multibox-Mix with 60 cm Basic cabinet_ Left [Basic cabinet **9785** + Accs-Rail **9975**]_ Right [Basic cabinet **9785** + Combi-Shelf **9413 R**]

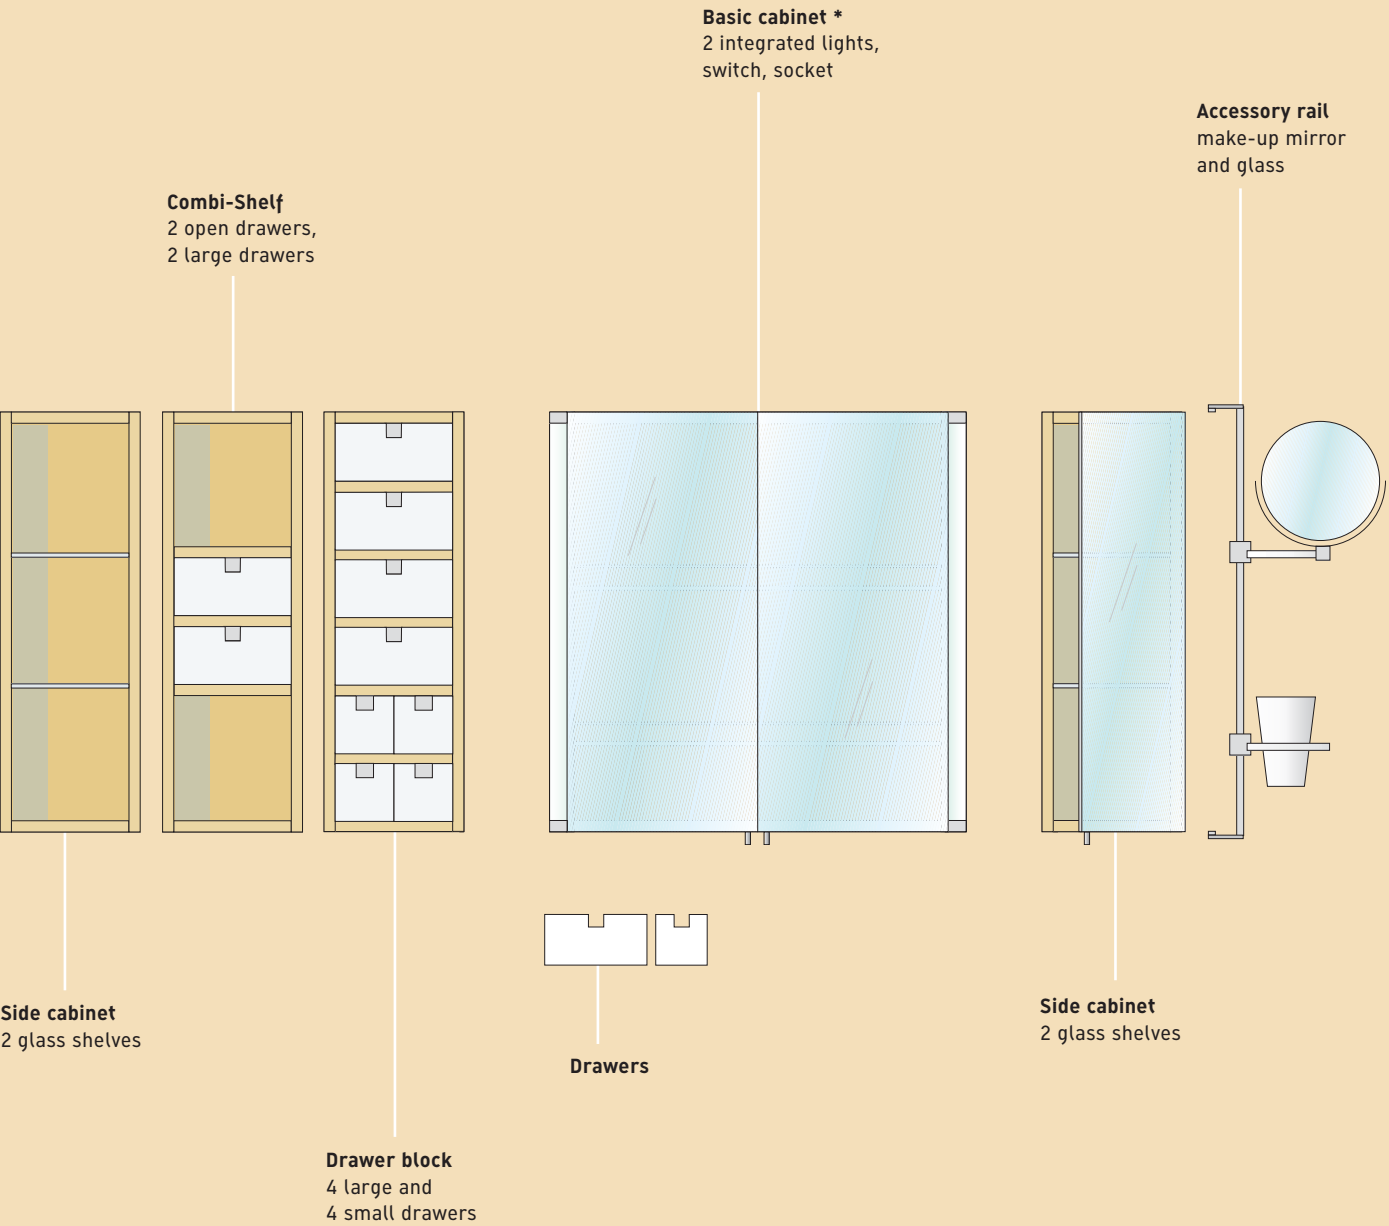

More? Left [Drawer block **9411 L** + Basic cabinet **9785** + Shelf **9412 R**]_ Right [Combi-Shelf **#9413 L** + Basic cabinet **9785** + Drawer block **9411 R**]

The largest Multibox with 95,8 cm width_ Single and in kombination_ Left [Basic cabinet **9799**]_ Right [Basic cabinet **9799** + Shelf **9412 R**]

What should a mirror cabinet do? Keep things tidy. Give all those small and indispensable bathroom necessities a neat and attractive home. Is that all? We expect a mirror cabinet to do much more: it should be flexible, versatile and inexpensive – just like Multibox from Duravit.

* attachments (Shelf, Combi-Shelf, Drawer block or Side cabinet) can be applied to each side of the basic cabinet

The **recessed version Multibox** disappears into the wall. An elegant frame in aluminum covers the space between the cabinet and the wall (picture top). Inside, the cabinet sections contain lots of **practical drawers**. With a wavy underside, they can be used in the drawers of the side cabinets as well as on the rail in the basic cabinet. Integrated **lighting strips** at the sides optimally illuminate the mirror and the interior of the cabinet at the same time without blinding the user. The mirrored backs of the doors provide optimum all-round reflection (small picture right).

With Multibox, variety is the name of the game: combinable individual elements create your very own personal mirror cabinet ensemble. A wide range of surface finishes guarantees that Multibox will complement any style of bathroom and all sanitaryware ranges in addition to Duravit's.

The Essence of Purity

Caro

In these times dominated by a striving for “more, faster, brighter, louder”, when experience is measured in terms of quantity rather than quality, it is good to witness a design idea which wins through on the strength of pure clarity. Caro uncompromisingly shuns everything which is superfluous to requirements, drawing its inspiration from the motion and colour of water. A restrained approach provides for expansive results. The washbasin countertop is as large as possible, because the bowl is only as large as necessary.

Technical drawings of three pedestal sink models (043490, 043470, 043460) showing front, top, and side views with dimensions. The drawings include mounting hole patterns and overall dimensions for each model.

Model 043490 (Left):

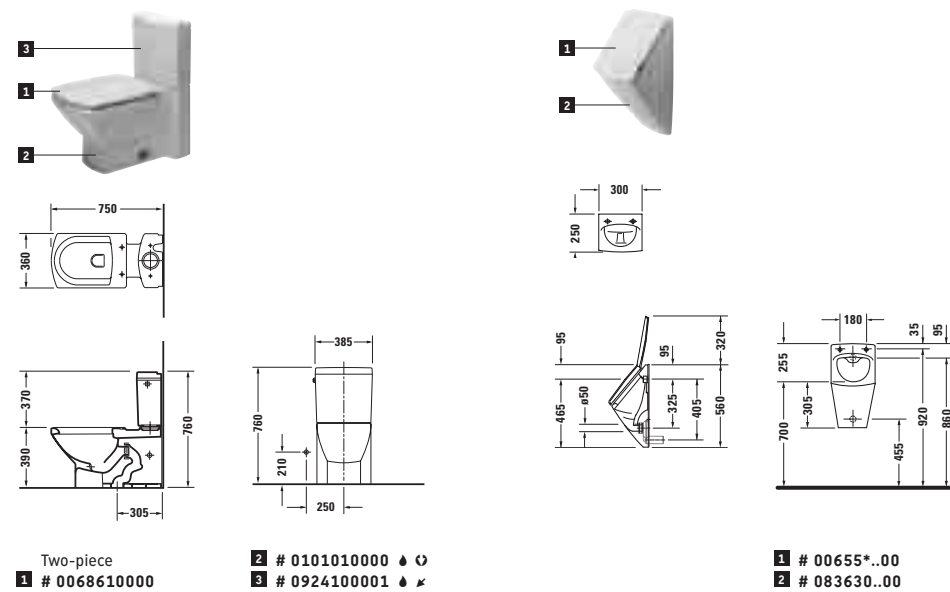

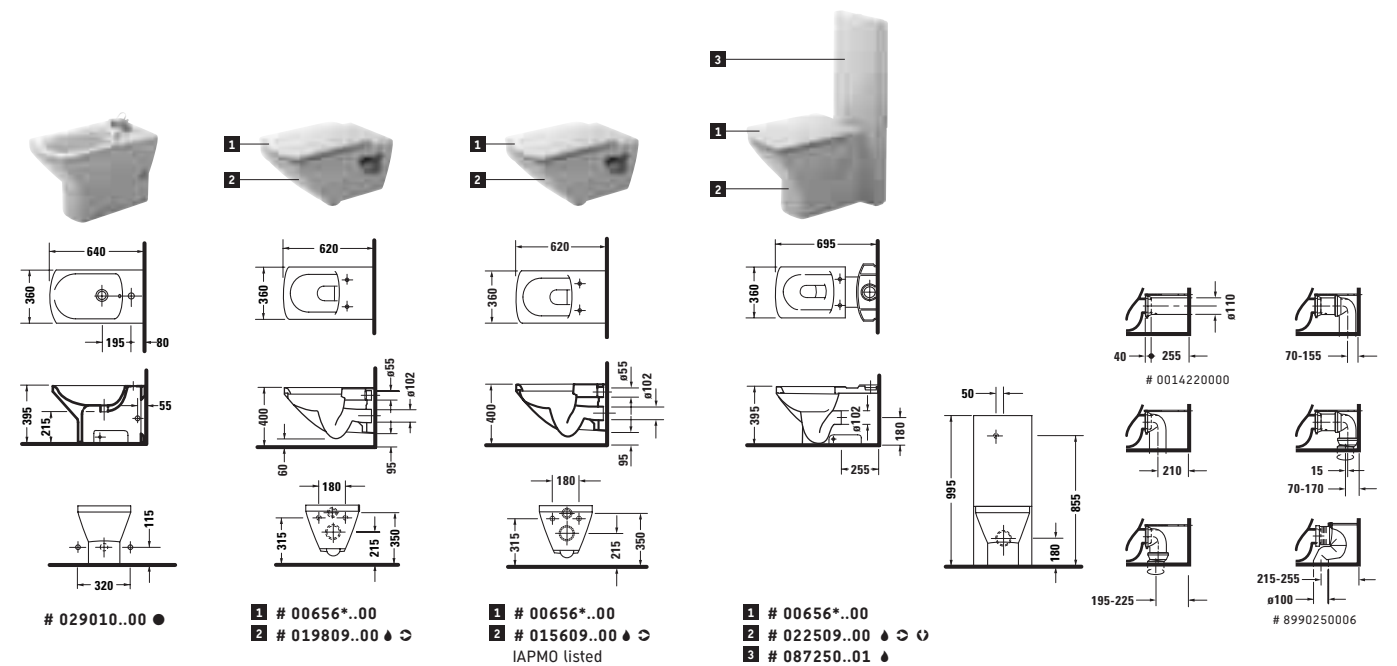

- Top view: Dimensions A, B, D, C.
- Side view: Dimensions E, F, G, X, 80, 280.
- Dimensions: 900 mm, 700 mm, 600 mm (A); 900 mm, 700 mm, 600 mm (B); 595 mm, 505 mm, 470 mm (C); 195 mm, 185 mm, 170 mm (D); 255 mm, 215 mm, 225 mm (E); 60 mm, 65 mm, 50 mm (F); 545 mm, 555 mm, 570 mm (G).

