# Currency Desks, Desk Shells, Returns, Return Shells, and Bridges

The below Currency desks, bridges, and returns are being culled Spring 2024. See [Steelcase.com](https://www.steelcase.com) for information on replacement style numbers.

**Desks** are freestanding and are available with and without pedestals, to create a desk shell, single pedestal desk, or double pedestal desk.

►Specifying, page 112

**Returns** are available with and without pedestals, to create a single pedestal return or return shell. Returns attach to desks or credenzas to form an L-shape configuration. Attachment brackets are included with returns.

►Specifying, page 126

**Bridges** must attach to a worksurface on each side to create a U-shape configuration. Attachment brackets are included with bridges.

►Specifying, page 132

**Desk and return shells** can be used with 22<sup>3</sup>/<sub>4</sub>"D and 27<sup>7</sup>/<sub>16</sub>"D freestanding pedestals or mobile pedestals for a customized storage solution.

## Product Details

**36"D desks** have a 6" overhang on the visitor side. End panels/pedestals will be 30"D.

**Clear access end panels** are available with desks to provide structural support, while maintaining clearance for under worksurface knee space. They include a cord pass through cut out, and are not to be used as a visible end panel.

**Pulls on desks and returns with pedestals** are available in a variety of shapes.

**Lock** is standard on desks and returns with pedestals. Lock is located in the bottom drawer, and locks the drawer it is located in, and the one above. Locks are specified with storage, but shipped separately. Locks are field installed.

**Leveling glides** adjust to install desks and returns on uneven floors and have a 1<sup>1</sup>/<sub>4</sub>" adjustable glide range.

## Application Topics

**60"W or wider desk shells** require a reinforcing channel, due to unsupported kneespace 54" or greater. 72"W or wider desks receive a center support.

**If one clear access end panel is specified on desk shell**, the desk shell must be attached to an adjoining worksurface(s). If two clear access end panels are specified on desk shell, the desk shell must be used like a bridge in a U-shaped configuration. Desk shells with clear access end panel(s) can not be freestanding.

*Tip: Desk shells wider than 72"W not available 18<sup>7</sup>/<sub>8</sub>"D–23<sup>5</sup>/<sub>16</sub>"D.*

**If a bridge is specified in a U-shaped configuration**, a reinforcing channel must be used with 54"W or more of unsupported knee space.

# Currency Desks, Desk Shells, Returns, Return Shells, and Bridges

Worksurface/ Top Thickness – 1 3/8" core	1 3/8"	1 7/16"	1 3/8" core with HPL (1 7/16") is the same thickness as HPL Elective Elements worksurfaces

## Product Details

**Common tops/worksurfaces** are available in either Low-Pressure Laminate or High-Pressure Laminate.

**Common tops/worksurfaces** have 1 1/8" thick and 1 3/8" core thickness. Please see actual dimensions table below for core thickness plus materiality thickness.

**Common tops/worksurfaces** have 3 mm plastic edge banding on the front (user's) side. Sides and back have matching 1 mm edge.

**The actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) tops** are slightly different. It is recommended that only tops of the same type are specified in a given application. There may be sheen or texture differences when using Low-Pressure Laminate and High-Pressure Laminate in adjacent applications. Use caution when mixing and matching different worksurface types.

**Worksurfaces** used as a table, up to 84"W, require four legs and appropriate reinforcing channels. Worksurfaces 84 1/16"–120"W require six legs and appropriate reinforcing channels.

**Worksurfaces** used in a run-off application with two legs, secured to another worksurface with bracketry, can be no longer than 72"W and must use appropriate reinforcing channels.

**Reinforcing channels** must be used with tops larger than 54"W for 54"D or more of unsupported kneespace. Any common top used as a table with legs equal to or larger than 30"D x 72"W requires two reinforcing channels.

**Grommets** are 3" in diameter and are available on worksurfaces.

**Corner grommets** are 3<sup>5</sup>/<sub>16</sub>" from the edge of the worksurface.

**Center grommets** are 3<sup>5</sup>/<sub>16</sub>" from the visitor side.

**If creating an application with four legs as supports,** do not specify left or right-hand grommets. Grommet cut out will interfere with leg location.

**If creating a run-off application with two legs as supports,** do not specify grommets on the side that has legs as supports. Grommet cut out will interfere with leg location.

**Grommets** do not interfere with hanging modesty panels.

**Grommet placement recommendations by size** include:

- No grommets on worksurfaces less than 18"D
- Center grommet only on worksurfaces 15"W–29.9375"W
- Left, right, or center grommet only on worksurfaces 30"W–41.9375"W
- Any placement of one, two, or three grommets on worksurfaces 42"W and above

**Support plates** are available to connect two worksurfaces and allow one to support the other.

**Tie plates** are available to provide added strength and alignment between two worksurfaces.

**Square legs** are 2" x 2" and available individually. Legs come in three heights. See **CRSQB** for more information.

**Square legs** can be used to create stand-alone table desk or a return. Specify two legs to create a return, and specify four legs to create a table desk.

**Post leg** is available individually. Leg is 27<sup>3</sup>/<sub>8</sub>"H with glide. Glide adjusts 2".

**Post legs** can be used to create a stand-alone table desk or return. Specify two legs to create a return and four legs to create a table desk.

**Column leg** is 6", and 27<sup>3</sup>/<sub>8</sub>"H with glide. Glide adjusts 1<sup>1</sup>/<sub>4</sub>".

**Column leg** can be used to create a return.

## Application Topics

**When specifying a Currency parametric common top over a run of storage,** use SmartTools to determine the correct dimension to be specified.

**Common top dimensions** are calculated in SmartTools using six major factors:

- Product combination—dimensions of common top vary pending storage combinations in the application.
- Top offset—the width of the common top is not equal to plan width and is undersized for panel applications.
- Case offset—width of the top changes between HPL and LPL.
- Case vs. top offset—difference between end panel face to top.
- Ganging offset—width of the common top reduces if units gang together.
- Parametric rounding—parametric common tops round to the nearest 1/16<sup>th</sup> of an inch.

**Common top width examples:**

- Two pedestals HPL: 31<sup>13</sup>/<sub>16</sub>"
- Two pedestals LPL: 31<sup>5</sup>/<sub>8</sub>"

**Due to nominal versus actual dimensions,** the common top total dimension may calculate to be smaller than anticipated.

**Currency table tops** are available in the following shapes: round, square, rectangle, racetrack, and boat.

**All tops** are available parametrically in  $\frac{1}{16}$ " increments.

**Two-piece tops** will occur when the top is in Low-Pressure Laminate and larger than  $95\frac{3}{4}$ "W, and in High-Pressure Laminate and larger than  $119\frac{15}{16}$ "W. Tops will be split into two equal sections and ship with connecting hardware.

