BEAUTY AT EVERY ANGLE.

THATCHER™

Elliot Eakin's Thatcher lounge chair is a testament to his unwavering commitment to creating furniture that is not only visually stunning but also practical and approachable. Inspired by the mesmerizing Chicago River bascule bridges, Eakin designed Thatcher to pay homage to their distinctive features. He ingeniously translated the elements of these bridges into the design.

Thatcher's armrest symbolizes the bridge itself, the legs mimic the truss structure, and the seat represents the road. To further capture the essence of these bridges, Eakin drew inspiration from the counterweight mechanism that allows them to open and close, incorporating that into the chair's backrest. The cantilevering backrest is uniquely contoured to float over the seat providing a soft elegance with comfort that supports extended periods of sitting. With a specific vision for Thatcher, he wanted to create a piece that would demand attention and admiration, making it worthy of being displayed in the center of a room.

AN EXPRESSION OF STYLE.

SUPERKOOL™

Designed by **DAVID FOX**

Truly iconic with an organic form.

David Fox drew inspiration from distinguished shapes and imagery, infusing them into this extraordinary range of products. Superkool's dramatic high back shape not only adds elegance but also aids in defusing sight lines and sounds within the graceful structure.

*Cohesive and
contemporary.*

Meticulous observation of sitting positions in different environments led to Superkool's natural ability to cater to relaxed and active postures. From lounge seating to guest chairs, creating a portfolio of models was David Fox's ambition. The collection provides a diverse offering with an array of base choices.

A TESTAMENT TO HIGH-VOLTAGE CHIC.

MASTERFULLY REIMAGINED ITALIAN DESIGN.

PORTATA™

With a vision to merge elegance with technological prowess, designer Fabio Di Bartolomei artfully reinterpreted the ancient technique of leather working known as “Capitoné” in a contemporary and captivating way. The Portata chair stands as a testament to his ingenuity, as Di Bartolomei ingeniously crafted a texture that gives the illusion of softness while being constructed from a rigid and durable polyurethane. This clever blend of soft aesthetics and robust composition creates a visual paradox that captivates the observer.

Fabio Di Bartolomei’s goal when designing Portata was to create a chair that would appear soft to the eye, even though it’s composed from an industrial material. This elegant and soft shape perfectly integrates with the metal and wood base options.

FLUID SCULPTURAL SHAPES.