Model 043470 (Middle):

- Top view: Dimensions A, B, D, C.
- Side view: Dimensions E, F, G, X, 80, 280.
- Dimensions: 900 mm, 700 mm, 600 mm (A); 900 mm, 700 mm, 600 mm (B); 595 mm, 505 mm, 470 mm (C); 195 mm, 185 mm, 170 mm (D); 255 mm, 215 mm, 225 mm (E); 60 mm, 65 mm, 50 mm (F); 545 mm, 555 mm, 570 mm (G).

WonderGliss

Washbasins, WCs and bidets coated with WonderGliss remain smooth, attractive and clean for a particularly long time. Rather than simply being applied to the ceramic surface, the WonderGliss coating is burnt in after the initial firing, by means of a special process. WonderGliss deprives dirt of a suitable surface to attack – dirt and lime are unable to establish a hold on the smooth surface. Residues simply run off with the water droplets. And less dirt deposits mean less cleaning.

WonderGliss has been developed by Duravit in cooperation with the high-tech company Nanogate, who develops and produces surprising solutions in the field of surface finishing and nano-ceramics on the basis of chemical nano-technologies (nanos are minute particles between atomic elements and a compact body).

Without WonderGliss, water droplets flatten out and adhere to the surface. **With WonderGliss**, water forms round droplets, which run off, taking with them all the dirt which previously made such a chore of bathroom cleaning.

WonderGliss on the Internet

1-Piece and 2-Piece

Toilets

Duravit´s one-piece generation unites design-oriented sanitaryware with innovative solutions for toilets - made in Europe. Eight different ceramic colors form an ideal basis for individual bathroom design in private and hotel bathrooms alike.

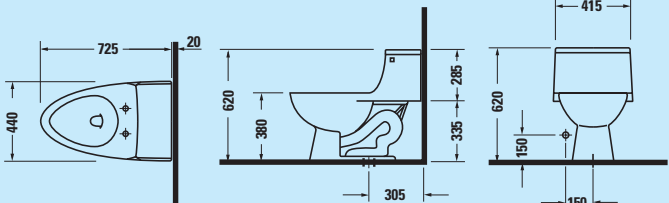

Starck 3_One-piece # 0115010000

One piece, US version toilet,
elongated with syphonic jet,
1.6 gpf (6 liters)
12" / 305 mm rough-in
3" / 80 mm flapper valve,
with side lever

Tribeca_One-piece # 0159010002

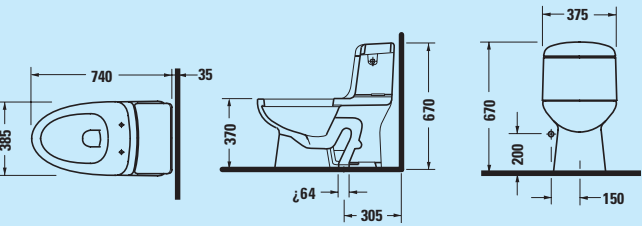

Elongated one-piece
Low consumption toilet
(1.6 g.p.f. / 6 l.p.f.)
Large water surface
12" / 305 mm rough-in
Toilet seat included
Siphon-jet action with fully glazed 2 3/16" / 55 mm trap
Co-ordinates with most Duravit ranges and colors

Metro_One-piece # 0157010002 + Metro_Bidet # 0262100000

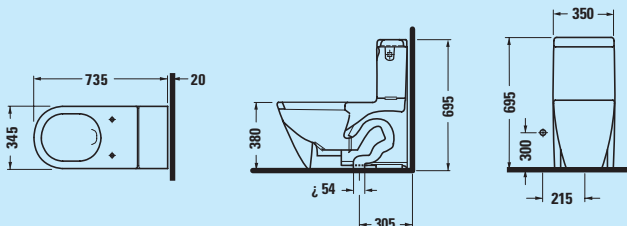

Elongated one-piece
low consumption toilet
(1.6 g.p.f. / 6 l.p.f.)
Large water surface
12" / 305 mm rough-in
Siphon-jet action with concealed trap
Accommodates most elongated toilet seats
Elegant, modern design
Co-ordinates with most Duravit ranges and colors
(also available in Bisquit)

Metro_One-piece # 0157010002

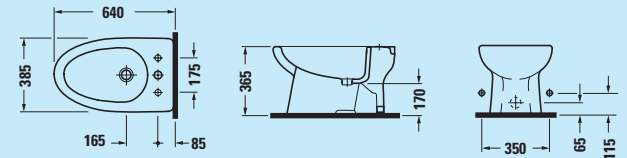

Starck_One-piece # 0163010002

One-piece US-type toilet
Siphonic action (1.6 g.p.f. / 6 l.p.f.)
12" / 304 mm rough-in

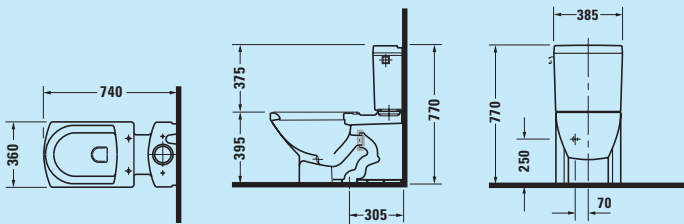

Metro_Bidet # 0262100000

Duravit knows toilets. In fact Duravit has been manufacturing low consumption toilets since the early 1960’s. The Two-piece toilets offer the performance you demand and the design you’d expect.

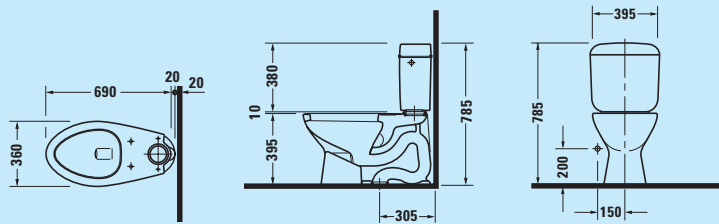

Caro_ Two-piece # 0101010000 + # 0924100002

Two piece syphonic jet
12" / 305 mm rough-in
Tank 1.6 gpf/6 liters
3" / 80 mm flapper valve,
bottom water inlet, side lever

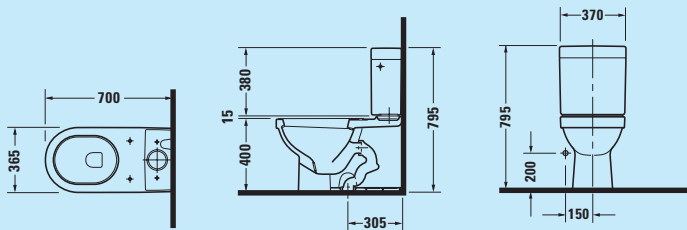

Duraplus_ Two-piece # 0102010000 + # 0925100002

Two piece syphonic jet
12" / 305 mm rough-in
Tank 1.6 gpf/6 liters
3" / 80 mm flapper valve,
bottom water inlet, side lever

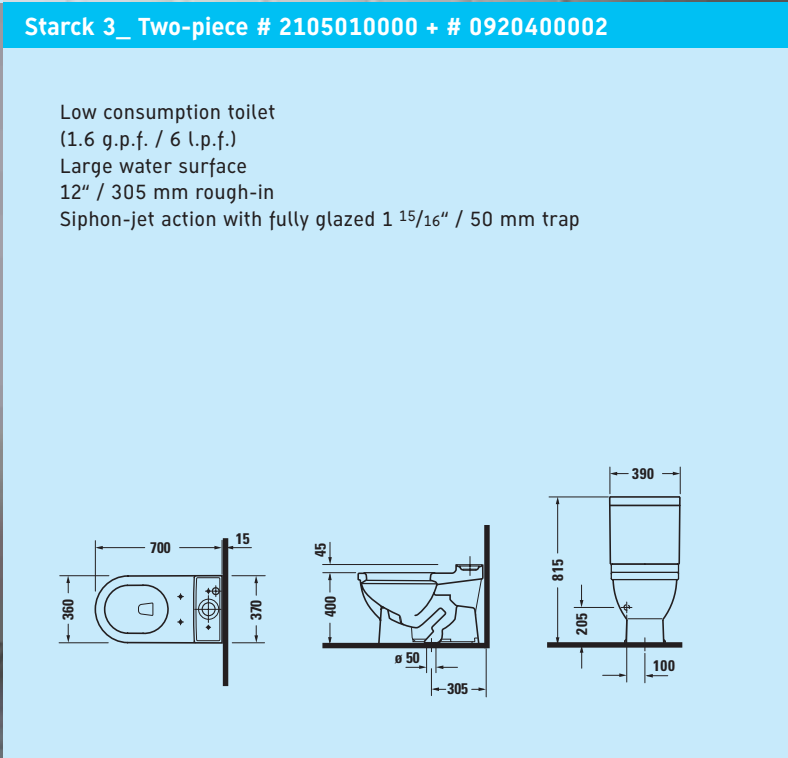

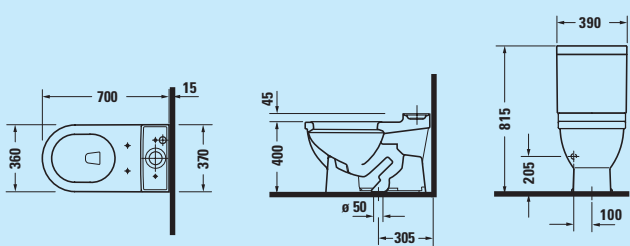

Happy D._ Two-piece # 0103010000 + # 0926100002

Two piece syphonic jet
12" / 305 mm rough-in
Tank 1.6 gpf/6 liters
3" / 80 mm flapper valve,
bottom water inlet, side lever

Starck 3_ Two-piece # 2105010000 + # 0920400002

Low consumption toilet
(1.6 g.p.f. / 6 l.p.f.)
Large water surface
12" / 305 mm rough-in
Siphon-jet action with fully glazed 1 15/16" / 50 mm trap

Vanity washbasins are not only great space-savers. They also represent a viable alternative for individual and pragmatic bathroom design. In combination with ceramic, plastic or marble countertops – or with the corresponding vanity units from Duravit – they offer a wealth of shelf and storage space. Round, square, classic... Whatever your preference, the vanity washbasin programme from Duravit offers a whole range of variants for every style of interior design. The choice is yours!