**Low-Pressure Laminate two-piece tops** will not have matching grain patterns.

**All High-Pressure Laminate two-piece tops** above 144"W will not have matching grain patterns.

**Woodgrain High-Pressure Laminate two-piece tops** 120"W–144"W will have matching grain patterns.

**Rectangular table base** is available in Low- and High-Pressure Laminate, and accommodates routing of power and data cords. Access is provided by a hinged door.

**Interior dimensions of rectangular base** is  $13\frac{5}{8}$ "W by  $2\frac{1}{4}$ "D in the center to allow for floor power and data box placement.

**Steel X- and T- bases** are available in 26"W and 36"W.

*Tip: When specifying a conference table, base size is predetermined by the selections made, and cannot be changed.*

**Steel post leg** is 3" in diameter.

**Steel column leg** is 6" in diameter.

**Steel square leg** is available in three different heights to create a range of table applications, including conferencing, end tables, and coffee tables.

## Power, Wiring & Cabling

**Grommet option** allows for either no grommet or hinged door power unit.

**Hinged door power unit** has two power outlets and openings for two data ports. The bottom of the units is open to allow pass-through of power and data cables to the floor. Available as an option on conference table tops and as a separate style number.

### Rectangular table base

accommodates routing of power and data cords. Access is provided by a hinged door.

**Round grommets** are available as a separate style number, and are field installed. Grommets are  $2\frac{3}{4}$ " in diameter and allows for cable and cord pass-through in the worksurface.

# Currency Pedestals

Fixed and Mobile

A subset of the below Currency pedestals are being culled Spring 2024. See [Steelcase.com](https://steelcase.com) for information on replacement style numbers. New pedestal style numbers are available as quote only with FOE Fall 2024.

**Fixed pedestals** are floor standing and can support worksurfaces at 21<sup>11</sup>/<sub>32</sub>"H or 27<sup>11</sup>/<sub>32</sub>"H.

*Tip: Using Currency storage with Universal Steel storage is not recommended.*

► Specifying, page 164

**Top** is open on fixed pedestals and accommodates attachment to a worksurface. Attachment hardware is included.

**Drawer fronts** are available in Low-Pressure Laminate and High-Pressure Laminate, and are full to the bottom of the case (no toe kick).

**Finished back and sides** are standard on pedestals.

**File drawers** open their full depth for total access to the contents and have an integrated U-channel on the drawer bodies for hanging file folder frames.

**Mobile pedestals** can be moved wherever storage is needed. They provide an auxiliary worksurface when you need more space to spread out your work.

► Specifying, page 170

*Tip: Two-High mobile pedestals do not fit under desks with reinforcement channels.*

**Top on mobile pedestal** is 1<sup>1</sup>/<sub>8</sub>" thick and is available in Low-Pressure Laminate and High-Pressure Laminate.

**Pulls on pedestals** are available in a variety of shapes.

**Lock** is standard on pedestals. Lock is located in the bottom drawer, and locks the drawer it is located in and the one above. Locks are specified with storage, but shipped separately. Locks are field installed.

**Leveling glides** adjust to install pedestals on uneven floors and have a 1<sup>1</sup>/<sub>2</sub>" adjustable glide range.

**Mobile pedestal cushion top** provides a temporary seat ideal for informal gatherings. Cushion top is ordered separately and requires field installation.

► Specifying, page 172

*Tip: Two-High mobile pedestals with a cushion top will not fit under a desk.*

**Four casters** are hard composition and non-locking, with a full-rotation swivel.

## Product Details

**Drawers** are black, bore and dowel construction.

**File drawer body** is standard with integrated U-channel to accommodate hanging folder files.

**All pedestal file drawers** accommodate front-to-back and side-to-side letter filing.

**24"D, 29<sup>1</sup>/<sub>16</sub>"D, and 30"D pedestal file drawers** also accommodate side-to-side legal filing. ▶ See page 96

**Pencil tray to hold small office supplies** is standard with pedestals with box drawers.

**21<sup>3</sup>/<sub>8</sub>"H fixed pedestal** can be used in combination with other 1.5-High lower storage to create a variety of storage options.

**27<sup>5</sup>/<sub>16</sub>"H fixed pedestal** can be used in combination with other Two-High lower storage to create a variety of storage options.

**Pulls on pedestals** are available in the following styles: ledge, handle, contemporary, jazz, transitional, Nile, bar, and inset.

**Pilot-hole to pilot-hole dimensions** are as follows:

- Ledge: 96 mm
- Handle: 96 mm
- Contemporary: 128 mm
- Jazz: 128 mm
- Transitional: 160 mm
- Nile: 160 mm or 320 mm (depending on storage type)
- Bar: 128 mm
- Inset: N.A.

**Lock cylinders** are available field-installed. Pedestals are shipped installed with plugs, with lock cylinders separate.

**Optional field installed locks** are available with consecutive, specific, and random keying options.

Field installed lock cylinders, **LOCK9201FR** or **LOCK9250FR** must be specified separately. When cylinders are ordered, the factory will omit lock cylinders from all Currency storage products.

▶ Lock and Keying, page 572

**Mobile pedestal cushion top** is field installed with screws. See assembly instructions for details.

**Counterweight packages** are required to ensure product stability and are ordered as an option, or separately through service parts.

**Counterweights** are not needed when under worksurface pedestals are installed in an L-shape, U-shape, or T-shape configuration.

**Counterweights** are required when stacking storage (overheads and bookcases) is mounted to the worksurface, and less than the full width of the worksurface.

**Counterweights** are not required when stacking storage is mounted to the worksurfaces, and is full width of the worksurface.

**Counterweights** are available as a service part package for use when furniture is reconfigured into application which require the use of counterweights.

## Connections

**Fixed pedestals** are intended to attach under a worksurface for security and support. Pedestals match the depth of Universal worksurfaces exactly, or can be paired with Currency parametric common top.

**Fixed pedestals** are not to be used alone as a free-standing unit, and must be used with other furniture.

**Pedestals using common tops** must be attached to other storage, a perpendicular worksurface, or a panel. A maximum 6" overhang of the worksurface is allowed on either side, or back.

**Tops** can be optioned on to low storage and laterals, and are either 1<sup>1</sup>/<sub>8</sub>" or 1<sup>3</sup>/<sub>8</sub>" thick. If no top is selected, low storage and laterals accommodate attachment to a worksurface or common top. Attachment hardware is included.

