Custom Color Policy

For all colors outside the standard palettes for Quoin storage as defined within this price list, Knoll will custom match your specification. Please submit the request using Knoll's Custom Finish Planner available on Dealer Portal.

Custom colors will be processed at a P2 list price for finishes that are not metallic, clear or white. Metallic, clear and white finishes will be processed at a P3 list price.

Extended lead times may apply to custom paint match selections.

Quoin Raised Storage

Feet are nominally 3" high with black leveling glide. Foot kits are specified separately as kits and installed on-site.

Feet are available only for products as stated in the application notes on the pricing pages and within this section.

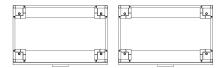

Application

Quoin storage units raised on feet may be used freestanding or ganged to panels or adjacent storage units as noted within applicable pricing sections.

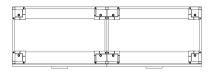

When used freestanding, counterweights or ganging may be required. Refer to applicable counterweight specification information for details.

Components of uniformed depth may be ganged to one another via T-Feet. Components of differing depths may not utilize shared T-Feet for ganging.

When ganging two units together, (4) Corner Feet will be replaced by (2) T-Feet spanning the seam between the units.

Individual Units, 8 Corner Feet

 $Ganged\ Units,\ 4\ Corner\ Feet\ +\ 2\ T ext{-}Feet$

Corner Feet are available in a 4-piece kit or as 40-piece bulk kits. T-Feet are available in a 2-piece kit or as 20-piece bulk kits. Hardware is included to attach to storage unit.

Credenzas

To specify Quoin credenzas raised on feet, utilize standard credenza pattern numbers (V2G22 . .). Credenzas include pre-installed leveling glides to be removed on-site when utilizing foot kits.

Feet are additive to the height of a standard credenza. Overall height of a credenza raised on feet is $25.5^{\prime\prime}$ high.

Individual units 18"-36" wide require (4) Corner Feet per unit. Double credenzas 36"-72" wide require (4) Corner Feet and (2) T-Feet for additional support.

Lockers

Lockers for use with Feet (VLF . .) do not include pre-installed leveling glides. Applicable foot kits must be specified for use.

Foot kits may not be used with (VLG . .) pattern numbers.

Noted elevation heights of Lockers for Use with Feet include height of 3" feet. Case height of Lockers for Use with Feet is 3" less than Lockers with standard leveling glides to accommodate height of foot. Foot Kits

04	Kit of 4
P	Painted

Order Code

Specification Information

Foot kits are specified separately as kits and installed on site. Kits include hardware for attaching feet to Quoin storage unit.

Individual lockers or single credenzas require 4 corner feet. Double credenzas additionally require 2 T-feet for ganging and support.

When ganging two units side-by-side, units must be of uniformed depth. Two individual ganged units require 4 corner feet plus 2 T-feet at the seam.

Application Notes

Feet are nominally 3" high and include a black leveling glide.

Feet are additive to the height of a standard credenza bringing the overall finished height of the credenza on feet to 25.5" high (nominal).

Lockers for use with feet (VLF.. pattern numbers) feature a shorter case to compensate for height of feet maintaining overall elevation height as noted.

Foot kits are only compatible with Quoin Credenzas (V2G..) and Lockers For Use with Feet (VLF..)

Pedestal Specifications Mobile Pedestals

Quoin Mobile Pedestals

Quoin mobile pedestals offer a variety of configurations in 2 widths and 2 depths. Pedestal cases are preassembled and ship with drawers installed. Casters are field installed.

5 Configurations Available: Open with Shelf, 20" high Full Door, 20" high Box/File, 20" high File/File, 26" high Box/Box/File, 26" high

Mobile pedestals feature full overlay door or drawer fronts and casters. Pedestals are available with steel or cushion top. All mobile pedestals include 2 locking and 2 non-locking casters. Pedestals with drawers include additional non-locking caster mounted beneath file drawer for added stability as drawer is extended.

Available Sizes

Nominal Sizes (actual dimension) Height: 20" (19.91"), 26" (25.89") Width: 12" (11.93"), 15" (14.9") Depths: 18", 24" (18.78", 23.2") When specified, cushion top adds 1" to overall pedestal height.

Drawers and Filing

Each Box/File pedestal contains one 6" high box drawer and one 12" high file drawer. Each File/File pedestal contains two 12" high file drawers. Each Box/Box/File pedestal contains two 6" high box drawers and one 12" high file drawer. Each File drawer includes 1 file bar set to accommodate side-to-side Letter or Legal filing. Side-to-side filing hangs from back edge of drawer body providing clearance for storage of other small items or supplies within front section of drawer. Additional file bar kits are available to shift side-to-side filing to front portion of the drawer. 15" wide pedestals also accommodate front-to-back Letter filing. 12" wide pedestals do not accommodate front-to-back filing.

Box Drawer, Internal Dimensions Width: 9-5/16", 12" Height: 4-7/16"

Depth: 16-5/16", 21-3/16"

File Drawer, Internal Dimensions

Width: 9-5/16", 12" Height: 9-1/4"

Depth: 16-5/16", 21-3/16"

Letter Filing

18" deep

 $18^{\bar{"}}$ deep

Legal Filing Legal Filing 24" deep

Construction

Quoin mobile pedestals feature an innovative 1-piece wrapper design consistent with Quoin Lockers, providing optimal material efficiency without sacrificing strength and durability.

- Wrapper: 20-gauge steel
- Front vertical channel: 16-gauge steel
- Base: 16-gauge steel
- Top Support Crossrail: 16-gauge steel
- Finished Steel Top: 14-gauge steel
- Drawer Fronts: 20-gauge steel
- Drawer Bodies: 20 and 22-gauge steel
- Full extension, ball bearing drawer slides
- Door: 20 and 22-gauge steel
- Removable shelf: 20-gauge steel
- Cantilever shelf support: 16-gauge steel

Quoin mobile pedestals may be ordered non-locking or locking with cylinder lock and key. Lock drilling is omitted when specified as non-locking. Pedeatals feature slim profile lock bezel to match specified lock core finish, available in black or chrome.

Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cored K001-K250. To specify units as such, reference KnollKey Lock Program.

Quoin desk supporting pedestals are available with two pull styles:

- 5" finger pull
- Rubber grommet pull

All pulls are factory installed. T-Pulls are positioned horizontally 3/8" from top of drawer fronts or vertically 1" below from top of door or drawer front. Grommet pulls are 1.5" in diameter and positioned 1" below from top of door or drawer

Standard Pull Position

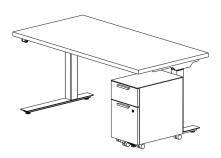

Shelves

Open Pedestals include (1) removable shelf and 2 supporting cantilevers. Full door pedestals do not include a shelf.

Cushions

Mobile pedestals may be specified without a finished top for use with field installed cushion top (specified separately). Cushion top may not be applied to mobile pedestals with finished steel top. Cushions are available in a range of KnollTextiles, Spinneybeck leather or upholstered in customer's own material. When specified, cushion top adds 1" to overall pedestal height

Quoin mobile pedestals are designed to plan with all other Knoll Office products including height adjustable tables.

Casters provide adequate clearance to roll overtop Tone or k.stand height adjustable table foot for enhanced planning efficiency. Refer to table clearance requirements when planning Quoin pedestals beneath height adjustable tables.

Pedestal Accessories

Optional accessory kits include:

Additional File Bar kits for 12w or 15w pedestals Plastic pencil trays for 15" wide pedestal Box drawers

Pedestal accessories are specified separately, see Pedestal Accessories.

Pedestal Specifications Mobile Cart

Quoin Mobile Cart

The Quoin Mobile Cart offers a multi-functional solution for personal storage within a compact size. Available in one size and configuration, the Quoin Mobile Cart includes a removable bin, open cubby, tray top and seat. Mobile Cart is non-locking.

Available Sizes

Nominal Sizes (actual dimensions)

Height: 17"(17.4") Width: 12" (12.0") Depth: 18" (18.0")

Construction

Quoin Mobile Cart features a 1-piece wrapper design consistent with Quoin Lockers, providing optimal material efficiency without sacrificing strength and durability.