Individual Design

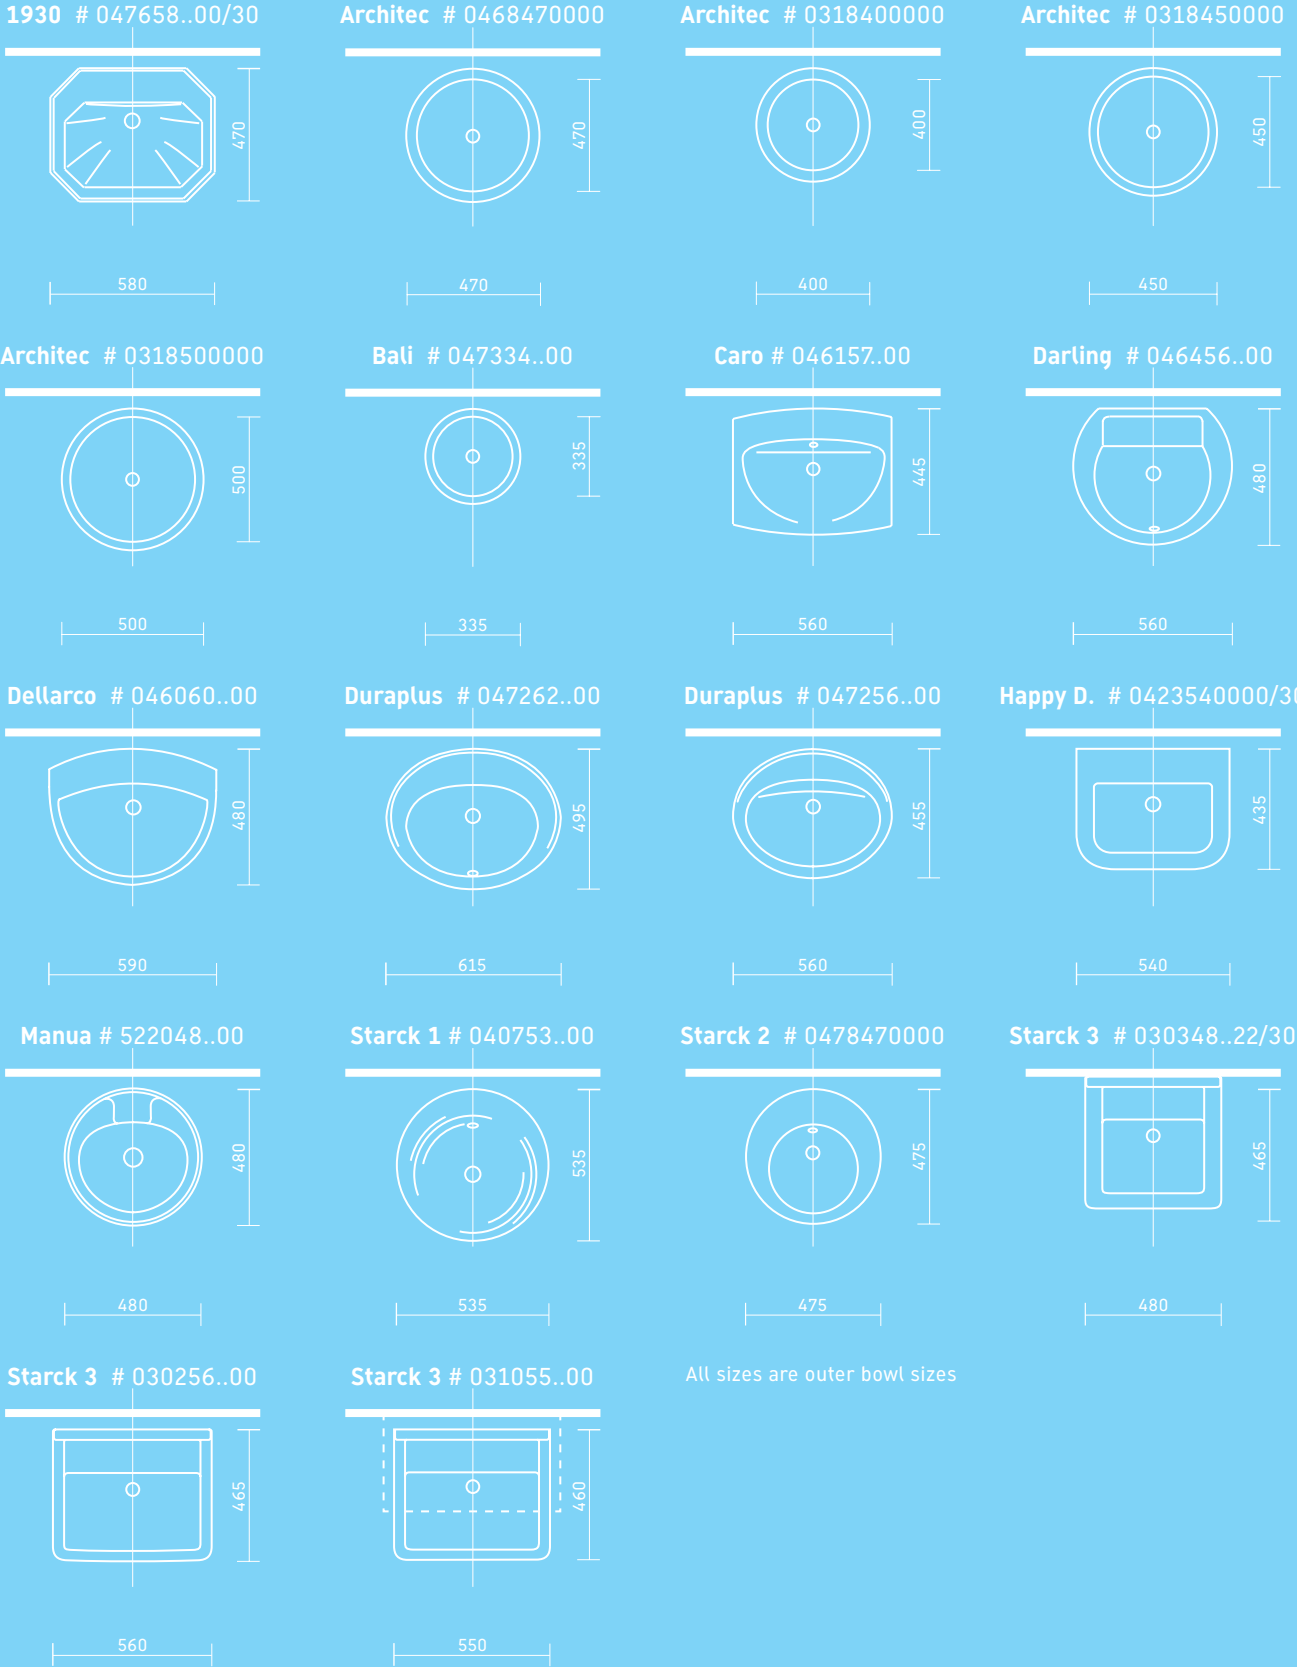

As attractive as they are practical. That built-in washbasin and design do not have to be contradictions in terms is adequately proved by this beauty. Created by star designer Philippe Starck, it harmonises perfectly with the Duravit bathroom ranges Starck 1 and 2.

Attractive and practical: vanity basins are available to match many of the Duravit bathroom ranges. When set on a countertop or Duravit furniture unit, the edge of the washbasin rests on the countertop - leaving plenty of usable space. **Individual and easy to clean:** especially practical for hotels or public areas - the vanity basins are attached to the countertop from below producing washing areas without grouted joints or edges - so that everything can simply be wiped clean.

1

2

(1) Vanity basins, countertop models

(2) Vanity washbasins, undercounter models

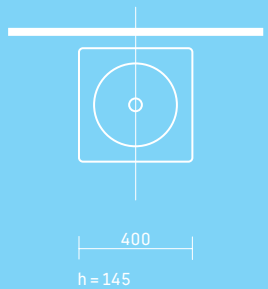

Vanity washbasins, undercounter models: The dimensions shown are outer measurements and the inner basin measurements as visible after installation.

The washbowl – a timelessly modern idea for the bathroom. The surface-mounted basin from Duravit transforms the washbowl into a complete sink unit, which is simply installed on an appropriate vanity unit. An attractive alternative to washbasins – and a design statement which will retain its validity in the new millennium.

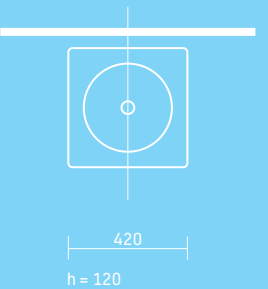

Bowled over.

A woman with blonde hair is relaxing in a white hot tub. She is lying back, looking up towards a large window or glass door that looks out onto a green landscape. The hot tub has a dark, textured base. The overall atmosphere is peaceful and relaxing.