**Drawer and door fronts** are available in Low-Pressure Laminate and High-Pressure Laminate, and are full to the bottom of the case (no toe kick).

**Finished back and sides** are standard on low storage and lateral files. Recessed back option has an unfinished back.

**File drawers** open their full depth for total access to the contents and have an integrated U-channel on the drawer bodies for hanging file folder frames.

**Adjustable shelf thickness** is ¾".

**Pull on low storage with doors and laterals** is available in a variety of shapes.

**Lock** is standard on low storage with doors and lateral files. Lock is located in the top left corner of the right handed door of low storage with doors. Lock is located in the bottom drawer of lateral files, and locks the drawer it is located in and the one above. Locks are specified with storage, but shipped separately. Locks are field installed.

**Recessed back option** provides access to power and data outlets in panel, beam, or wall.

**Leveling glides** adjust to install low storage and laterals on uneven floors and have a 1<sup>1</sup>/<sub>4</sub>" adjustable glide range.

## Product Details

**Drawers** are black, bore and dowel construction.

**File drawer body** is standard with integrated U-channel to accommodate hanging folder files.

**36"W file drawers** accommodate front-to-back and side-to-side letter filing, as well as front-to-back legal filing. 24"D file drawers also accommodate side-to-side legal filing.

**30"W file drawers** accommodate front-to-back and side-to-side letter filing, as well as front-to-back legal filing. 24"D file drawers also accommodate side-to-side legal filing.

**Safety interlock system** allows only one drawer to be rolled out at a time.

**Two-High lower storage** has three holes for adjustable shelf placement, spaced 1 1/4" apart. When the adjustable shelf is in the bottom position, the top shelf has 12 1/4" of usable space, and the bottom shelf has 10 1/16" of usable space. Units greater than 36"W have a reinforcement brace to support structural integrity of the shelf and will have 1.06" less of storage clearance below the shelf.

**1.5-High lower storage** has three holes for adjustable shelf placement, spaced 1 1/4" apart. When the adjustable shelf is in the bottom position, the top shelf has 6 5/16" of usable space, and the bottom shelf has 10 1/16" of usable space. Units greater than 36"W have a reinforcement brace to support structural integrity of the shelf and will have 1.06" less of storage clearance below the shelf.

**Pulls on low storage with doors and lateral files** are available in the following styles: ledge, handle, contemporary, jazz, transitional, Nile, bar, and inset.

**Pilot-hole to pilot-hole dimensions** are as follows:

- Ledge: 96 mm
- Handle: 96 mm
- Contemporary: 128 mm
- Jazz: 128 mm
- Transitional: 160 mm
- Nile: 160 mm or 320 mm (depending on storage type)
- Bar: 128 mm
- Inset: N.A.

**Lateral files** receive the 320 mm Nile pull. All other storage units receive the 160 mm Nile pull.

**Locks** are available field-installed. Low storage with doors and lateral files are shipped installed with plugs, with the locks separate.

**Optional field installed locks** are available with consecutive, specific, and random keying options. Field installed lock cylinders, **LOCK9201FR** or **LOCK9250FR** must be specified separately. When cylinders are ordered, the factory will omit lock cylinders from all Currency storage products.

► Lock and Keying, page 572

**Counterweight packages** are required to ensure product stability and are ordered as an option, or separately through service parts.

**Counterweights** are not needed when lateral files are installed in an L-shape, U-shape, or T-shape configuration.

**Counterweights** are required when stacking storage (overheads and bookcases) is mounted to the worksurface, and less than the full width of the worksurface.

**Counterweights** are not required when stacking storage is mounted to the worksurfaces, and is full width of the worksurface.

**Counterweights** are available as a service part package for use when furniture is reconfigured into application which require the use of counterweights.

**Counterweight type and quantity** varies depending on size and storage configuration. Units with counterweights will ship with either standard or steel counterweights. Steel counterweight pricing will equal the price of two standard counterweights.

**One adjustable shelf** is included in 1.5-High and Two-High open and hinged door configurations.

**Recessed back storage** includes laminate front and sides. The back of the storage is inset 3 3/4" to allow access to Answer beam power receptacles. Recessed back storage does not include a top.

**Square edge tops with 1/2" cord drop** are ordered separately through Universal Systems Worksurfaces. Specify option hinged door for power and data outlet access.

► See Answer Freestanding Specification Guide.

**Currency storage with recessed back** should be used when storage will be placed in front of a power outlet.

**When One-High or 1.5-High storage is used in conjunction with intermediate supports or stanchions,** specify no top open and order square edge tops with 1/2" cord drop or common top separately.

**Ganging hardware** is available to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

**Side-by-side units with individual tops** will result in a nominal 3/32" gap.

## Wiring and Cabling

**Use mid storage supports** attached to 1.5-High and Two-High laminate storage to support the opposite end of stanchion mounted storage on an Answer beam. ▶ See *Answer Beam and Answer Fence Specification Guide*.

**Recessed back units** cannot be used to conceal base power infeed. ▶ See *Answer Beam and Answer Fence Specification Guide*.

## Application Topics

**223/4"D low storage and laterals** are for use with desk and return shells. Their depth allows them to slide under a desk or return shell to create an array of storage configurations.

**Intermediate supports** are used with Currency One-High or 1.5-High storage as a worksurface support, allowing for nesting of low storage. Use square edge tops with 1/2" cord drop when used in beam applications.

**Storage to beam connector** attaches to One-High, 1.5-High, and Two-High storage to Answer beam to support a beam segment. Connector must attach to a finished back. One-High, 1.5-High, and Two-High storage can not be placed over Answer beam foot.

**Storage-to-beam connector** can not be used with Answer panels.

## Product Details

**Laterals** cannot be placed over an Answer panel foot.

**Pulls** are available in a variety of shapes.

**File drawer body** is standard with integral top rail to accommodate hanging folder files. Drawers are a black bore and dowel construction with a proud front.

**Safety interlock system** allows only one drawer or roll-out shelf to be opened at a time.

**No-top option for lateral files** is available for installations where cases will be installed under a worksurface or beneath a common top shared among several lateral files. Hardware is included to attach case to worksurface.

**Pulls on lateral files** are available in the following styles: ledge, handle, contemporary, jazz, transitional, Nile, bar, and inset.

**Pilot-hole to pilot-hole dimensions** are as follows:

- Ledge: 96 mm
- Handle: 96 mm
- Contemporary: 128 mm
- Jazz: 128 mm
- Transitional: 160 mm
- Nile: 160 mm or 320 mm (depending on storage type)
- Bar: 128 mm
- Inset: N.A.

