

# Bottega Intreccio

## Antonym 2 Pendant

Featuring a grand diameter of 31 inches, the Antonym 2 pendant highlights one of Italy's most recognized artistic expressions: weaving and embroidery. The ellipsoid-shaped shade is made from carefully selected bamboo wicker which is refined and made malleable through a five-step process. It is then woven using the Renaissance-era intreccio technique by master artisans in Mogliano, Italy. A light botanical-inspired embroidery made of black raffia threads is added onto its surface offering a touch of high fashion. Designed by Silvia Stella Osella for Bottega Intreccio, the Antonym pendant is supported by a slender, brushed black brass accent rod.
