

ReGeneration Chair Lumbar Installation Instructions

ReGeneration by Knoll®

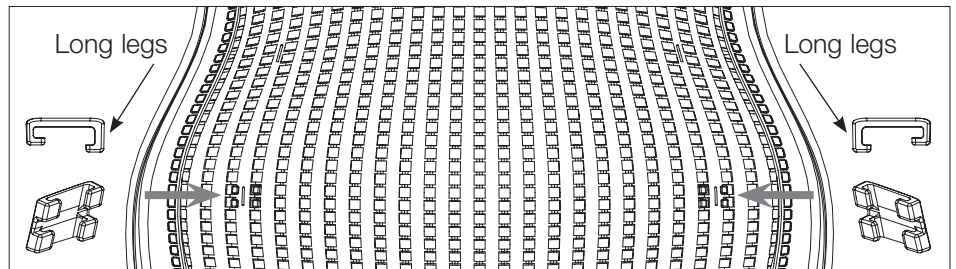

Pattern number : 44LUMBAR

1. Locate vertical markings on the back of the Flex Back Net. These markings indicate the lumbar clip installation positions.

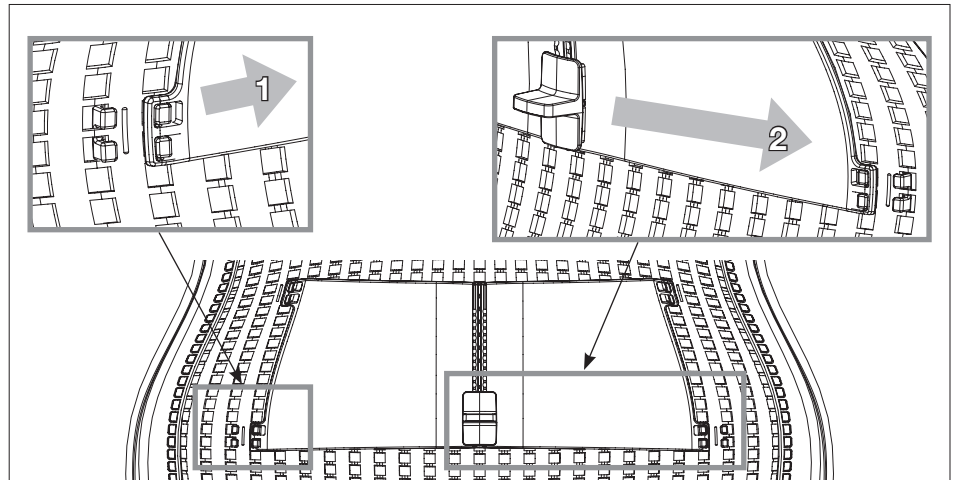

Back view of chair

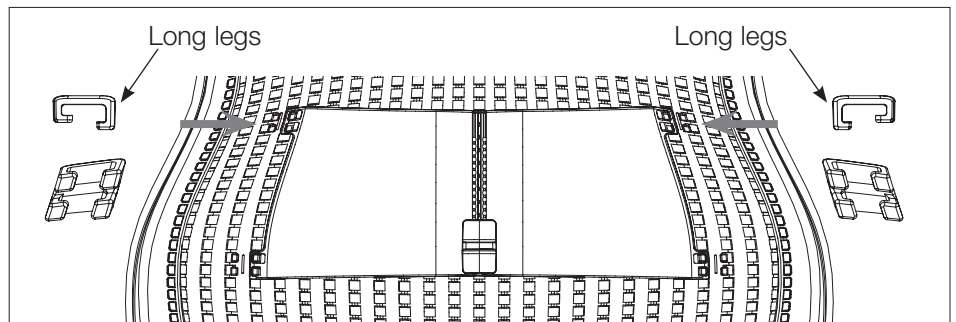

2. Orient the two rectangular clips so the long legs are toward the center.
Attach the rectangular clips through the front of the Flex Back Net at the lower vertical line markings.

3. Attach lumbar panel to one clip on the back of the chair.
After secured, pull on the center of the lumbar panel to attach to the clip on the opposite side.

4. Orient the two parallelogram clips so the long legs are toward the center.
Attach the parallelogram clips through the front of the Flex Back Net at the upper vertical line markings and hook into the lumbar panel on both sides.

Note: To remove lumbar, reverse the instructions above.