Removable Bin

The lower bin can be partially extended for use as a personal drawer or fully removed, bringing contents to the desktop or other easy to access surface. Bin is composed of steel and finished with paint selected as "Front Finish". Removable bin includes two round finger holes, one each front and back. Black rubber grommet pull is included to finish hole if desired.

Fixed Shelf and Open Cubby

A factory-installed fixed shelf is located immediately above removable bin to conceal bin contents and form open cubby above. Fixed shelf is steel and finished with paint selected as "Front Finish". Interior of outer case wrapper forms the vertical sides of the open cubby, finished in paint selected as "Case Finish". Clear dimensions of open cubby are: 10.4" wide x 17.9" deep x 8.75" high.

Tray Top

A factory-installed tray top is formed on sides and back creating a nominally 2" high tray to store papers, mobile technology or other items. Tray Top is composed of steel and finished with paint selected as "Front Finish". Notched back allows charging cords to exit the tray and be plugged into an outlet.

Tray Pad

A black tray pad is included to add cushion beneath devices sitting in the tray or for use as a mousepad. Tray pad may be placed as desired and is not permanently attached.

Upper Shelf

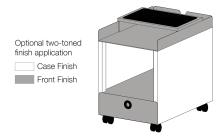

A small upper shelf is designed to sit within tray top. Upper shelf is moveable within tray or removable allowing it to serve as a laptop stand. When placed within the tray, upper shelf can serve as a seated surface.

Casters

4 factory-installed casters are included, 2 non-locking casters in the back and 2 locking casters in the front.

Finishes

Cart may be specified as monochromatic, available in all Knoll Core finishes (specify front finish to be "same as case") or two-toned. When specified as two toned, Case Finish is applied to outer wrapper and vertical surfaces of open cubby. Case Finish may be selected from all standard Knoll Core Paints. Front Finish applies to all other surfaces including Bin, Fixed Shelf, Tray Top and Upper Shelf. Front Finish may be selected from all standard Knoll Core Paints or Accent Paints. Casters, tray pad and rubber grommet pulls on bin are black.

Pedestal Specifications Desk Supporting Pedestals

Quoin Desk Supporting Pedestals

Quoin desk supporting pedestals are available in a variety of widths, depths and configurations

12" and 15" wide pedestals are available in 3 depths and the following configurations:
Box/Box/File, with leveling glides
File/File, with leveling glides
Data/File, for use with feet

30" and 36" wide pedestals are available in 1 depth and the following configuration: File/File, with leveling glides

Desk supporting pedestals do not include a finished top, worksurface top must be specified separately.

Available Sizes

Nominal Sizes (actual dimension) Height without finished top: 27" (26.98") Width: 12" (11.97"), 15" (14.99"), 30" (29.9"), 36" (35.9")

Depths: 18" (18.84"), 24" (23.26"), 30" (29.26")

Drawers and Filing

Box drawers are nominally 6" high. Data drawers are nominally 9" high and include a Box drawer body.

File drawers are nominally 12" high and accommodate Letter and Legal filing.

Each 12" and 15" wide file drawer includes 1 file bar set to accommodate side-to-side Letter or Legal filing. Side-to-side filing hangs from back edge of drawer body providing clearance for storage of other small items or supplies within front section of drawer. Additional file bar kits are available to shift side-to-side filing to front portion of the drawer. 15" wide pedestals also accommodate front-to-back Letter filing. 12" wide pedestals do not accommodate front-to-back filing.

Each 30" and 36" wide file drawer includes side-to-side and front-to-back filing bars allowing for Letter or Legal filing in either orientation.

30'' deep pedestals utilize common internal drawer components with 24'' deep pedestals.

Construction

Quoin pedestals feature an innovative 1-piece wrapper design consistent with Quoin Lockers, providing optimal material efficiency without sacrificing strength and durability.

All Quoin desk supporting pedestals include a finished back, standard.

- Wrapper: 20-gauge steel
- Front vertical channels: 16-gauge steel
- Rear vertical channels: 20-gauge steel
- Base: 16-gauge steel
- Top Support Crossrails: 16-gauge steel
- Drawer Fronts: 20-gauge steel
- Drawer Bodies: 20 and 22-gauge steel
- Full Extension, ball bearing drawer slides

Locks

Quoin pedestals may be ordered non-locking or locking with cylinder lock and key. Lock drilling is omitted when specified as non-locking. Pedestals feature slim profile lock bezel to match specified lock core finish, available in black or chrome.

Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cored K001-K250. To specify units as such, reference KnollKey Lock Program

Pulls

Quoin desk supporting pedestals are available with two pull styles:

- 5" finger pull
- Rubber grommet pull

All pulls are factory installed. T-pulls are positioned vertically 3/8" from top of drawer fronts. Grommet pulls are 1.5" in diameter and positioned 1" below top of drawer front.

Raised Foot

VPF pedestals for use with feet are designed with a nominally 3" shorter case height to maintain alignment with Dividends Horizon surfaces with field installed foot kits.

Foot kits must be specified separately. See Quoin Foot Specifications information for additional details.

Planning and Stability

Desk supporting pedestals are designed to support one end of a fixed height Dividends Horizon worksurface. Pedestals must be ganged to panel or other storage units for stability, not designed for freestanding use.

Pedestals are compatible with DB1PWS brackets. All brackets must be specified separately.

18" deep pedestals are designed for use with 19" deep Dividends Horizon worksurfaces or deeper. Quoin desk supporting pedestals are not compatible with 18" deep Dividends Horizon worksurfaces.

24" deep pedestals may be used with Dividends Horizon worksurfaces 24" deep or deeper (23.5" actual depth).

30" deep pedestals may be used with Dividends Horizon worksurfaces 30" deep or deeper (29.5" actual depth).

Pedestal Accessories

Optional accessory kits include:

- Additional File Bar kits for 12w or 15w pedestals
- \bullet Plastic pencil trays for $15^{\prime\prime}$ wide pedestal Box drawers

Pedestal accessories are specified separately, see Pedestal Accessories.

Antenna Power Beam Tray (YNATRAY) may be used within 12", 30", or 36" wide pedestal box drawers. Must be specified separately.

(C)	Lock Finish, Chrome

Specific Information

Mobile pedestals with steel top are not intended for use as a seat. If seated use is required, specify pedestal without top and field installed cushion top. Steel top is factory-installed.

Door or drawer front finish may be specified as "same as case" or in a contrasting P1, P2 or P3 paint finish. When contrasting front finish is specified, list price is determined by Case Finish price category.

Patterns listed above include standard cylinder lock. To specify as non-locking, substitute final character with (N), deduct \$15 list. Example: VPM201218BFSSN.

Open pedestals include (1) removable steel shelf.

Pedestals with full door do not include shelf.

Pedestals with full door are available with standard or Soft Close hinge option.

Application Notes

Mobile pedestals include 4 casters (2 locking). Pedestals with drawers include additional non-locking caster mounted beneath file drawer for added stability. Casters are field installed.

Finished Height of 20" high mobile pedestals with finished steel top are designed to fit beneath the following height adjustable tables at their lowest position:

Tone Standard Electric Range k. stand Standard Electric Range k. stand Extended Electric Range Telescope Standard Electric Range k. bench Standard Electric Range k. bench Extended Electric Range

Finished Height of 26" high mobile pedestals are designed to fit beneath standard fixed height worksurfaces.

Casters provide adequate clearance to roll overtop Tone, k. stand or k. base foot.

Each file drawer within 12" wide pedestals includes (1) file bar allowing side-to-side Letter or Legal filing to be hung from back edge of the drawer body.

VDMOOAEAODENOI

Specific Information

Quoin mobile pedestals without top require field installed cushion top (specified separately). Once cushion is installed mobile pedestal may be used as seated surface.

Door or drawer front finish may be specified as "same as case" or in a contrasting P1, P2 or P3 paint finish. When contrasting front finish is specified, list price is determined by Case Finish price category.

Patterns listed above include standard cylinder lock. To specify as non-locking, substitute final character with (N), deduct \$15 list. Example: VPM201218BFNSN.