**Lateral files** receive the 320 mm Nile pull. All other storage units receive the 160 mm Nile pull.

**Locks** are available field-installed. Lateral files are shipped installed with plugs, with the locks separate.

**36"W file drawers** accommodate front-to-back and side-to-side letter filing, as well as front-to-back legal filing. 24"D file drawers also accommodate side-to-side legal filing.

**30"W file drawers** accommodate front-to-back and side-to-side letter filing, as well as front-to-back legal filing. 24"D file drawers also accommodate side-to-side legal filing.

**Optional field-installed locks** are available with consecutive, specific, and random keying options. Field-installed lock cylinders (**LOCK9201FR** or **LOCK9250FR**) must be specified separately. When cylinders are ordered, the factory will omit lock cylinders from all Currency products.   
► *Lock and Keying*, page 572

**Ganging hardware** is available to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

**Counterweight packages** are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

# Currency One-High and 1.5-High Open Storage for Ology, Migration SE, and Slim Leg HAD Applications

**Currency One-High and 1.5-High open storage** are available with options to accommodate Ology, Migration SE, and Slim Leg HAD leg integration. They provide a clean aesthetic with an efficient footprint. Ease of access to your items under the desk is convenient with the open storage configuration.

► Specifying, page 178

**Wire manager** keeps wires tidy and functionally flexes vertically.

**Grommet** provides a clean area where the desk leg integrates.

**Units** come without tops. Currency tops for Ology, Migration SE, and Slim Leg HAD applications are ordered separately.

**Usable depth in One-High and 1.5-High open storage** is 10<sup>1</sup>/<sub>8</sub>" D for Ology application and 9<sup>3</sup>/<sub>10</sub>" D for Migration SE and Slim Leg HAD applications.

**Shelf thickness** is 3/4".

**Leveling glides** adjust to install on uneven floors and have a 1 1/4" adjustable glide range.

## CAUTION

**1.5-High HAD integrated storage** can only be used with basic height Ology and Migration SE.

Actual Dimensions		
	One-High	1.5-High

Width	30"–72"	30"–72"
Height	15 <sup>3</sup> / <sub>8</sub> "	21 <sup>3</sup> / <sub>8</sub> "

\* Top depth is 18<sup>7</sup>/<sub>8</sub>", case depth is 18", to align with any other open low storage (example: open credenza).

## Product Details

**One-High open storage** can be used with Ology extended range desks, Ology basic range desks, Migration SE extended range desks, Migration SE basic range desks, and Slim Leg HAD.

**1.5-High open storage** can be used with Ology basic range desks, Migration SE basic range desks, and Slim Leg HAD.

**One-High and 1.5-High open storage** have a merle painted steel, removable interior back panel to allow access to the base.

**One-High and 1.5-High open storage** cannot be interchanged. Use Ology open storage with Ology desk, Migration SE open storage with Migration SE desk, and Slim Leg HAD open storage with Slim Leg HAD.

**Units smaller than 42"W** have one opening. Units 42"W and larger have a center support.

Open back

Finished back

**Ology, Migration SE, and Slim Leg HAD open units** offer an option of open back or a finished back for use in applications where the back of the unit is exposed, such as an aisle-way.

**Open back units for Ology desks** have 6" clearance. Open back units for Migration SE and Slim Leg HAD units have 7<sup>2</sup>/<sub>25</sub>" clearance.

**Integrated storage options** that apply to One-High and 1.5-High units are only meant for use with the specified height-adjustable desk. For example, open storage specified for Migration SE cannot later be blended with Ology.

**Integrated open laterals** do not accommodate 24"D, 30"D, or 36"D Migration SE worksurfaces. See actual dimensions chart on next page.

## Application Topics

**Base units are non-handed.** Handedness is identified in the specification of the tops, which are ordered separately.

**Application** is determined by which leg of the desk is located inside the storage.

**Location of the Ology, Migration SE, and Slim Leg HAD port in tops** is determined by the application orientation. If right leg is integrated into storage, it is a right application. Ology or Migration SE desks cannot be placed in the middle of the Currency common top.

**Currency tops for Ology, Migration SE, and Slim Leg HAD application** feature a cut-out for legs and are used on individual storage units.

**Currency common tops for Ology, Migration SE, and Slim Leg HAD application** can be used with two units side-by-side when one storage unit is required for leg integration.

**Currency common tops for Ology, Migration SE, and Slim Leg HAD open units application** are available when ganging height adjustable desk integrated storage units to other Currency lower storage units of the same height and depth.

**Universal privacy/modesty screens** must be undersized and justified to the outside when used with a storage unit.

**To help avoid pinch points**, the Currency One-High and 1.5-High lower storage for height-adjustable desk application extends 1" past the back of the height-adjustable desk worksurface.

## Product Details

**Open/open credenzas** are divided evenly with a single center support in all widths.

**Open/lateral file credenzas 42"W-65<sup>15</sup>/<sub>16</sub>"W** receive a 30"W file drawer. 66"W open/lateral file credenzas and above receive a 36"W lateral file.

**Lateral file/lateral file credenzas in 60"W** include two 30"W file drawers.

**Lateral file/lateral file credenzas in 66"W** include one 36"W file drawer and one 30"W file drawer. Specify which side you want which size lateral file on.

**Lateral file/lateral file credenzas in 72"W** include two 36"W file drawers.

**Lateral file/cabinet credenzas 60"W-65<sup>15</sup>/<sub>16</sub>"W** receive a 30"W file drawer. 66"W lateral file/cabinet credenzas and above receive a 36"W lateral file.

**Cabinet/cabinet credenzas** are divided evenly with a double center support on 60"W-72"W cases. All widths include four doors.

**Credenzas with kneespace** are available 60"-72"W and include either a left, right, or double pedestal configuration.

**Reinforcing channels** are ordered separately and must be used on credenzas that have 54"W or more of unsupported kneespace (70"W single pedestal units).

**Pulls** are available in the following styles: ledge, handle, contemporary, jazz, transitional, nile, bar, and inset.

**Pilot-hole to pilot-hole dimensions** are as follows:

- Ledge: 96 mm
- Handle: 96 mm
- Contemporary: 128 mm
- Jazz: 128 mm
- Transitional: 160 mm
- Nile: 160 mm or 320 mm (depending on storage type)
- Bar: 128 mm
- Inset: N.A.

