Parallel 42

## A New Angle on What Bench Can Be

Parallel 42 is a bench of a different dimension. A place to sit is just the start for this modular wood seating system. Four parallel pieces provide elegantly simple building blocks for activating outdoor space. Frame space, divide space, enliven space to spark social interactions, formal and informal, impromptu and planned. Create settings around complementary site elements to support a wide variety of outdoor activities.

Apply right hand, left hand, straight and wedge modules singly or in combination. Distribute them, cluster them, line them up or branch them out. Form simple and complex configurations. Free standing or surface mounted pieces abut, not connect, so where they meet is up to you. Parallel 42 is a new set of tools for organizing public space. Application limited only by imagination.