Open pedestals include (1) removable steel shelf.

Pedestals with full door do not include shelf.

Pedestals with full door are available with standard or Soft Close hinge option.

Plastic pencil tray is available for use within Box drawers of 15" wide pedestals, specified separately.

Application Notes

Mobile pedestals include 4 casters (2 locking). Pedestals with drawers include additional non-locking caster mounted beneath file drawer for added stability. Casters are field installed.

Finished Height of 20" high mobile pedestals with finished steel top are designed to fit beneath the following height adjustable tables at their lowest position:

Tone Standard Electric Range k. stand Standard Electric Range k. stand Extended Electric Range Telescope Standard Electric Range k. bench Standard Electric Range k. bench Extended Electric Range

Finished Height of 26" high mobile pedestals are designed to fit beneath standard fixed height worksurfaces.

Casters provide adequate clearance to roll overtop Tone, k. stand or k. base foot.

Lock Finish, Black

Specific Information

Drawer front finish may be specified as "same as case" or in a contrasting P1, P2 or P3 paint finish. When contrasting front finish is specified, list price is determined by Case Finish price category.

Patterns listed above include standard cylinder lock. To specify as non-locking, substitute final character with (N), deduct \$15 list. Example: VPG281524BBFCNSN.

File drawers accommodate the following applications standard: 12" wide: side-to-side Letter or Legal filing.

15" wide: side-to-side Letter or Legal filing or front-to-back Letter filing.

30" and 36" wide: side-to-side or front-to-back Letter or Legal filing.

Application Notes

18" deep pedestals are designed for use with 19" deep Dividends Horizon worksurfaces or deeper. Quoin desk supporting pedestals are not compatible with 18" deep Dividends Horizon worksurfaces.

Quoin desk supporting pedestals are designed to support one end of a fixed height Dividends Horizon worksurface.

Pedestals are compatible with DB1WS brackets. Brackets must be specified separately.

Pedestals are not designed for freestanding use and must be ganged to panel or other units for stability.

VPF pedestals for use with feet require foot kits to be specified separately (VAF.. patterns)

Order Information

1. Base Pattern Number

Order Code

File drawers of 12" and 15" wide pedestals include (1) File Bar Kit allowing side-to-side Letter or Legal filing to be suspended between bar and back edge of drawer body.

Additional (1) File Bar Kit may be specified to file toward front section of drawer body.

Specification Information

File Bar Kit includes (1) bar and (2) plastic clips to attach to sides of drawer body.

Application Notes

Plastic Pencil Tray is designed for use with Box drawer of 15" wide pedestals. Plastic pencil tray cannot be suspended in the Box drawer of 12" wide pedestals.

Quoin Credenzas

Quoin credenzas are nominally 22.5" high and are available in a variety of open and drawer configurations. Credenzas cases are preassembled; tops are installed on site.

Credenzas with more than one unit (double units and box/file with open) contain two preassembled cases and one common top that are assembled on site. Five configurations are available:

- Single Open
- Double Open
- Single Box/File
- Double Box/File
- · Box/File with Open

Each Box/File unit contains one 6" high box drawer and one 12" high file drawer. File drawer allows for side-to-side letter or legal filing and front-to-back letter filing.

• Internal height: 93/4"

• Internal width: 263/4" and 323/4"

• Internal depth: 153/4"

Open Quoin credenzas include one adjustable shelf, standard. The Quoin credenza case features two shelf positions to either align horizontally with adjacent credenza drawer fronts or to accommodate binder storage.

Available Sizes (Nominal)

Depth: 18.75"

Widths: 18", 24", 30", 36", 48", 54", 60", 66", 72" Height: 22 \(\frac{1}{2} \) "

Construction

Credenza specifications:

- Outer wrapper: 20-gauge steel
- Drawer front: 20-gauge steel
- Back: 20-gauge
- Full extension ball bearing drawer slides
- Leveling glides: 5/16" diameter steel stem with a 13/16" of height adjustment
- Extended Leveling glides: 5/16" diameter steel stem; provides 25/8" clearance when fully extended
- Standard interlock feature prevents both drawers from being opened at the same time for added stability.

Locks

Quoin credenzas with drawers are available non-locking or locking with cylinder lock and key. Lock drilling is omitted when specified as non-locking.

Locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cores K001-K250. All locks are factory-installed and can be specified with black or chrome finish.

Pulls

Quoin Desk supporting pedestals are available with two pull styles:

- 5" finger pull
- Rubber grommet pull

All pulls are factory installed. T-pulls are positioned horizontally 3/8" from top of drawer fronts. Grommet pulls are 1.5" in diameter and positioned 1" below from top of drawer front.

3/4"

Pull profile**

Standard Pull Position

Planning

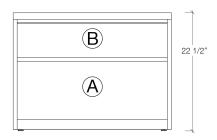

When planning credenza overlaying a table foot, Extended Leveler kit may be specified separately. Confirm clearance and overall credenza height when planning with height adjustable tables.

When planning credenza with VACS22P Template credenza spacer to support a Dividends Horizon worksurface, specify one credenza spacer per credenza. In this application, front leveling glides must be moved from the standard position to the secondary location within base. Template credenza spacer may not be used with credenzas raised on feet.

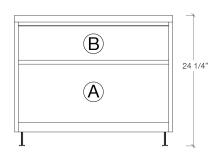

Quoin Credenzas may be planned on raised feet, see *Quoin Raised Foot Specifications* page for details.

When planning credenza in freestanding application, counterweight may be required. See credenza counterweight specifications for details.

Credenza Specifications Credenza Counterweights

Credenza Counterweight Application

Select Quoin credenzas require counterweight for use in freestanding applications. Credenzas secured to a panel, supporting a worksurface with a credenza spacer or ganged back-to-back with another unit do not require counterweight.

Single or double open units without drawers do not require counterweight.

When required, counterweights are specified separately and are field installed.

Reference the following list of pattern numbers and corresponding counterweight kits required for freestanding applications:

Specification Information

For use with Quoin credenzas only. Cushions mounts atop credenza laminate top. Cushion does not replace credenza top.

Cushions are designed to be centered front-to-back on credenza with slight reveal on each front and back.

Cushion are preassembled with hook and loop velcro for mounting to credenza top.

Application Notes

For Customer's Own Material (COM) applications, specify the following yardage per cushion; 18" - 36 wide cushions: 1.25 yards 42" wide cushions: 1.5 yards

1. Base Pattern Number	Example: VA 2CW 30 15	VA2CW3015 Quoin, Accessory Credenza Counterweight Kit 30" wide drawer unit 15 lbs.	Credenzas with drawers may require counterweight when used in freestanding position. Refer to Quoin Credenza Specifications to identify the appropriate kit. Counterweight kits are specified separately and field installed.	Counterweight kits include mounting hardware and brackets to install the counterweight plates. Counterweight plates are mounted to the back panel behind file drawer(s) inside credenza. Counterweight kits are specific to Quoin credenzas and may not be used for Quoin lockers.	

Quoin Lockers

Quoin Lockers are 12" and 15" wide steel construction cabinets offered in 4 depths and 5 heights.

Available Sizes (nominal)

Height: 28", 36", 42", 50", 57"

Width: 12", 15"

Depth: 15", 18", 24", 30"

Lockers with full door include right or left full overlay hinged door, dual prong coat hook and one adjustable shelf. Desk supporting lockers exclude coat hook.

Open lockers without door include 1-3 factory installed, adjustable shelves in quantities as noted below.

28", 36" high: 1 42" high: 2 50" high: 3 57" high: 3

When specified with finished steel top, top ships assembled with coat hook installed. Lockers ship assembled including steel top.

When specified without finished steel top, individual or common laminate top must be specified separately. Lockers specified without top include appropriate top attachment hardware. No top lockers with full door, 36" high and taller, include coat hook for field installation.

Locker heights are designed to align dimensionally with underside of Dividends Horizon panel top cap. Lockers for use with feet are designd to maintain alignment with corresponding Dividends Horizon panel when installed on raised feet (specified separately).