Well Being

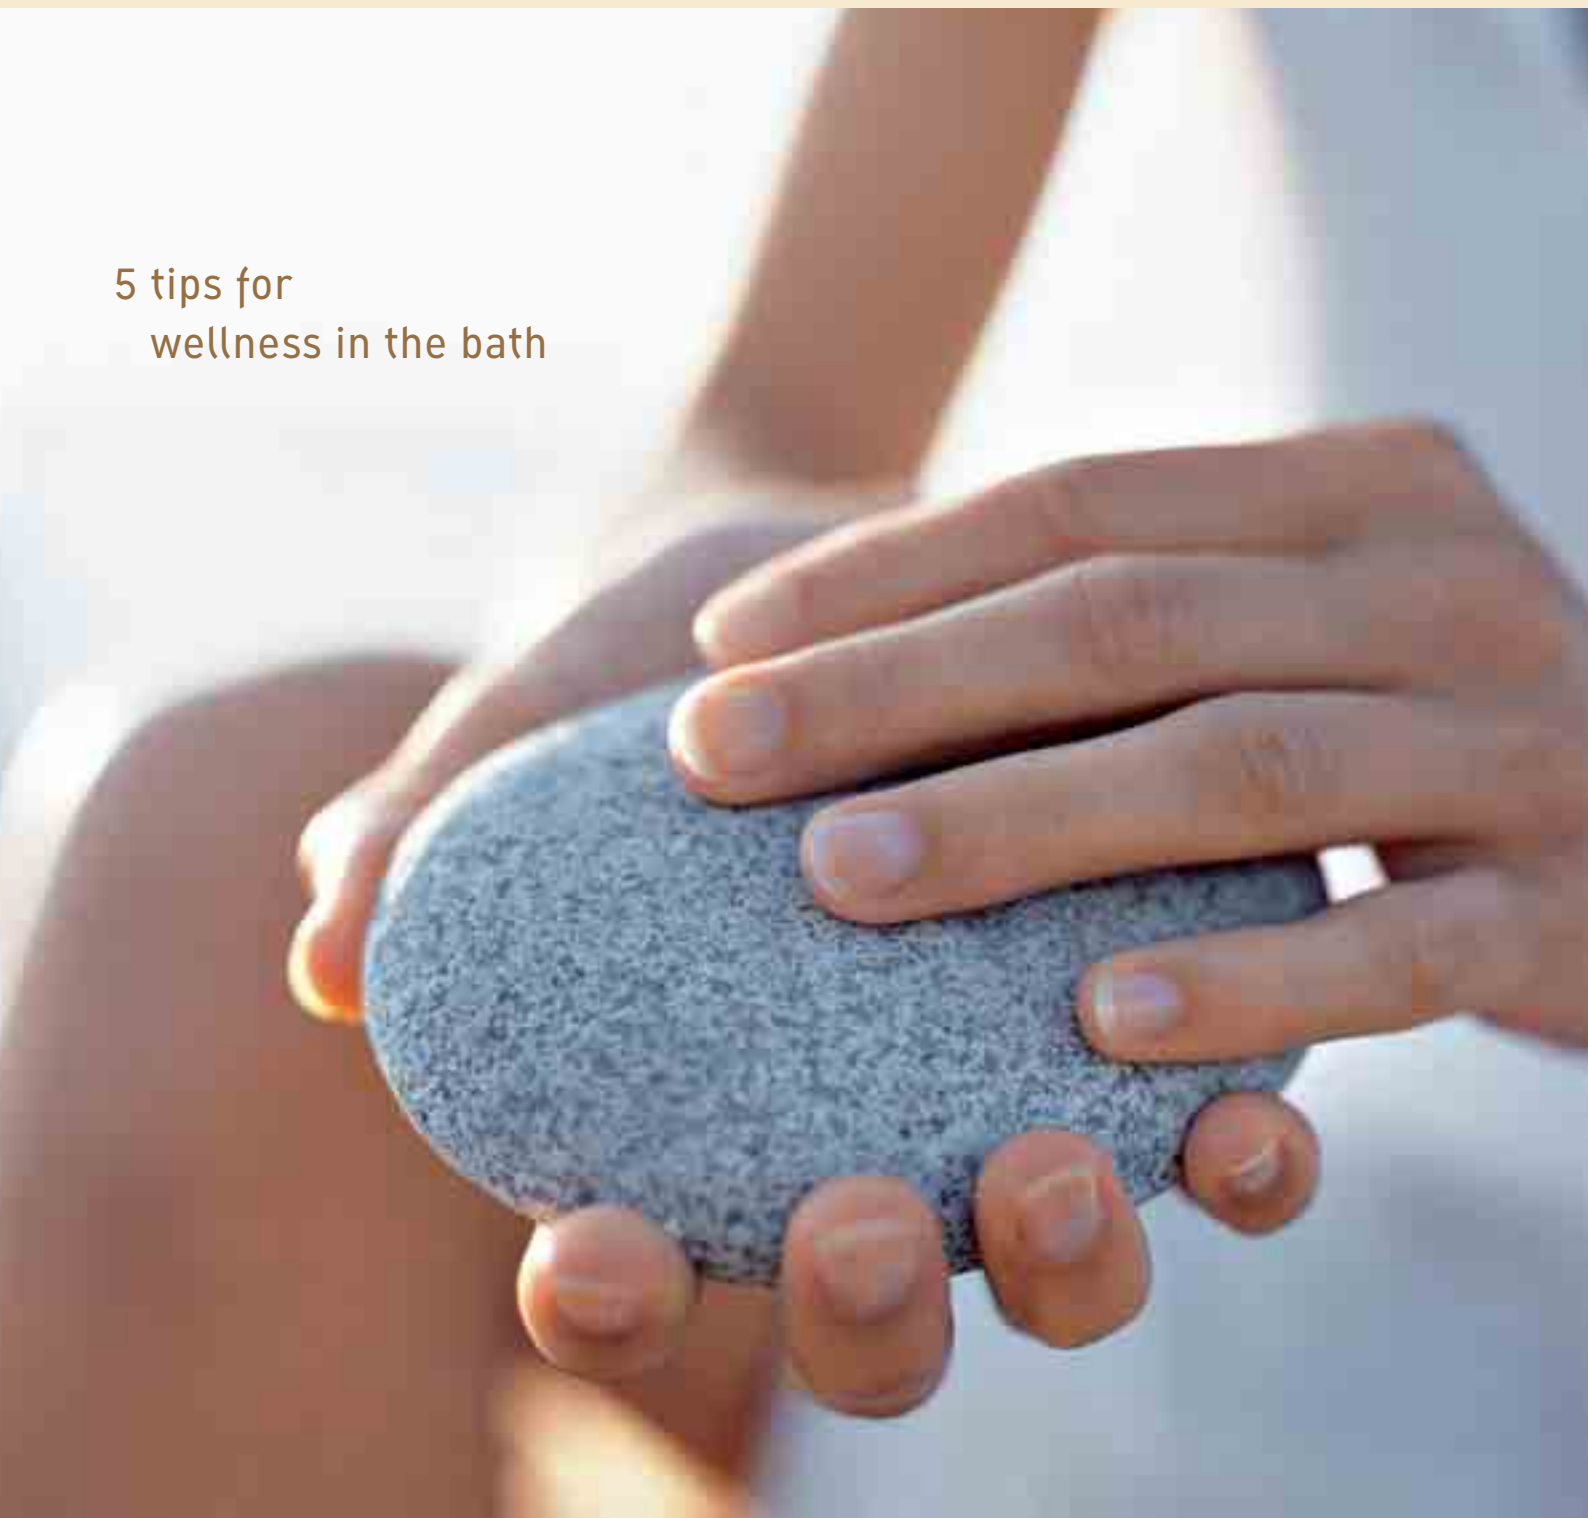

Bathtubs Whirlsystems Showertrays

An aesthetic approach to creating the right bathroom atmosphere - Duravit bathtubs and wellness products. We want you to be able to relax and recover in your very own personal wellness 'oasis'. That's why all of our bathtubs and whirlpools have backrests set at an ergonomically-correct angle of 28°-31° and why they're made of high quality sanitary acrylic. The acrylic material, with its warm and skin-friendly surface, gives just the right feeling of wellbeing from the moment you enter the bath. Relaxation for body, mind and soul - Duravit wellness products to make you feel good.

What a day_ Overslept, traffic jam, stress at work... What a blessing that there's a place where you can leave it all behind: the bath – the best cure for the trials of everyday life. The baths and whirlpools from Duravit offer you not only an exhilarating experience in the bath, but highly agreeable after-effects, too: The air bubbles stimulate the bloodcirculation, while the water massage stimulates the bloodflow through the body. You feel carefree and relaxed, tenseness and aches are soothed away. So throw your work clothes in the corner, dive in and relax... What a day...

5 tips for wellness in the bath

1

The best bath time...

Taking a bath after 9 o'clock in the evening is an ideal way to really relax. The bath should not be any warmer than 37°C. Adding a relaxing ingredient to the water, for example Lemon balm or Vanilla from our scent ranges PURE NATURE or PURE RELAX, is especially good for the body. Afterwards you can go to bed relaxed and fall asleep contented. If you have plans for the evening then you should either shower or have a bath with a maximum temperature of 36°. Don't spend longer than 15 minutes in the bath and choose an invigorating fragrance such as Pine, Orange or Ginkgo.

2

A bath that's too hot makes you sluggish...

Hot bath temperatures - above 38° Celsius - cause the heart to beat faster and make you feel weary and extremely lethargic. Your skin loses at least 20% of its natural oils, even if moisturizing bath products are used, and becomes extremely dry. Don't spend more than 15 to 20 minutes in warm water - that's the optimal bath time.

3

Health aspects...

As well as the feeling of well-being, Duravit places great importance on the health aspects of bathing. The effects of temperature (warm/cold) and the feeling of weightlessness (hydrostatic effect) can play an important role in treating circulation problems, rheumatic conditions and reduced muscular mobility. Immersion in water, with its support for body weight, provides relief for joints and muscles. As well as pure water, both cold and warm, bath additives can be helpful - either to aid relaxation or to invigorate.

4

That makes scents...

Scents and fragrances can create positive emotions and moods and directly affect our sense of well-being. The effects of pure ethereal oils can be obtained by adding them to the bath or using an aroma lamp. With Duravit's PURE range of fragrances, a bath in your own home becomes a health-boosting celebration of the senses. The PURE NATURE range of ethereal oils is ideally suited for preventing and relieving colds, headaches and muscle pain: Eucalyptus, Pine, Lemon balm. The pleasantly-scented exotic fruit oils in the PURE RELAX range invigorate both body and spirit, aid relaxation and enliven the senses: Orange, Ginkgo, Vanilla. The PURE range of fragrances from Duravit is available from specialist dealers.

5

Variety at bath time...

A bath pillow makes things even more pleasant - placed under the neck it supports the head, helping to relax the neck and shoulders as well as making the lying position more comfortable. The active massage jets in a Duravit whirlpool bath promote even better relaxation, making it a worthwhile investment. And bath time pleasure is doubled in one of Duravit's two-person baths, maybe with candlelight and your favourite CD?

Designed with the traditional bathtub in mind, free-standing baths offer both luxury and plenty of space. Featuring the latest whirlpool technology, the free-standing Happy D. and Starck baths are perfect for total relaxation – turning any bathroom into an individual health spa. A real eye catcher: the new real wood veneer surround for the free-standing Happy D. bath.

The centrepiece
of the bathroom

Starck bath freestanding with integrated panel, 190 x 90 cm with two neck rests.

— Philippe Starck bath with integrated panel, 180 cm x 80 cm. Additional Starck baths can be found on pages 94 and following pages —

The healing effects of water were well known back in the days of ancient Rome. The Latin phrase "sanus per aquam", abbreviated to "spa", stands for all whirl and massage applications with water today and lives on in the names of many towns where people take the waters to this day.

The Starck X bathtubs come in 3 versions as single- or two-seater models.
The perfect spa experience is provided by the optional coloured lighting.

