

Tributaire C-Leg Tables

Refined Tributaire C-leg tables are available in three shapes and a variety of sizes. Select optional power to stay connected and optional casters for easy movement.

Coming Together

Tributaire C-Leg tables add a distinctive look to any environment. They easily adapt to intimate gatherings or larger communal spaces.

Features

- 29" standard height
- 3 top shapes: round, square, rounded square
- 2 edge options: 74P or Knife (knife edge on all sides regardless of shape)
- Low profile glides OR casters in 3 color options: black, warm grey, cottonwood with warm grey tread
- Optional polished aluminum base
- Optional electrical with wire management (3-prong plug only)

Construction

- Standard worksurface tops are 1-1/4" thick with a high-pressure laminate surface. Laminate surface is finished with a 2mm edge in either a flat or knife edge profile.
- Base is constructed of an extruded aluminum upright mechanically fastened to a cast aluminum foot.
- Legs are connected with an oval crossmember and rectangular stringers.
- Base can be finished in polished aluminum or powder-coat.
- Adjustable glides are 1-1/2" diameter black nylon and low profile. Glides offer 1/2" of adjustability.
- Wide variety of electrical modules and grommets are standard.
- Grommets provide cord management from the worksurface.
- Electrical modules support a variety of needs with USB-A and C charging ports and simplex receptacles. Modules are available with a 3-prong cord.

Product Highlights

Sophisticated Finish Options

Unlike any other KI table, Tributaire allows you to specify an elegant polished aluminum finish. High-end laminate options and a choice of casters in black, warm grey, or cottonwood with a warm grey tread further support your unique design vision.

Attractive Angles

The attractive C-Leg base design offers a consistent visual identity across all table shapes and sizes, creating recognizable appeal. Complemented by the I-shaped cross brace, this design ensures unwavering stability, providing a strong foundation for tables in every dimension.

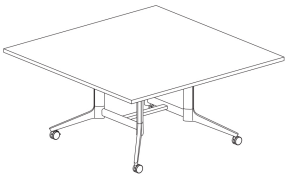

Elegant Edging

Two edge styles—74P and Knife—give you options for visual distinction. The poly edge band allows you to specify contrasting color options, while the knife edge effuses elegance with a naturally tapered angle all around the table.