Select lockers require ganging or counterweight for stability. See Locker Stability Requirements for details.

Construction

Quoin lockers feature an innovative 1-piece wrapper design providing optimal material efficiency without sacrificing strength and durability.

• Wrapper: 20-gauge steel

•Slotted vertical channel: 16-gauge steel

• Base: 18-gauge steel

• Support Crossrails; 16-gauge steel

•Top: 20-gauge steel

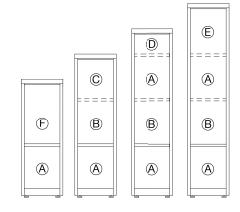

• Door Outer Panel: 20-gauge steel

• Door Inner Panel: 22-gauge steel

• Adjustable Shelves: 20-gauge steel

• Cantilever Shelf Support: 14-gauge steel

• Leveling glides: 3/8" diameter steel stem with 1-5/16" of adjustment providing up to 1-7/8" clearance beneath locker, 4 leveling glides included per locker.

Internal Clearances Internal Height:

A: 12¹/16" B*: 12¹/2" C: 11⁵/8" D: 6¹/4" E: 13¹/2" F*: 17⁹/16"

*B and F dimension reduced by 3 1/4" when specified for use with feet (VLF pattern numbers)

Adjustable shelves ship factory installed. Lockers with full door include one shelf installed in lowest position.

Internal Clear Width: 105/16", 135/16"

Actual dimensions to nearest 1/16th of an inch

Exterior Dimensions

Finished Height: $34\sqrt[3]{16''}$, $41\sqrt[4]{2''}$, $48\sqrt[3]{4''}$, $56\sqrt[4]{16''}$ Actual Width: 12'', 15''Actual Depth: $15\sqrt[3]{16''}$, $18\sqrt[3]{16''}$, $23\sqrt[4]{4''}$, $29\sqrt[4]{4''}$

Actual dimensions to nearest 1/16th of an inch

Common Laminate Tops

Common laminate tops may be specified to gang lockers in locker bank applications. Laminate tops are 15/16" thick laminate with ABS Edgeband.

Common tops are designed to span a single run of up to 8 lockers of consistent width and depth or back-to-back locker banks of up to 16 lockers of consistent width and depth.

To specify locker bank application, lockers must be specified with "no top" option and appropriate number of locker ganging brackets must be specified separately (VARQ01 or VARQ10), see locker accessories for details.

Select locker banks require counterweight for stability. See Locker Stability Requirements for details.

Locks

Quoin lockers with full door may be ordered with or without locks. No lock hole is drilled when specified as non-locking.

Lock options include cylinder lock with key, digital keypad lock or RFID lock.

Cylinder locks feature flush-mount lock housing to match specified lock finish, available in black or chrome. Cylinder locks are randomly keyed unless otherwise specified. Other keying options include keyed alike or keyed with lock cored K001-K250. To specify units as such, reference KnollKey Lock Program.

Digital keypad and RFID lock options are available with brushed nickel faceplate finish. Keyless locks ship program-ready in shared use mode. Refer to Keyless Locking Specifications for details.

Hinges

Standard (S) or soft close (Q) hinges are available for all lockers with full door.

Pulls

Quoin desk supporting pedestals are available with two pull styles:

- 5" finger pull
- Rubber grommet pull

All pulls are factory installed 1'' below top of door front. T-pulls are positioned vertically. Grommet pulls are 1.5'' in diameter.

Coat Hook and Coat Rods

Lockers 36"-57" high with door include factory installed coat hook, centered front-to-back. Top mount coat rods are available to replace standard coat hook within 18-30" deep lockers, see Locker Accessories for details.

Locker Specifications Locker Stability and Accessories

Locker Stability

Quoin lockers are tested per ANSI/BIFMA X5.9-2019 requirements. Select locker applications require ganging or counterweight to comply with stability requirements.

Individual Lockers

The following lockers may be used *freestanding* without additional stability accommodations:

- All 28", 36" and 42" high lockers
- All 30" deep lockers

The following lockers require *ganging or counterweight* to meet stability requirements:

- 50"H x 12", 15"W x 15", 18", 24"D
- 57"H x 12", 15"W x 15", 18", 24"D See Locker Counterweights for details

Locker Banks

Most locker banks may be planned freestanding except applications as described below which require counterweight or anchoring to a wall or panel for additional stability:

- Bank of 2-4 lockers: 50"H x 12", 15"W x 15"D
- Bank of 2-4 lockers: 57"H x 12", 15"W x 15"D
- Bank of 2 lockers: 50"H x 12", 15"W x 18", 24"D
- Bank of 2 lockers: 57"H x 12", 15"W x 18", 24"D

Counterweight Requirements

Counterweights are available to provide additional stability to Quoin lockers as needed. When required, counterweights are specified separately and field installed.

GR = Ganging to a panel or wall required

Ganging Kits

A variety of ganging kits are available to provide additional stability as required. Counterweights are not required when ganging units except in locker bank applications as described in Counterweight Requirements chart.

All ganging kits are specified separately and field installed. Applications include:

- Panel attachment brackets (VARDL01, VARDR01) secure Quoin locker to Dividends Horizon panel.
- Locker to credenza ganging kit (VARS01) secures Quoin locker to Quoin credenza.

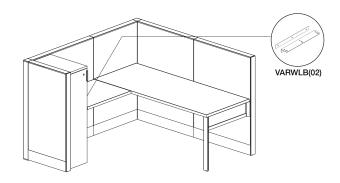

Dividends Horizon Panel Bracket for Quoin Locker Stability

Worksurface Mount Bracket

Worksurface mount brackets allow Quoin lockers to support one end of a Dividends Horizon fixed height worksurface. When specified, worksurface mount bracket replaces otherwise required support at the end of the worksurface (cantilever, support leg or similar).

Worksurface mount brackets are specified separately and field installed. Installation requires attachment through locker side panel and is intended to be permanent. Brackets are available in all core smooth and textured paint colors. Due to visibility of bracket within locker, it is recommended bracket finish coordinates with specified locker case finish.

Worksurface mount bracket applications require locker and attached worksurface to be of uniform depth.

Specific Information

Desk supporting lockers include 1 removable shelf.

Lockers with full door (FD) listed above include standard cylinder lock. For additional lock options, substitute with:

N = Non-Locking, deduct \$15 D = Digital Keypad lock, add \$605 R = RFID Lock, add \$672 Example (VLG281524FDLNSN)

Programming and Manager Key(s) are required for D or R lock types, specified separately. See Digital Keypad and RFID lock specifications for details.

Lockers with full door are available with soft close hinges. Specify Q hinge type, add \$75 list.

Application Notes

Desk supporting lockers do not include coat hook.

Desk supporting lockers include hardware to attach to laminate top. Steel top option is not available for desk supporting units.

Desk supporting lockers are intended to support one end of a worksurface or may be used in freestanding or bank applications. Finished height (28" nominal) aligns with standard Dividends Horizon worksurface height.

When specified non-locking, lock drilling is omitted from door front.

Dimensions listed under "w", "h", "d" are actual to the nearest 1/26".

Specific Information

Desk supporting lockers include 1 removable shelf.

Lockers with full door (FD) listed above include standard cylinder lock. For additional lock options, substitute with:

 $\begin{array}{l} N=Non\text{-Locking, deduct 15} \\ D=Digital Keypad lock, add 605\\ R=RFID Lock, add 672\\ Example (VLG281524FDLNSN)\\ R and D lock types are not available with Grommet pull option. \end{array}$

Programming and Manager Key(s) are required for D or R lock types, specified separately. See Digital Keypad and RFID lock specifications for details.

Lockers with full door are available with soft close hinges. Specify Q hinge type, add \$75 list.

Application Notes

Desk supporting lockers do not include coat hook.

Desk supporting lockers include hardware to attach to laminate top. Steel top option is not available for desk supporting units.

Desk supporting lockers are intended to support one end of a worksurface or may be used in freestanding or bank applications. Finished height (28" nominal) aligns with standard Dividends Horizon worksurface height.

When specified non-locking, lock drilling is omitted from door front.