**Lateral files** receive the 320 mm nile pull. All other storage units receive the 160 mm nile pull.

**File drawer body** is standard with integrated U-channel to accommodate hanging folder files.

**1/4-height modesty panels** are intended for use up against a wall to provide 20<sup>3</sup>/<sub>4</sub>" of clearance from the floor to the bottom of the modesty panel for wall power access, or 13<sup>3</sup>/<sub>4</sub>" of clearance from the top of the bottom stretcher to the bottom of the modesty panel. Top modesty and bottom stretcher are 6<sup>1</sup>/<sub>2</sub>" tall. Bottom stretcher is included when 1/4-height modesty is specified.

**Modesty panels and back panels** have horizontal grain direction.

**End panels** have vertical grain direction.

**Recessed-back credenzas** inset the back of the storage by 3/4" to allow access to Answer beam power receptacles. Storage does not include a top.

**Currency credenza with recessed back** should be used when storage will be placed in front of a power outlet.

**Square edge laminate top with 1/2" cord drop** must be specified with door location that aligns with outlet location on Answer Beam.

**Square edge laminate tops** feature option power access door and can be used as individual storage tops or common tops.

► See *Answer Freestanding Specification Guide*.

**Basic cushion** is available for use on 1.5-High and Two-High credenzas. Basic cushion is ordered separately and requires field-installation.

► See *Storage Specification Guide*.

*Tip: Basic cushion is available on Currency credenzas with a top only.*

**Grommets** are 3" in diameter and available on kneespace credenzas.

**Corner grommets** are 3 5/16" from the edge of the worksurface.

**Center grommets** are 3 5/16" from the visitor side.

**Locks** are standard on credenzas. Lock cylinders must be specified separately, and are field installed.

► Lock and Keying, page 572

**Field installed locks** are available with consecutive, specific, and random keying options. **LOCK9201FR** or **LOCK9250FR** must be specified separately.

**Counterweight packages** are required to ensure product stability and are included in credenzas, or are available separately through service parts.

**Counterweight type** varies depending on size and storage configuration. Units with counterweights will ship with either standard or steel counterweights. Steel counterweight pricing will equal the price of two standard counterweights.

#### Storage capacities and dimensions

► See page 96

## Application Topics

**Credenzas used to support one end of overheads or organizers** must be connected to Answer Beam using storage-to-beam connector. Use single-sided stanchion kit to connect to Answer Beam and use mid-storage supports.

**Storage-to-beam connector** can not be used with Answer panels.

► See *Answer Beam and Answer Fence Specification Guide*.

**Mid-storage supports** can be used with credenzas to support the opposite end of stanchion-mounted storage on an Answer beam. These supports can also be used on both ends of an overhead unit to support if freestanding.

**Mid-storage supports** can be used on both ends of an overhead unit to the credenza unit. Credenza must be 1.5-High and include a lateral file.

# Currency Bookcases

**Bookcases** offer convenient storage for binders, books, and other objects.

► Specifying, pages 194 and 198

*Tip: Using Currency storage with Universal Steel storage is not recommended.*

**When specifying stacking bookcases,** selecting the correct worksurface thickness of storage below, materiality, and overall desired height of the application ensures that the stacking bookcase aligns with neighboring tall storage. Bookcase height is calculated on the backend.

► See *Specifying Stacking Bookcases*, page 84

**Top** is standard 1"H laminate.

**Finished back** is standard.

**Top shelf** is 15" below the top of the stacking bookcase, aligning with Currency overhead bin height for a clean visual in applications with stacking bookcases and overheads.

**Shelves** adjust in 1 1/4" vertical increments using a reversible bracket.

**Adjustable shelf thickness** is 1".

**Leveling glides** adjust up to 1 1/4" to install bookcase on uneven floors.

## Product Details

**Bookcases** cannot be placed over an Answer panel foot.

**Bookcases** are available with adjustable shelves. Shelves can be repositioned without using tools.

**The number of adjustable shelves per bookcase** depends on case height:

- 41<sup>3</sup>/<sub>4</sub>"H – 2 adjustable shelves
- 47<sup>15</sup>/<sub>16</sub>"H – 2 adjustable shelves
- 54<sup>1</sup>/<sub>8</sub>"H – 3 adjustable shelves
- 66<sup>1</sup>/<sub>2</sub>"H – 4 adjustable shelves
- 72"H – 4 adjustable shelves
- 78"H – 4 adjustable shelves
- 84"H – 4 adjustable shelves

► See *Bookcase Shelf Counts*, page 86.

**Standard-size binders** will fit in bookcases with adjustable shelves.

**Ganging hardware** is available to provide alignment by joining adjacent components side-by-side, back-to-back, or both. Currency bookcases 66<sup>1</sup>/<sub>2</sub>"H and larger must be placed against a wall, if not ganged back-to-back.

**When specifying stacking bookcases,** selecting the correct worksurface thickness of the application ensures that the stacking bookcase aligns with other tall storage.

**When specifying stacking bookcases,** selecting the overall application height desired ensures that the stacking bookcase aligns with other tall storage. For example, to specify a stacking bookcase that goes into an application with a Two-High low storage unit and a 72"H tower, specify 72"H application height on **CRBKS2H**. To specify a stacking bookcase that goes into an application with a 1.5-High low storage unit and a 72"H tower, specify 72"H application height on **CRBKS15H**.

**Stacking bookcases** must be used with One-High, 1.5-High, or Two-High laterals or lower storage. Stacking bookcases cannot be freestanding.

**Stacking bookcases** can be shorter than the supporting worksurface as long as a worksurface support or side panel of a storage unit is used under the worksurface within 6" of where the side of the stacking bookcase is loaded.

**Stacking bookcase width** must be within 6" of the under-worksurface storage width.

# Currency Towers and Wardrobes

## Towers and wardrobes

provide storage for a variety of work and personal items including: paper, binders, books, and coats.

► Specifying, pages 254–266 and 272

*Tip: Using Currency storage with Universal Steel storage is not recommended.*

**Towers** are available in a variety of configurations combining coat storage, fixed and adjustable shelves, and box and file drawers.

**Locker space** is 8" wide and standard with a coat hook on the hinge side of the door.

**Locks** are standard on door and drawers. Lock cylinders must be specified separately, and are field installed.  
► Lock and Keying, page 572

**Finished back** is standard.

**Drawers** open their full depth for total access to the contents.

**Leveling glides** adjust to install tower and wardrobe on uneven floors and have a 1¼" adjustable range.

Shelf thickness is ¾".

The wardrobe side of dual door and side access towers 66"H and above receive a fixed top shelf.

**Coat rods** are black plastic coated steel and 0.745" in diameter. Coat rods are available on 24"D wardrobes.

**Wardrobes 54¾"H and taller** receive a fixed top shelf.

**Field installed locks** are available with consecutive, specific, and random keying options. Field installed lock cylinders, **LOCK9201FR** or **LOCK9250FR** must be specified separately.

