Weight Rating

Standard task seating (seat with less than 22”) will accommodate individuals up to 350 lbs.

Adjustability Features

	High Back	Mid Back
Knee tilt	•	•
Swivel	•	•
Pneu. height	•	•
Tension control	•	•
2-position back lock	•	•

• standard

Knee tilt control provides minimal rise of the front seat edge when reclining, allowing the user’s feet to remain firmly on the floor. Back may be locked in a full upright position by pushing in tilt lever. Recommended for users weighing 275 lbs. or less.

Pneumatic height adjustment allows user to raise or lower the seat height with a control lever while seated. Upward movement of lever located beneath the seat activates a gas cylinder to quickly adjust the chair.

Arms are black polyurethane.

Knee tilt control with two-position back lock and tension control is standard.

Five-star base with polished aluminum finish features black, dual-wheel casters.

COM/COL

Kimball has analyzed each model to most accurately reflect the COM/COL yardage requirements. The yardage requirement for each model is based on 54"W textile and cutting the textile up the roll.

For widths other than 54", increase the yardage requirement by the factors below:

<i>Textile width</i>	<i>Increase yardage</i>
50"-53"	15%
48"-49"	30%
45"-47"	45%

If repeat is larger than 18", contact Customer Service to confirm the correct amount of yardage required.

When ordering 10 or more chairs in the same COM, yardage requirements may be reduced.

➤ Contact Customer Service.
