Palmer

Reflective design, distinctive appearance

Palmer Table
Designers Speak Collection
Designed by Yohandel Ruiz of RTKL

The repeating elements of Palmer tables create a mirror effect; it is as though the tapered legs and solid top are reflected at the base. This is not surprising given the tables are named after a seaside hotel in Miami's South Beach. A wide selection of materials for bases and tops offers just the right amount of choices to complement any environment.

The wood base can be paired with a solid surface top

Solid wood components ensure beauty and strength

Console tables can have painted glass tops in a variety of colors

Specifications

Side, coffee and console tables are available in maple veneers and solids with wood, painted glass or solid surface tops.

Options

- Top: A maple veneer top is standard. .5" thick solid surface material or .25" thick painted glass in a range of colors are also available.
- Finishes: Standard and custom finishes on Maple