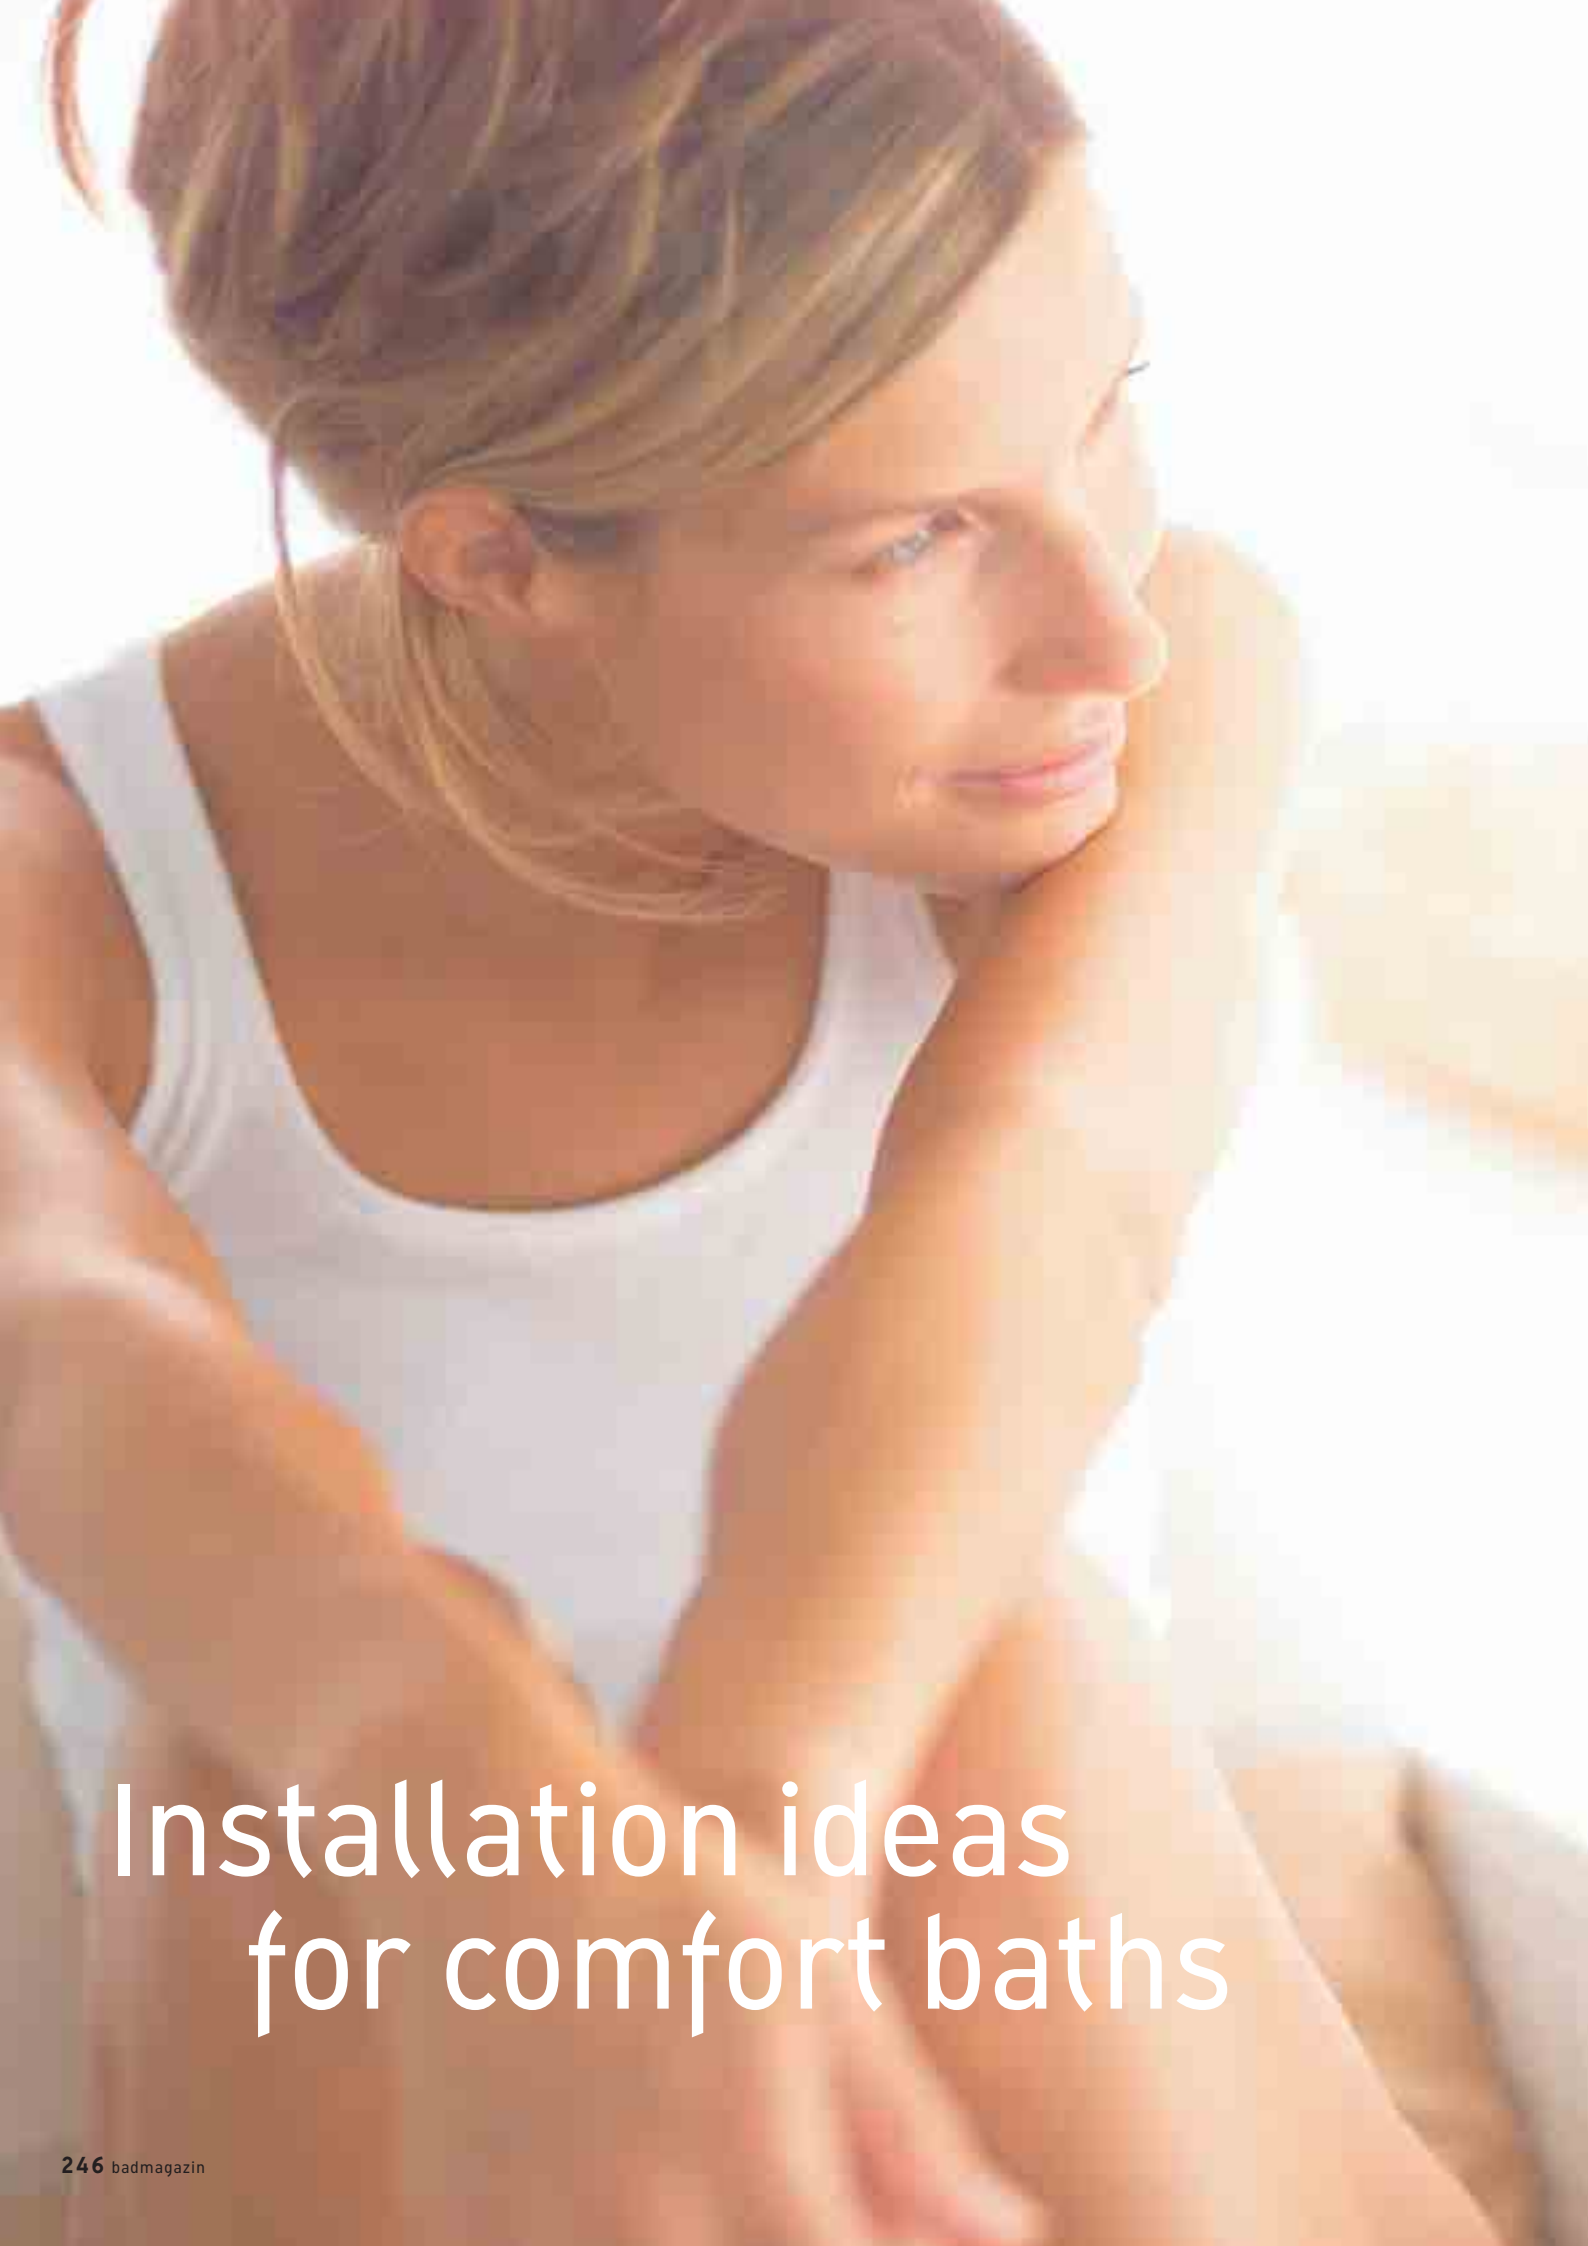

The optional all-round water channel is available with wooden inserts or specially treated stones.

with integrated panel —

Design
that creates space

With the Happy D., Starck and Daro baths, Duravit has created a top-class range of top class baths to suit every bathroom. These beautifully-shaped baths are suitable for either tiled or wooden plinths and inspire creative interior design ideas. The bathtubs can all be supplied with whirlpool system versions Airsystem, Jetsystem, Combi-System P, E and L. They're still available in their traditional form, too - for design purists.

Installation ideas for comfort baths

High or low. The Happy D. built-in bath is available for design fans in the typical Happy D. shape with a high rim or as a classic built-in bath with lower rim.

— Starck built-in bath,
rectangular, 170 x 70 cm —

— Starck built-in bath,
rectangular, 200 x 100 cm —

One model, numerous versions_ The sleek, attractive bath by Philippe Starck harmonises with all Starck ceramics and furniture series. True greatness is also the hallmark of the two new Starck built-in baths. A comfortable 190 x 90 cm and 200 x 100 cm offer unadulterated bathtime fun, alone or in company!

Daro – sleek elegance for the bathroom_ With its sweeping, graceful contours, the bath can be coordinated with many of the ceramic suites and furniture ranges to turn your bathroom into a stylish spa oasis.

— Daro built-in bath, rectangular, 180 x 80 cm —

Space-saving and perfectly integrated into the room - Duravit's corner solutions from the 2x3, Happy D. and Paiova ranges offer plenty of space for happy bathing and showering. Generous internal dimensions and an ergonomic body position make for a relaxing bath - either for one person or two, depending upon the model chosen. The latest whirlpool technology, available as an option for all ranges, guarantees sparkling bath time pleasure.

Making the most of bath-room

2x3 - The hexagonal bath for family bathtime fun_ The Duravit hexagonal 2x3 bath is generously sized for splashing about and relaxing. The ideal bath for the whole family and for every bathroom layout.

Another member of the Happy D. family: the corner bath with apron is suitable for both right and left corner positions.

Paiova – the new well being concept. Alone or side by side. Bathtime is a time for sharing. The new corner bath, created by the successful Eeos design group, is a real bathroom revolution offering enough space to sit comfortably side by side. Ingenious optional extras include large and small raised platforms, containers on casters, grab bar and neckrest. The wood shades of the bath panels are available to match all Duravit furniture ranges. Practical: thanks to its unusual shape, Paiova also offers plenty of space for unlimited showering enjoyment.