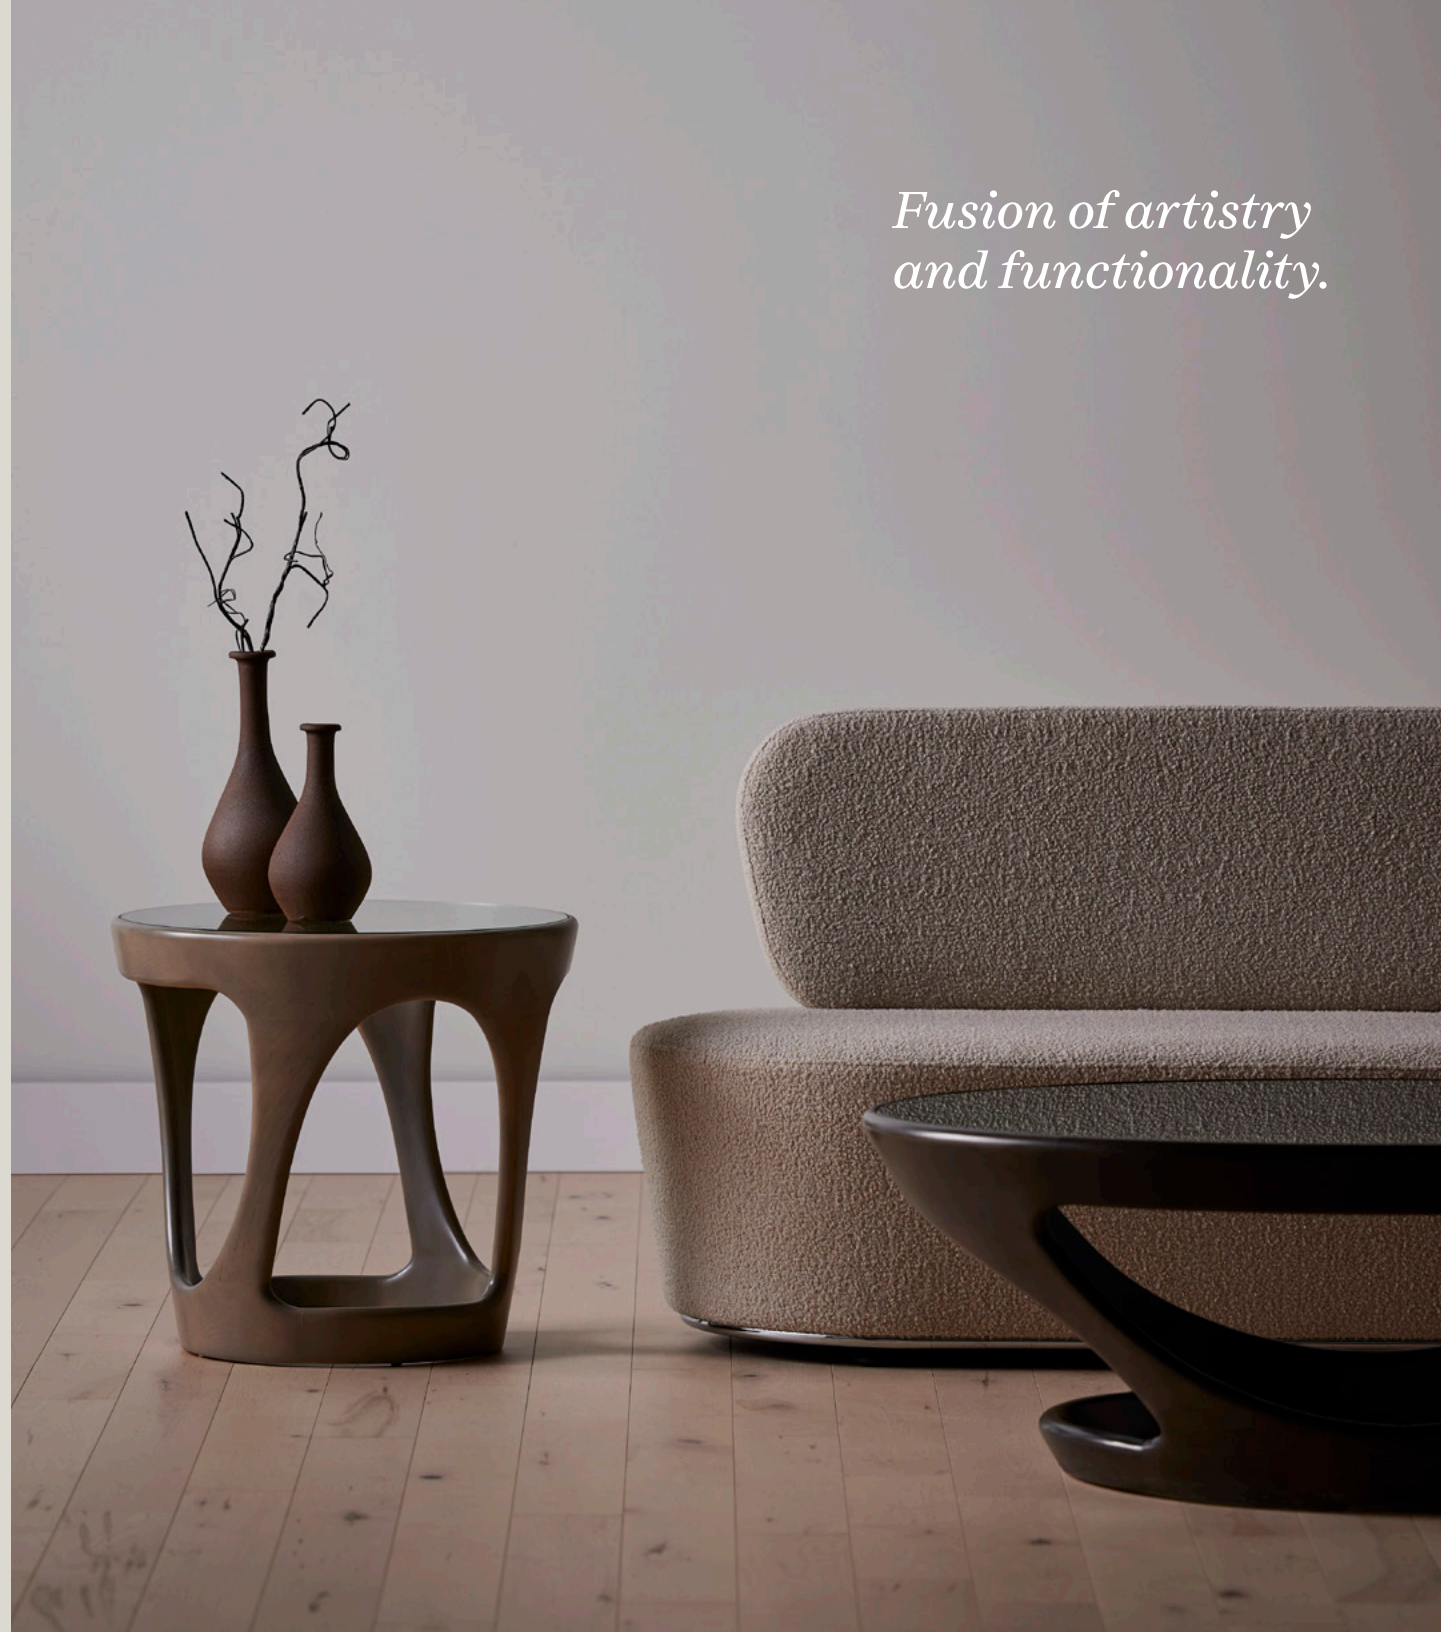

FLO™

Designed by Roger Crowley, Flo represents a sculptural fusion of artistry and functionality through solid wood. With flowing form, the ever-changing curves effortlessly merge to create two distinct tables—an ellipse coffee table and a round end table. The result is a visually captivating design that radiates beauty, capturing the attention of those who appreciate elevated design and unparalleled artistry.

NATURAL ELEGANCE AND MODERN AESTHETICS.

FRILL™

Elliot Eakin's journey in designing the Frill table collection began when he noticed antique bellows hanging on the wall of a bronze foundry in Chicago. Although no longer in use, the bellows' form and function captivated him. The flair of the bellows' neck inspired the shape of the table base, while the accordion back inspired the ruffle detailing around the base. The top pattern represents the rush of air escaping the bellows when operated. Eakin wanted to try and capture that chaotic movement of air by segmenting and turning the natural graining of the wood.

