

Features

- 24/7 monitoring of all water lines in your home—great for finding ways to conserve water
- High-definition pressure sensors analyze your home's water usage and measure changes 240 times per second, quickly detecting leaks
- KOHLER Konnect® app sends real-time alerts to your phone if system detects changes in water pressure that signal potential water leakage or other plumbing problems.*
- Freeze warnings let you take action against frozen pipes to avoid costly damage
- Installs easily under any sink in your home, so it's convenient yet out of sight
- If H2Wise™ detects water in pipes may be in threat of freezing, a freeze mitigation feature will instruct your KOHLER Konnect® touchless kitchen faucet to open briefly to relieve pressure, minimizing potential damage to pipes