Optional extras with a touch of genius: steps in different sizes, mobile storage units, bathtub handles and headrests.
Practical: thanks to its unusual shape, Paiova also offers plenty of space for unlimited showering enjoyment.

Coloured light - gentle massage for your soul. The positive effect of colours on the human psyche is an accepted medical fact. The gentle coloured light promotes a feeling of wellbeing and gentle relaxation - in the comfort of your own bathroom, Five light sources, set into the sides of the bath, inject colour and mood into the water, their colours changing in a steady rhythm. Individual colour shades can be selected using the control panel.

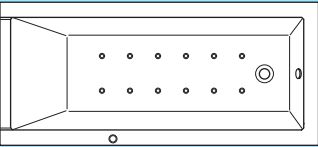

Extras that
do you good

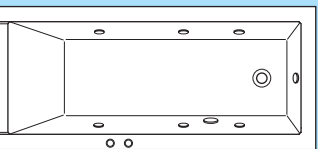

- 1. Airsystem_** Just let yourself go and enjoy_ Preheated air from 12 jets on the bottom of the bath sets the whole body tingling. The rhythmic stroking motion of the water not only stimulates the circulation but also has a deeply relaxing effect on the nervous system. The stress that builds up throughout the day ebbs away, and the body succumbs to a wonderfully soothing feeling of tranquillity.
- 2. Jetsystem_** Operated by a controller on the rim of the bath, a mixture of water and air bubbles into the bath from 6 side jets, gently massaging the back, thighs and calves - including the tissue under the skin. Aches and tenseness are banished. Heat is also able to act more effectively_ The bubbling water transports it more effectively into the body, with longer-lasting results.
- 3. Rotojet_** jets top fit from tip to toe_ Carefully coordinated to target the problem areas relating to the back, 3 rotating water-air massage jets massage the shoulder and lumbar regions. This stimulates the circulation, enhances the muscle functions and strengthens the organism - stagnant energy begins to flow again. The reflex zones of the feet can also be massaged by 2 rotating water-air jets to prevent or treat problems in this area.
- 4. Lighting_** The underwater halogen spotlight conjures up a congenial atmosphere to make sessions in the whirl tub even more pleasurable.

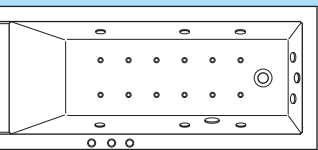

Airsystem Warm air is injected into the bath by 12 jets embedded in the floor of the tub.

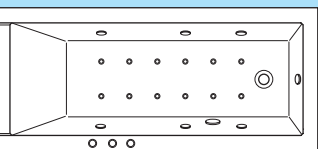

Jetsystem 6 side mounted jets create maximum hydrotherapeutic action with actuated intensity of the massage, freely regulated via an air control regulator which is integrated in the rim of the tub.

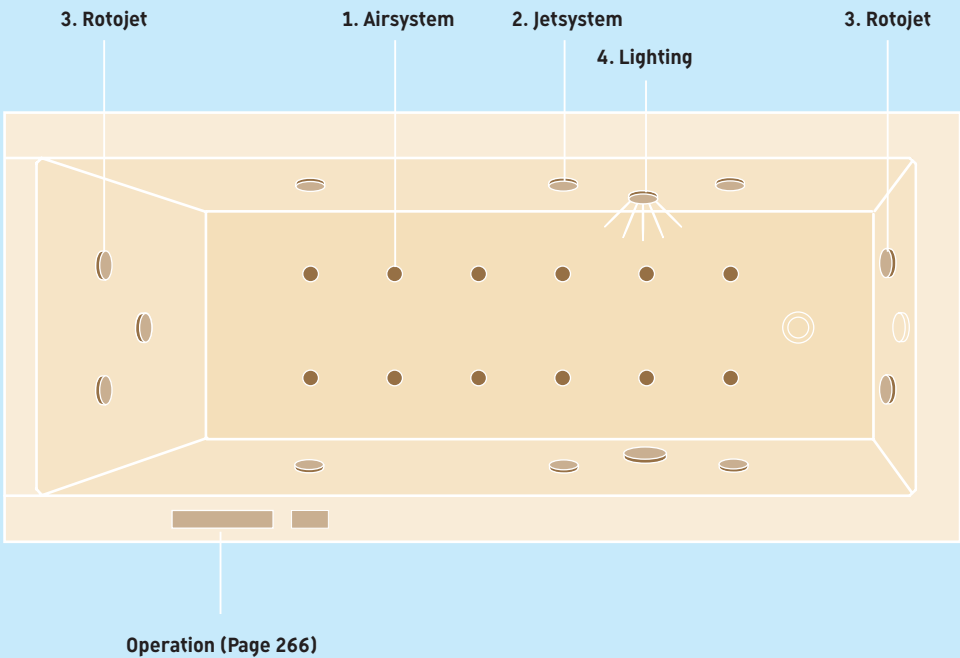

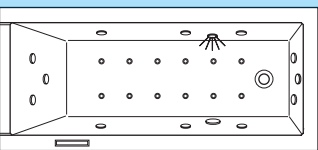

Combi-System P a complete combination of hydrotherapy combining the Air- and Jet-System to provide excellence in system management. Additionally the system is equipped with 2 rotating jets for a foot-massage. This function can be regulated with 2 pneumatic push-buttons and 1 air control regulator integrated in the rim of the tub.

Special comfort is provided by the electronic control panel of the **Combi-System E**. The massage intensity of both the Air- and Jet-System can be regulated separately by an integrated control panel. An electronic system protecting the Air- and Jet-System against overheating is included as standard equipment. The Combi-System E can be equipped with the following additional modules upon request: Back- and foot-massage, inline-heater, hygiene management system, lighting.

When activated, the control unit lights up blue. The air and jet systems, included as standard, as well as the halogen spot and the back and foot massages, are easy and convenient to operate. An electronic system protecting the Air-and Jet-System against overheating is included as standard equipment. The coloured light, the temperature L and the automatic UV hygiene management modules can all be added to the **Combi-System L**.

Airsystem
12 air blower jets are embedded in the floor of the tub.

Jetsystem
A water-air ray is created by 6 jets mounted in the side of the tub.

Back massage
3 adjustable rotating jets have a beneficial effect on the back.

Footmassage
2 adjustable rotating jets are stimulating the reflex zones of the foot.

Lighting
1 underwater light, 50 W halogene, creates a cosy atmosphere in the bathroom.

Hygiene Management System
Electronically controlled cleaning system for the disinfection of the jets and pipes of the whirlsystem.

Inline Heater
Electronically controlled thermal system to compensate for loss of temperature during whirl action.

Coloured Light
Five light elements integrated into the side walls, flooding the bath with constant changing or permanent light colour.

Temperature L
Heating module with blue backlit LCD display and control. This can heat the whirlpool to the desired temperature.

UV Hygiene Managementsystem
Simple, environmentally-friendly hygiene by means of automatic UV disinfection.

The intensity of the jets can be adjusted continuously by pneumatic or electronic controls.

Blue for you A gentle touch is all that's required for the inconspicuous control unit on the Combi-System L to light up in blue (Fig. 1). The functions can then be controlled via the symbols that appear. The temperature display for the heating module Temperature L is located on an additional display panel (Fig. 2). The Combi-System E is controlled using the slightly raised symbols on the round keypad (Fig. 3).

Sundeck

Here. There. Everywhere.

In the bathroom. In the living room. On the patio... Sundeck, the latest new bathtub from Duravit, is a stroke of genius in all senses and in all surroundings. The distinctly stylish look cuts a dashing figure anywhere in the home where there is a hot water connection. A practical cover keeps the fragrant bathwater warm until you climb in. And that's not all: folded back, it provides the bather with a comfortable headrest, folded out it becomes a relaxation deck and shelf area. And despite all the practical functionality, Sundeck always looks like an elegant item of furniture. That, too, is wellbeing – for all the senses.

Versatile: the cover, folded back as a headrest and closed with an additional neckrest. The coloured lighting system can be comfortably operated by remote control.

Design by Jochen Schmiedem

In the realm of the senses

Shower_Massage_Steam shower_Relax

The new multi-functional shower from Duravit. Leave stress behind. Relax your muscles. And enjoy with all your senses. A revolution in form and function. Created by Jochen Schmidden, the multi-functional shower looks rather like a luxury sailing yacht. Behind the transparent or blue-tinted real glass partition, the ultimate in wellbeing awaits you, navigated by remote control with touch display: shower, steam bath, relaxation – standing up or lying down, alone or à deux. Ready for a quick turn? All aboard ...

Heavier waves no problem? With a force of up to 4 bar, 10 massage jets are as effective as a professional massage. Additional comfort features are overhead, hand-, gushing and side showers, water hose, functional module for coloured lighting and fragrances and optional sound system.

Flood spray head

Has a diameter of 220mm for summer rain over a large area.

Surge head

Provides a veritable cascade of shower pleasure.

Hand-held spray head

Has three spray settings: normal, soft and massage.

Kneipp hose

Produces a high pressure laser-like jet (a crystal-clear, pure water jet - without any added oxygen from the air), enabling it to be used for methods familiar from Kneipp water therapy.

Water reservoir

The integrated water circulation system (filled and activated by remote control or using a control panel in the shower) ensures a powerful water massage even if the mains water pressure is low.

Massage

You can select from 5 massage programs using combinations of 5 jet pairs and the surge head. Permanent UV light ensures worry-free, environmentally-friendly disinfection.

Steam

At the press of a button the steam generator produces beneficial steam. Fragrance essences can be added to the steam if required. 5 programs control duration and temperature and a calcium filter prevents the build-up of sediment. The PURE range of fragrances from Duravit is available at www.duravit.de and from specialist dealers.

Light

Two dimmable halogen spotlights create a pleasant atmosphere.

