Designed for Change

Folio™ casegoods deliver modular storage designed around the changing needs of healthcare places. Discrete cabinets keep supplies and intimidating clinical equipment out of sight to lower stress levels, yet within easy reach to support clinician work process.

A range of hardworking components combine to serve unique purposes in exam spaces, treatment areas and patient rooms. In clinician and administrative workspaces, Folio can combine with V.I.A. architectural solutions to divide space, create privacy and integrate technology.

INSIGHT

Healthcare organizations are under pressure to make every moment count. Folio makes it possible to locate supplies and conveniences where needed to improve workflow and efficiency.

Maximize Space

Space is at a premium in most healthcare facilities. Folio wall-mounted components are designed to maximize every square foot. Cabinets mount 12 inches above the floor to make cleaning easy and aid in infection control.

Flexible Solutions

Folio cabinets can be individually leveled and feature hinge options to maximize access to the interior. ADA surface heights, sink cabinets with angled fronts, and sloped-topped cabinets are available to meet specific space needs.