► Lock and Keying, page 572

**Ganging hardware** is available to provide alignment by joining adjacent storage components side-by-side, back-to-back, or both.

**Wardrobes** must be attached to adjacent storage, a wall, or in a run of multiple wardrobes, to ensure stability and prevent tipping. See *Wardrobe Stability Guidelines*, page 83, for details of how many wardrobes are required in the run based on wardrobe size.

**Towers 72"H and taller** must be attached to another unit or the wall.

**Counterweight packages** are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

**Side access tower construction** is as follows:

- Front panel over top panel
- Top panel over back panel

### Surface Materials

**Currency storage** can be specified with different case, headset, and top laminate finishes.

*Tip: LPL headsets cannot be specified with HPL cases.*

# Currency Overheads and Organizers

A subset of the below Currency overhead and organizer styles are being culled this Spring 2024.  
See [Steelcase.com](https://www.steelcase.com) for information on replacement style numbers.  
New overheads and organizers style numbers are available as quote only with FOE Fall 2023.

**Currency overheads and organizers** provide storage above a worksurface and can be used in a variety of applications.  
*Tip: Using Currency storage with Universal Steel storage is not recommended.*  
► Specifying, pages 208–228

**Sliding door overheads** have a non-locking sliding door. Door is available in Low-Pressure Laminate, High-Pressure Laminate, and optional markerboard surface.  
*Tip: Markerboard is slightly thicker than the standard laminate.*

**Hinged door overheads** have two, three, or four locking doors depending on width. Doors are available in Low-Pressure Laminate and High-Pressure Laminate.  
*Tip: Markerboard is slightly thicker than the standard laminate.*

**Open overheads** have two equal-spaced openings.

**Stacking overheads** have end panels that allow the storage to sit on top of a worksurface. Stacking overheads allow for easy installation, and do not require anchoring to a wall. Stacking overheads must be placed up against a wall or back to back with a similar height unit.

**Stacking overheads** include a 1 1/2" reveal for cable management.

**Personal overhead and organizer configurations** provide access on one side of a unit. Cases have a fixed divider in the middle.

**Lock** is standard on overheads with hinged doors. Locks are specified with storage, but shipped separately. Locks are field installed.

**Shared overheads and organizer configurations** provide dual sided access.

**Finished top, back, and sides** are standard on overheads and organizers.

### Currency overheads and organizers

provide support and storage for users in beam-based settings. A number of configurations are available to support storage in parallel and perpendicular orientation to the beam, in both shared and personal storage configurations.

**Overheads** mounted perpendicular to the beam and low storage provide personal storage and privacy between users.

► See *Answer Beam and Answer Fence Specification Guide* for stability guidelines.

**Overheads** mounted parallel to the beam provide shared storage and privacy along the beam.

\*\*\* Units are 1<sup>1</sup>/<sub>2</sub>" wider than module to partially overlap the Answer beam.

## Product Details

**Currency overheads and organizers** mount on Answer as face mount, top cap mount, and perpendicular face mount applications.

**Two cap mount brackets** are available in Answer Solutions Specification Guide for use with Currency overheads and organizers. ▶ See Stability Guidelines in *Answer Solutions Specification Guide*.

**Currency overheads** may be mounted at 38"H or lower if another panel mounted component prevents it from being seated upon. Overhead storage height accepts standard and A4 binders.

**Organizers** are available personal or shared. Personal provides storage on one side only. Shared storage is divided down the center, with half storage on one side and half storage on the opposite side. Personal storage has a center divider.

**Currency overheads** are designed differently than Currency overheads. Please note Currency overheads do not have a light-concealing valence. If light is still to be added to underside of overhead, refer to "actual dimension" tables of lighting options to confirm light width doesn't exceed case width.

**Stacking overheads** attach to the top of a credenza, desk, desk shell, or Two-High freestanding laterals or low storage, using hardware included with the overhead unit. When placed on top of multiple lateral files or low storage, the storage units must be ganged together. Stacking overheads have a 1½" reveal for cable pass-through.

**Under worksurface storage width** must be no greater than 6" wider than stacking overhead.

**Stacking overheads** cannot be used with lateral file/lateral file credenza configurations.

**Stacking overheads** cannot be used with P- or D-shape freestanding work-surfaces.

**Wall mount overheads** have a 1" gap between the back panel and end panel.

**Locks** are standard on overheads with hinged doors. Lock cylinders must be specified separately, and are field installed.

**Field installed locks** are available with consecutive, specific, and random keying options. Field installed lock cylinders, **LOCK9201FR** or **LOCK9250FR** must be specified separately.

▶ Lock and Keying, page 572

**Stacking overheads** are designed to align with other Currency tall storage heights. 38"H stacking overheads align with 66"H tall storage. 44"H stacking overheads align with 72"H tall storage.

**Selecting the correct worksurface thickness of the application** ensures that the stacking overhead aligns with other tall storage.

## Application Topics

### Clearance between work surface and bottom of overhead

is 21<sup>3</sup>/<sub>8</sub>" when storage unit is installed in the highest position on a 66"H panel and glides are adjusted all the way into the panel.

**Hanging components** cannot hang in front of a double-pane window.

**Hanging components** cannot be used next to a double-pane window at a 90° corner.

### Bracket options

► Page 67

### Stability Guidelines

► See *Answer Beam and Answer Fence Specification Guide*.

## Answer Beam Application

► See *Answer Beam and Answer Fence Specification Guide*.

### Standard width overheads and organizers

are on-module to align with Answer beam widths and should be used in parallel application with the beam.

### Overheads and organizers for perpendicular application

are intended for use only with Answer Beam. They are wider than module width to accommodate the width of the beam and remain on-module with storage below.

### In all Answer Beam applications where overhead or organizer

are being mounted on Answer Beam, select the appropriate bracket option. Mid-storage support and stanchion kits for mounting with Answer Beam must be ordered separately.

► See *Answer Beam and Answer Fence Specification Guide*.

### Units for single-sided perpendicular application

are dimensioned 3" wider than module width to fully overlap the beam and align with on-module storage on the other end.

*Tip: Units for single-sided perpendicular application should only be used with Answer Beam.*

### Units for dual-sided perpendicular application

are dimensioned 1<sup>1</sup>/<sub>2</sub>" wider than module width to partially overlap the beam.

*Tip: Units for dual-sided perpendicular application should only be used with Answer Beam.*

### Units for parallel application

are on-module width and can be used anywhere along a beam.

**Low storage or credenzas** used to support one end of overheads or organizers must be connected to Answer Beam using storage-to-beam connector.