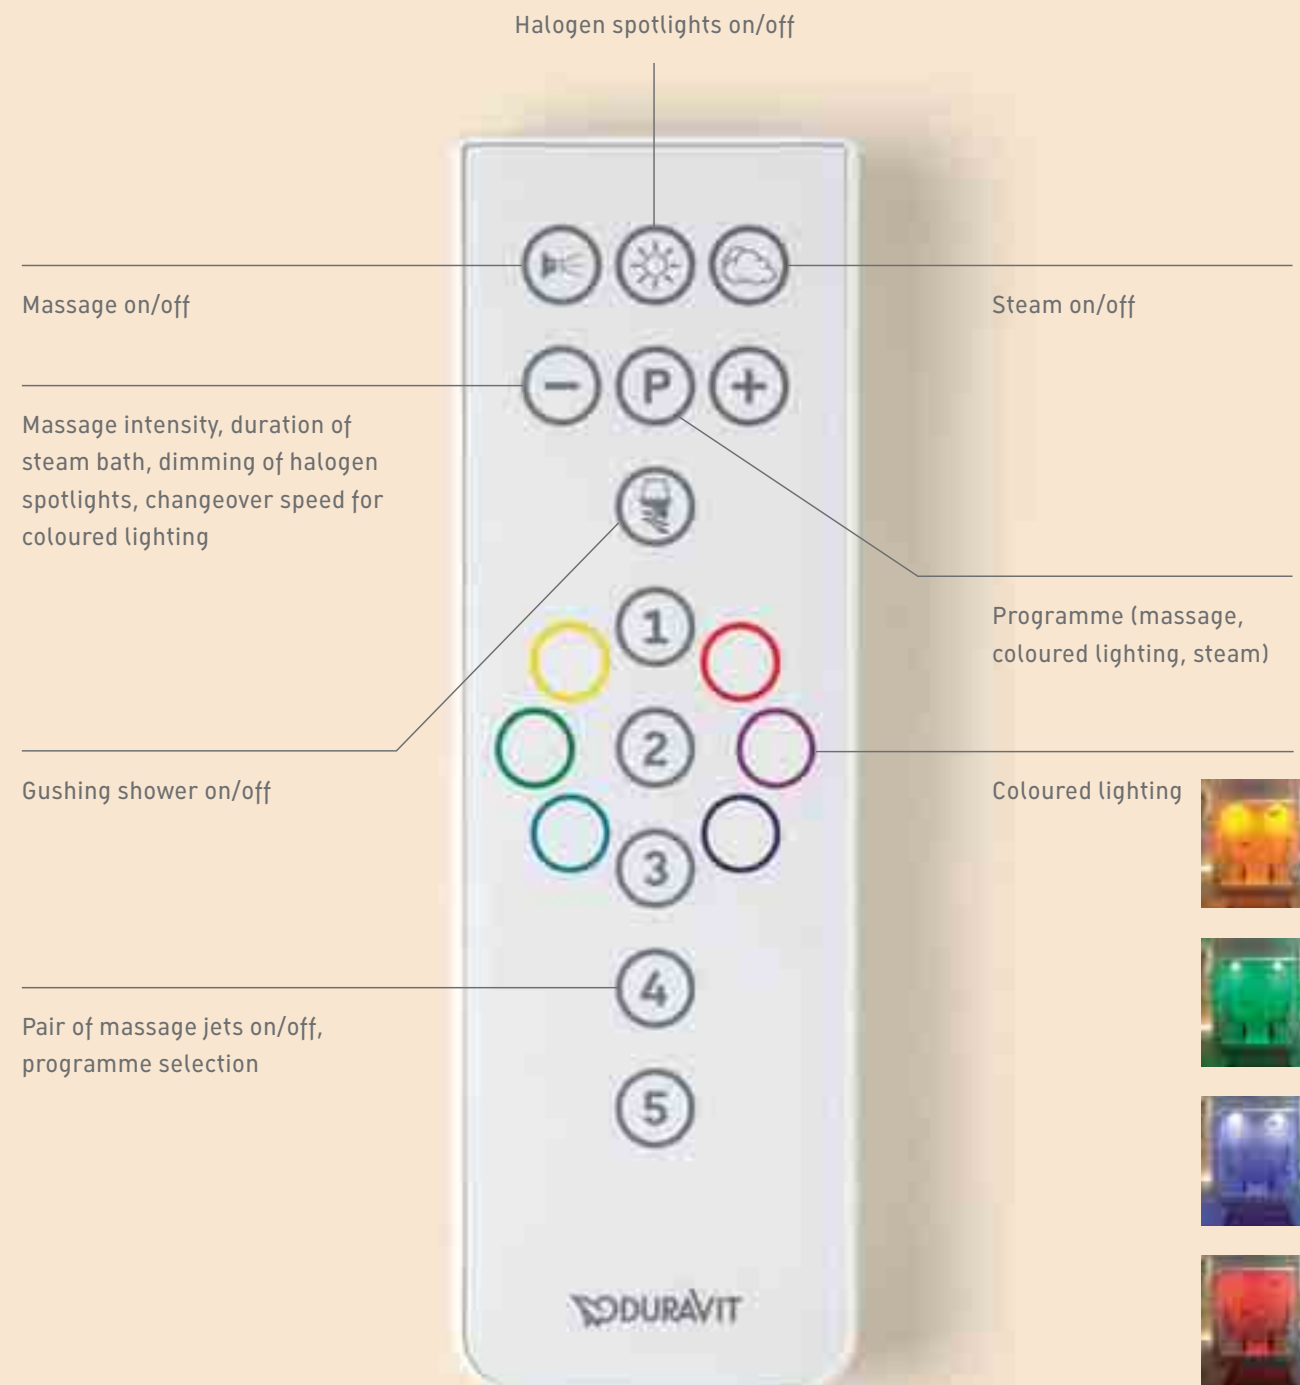

Coloured light (optional)

The coloured light module (optional) allows you to select one of five preset coloured light programs or to choose a colour individually.

Sound (optional)

The multifunctional shower can be fitted with two loudspeakers that can be attached to a stereo system.

Forget the stresses of the day and experience pleasure with all your senses. On your own or à deux. Two removable fold-out wooden seats with adjustable backrests ensure that you lie comfortably - and are also in the ideal position to relax and enjoy the optional coloured light.

Many people find a steam bath more agreeable than a traditional sauna. The low temperatures (approx. 45°-50°C) and a relative humidity of 100% are ideal for relaxing. The steam bath has a beneficial effect on tense nerves and cramped muscles. It opens the pores and deep-cleanses, stimulating the circulation and invigorating the skin. It improves muscle and joint mobility and relieves mild rheumatic pain. The hot steam is especially beneficial for people with respiratory conditions. Adding ethereal oils brings additional positive effects for the respiration. The horizontal furniture handles are flush with the front on the right and left, therefore a minimum of 20 cm distance to the wall must be allowed.

10 steps to pure relaxation

- 1 **First of all a warm shower...** The optimal preparation to get your body ready for a steam bath is to shower for at least 5 minutes with warm water. The skin is cleansed, the pores are opened and you start to forget the day.
- 2 **Power massage...** Five pre-programmed massage cycles ensure pure relaxation. Programs 1-3 are suitable for massage while standing, 4-5 for a sitting position. After sporting activity, the circulation is stimulated and tension relieved. The massage should last for approximately 5-6 minutes. After the massage, switch on the steam generator!
- 3 **Dry off and take a break...** Taking a break of around 5 minutes in a relaxed sitting position allows the entire organism to relax while the steam generator is doing its job.
- 4 **Warming phase...** Relaxing for 15-20 minutes in the steam has numerous effects: it activates the immune system, increases cardiac load, cleanses your skin pore-deep, improves circulation, stimulates cell renewal, purifies and brings deep muscular relaxation.
- 5 **Cooling off in between...** The hand-held spray or the Kneipp hose is used to help the body cool down. This temporarily narrows the blood vessels. Cool your body 2-3 times during the warming phase (see no. 4).
- 6 **An "air bath" at an open window...** 5 to 10 minutes breathing fresh air have the effect of filling the lungs and enriching the blood with plenty of fresh oxygen.
- 7 **Full body rinse with the Kneipp hose...** Rinsing the entire body for approx. 1 minute makes the skin tauter, helping it to regenerate - and feel smooth to the touch. The temperature changes (warm/cold) stimulate the circulation and clean the pores.
- 8 **Cooling phase outside the multi-function shower...** Lie down on a recliner and relax for 15-20 minutes. This energizes the immune system, relieves the circulation, slows the heartbeat and stimulates kidney function (purification), helping you to feel refreshed!
- 9 **Step by step to feeling good...** 2-3 steam sessions (each consisting of a warming phase and a cooling phase) are necessary in order to achieve maximum benefit for both body and spirit.
- 10 **After the steam bath...** As a final step at the end of a steam bath you should give your body liquid: drink at least 1 litre to replace lost fluids. You'll feel refreshed and relaxed at the same time - in perfect balance.

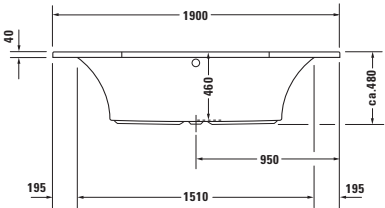

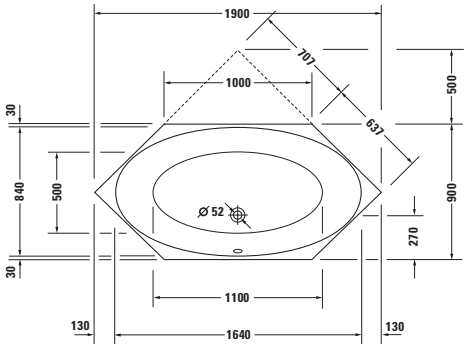

Hotels that care about comfort choose Duravit

We want you to feel good.
Not just at home but also on holiday and during business trips. So it's a good thing that many well-known hotels are equipped with Duravit products - so that when you're travelling you can enjoy the luxury you're accustomed to at home.

Back-to-wall version
730001 00 1 00 1000, 1800 x 1100 x 2330 mm, Clear glass
730002 00 1 00 1000, 1800 x 1100 x 2330 mm, Blue-tinted glass

All Duravit multi-functional showers have the following standard features:

Removable wooden seats convertible into a lounger; 2 adjustable backrests; residual water drainage; remote control and charging unit (contactless charging); 2 shelves; removable wooden inlays; single-pane safety glass clear or blue-tinted with WonderGliss finish; frameless construction, thermostatic mixer with 5-ways-diverter, 10 jets, gushing shower, water hose, handshower, overhead shower.

Display in the panel:The display in the panel indicates either the temperature in the multi-functional shower, the massage intensity, the water temperature or the duration of the bath. The closed water cycle is activated via the massage symbol. The massage can be started when the display confirms the water reservoir has been filled.

5-ways-diverter: The 5-ways-diverter is used to select the features of the multi-functional shower. Overhead shower, hand- and flood shower can all be directly operated, as can the water hose. In order to activate the massage feature, the 5-ways-diverter must be set to the water reservoir symbol.

Remote control: When selected, the symbols are illuminated briefly in a blue light. After a few seconds, the selected symbol dims. The remote control is used to operate the massage and steam features as well as the lighting. The intensity of the massage and the lighting can be controlled with the + and – keys. These keys are also used to regulate the duration of a steam bath session. The P and 1-5 keys start the massage, lighting and steam programmes. If your steam bath features the coloured lighting option, 6 colours can be directly selected with the remote control.

Optional modules for the multi-functional shower:

Coloured lighting: LED spotlights for intensive colour, direct selection of 6 colours, 5 different coloured lighting programmes.

Speakers: 2 units, steam-proof, water-resistant, 40 watt sound output.

Inserts: Instead of the standard wooden inserts, there is a choice of three acrylic insert segments.

What goes with what?

What goes with what? It goes without saying that not every furniture element can be combined with every washbasin and not every furniture range with every ceramic suite. We have selected some winning combinations – as stylistically faithful as they are optional. Have fun combining!

Vanity units and consoles for washbowls and counter-top bowls

Bacino countertop bowl.
Vanity unit X-Large

Combined with a vanity unit, **washbowls and countertop bowls** (picture right and bottom of page) are a modern alternative to a traditional washbasin. The bowls and basins add an individual note to the bathroom, the matching vanity unit provides space for all those bathroom necessities and at the same time offers a generous surround. The furniture consoles from Duravit offer scope for particularly interesting combinations.

Thanks to the simple but effective chrome apron, the Universal vanity unit can be combined with any commercially available washbasin. Universal vanity units are available for the 4x9, in the mood, Darling and Dellarco ranges. So there is one to suit all styles and space requirements. Who knows – maybe this could be the start of a wonderful friendship?

Universal vanity units for all commercially available washbasins.