Dimensions listed under "w", "h", "d" are actual to the nearest 1/26".

Specific Information

All lockers 36" high and taller with hinged door include factory installed, dual-prong coat hook and one adjustable shelf installed in lowest shelf position. See Specification Information for additional shelf positions.

Above listed pattern numbers include standard cylinder lock. For additional lock options, substitute the final "L" of pattern number with: N = Non-Locking, deduct \$15 D = Digital Keypad lock, add \$605 R = RFID lock, add \$672 Example (VLG501224FDLSSN). R and D lock types are not available with Grommet pull option.

Programming and Manager Key(s) are required for D or R lock types, specified separately. See Digital Keypad and RFID lock specifications for details.

Lockers with full door are available with soft close hinges. Specify Q hinge type, add \$75 list.

Application Notes

Above listed lockers include a finished steel top. Lockers may be specified without a steel top for use with an individual or common laminate top, specified separately. to specify locker without top, substitute top option character with an "N" and deduct \$40 list (Example: VLG421224FDLNSL).

When specified non-locking, lock drilling is omitted from door front.

Dimensions listed under 'w', 'h', 'd' are actual to the nearest 1/6".

50" and 57" high lockers, 15", 18" and 24" deep (nominal) require ganging or counterweight for stability. See Locker Stability Requirements for details.

All lockers 42" and 36" high may be used freestanding.

All lockers $30^{\prime\prime}$ deep may be used freestanding.

Specific Information

Foot kits not included, must be specified separately and installed

All open lockers include adjustable height shelves in quantities indicated above. Shelves are factory installed. See Specification Information for shelf positions and clearances.

Lockers for use with feet are designed to align with underside of Dividends Horizon panel top cap with foot kits installed.

Lockers for feet do not include leveling glides.

Application Notes

Above listed lockers include a finished steel top. Lockers may be specified without a steel top for use with an individual or common laminate top, specified separately. to specify locker without top, substitute top option character with an "N" and deduct \$40 list (Example: VLG421224OSN).

Dimensions listed under 'w', 'h', 'd' are actual to the nearest 1/6".

50" and 57" high lockers, 18.75" and 24" deep require ganging or counterweight for stability. See Locker Stability Requirements for

All lockers 42" and 36" high may be used freestanding.

Specific Information

Foot kits not included, must be specified separately and installed on site.

All lockers 36" high and taller with hinged door include factory installed, dual-prong coat hook and one adjustable shelf installed in lowest shelf position. See Specification Information for additional shelf positions.

Above listed pattern numbers include standard cylinder lock. For additional lock options, substitute the final "L" of pattern number with: N = Non-Locking, deduct \$15 D = Digital Keypad lock, add \$605 R = RFID lock, add \$672 Example (VLG501224FDLSSN). R and D lock types are not available with Grommet pull option.

Lockers for feet do not include leveling glides.

Lockers for use with feet are designed to align with underside of Dividends Horizon panel top cap with foot kits installed.

Lockers with full door are available with soft close hinges. Specify Q hinge type, add \$75 list.

Application Notes

Above listed lockers include a finished steel top. Lockers may be specified without a steel top for use with an individual or common laminate top, specified separately. to specify locker without top, substitute top option character with an "N" and deduct \$40 list (Example: VLG421224FDLNSL).

When specified non-locking, lock drilling is omitted from door front.

Dimensions listed under 'w', 'h', 'd' are actual to the nearest $\frac{1}{6}$ ".

50" and 57" high lockers, 15", 18" and 24" deep (nominal) require ganging or counterweight for stability. See Locker Stability Requirements for details.

All lockers $42^{\prime\prime}$ and $36^{\prime\prime}$ high may be used freestanding.

All lockers 36" high and taller with hinged door include factory installed, dual-prong coat hook and one adjustable shelf installed in lowest shelf position. See Specification Information for additional shelf positions.

Above listed pattern numbers include standard cylinder lock. For additional lock options, substitute the final "L" of pattern number with: N = Non-Locking, deduct \$15 D = Digital Keypad lock, add \$605 R = RFID lock, add \$672 Example (VLG501224FDLSSN). R and D lock types are not available with Grommet pull option.

Lockers for feet do not include leveling glides.

Lockers for use with feet are designed to align with underside of Dividends Horizon panel top cap with foot kits installed.

Lockers with full door are available with soft close hinges. Specify Q hinge type, add \$75 list.

Application Notes

Above listed lockers include a finished steel top. Lockers may be specified without a steel top for use with an individual or common laminate top, specified separately. to specify locker without top, substitute top option character with an "N" and deduct \$40 list (Example: VLG421224FDLNSL).

When specified non-locking, lock drilling is omitted from door front.

Dimensions listed under 'w', 'h', 'd' are actual to the nearest $\frac{1}{6}$ ".

50" and 57" high lockers, 15", 18" and 24" deep (nominal) require ganging or counterweight for stability. See Locker Stability Requirements for details.

All lockers $42^{\prime\prime}$ and $36^{\prime\prime}$ high may be used freestanding.

- 2. Laminate Finish
 See Finish Options page
- 3. Edge band Finish

Order Code

Example:	VL1C3618L
VL	Quoin, Locker
С	Common top, Single Run
36	36" Wide
18	187/8" Deep
L	Laminate
118	Laminate finish, Bright White
118	Edgeband finish, Bright White

Specific Information

Ganging kits (VARQ01, VARQ10 pattern numbers) are required for use with VLTC or VLTB common tops, specified separately.

Tops are designed to span a maximum of (8) lockers of uniformed width side-by-side, flush with no gap.

VLTB back-to-back tops are designed to be used over lockers of the same depth, positioned back-to-back flush with no gap.

Application Notes

For use with Quoin lockers with "no top" option only.

Hardware to attach laminate tops is included with each "no top" Quoin locker

Common locker top design features a slight overhang on all 4 sides.

Specific Information

Ganging kits (VARQ01, VARQ10 pattern numbers) are required for use with VLTC or VLTB common tops, specified separately.

Tops are designed to span a maximum of (8) lockers of uniformed width side-by-side, flush with no gap.

VLTB back-to-back tops are designed to be used over lockers of the same depth, positioned back-to-back flush with no gap.

Application Notes

For use with Quoin lockers with "no top" option only.

Hardware to attach laminate tops is included with each "no top" Quoin looker

Common locker top design features a slight overhang on all 4 sides.

Specification Information

Locker shelf kits are available in all core paint options to match or contrast locker units as desired.

All locker shelf kits include appropriate cantilever brackets for installation. When specified separately, shelf kits are field installed.

Locker worksurface mount brackets include a 2-piece bracket set and attachment hardware.

Worksurface mount bracket application requires visible bracket mounted within locker. Specifying bracket in finish to match locker case is recommended.

Application Notes

Lockers with full door include (1) adjustable shelf, standard. Open lockers without door include 1 to 3 shelves depending on locker height. Above shelf kits may be specified when additional shelves are required.

Locker shelves may only be installed in pre-determined locations. See Specification Information for shelf position details.

Locker worksurface mount brackets may be used to support one end of a fixed Dividends Horizon worksurface.

Worksurface mount bracket applications require locker and worksurface to be of uniformed depth.

Worksurface mount bracket application satisfies locker stability requirements.

Worksurface mount bracket requires field drilling through locker side panel.

Specification Information

Dual prong coat hook and coat rod kit includes hook with attachment screws for steel or laminate top.

Panel attachment bracket kits include 2 brackets designed to engage with Dividends Horizon panel providing additional stability to the locker. Specify one kit per locker to panel attachment.

Locker to credenza ganging kit includes 2 brackets and connection hardware allowing one locker to be connected to one credenza or Series 2 doublewide to provide additional stability to locker.

VARQ01 kits includes 2 brackets and connection hardware to join 2 Quoin lockers. VARQ10 includes 20 brackets and connection hardware required for 10 locker connections.

VARQ01 or VARQ10 must be specified when ganging lockers with VALTC.. or VALTB.. common laminate tops.

Application Notes

Lockers with full hinged door include one factory installed coat hook, standard. VACHD01 coat hook may be specified when additional hooks are required or for use within open lockers without door. When specified separately, coat hooks are field installed.