**Storage-to-beam connector** can not be used with Answer panels.

**When overheads** are placed side-by-side in parallel application to Answer beam, it is recommended that the units be ganged.

**TSBAWAK** is the style number for the ganging bracket to use for low and mid-storage in beam applications.

► See *Answer Beam and Answer Fence Specification Guide*.

**Shared storage in parallel application** should always be centered over the beam.

**Personal storage in parallel application** can be used back-to-back.

*Tip: Use centered stanchions and mid-storage supports to support the front edge of the overhead unit.*

**Overheads and organizers in parallel applications** must not extend past end of beam.

*Tip: Beam-mounted storage is not allowed in freestanding beam configurations.*

► See *Answer Beam and Answer Fence Specification Guide*.

**Stacking overheads** can be shorter than the supporting work surface as long as a work surface support or side panel of a storage unit is used under the work surface within 6" of where the side of the stacking bookcase is loaded.

## Connections

**On-module attachment brackets** are used to mount overheads on panels of the same width as overheads and are available as an option.

**Safety catch** locks overhead storage unit to frame to prevent accidental removal.

**Width of overhead** must match the width of the panel or panels that it is attached to when using an on-module bracket. Overhead may span up to two frames.

**Horizontal wall attachment brackets** are available to attach overhead storage to the wall of building.

**Laminate overheads and organizers up to 48"W** can attach on-module to Answer panels. Sizes larger than 48"W cannot be panel mounted. Follow the Answer panel stability rules.

*Tip: End-mount brackets are not available for use with Answer panels.*

► See *Answer Solutions Specification Guide*.

**Overheads and organizers** have many different attachment methods.  
▶ See page 67.

**Overhead cabinets** can attach so they align with tower, vertical cabinet, and panel heights.

**Storage** is always centered on the dual-sided bench when used in parallel application.

**Column height at shortest level** is 29<sup>7</sup>/<sub>8</sub>"H. Column will then adjust upward 3" for leveling. Height from floor to top of box is approximately 45".

**When ganging storage units together for Answer Beam application,** use ganging bracket **AWAK**. When ganging overheads and organizers for Answer Beam applications, use ganging bracket **TSBAWAK**. Use mid-storage supports or stanchion supports when mounting overheads and organizers for Answer Beam applications.

▶ See *Answer Beam and Answer Fence Specification Guide*.

**Currency overheads and organizers** cannot be used as end counter storage on FrameOne.

## Wiring and Cabling

**Vertical wire managers** are available to conceal cords that are routed from light mounted beneath overhead storage.

# Currency Parametric Tackboards

**Tackboards** finish the space between an overhead unit and a worksurface. It is a fabric-covered tackable surface that is available parametrically by 1/16" increments in depth and height.

► Specifying page 236

## Actual Dimensions

Tackboard	
Parametric Width Range	24"W—114"W
Parametric Height Range	9 1/2"H—47 1/2"H
Thickness	1"

*Tip: Thickness includes core tackboard, spacer, and attachment hardware.*

## Product Details

**Tackboards** provide a fabric covered tackable surface above the worksurface.

**The ends of wall-mounted tackboards** are finished.

## Connections

**Tackboards** attach with hook and loop fasteners. The attachment hardware is standard with the tackboard for field installation.

## Surface Materials

**Tackboards**

- Vertical surface fabric
- Horizontal surface fabric

*Tip: Vertical application only available on 36"W–60"W.*

# Currency Conference Room Furniture

**Conference room furniture** is available for use with conference tables to complete conferencing applications.

Tip: Service cart height shown is with a 1<sup>1</sup>/<sub>8</sub>" top specification.

## Product Details

**Lecterns** are on casters to provide easy mobility and includes a 6"H fixed shelf.

**Service carts** come in two widths to provide storage for conference supplies. The carts are available with and without casters to provide either easy mobility, or fixed storage.

**Lock** is standard on service carts. Lock cylinders must be specified separately, and are field installed.

► Lock and Keying, page 572

**Casters** come standard on lecterns, and are available as an option on service carts. Both include two locking and two non-locking casters. Locking casters are located on the front of the units for easy access.

**Leveling glides** are available on service carts without casters, and adjust to install carts on uneven floors.

**Pulls on service carts** are available in the following styles: ledge, handle, contemporary, jazz, transitional, Nile, bar, and inset.

**Pilot-hole to pilot-hole dimensions** are as follows:

- Ledge: 96 mm
- Handle: 96 mm
- Contemporary: 128 mm
- Jazz: 128 mm
- Transitional: 160 mm
- Nile: 160 mm or 320 mm (depending on storage type)
- Bar: 128 mm
- Inset: N.A.

**Three cable pass-throughs** provide cable management within lectern.

## Wardrobes

**Wardrobes** offer a fixed top shelf. See below for storage opening heights by wardrobe height.

$H < 72"$ H Wardrobes

$72" - 83\frac{15}{16}"$ H Wardrobes

84"H Wardrobes

**Wardrobes** must be attached to adjacent storage, a wall, or in a run of multiple wardrobes, to ensure stability and prevent tipping. If application is a run of wardrobes, see below for minimum wardrobe number rules by size.

## Wardrobe Guidelines

- A. Wardrobes 70"H or shorter must be attached to two other wardrobes, totaling a run of three wardrobes.
- B. Wardrobes taller than 70"H with 15"W or greater must be attached to three other wardrobes, totaling a run of four wardrobes.
- C. Wardrobes taller than 70"H and narrower than 15"W must be attached to five other wardrobes, totaling a run of six wardrobes.

# Specifying Stacking Bookcases

**When specifying stacking bookcases,** selecting the correct worksurface thickness of storage below, materiality, and overall desired height of the application ensures that the stacking bookcase aligns with neighboring tall storage. Bookcase height is calculated on the back-end. For example, to specify a stacking bookcase that goes into an application with a Two-High low storage unit and a 66<sup>1</sup>/<sub>2</sub>"H tower, specify 66<sup>1</sup>/<sub>2</sub>"H application height on **CRBKS2H**. To specify a stacking bookcase that goes into an application with a 1.5-High low storage unit and a 66<sup>1</sup>/<sub>2</sub>"H tower, specify 66<sup>1</sup>/<sub>2</sub>"H application height on **CRBKS15H**.

**See matrix to the right for what each combination of specifiable options** results in for physical stacking bookcase height.

