

Bottega Intreccio

Antonym 1 Pendant

Design by: Silvia Stella Osella

Featuring a grand diameter of 31 inches, the Antonym 1 pendant highlights one of Italy's most recognized artistic expressions: weaving. The ellipsoid-shaped shade is made from carefully selected bamboo wicker which is refined and made malleable through a five-step process. It is then woven using the Renaissance-era intreccio technique by master artisans in Mogliano, Italy. Designed by Silvia Stella Osella for Bottega Intreccio, the Antonym pendant is supported by a slender, brushed black brass accent rod.