Full width locker coat rod kits accommodate clothing hangers as follows:

15" deep locker: will not accommodate clothing hangers 18" deep locker: accommodates hangers up to 17" wide 24-30" deep lockers: accommodate all standard or oversized clothing hangers up to 19" wide When specified, locker coat rod is designed to replace coat hook, coat rod may not be used together with coat hook(s). Coat rods are field installed.

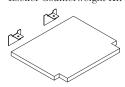

Handedness of panel attachment bracket set is determined by viewing locker from the front.

See locker Specification Information for specific stability recommendations.

equire hen used in tions. Stability arious ganging ıterweight kit.

fication lity guidelines.

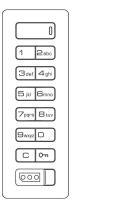

Counterweight kits are specified separately and field installed.

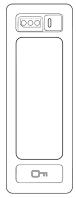

Application Notes

Counterweight kits include mounting hardware and brackets to install the counterweight plates.

Locker counterweights are installed beneath the unit.

Locker counterweight kits are intended for Quoin lockers and may not be used for Quoin credenzas.

Digital Keypad lock

RFID lock

Application

Quoin lockers with Digital Keypad or RFID lock options support applications where units are shared by multiple users providing a secure storage alternative to a standard key lock. This elminates the use of a standard key which can easily be misplaced or taken offsite.

The Digital Keypad lock option requires input of a user-selected 4-digit code while the RFID lock operates when the user presents a compatible RIFD card to the lock. To operate, the user must press the C or Key button depending on lock type, enter code or present RFID card, then press the Key button again to lock or unlock the unit.

If an RFID credential is lost or a code is forgotten, a Manager Key (specified separately) can be used to bypass the lost or forgotten credential and unlock the unit. In situations where a user is unable to operate the keypad or RFID reader, a User Key (specifed separately) can be utilized to override code input or RFID requirement, allowing the lock to comply with ADA requirements.

Each installation site with Digital Keypad or RFID lock requires *one* Programming Key and *at least one* Manager Key, specified separately.

All Digital Keypad and RFID locks are shipped program-ready for Shared Use mode. Initial setup is required on-site prior to use. See Keyless Locking Guide for procedure details.

To operate in Shared Use mode, the user will select an unused unit, place their items within and follow the locking procedure. Once their items are retrieved, the lock will remain unlocked until it is locked by the next user. Locks may be converted to Assigned Use mode in which the lock remains locked until accessed by assigned user(s)

To convert an RFID lock to Assigned Use mode, an Assigned Use Reset Key must be used. Reset Key expires 6 weeks from date of order. To convert Digital Keypad lock to Assigned Use mode, follow the sequence listed within the appropriate User Guide.

Specifications and Features

- · Brushed Nickel finish
- Vertical body orientation
- · Recessed-mount, factory installed
- · All metal lock housing
- Automatic (motorized) 1/2" dead bolt
- Powered by 4 premium AA batteries (included)
- Duracell CopperTop or Energizer brand batteries required. Rechargeable batteries are not recommended.
- Shared Use Mode is default, locks may be converted to Assigned Use Mode
- Tamper guard
- · Audible and visible usage indicators
- Lock can be bypassed with a Manager Key if code is forgotten, RFID credential is lost or in case of battery failure.
- LED usage indicator prompts the lock's LED to flash when the unit is locked, indicating the locker is in use. The default setting for this feature is ON, however the LED usage indicator can be turned off for Digital Keypad locks at any time by following the procedure listed in the user guide.
- Typical battery life is 3-5 years (based on length of usage). Turning the LED usage indicator feature off extends battery life.

Digital Keypad Lock

• Operated with a user-selected 4-digit code

To specify a locker or pedestal with a Digital Keypad lock, select "D" in the pattern number for the lock option. *Example:* VLG421224FDLSS(**D**) - Locker with full door 42H x 12W x 24D, steel door, steel top, **Digital Keypad lock.** When specified, Digital Keypad lock is factory installed. Instructions for programming are included.

RFID Lock

- Operated with a compatible RFID Card or employee badge.
- Knoll RFID locks operate on 13.56 MHz frequency with both iClass (ISO 15693) and Mifare (ISO 14443). Anchor RFID locks are not compatible with HID systems.

To specify a locker or pedestal with a RFID lock, select "R" in the pattern number for the lock option. $Example\ VLG421224FDLSS(R)$ - Locker with full door $42H\ x\ 12W\ x\ 24D$, steel door, steel top, **RFID lock**. When specified, RFID lock is factory installed. Instructions for programming are included.

User Key

- User Keys allow ADA access to Digital Keypad or RFID locks for users unable to operate the keypad or RFID reader.
- User Keys are used by touching key to prongs of the lock to lock and unlock the unit.

Manager Key

- Manager Key is used to bypass a locked unit.
- Manager Keys are registered to locks using the Programming Key.
- Up to (6) Manager Keys may be registered to each lock. This allows the client to design a lock system that suits their management access requirements.
- Additional Manager Key(s) may be registered to a lock without erasing previously registered Manager Keys.
- Provides external power in case of battery failure.

Programming Key

- The Programming Key is a communication device used to initialize locks out of factory default mode and to register Manager Keys to the locks. It is used to transfer, but not store information.
- Only one Programming Key should be specified per installation site. Multiple Programming Keys cannot be used in conjuction with each other.
- Add-on or phased orders for Digital Keypad or RFID locks should be initialized and programmed using the original Programming Key.
- Used to turn on/off Digital Keypad lock features such as LED usage indicator and auto unlock
- Provides external power in case of battery failure.
- If a programming key is lost, a Replacement Programming Key may be ordered but the original Programming Key will become obsolete.

programming key (yellow)

user key (black)

manager key (black)

Calculating the total number of manager keys

The Digital Keypad and RFID lock systems are flexible, allowing the client to choose the number of manager keys required. Solutions may range from simple to complex, depending on client needs. It may be helpful to create a chart to organize and calculate the number of manager keys required, similar to the examples shown below.

Considerations:

- · If units will be located on different floors, consider ordering keys that can be registered to bypass all locks as a floor-specific "master key".
- It units will be located within different zones or areas, consider ordering keys that can be registered to locks within specific zones on each floor.
- If the client would like to create a "master key", one or more manager keys can be registered to all locks to act as a "master key".
- Only one Programming Key is required per site regardless of total number of locks or Manager Keys.

Manager key count examples

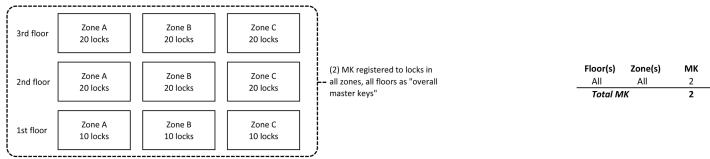

Sample project is a three story space, each floor is divided into three zones containing a varied number of lockers. Example 1 is a simple lock system showing two manager keys registered to all locks, regardless of floor or zone. Example 2 is a more complex solution showing manager keys registered to locks in a layered approach. At the lowest management level, keys are registered specific to zone, followed by keys that are floor-specific and at the top level, keys are registered to all locks to be used as overall master keys.

The manager key counts shown in the examples are sample numbers; the ratio of manager keys to the number of locks is decided by the client.

Example 1

Two (2) manager keys registered to all locks throughout the space. No manager keys registered specific to floor or zone.

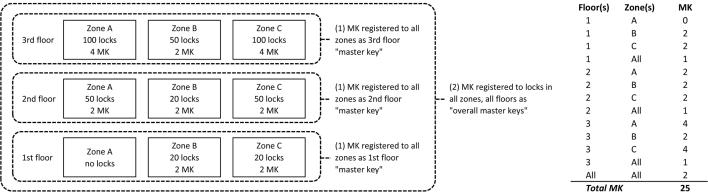

Example 2:

- Manager keys registered to all locks within each specific zone on each floor. Number of manager keys is decided by client. Once registered, these manager
 keys may be used to bypass any lock within that zone on that floor, but will not be able to bypass any of the other units.
- · One (1) manager key for each floor registered to all locks in all zones on that floor, used as first, second and third floor "master keys".
- Two (2) manager keys registered to all locks, in all zones on all floors used as "overall master keys".