## Worksurface Thickness, Materiality, Application Height, and Stacking Overhead Height

When specifying stacking bookcases, selecting the correct worksurface thickness of storage below, materiality, and overall desired height of the application ensures that the stacking bookcase aligns with neighboring tall storage. Bookcase height is calculated on the back-end. For example, to specify a stacking bookcase that goes into an application with a Two-High low storage unit and a 66<sup>1</sup>/<sub>2</sub>"H tower, specify 66<sup>1</sup>/<sub>2</sub>"H application height on CRBKS2H. To specify a stacking bookcase that goes into an application with a 1.5-High low storage unit and a 66<sup>1</sup>/<sub>2</sub>"H tower, specify 66<sup>1</sup>/<sub>2</sub>"H application height on **CRBKS15H**.

## Worksurface Thickness, Materiality, Application Height, and Stacking Overhead Height

When specifying stacking overheads, selecting the correct worksurface thickness of storage below, materiality, and desired overall height of the application ensures that the stacking overhead aligns with neighboring tall storage when applicable. Overhead height is calculated on the back-end. Stacking overheads are intended to go on top of Two-High Currency storage or desking.

# Directional Laminate and Edge Profile Detail

**The appearance of laminate** may change slightly depending on the angle from which it is viewed. This natural phenomenon is called polarization, and it can be seen on natural veneer, and to a lesser extent on composite veneer. Polarization is often noticed on worksurfaces installed at a 90° angle with each other. Please refer to the following illustrations for an understanding of grain direction on your installation.

\* 36"W–61½"W overhead back panels have vertical grain direction. 63"W–75"W overhead back panels have horizontal grain direction.

Towers, wardrobes, bookcases, returns, return shells, and bridges back/modesty panels have vertical grain direction.

Desks, desk shells, and credenza back/modesty panels have horizontal grain direction.

## Credenzas

## Open Side, Two-High

Tip: For drawer inside dimensions, please see pedestals and lateral drawers.

Tip: For parametric credenzas, open side flexes in width, lateral file will remain 30"W or 36"W pending overall unit size.

# Blending Currency with Elective Elements

**Currency** can be blended with Elective Elements to create beautiful, cost effective applications.

**Use Elective Elements components in a Currency application** to dial up the overall aesthetic. Components suggested to use include:

- Veneer worksurfaces
- Gate leg
- Floating shelves and back panels
- Glass front overheads and towers
- Hanging modesty panels

► See *Elective Elements Specification Guide*

**Use Currency components in an Elective Elements application** to value engineer. Components suggested to use include:

- HPL worksurfaces
- Under worksurface storage
- Towers
- Overheads

**Graphic** is shown with nile pulls, as nile pulls are available on both Currency and Elective Elements.

# Desk and Desk Shells with Overhang

*Tip: The actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications.*

# Parametric Common Tops/Worksurface

*Tip: When specifying a Currency parametric common top over a run of storage, use SmartTools to determine the correct dimension to be specified. See Understanding pages for more details.*

*Tip: Worksurfaces being used as a table, up to 84"W, require four legs and appropriate reinforcing channels. Worksurfaces 84<sup>1</sup>/<sub>16</sub>"W–120"W require six legs and appropriate reinforcing channels.*

*Tip: Reinforcing channels are ordered separately and must be used with tops larger than 54"W for 54"W or more of unsupported kneespace.*

*Tip: Any top used as a table with legs, equal to or larger than 30"Dx72"W requires two reinforcing channels.*

*Tip: The actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. Tip: 36"W–59<sup>1</sup>/<sub>16</sub>"W rectangular shaped tops are also available. For the complete parametric size offering and pricing, please refer to SmartTools.

Tip: For laminate price group 2 and higher pricing, please refer to the electronic catalog or SmartTools.

Tip: Two-piece tops will occur when the top is in Low-Pressure Laminate and larger than 95<sup>3</sup>/<sub>4</sub>"W, and in High-Pressure Laminate and larger than 119<sup>1</sup>/<sub>16</sub>"W. Tops will be split into two equal sections and ship with connecting hardware. Low-Pressure Laminate two-piece tops will not have matching grain patterns. All High-Pressure Laminate two-piece tops above 144"W will not have matching grain patterns. Woodgrain High-Pressure Laminate two-piece tops 120"W–144"W will have matching grain patterns.

Tip: Grommet options allow for either no grommet or hinged power door unit(s). Grommets are available for order as a separate style number, and are field installed.

Tip: Selecting hinged door grommet option results in cut out in table top. Power unit ships separately and is field installed.

# Boat-Shaped Table

*Tip: For laminate price group 2 and higher pricing, please refer to the electronic catalog or SmartTools.*

*Tip: Two-piece tops will occur when the top is in Low-Pressure Laminate and larger than 95 $\frac{3}{4}$ "W, and in High-Pressure Laminate and larger than 119 $\frac{15}{16}$ "W. Tops will be split into two equal sections and ship with connecting hardware. Low-Pressure Laminate two-piece tops will not have matching grain patterns. All High-Pressure Laminate two-piece tops above 144"W will not have matching grain patterns. Woodgrain High-Pressure Laminate two-piece tops 120"W–144"W will have matching grain patterns.*

*Tip: Grommet options allow for either no grommet or hinged power door unit(s). Grommets are available for order as a separate style number, and are field installed.*

*Tip: Selecting hinged door grommet option results in cut out in table top. Power unit ships separately and is field installed.*

# Stacking Bookcases

*Tip: Stacking bookcases go on top of One-High, 1.5-High, and Two-High Currency low storage. Please specify the application height of the overall height desired with low storage and stacking bookcase combined.*

*Tip: See understanding pages for shelf count by application height.*

*Tip: Selecting the correct worksurface thickness and top surface materiality type (LPL or HPL) ensures that the stacking bookcase aligns with neighboring tall storage.*

*Tip: Top surface type refers to the materiality of the storage attaching to the stacking bookcase.*

# Stacking Overheads

Tip: Stacking overheads with sliding doors do not lock.

Tip: Stacking overheads with three doors will have two doors hinged right. Overheads with four doors will have two doors hinged left, and two hinged right. Doors will always open from the center out.

Tip: Stacking overheads go on top of Two-High Currency storage or desks. Please specify the application height of the overall height desired with storage and stacking overhead combined.

**For laminate price group 2 and higher pricing,** please refer to the electronic catalog or SmartTools.

Tip: Selecting the correct worksurface thickness and top surface materiality type (Low-Pressure Laminate or High-Pressure Laminate) of storage underneath ensures that the stacking overhead aligns with neighboring tall storage.

Tip: White markerboard (2977) headset finish available with sliding doors only.

Tip: 15"H refers to the height of the storage case.

Tip: Stacking overheads must be specified parametrically if going above a lateral file/lateral file credenza. Please see understanding pages for more information.