You've decided on a Universal vanity unit from Duravit and would now like to order it to match your **already existing washbasin**? Then all you have to do is measure the distance from the middle of the waste outlet to the wall. This will give you **measurement A**. For more information see the 4x9, in the mood, Darling and Dellarco furniture ranges. **Or order your matching Duravit washbasin straight away – prices and an overview of all combination possibilities are available from your specialised sanitaryware dealer.**

- Chrome cover 1 A = 145–170 mm
- Chrome cover 2 A = 196–220 mm
- Chrome cover 3 A = 221–255 mm
- Chrome cover 4 A = 171–195 mm
- Chrome cover 5 A = 256–285 mm

Starck 2 washbasin
Starck 1.2.3 universal vanity unit

To ensure that **all other washbasins in the Duravit ceramic suites** and of course **all commercially available washbasins** from other manufacturers cut a good figure with our bathroom furniture, we have created the Universal vanity unit system. A stylish chrome apron serves as a made-to-measure link between vanity unit and washbasin, at the same time attractively hiding the siphon. The different Universal vanity units in the various furniture ranges are a great storage space solution no matter what your room layout or furnishing style.

■ Recommended combination possibilities

A wealth of ideas

It's good to know you can rely on a major brand. Duravit stands for consistent product quality and professional, straight-forward services. It's not by chance that Duravit is one of the most successful bathroom specialists, whose renown extends well beyond Europe's boundaries. Not just among insiders, but also among our many customers who experience the benefits of Duravit's pledge to liven up the bathroom day in, day out.

1 For tight spaces. DuraplusCompact wall-mounted WC with a minimum projection of 46 cm.

1

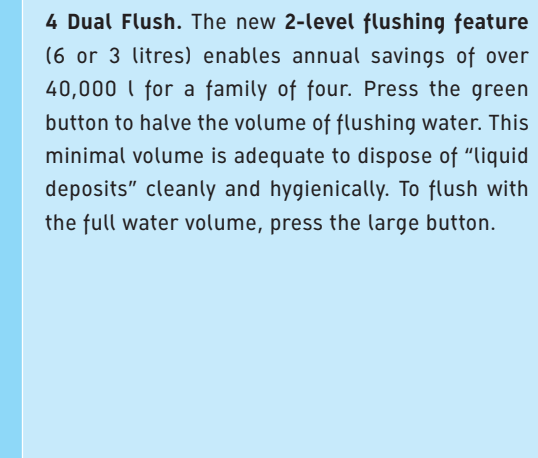

3

3 Siphon cover attachment. The new quick-fit attachment enables simple fixing of all Duravit siphon covers to the corresponding washbasins and handrinse basins. Adjustment is carried out by means of a threaded rod, instead of a spring. This simple and logical attachment method provides for a perfect fit between siphon cover and washbasin and an even fit against the wall.

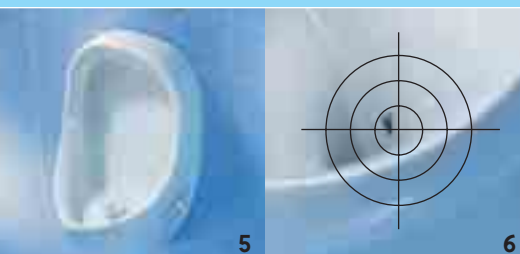

2

2 Vario Outlet. The floor-standing wash-down WC featuring washdown flushing and Vario outlet has been developed for the most diverse connection modes and dimensions. Virtually all types of connections are easy to install with one model, in conjunction with a concealed vertical or horizontal outlet.

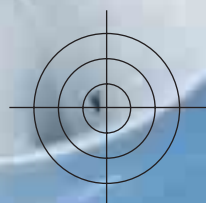

4

4 Dual Flush. The new 2-level flushing feature (6 or 3 litres) enables annual savings of over 40,000 l for a family of four. Press the green button to halve the volume of flushing water. This minimal volume is adequate to dispose of "liquid deposits" cleanly and hygienically. To flush with the full water volume, press the large button.

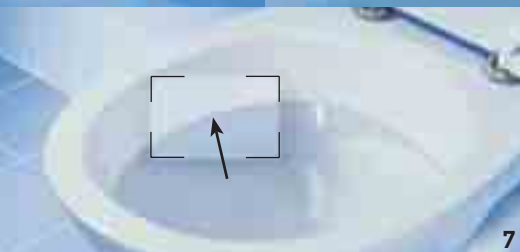

5

6

5+6 Spot on. Urinal with target fly. **7 Glazed flushing rim.** Duravit toilets have a glazed and easy-clean flushing rim that prevents dirt and residue from building up. **8 State-of-the-art and intelligent technology.** The electronic urinal features a control unit especially developed for Duravit which permits contact-free flushing thanks to automatic infrared sensor control.

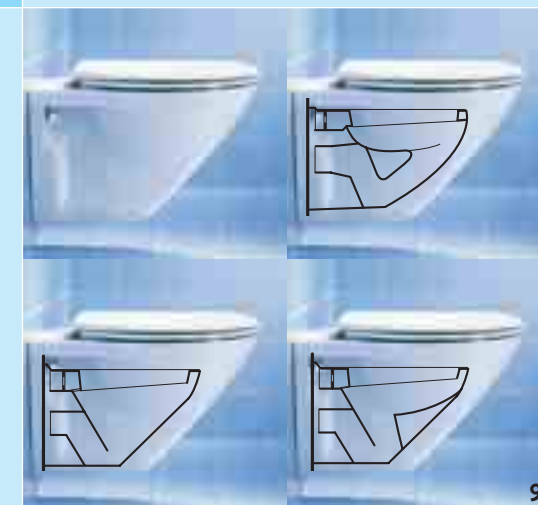

7

8

9 Flushing variants. The wall-mounted and floor-standing WCs from Duravit come in two different flushing variants_ Washout flushing and wash-down flushing. Duravit's modern 6-litre flushing technology provides for absolutely hygienic flushing while at the same time saving valuable drinking water.

9

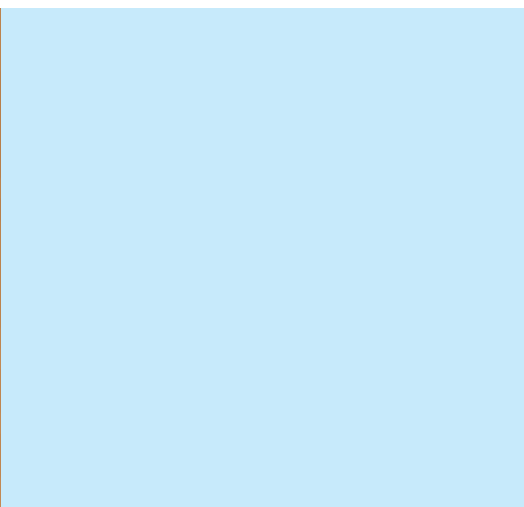

A major advantage of the **washout flushing variant** is the possibility of examining the stool. Also, no splashing occurs when using these WCs. Disadvantages_ Increased scope of cleaning and more pronounced smell nuisance. **Washdown flushing** involves the least smell nuisance.

Wow, what furniture.

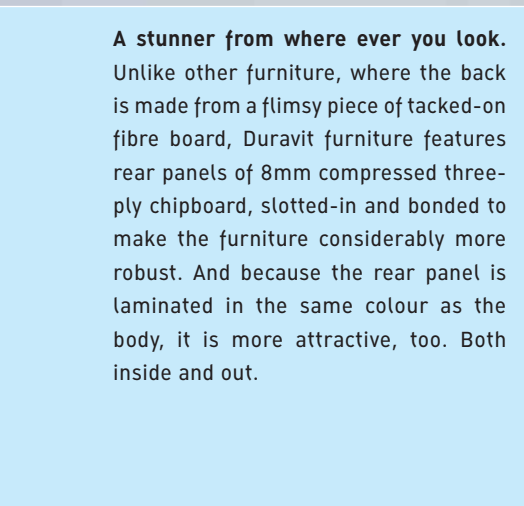

Duravit features its own bathroom furniture for more than a decade now. Manufactured in Schenkenzell in the Black Forest, our bathroom furniture combines industrial precision with skilled craftsmanship, creative ideas and painstaking attention to detail. All our furniture is made to order - using up-to-the-minute technology, of course. State-of-the-art computer control systems ensure that all production data remain transparent. The result is cost-effective manufacture of even the smallest production runs, short production times, punctual and fast delivery.

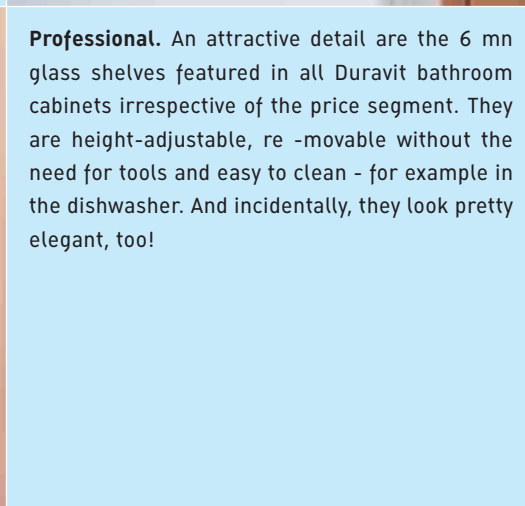

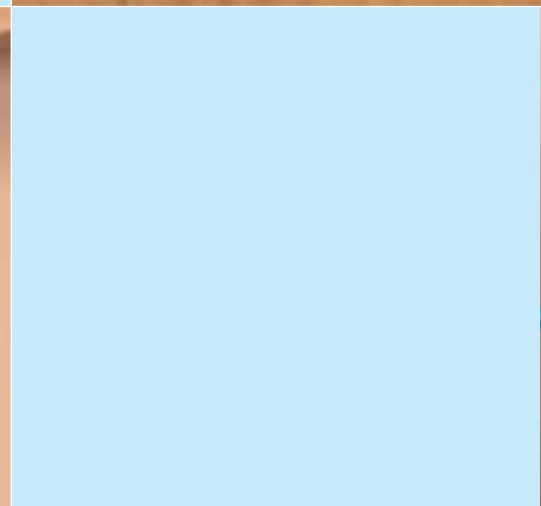

Three cheers for craftsmanship. Technology and automation are all very well, but at the end of the day there's nothing to beat traditional craftsmanship. The finishing touches on all pieces of Duravit furniture are performed by hand. This care that Duravit applies in the manufacture of its products is also reflected in the continuous and strict quality controls that are carried out randomly prior to, during and after completion of all stages of manufacture - inspection of incoming goods, production, final inspection, functional testing.

Surprise! Surprise! Seems like there is more coming out than going in. Fully extendable and easily removed without the need for tools, the drawers by Duravit on our bathroom furniture not only offer the maximum amount of space inside, they are also easy to keep clean - That means more space, more convenience.

A stunner from where ever you look. Unlike other furniture, where the back is made from a flimsy piece of tacked-on fibre board, Duravit furniture features rear panels of 8mm compressed three-ply chipboard, slotted-in and bonded to make the furniture considerably more robust. And because the rear panel is laminated in the same colour as the body, it is more attractive, too. Both inside and out.

Professional. An attractive detail are the 6 mm glass shelves featured in all Duravit bathroom cabinets irrespective of the price segment. They are height-adjustable, re-movable without the need for tools and easy to clean - for example in the dishwasher. And incidentally, they look pretty elegant, too!

Designed from top to toe. This picture shows the love for detail that goes into every piece of Duravit furniture. Where other manufacturers put ordinary run-of-the-mill feet underneath their design pieces, at Duravit, the designer also pays attention to such small "details". All of Duravit's designer ranges are proof of just how well wood and ceramics go together - The result is a harmonious ensemble comprising bathroom furniture, the coordinating ceramics range and matching accessories.

Water in the best possible light. Sure, sometimes things can get playful, and above all wet, in the bathroom. Just as well all Duravit light fittings are optimally protected against splashing, in the case of overhead light spots by a plexi-glass cover (IP 21). So: splashing allowed - because with our lighting systems everything stays bright and safe.

All around the world