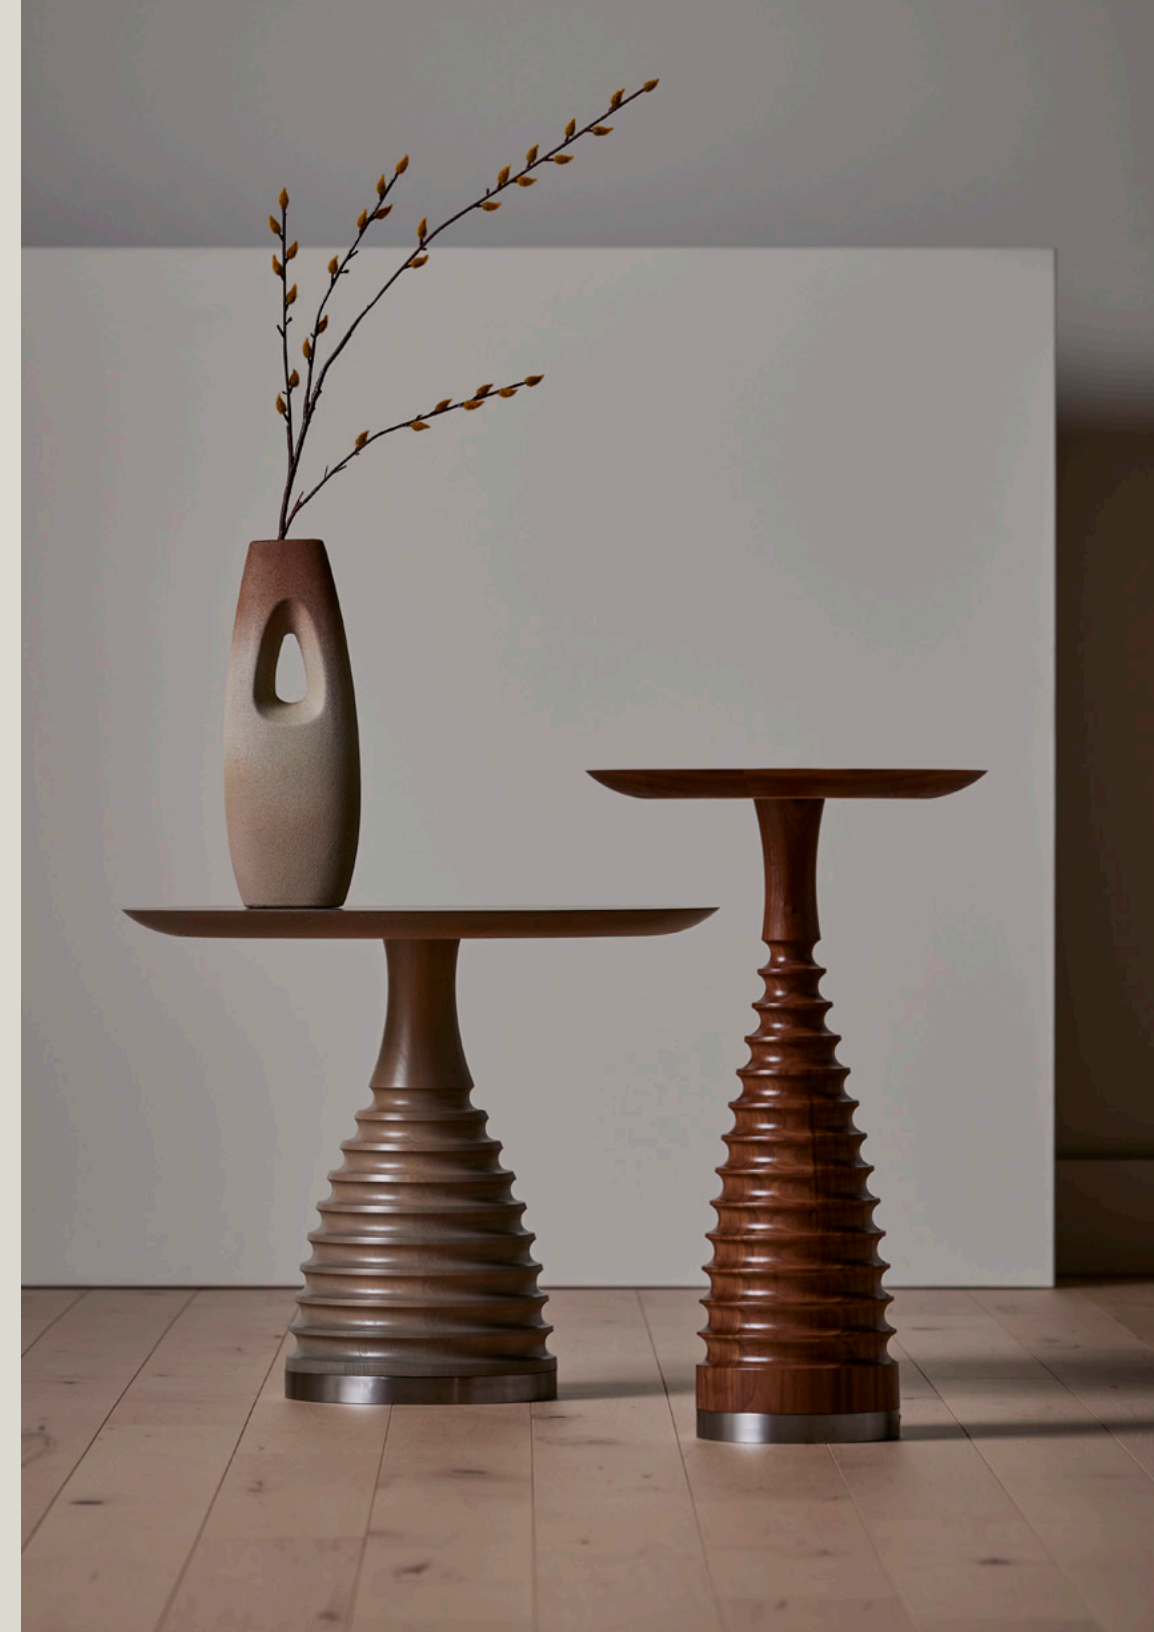

Designed by **ELLIOT EAKIN**

*A juxtaposition of
style and beauty.*

Frill is an exquisitely modern collection of tables that can be placed together to form a striking table ensemble or can stand alone with pride. The distinct metallic base options add an element of sophistication that is sure to draw attention. Frill is one of a kind and it can bring an aura of luxury to any environment.