Wall Mounting Suggestions

The following information is provided only as a guide, and represents minimum recommendations only. Knoll does not accept responsibility for the attachment of any Knoll product to a Customer's site wall. Wall specification/construction is the responsibility of the Customer and its structural engineer/architect. Failure to properly attach Knoll products to adequate wall structures can lead to property damage and/or personal injury.

You should consult your own structural engineers and/or architects and must not rely on the information provided herein.

It is the responsibility of the Customer and its structural engineers/architects to verify that the permanent structural walls (studs, blocks, solid masonry, etc.) on which the Knoll products are intended to be mounted are designed appropriately to support the product weight, PLUS 3 lbs. per linear inch for each useable shelf length

NOTE: A cabinet's top is considered a "useable shelf" and MUST be included in the calculation of the total load for an overhead cabinet.

It is the responsibility of the Customer and its structural engineer/architects to specify the fasteners and method for attaching the Knoll supplied wall mounting cleat, bracket, frame, etc. to the supporting wall and to confirm that the installers have adhered to these specifications. For all local building standards and codes, and additional requirements (including, but not limited to, seismic conditions) the Customer should always consult local code agencies.

This Selling Policy supersedes all previous selling policies and is inclusive of Knoll, KnollStudio and Muuto. Prices, discounts and product offerings are subject to change without notice.

Terms & Conditions of Sales

Sales by Knoll, Inc. or Knoll North America Corp. ("Seller") of Knoll Product Lines (hereinafter "Products") within the United States and Canada are made only on the terms which are contained in this Selling Policy. Seller hereby gives notice of its objection to any different or additional terms and conditions. This sale is expressly conditional upon Purchaser's assent to the terms and conditions set forth below. Additional terms and conditions may apply to KnollStudio and KnollTextiles orders. These terms and conditions may be modified or supplemented only by a written document signed by an authorized representative of Seller. These terms and conditions supersede any prior and/or contemporaneous agreements or correspondence between Purchaser and Seller. Written quotations expire thirty (30) days from the date of issuance and can be withdrawn by written notice anytime during that period. Where Purchaser and Seller have entered into the Knoll Electronic Terms and Conditions, all orders, acknowledgements, invoices and other business communications placed or transmitted in accordance with the Knoll Electronic Terms and Conditions shall be deemed to be in writing and signed and shall be valid for all purposes as if they were originated and maintained in documentary form.

Ordering Information Order Confirmation Pricing Policies

All orders must be in writing. The product pattern number(s) contained on Seller's order acknowledgement shall be the final expression of the order.

A purchase order is not binding on Seller until Purchaser has received Seller's order confirmation or acknowledgment.

List prices are subject to change without notice.

List prices shall be those prices in effect on the date of receipt of a complete purchase order unless shipment is requested more than ninety (90) days after order entry in which case prices in effect on the date of shipment apply. List prices include specified freight costs. Unless specified in writing by Seller, no other charges are included in Seller's list prices.

Taxes

All sales, use, excise and other taxes applicable to the sale of the Products shall be paid by Purchaser. If Purchaser claims an exemption from any tax, Purchaser shall submit to Seller the appropriate exemption certificates.

Terms of Payment

Payment for one hundred percent (100%) of the net order amount (including any applicable shipping and handling fee) is due within thirty (30) days of the date of invoice, which is generally issued upon shipment. In case of any discrepancies, such as shortages, and Seller is notified in writing within ten (10) days of receipt of Product, only that portion may be deducted and the balance paid. For orders greater than \$100,000 net, a fifty percent (50%) deposit is due at the time of order placement, with the remainder due within thirty (30) days of the date of invoice.

KnollStudio orders less than \$2,000 require payment for one hundred percent (100%) of the net order amount (including any applicable sales tax and charges for inside delivery, special packaging, etc.), due at time of order placement. For KnollStudio orders greater than \$2,000, a one-half (50%) deposit is due at time of order placement with the remainder (including any applicable sales tax and charges for inside delivery, special packaging, etc.) due prior to shipment. If, in the judgment of Seller, Purchaser's financial condition does not justify the terms of the payment, Seller may require full or partial payment in advance. Past due accounts shall be charged one and one-half percent (1.5%) per month, or the highest rate permitted by law, whichever is less, and will be added to the outstanding balance. In the event Purchaser defaults on payment, Purchaser shall be liable for all collection costs, including reasonable attorney's fees and costs.

Changes and Cancellation

Standard purchase orders may not be changed or cancelled, in whole or in part, without prior written consent of Seller. Changes may effect delivery dates. Expenses incurred because of changes shall be charged to Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Seller. Orders for special Product, orders including "COM" (hereinafter defined) material and orders pursuant to expedited delivery programs, may not be canceled.

QuickShip orders may not be changed or canceled without Knoll's authorization. In the event of Muuto order changes, 25% payment of original net order amount is required for changes incurring the week the order was entered. 100% payment of original net order amount is required for changes incurring the week the order is scheduled to ship. If Muuto is ordered on QuickShip, the QuikShip policy supersedes.

Freight Prepaid

For standard orders, freight is prepaid and included in the price of all Knoll Office and KnollStudio Products, except KnollTextiles and Muuto, within the 48 contiguous United States for orders placed with Knoll, Inc. and within Canada, excluding the Yukon, Northwest Territories, Nunavut and Newfoundland for orders placed with Knoll North America Corp. Packing is tested for rigorous motion and transportation but is not guaranteed to protect furniture from all conditions. If special packaging is required for any reason, please consult with your sales representative or dealer. Seller shall select the method of shipment and routing. Freight for all KnollTextiles orders is prepaid and added to the invoice.

Freight for all Muuto orders must be specified at time of order placement and added to the PO.

Delivery/Freight Charges

Shipments outside the contiguous 48 United States and Canada shall be shipped F.O.B. Origin.

For shipments outside the contiguous United States and Canada, Purchaser is responsible for the cost of freight from point of embarkation, including any handling and transportation charges incidental to loading at the point of departure and unloading at the final destination.

Conditions beyond the control of Seller, including weather, available facilities and traffic conditions, may affect exact time of delivery. Seller shall not be responsible for specific carrier delivery date or time unless it has made a specific delivery commitment, in writing.

Nonstandard methods of shipment and/or additional services are available upon request. Orders for QuickShip product shipping direct parcel or White Glove are subject to additional shipping and handling charges and must be paid by Purchaser. Purchaser will be billed for the differential cost of any special services in excess of standard surface carrier freight costs. Premium charges, at Purchaser's request, will be added for airfreight, exclusive use of vehicle and extra, export or special packaging. Accessorial charges will be added for inside delivery, extra labor, reconsignment and redelivery.

Partial shipments may be made and invoiced by Seller.

Claims

All shipments for Knoll Products within the contiguous United States and Canada are F.O.B. Origin. All risk of loss passes to Purchaser at time of delivery to carrier. Purchaser shall inspect all Products upon receipt and notify Seller within ten (10) working days after receipt of any damage or defects which are, or should be, apparent from an inspection of the Product and its packaging. Failure of Purchaser to notify Seller during the ten (10) working day period shall constitute acceptance of the Products and waiver of any apparent defects, errors or shortages. For all claims relating to Product damaged in transit or for any other claims relating to or arising out of the transportation of the Product, Purchaser must seek recovery from the carrier and Seller has no liability to Purchaser for such claims. Seller may, upon request, assist Purchaser with filing of such claims with the carrier, but Seller will not be liable for any of these transportation related claims.

Selling Policy

Seller's Security Interest Until Seller receives the full payment for the Product, Seller shall have a security interest in the Product. Purchaser agrees to perform all acts, including but not limited to the execution and filling of documentation, which may be necessary to perfect and assure the security interest of Seller.

Returns The return of Products without a written authorization by Seller shall not be accepted. To receive authorization for Product return, please call Customer Service. All Products that are returned pursuant to a valid authorization shall be subject to a twenty-five percent (25%) of list restocking charge. Products not currently offered for sale by Seller (including COM) shall not be authorized for return. All returned Products must be unused, in original condition and in the original Seller packing cartons. No refund or credit shall be given for damaged Products.

Held Orders/Storage

If Purchaser requests that an order be held or delayed, prices and terms and conditions in effect at the time of shipment shall apply. If Purchaser requests a delay after the time when Seller can defer production, Purchaser will be invoiced for the Product, payable in accordance with standard terms, when the order is ready for shipment. Seller may transfer the Product to storage, in which case all expenses incurred in connection with storage, including demurrage, preparation for storage, storage charges and handling shall be payable by Purchaser upon submission of invoices by Seller. Risk of loss to the Product shall pass to the Purchaser upon delivery of the Product into storage.

Customer's Own Material

A Purchaser who requests a fabric or other surface material not standard to Seller's line of Products ("COM") must submit samples of the requested material to Seller prior to entry of a purchaser order. Seller shall determine if the material is suitable to its manufacturing processes and meets any requirements of Underwriters Laboratories. If the COM is acceptable, Seller will then establish a price for using the COM or the Product in question. For a description of the procedures for submitting samples and testing, contact customer resources or your sales representative. Seller shall have no responsibility for the appearance, condition, performance, durability, colorfastness or any other physical attribute of the COM. Purchaser shall indemnify and hold Seller harmless for any damages, injuries or losses arising out of or related to use of the COM on the Product.

Delay/Force Majeure

Seller shall not be liable for failure to perform or for delay in performance due to fire, flood, strike or other labor difficulty, act of God, act of war or terrorism, act of any governmental authority or of the Purchaser, riot, embargo, fuel or energy shortage, wrecks or delay in transportation, inability to obtain necessary labor, materials or manufacturing facilities from usual sources or failure of suppliers to meet their contractual obligations, or due to any cause beyond its reasonable control. If any such event occurs, Seller may extend delivery dates by a period of time necessary to overcome the effect of such delay, allocate available Product or cancel any purchase order.

Compliance with Law

PURCHASER IS SOLELY RESPONSIBLE FOR COMPLIANCE WITH ALL APPLICABLE FEDERAL, STATE AND LOCAL LAWS, ORDINANCES. REGULATIONS, RULES AND STANDARDS RELATING TO THE INSTALLATION, MAINTENANCE, USE AND OPERATION OF THE PRODUCTS.

Subject to the following provisions, Seller shall, at its own expense, defend or, at its option, settle any claim, suit or proceeding brought against the Purchaser, and/or its vendees, mediate and immediate, so far as based on an allegation that any Product or any part thereof furnished hereunder constitutes a direct or a contributory infringement of any claim of any patent of the United States or Canada. This obligation shall be effective only if Purchaser shall have made all payments then due hereunder and if Seller is notified promptly in writing and given authority, information and assistance for the defense of said claim, suit or proceeding. Seller shall pay all damages and costs awarded in such suit or proceedings so defended.

The foregoing indemnity does not apply to the following:

- Products supplied according to a design other than that of Seller, and which is required by the Purchaser.
- · Combination of the Product with another product not furnished hereunder unless Seller is a contributory infringer.
- · Any settlements of a suit or proceeding made without Seller's written consent.

Limitations of Liability

SELLER, ITS CONTRACTORS, AUTHORIZED DEALERS AND SUBCONTRACTORS OR SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE TO PURCHASER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM A BREACH OF THIS AGREEMENT.

Purchaser's remedies set forth herein are exclusive and the liability of Seller with respect to the breach of this agreement or any contract entered into between the parties pursuant hereto shall not exceed the price of the Product or part on which such liability is based.

Warranty please visit warranty website link https://www.knoll.com/help/warranty for up-to-date information.

KnollKey Lock Program General Information

Following is the KnollKey lock policy, applicable to all products.

Knoll furniture can be ordered keyed-alike or random keyed. Key-alike and random keying instructions cannot be mixed on any single order. Only one of the two instructions can be used on an individual order. When an order is submitted with mixed (key-alike and random) instructions, Knoll will release the order as key-alike only and lock cores will have to be specified separately.

Key-alike

For the convenience of the user, furniture may be keyed alike at no charge. Write "Key-alike" in the description of your purchase order for any pedestal, overhead, file or other item you wish to have keyed alike.

Using the key-alike instructions, order cores and keys as line items on your purchase order. Do NOT submit a key-alike form. The Knoll East Greenville Lock Center will select key numbers from the standard range of K 001 - K 250. Key numbers will not be repeated unless over 250 sets are ordered. Lock cores keyed-alike will ship separately from the product, ready for field installation.

There is no charge for key-alike orders if placed with the furniture order.

IF THE KEY-ALIKE ORDER IS NOT PLACED AT LEAST TWO WEEKS PRIOR TO THE FURNITURE SHIP DATE, A \$50 HANDLING CHARGE AND AIR FREIGHT CHARGES WILL APPLY.

If product is ordered and shipped random-keyed, additional lock cores for key-alike are billable.

Random-Keying

To specify product keyed-random, write "key-random" in the product description. Random-keyed product is shipped with the lock core factory installed. A shrouded key is included. Random means no effort has been made to match key numbers, or to make them different.

Keys

A Knoll shrouded key is shipped with every lock core. 250 Key numbers are available. For numbers above 250, contact Custom Product Development. Additional keys and key blanks are available. See service parts for more information.

Master Keying

Knoll locks can be controlled by means of a master key. There is no additional per-lock charge for master keying. A letter of approval from the client must accompany orders for master keys.

Installing Lock Cores

Lock cores can be installed or removed in the field by using a change key. Cores must be in the unlocked position to be removed. See service parts for change key pattern number and pricing.

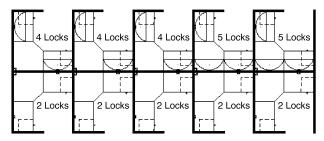

Lock Distribution

All orders for key-alike lock cores/keys are packaged and shipped from the East Greenville Lock Center, regardless of where the pedestals, overhead, or other units are produced. Random keyed product will have cores factory-installed.

How to Specify Key-Alike

Following is an example of how to specify key-alike for a cluster of 10 workstations.

Step 1 - Using the project floorplan, count the number of locks in each workstation.

Step 2 - Count the number of workstations with the same quantity of locks. Group together the workstations with a like number of locks.

- 5 workstations with 2 locks per station
- 3 workstations with 4 locks per station
- 2 workstations with 5 locks per station

Step 3 - For the first group (5 sets of 2 locks), enter the number of workstations in the quantity column.

Qty	Pattern #	Description	Unit List	Ext. List
5				

Step 4 - Then enter the pattern number "KSPEC__" and add a suffix for the number of locks for that group (i.e., for 2 locks per station, add the suffix "2"). Up to 30 lock cores are available in a set (i.e., KSPEC 30).

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C

Step 5 - Repeat for other groups.

Qty	Pattern #	Description	Unit List	Ext. List
5	KSPEC 2	Set of 2 cores/keys	N / C	N / C
3	KSPEC 4	Set of 4 cores/keys	N / C	N / C
2	KSPEC 5	Set of 5 cores/keys	N / C	N / C

Your Key instructions are complete.

Knoll will select key numbers for each set from 250 available numbers. Additional key numbers are available through Custom Product Development. For additions to existing installations, specify desired key numbers in the description.

Service Parts

Pattern #	Description	List Price	
KKEY	Shrouded Key Specify key number desired	\$11	
KBLANK	Shrouded Key Blank	\$11	
KSPECB	Retrofit Universal Core/Key Specify key number desired	\$23	
KCHANGE	Change Key	\$11	
HLKRKMASTER*	Master Key	\$14	

^{*}Note: A letter of approval on company letterhead from the client must accompany all orders for master keys.

General Ordering Information

The Products

This guide encompasses all standard products for this product group.

Sizes

Dimensions listed in this guide are indicated as:

H = height

W = width

D = depth

Dia. = diameter

Rad. = radius

Pricing

All prices shown are list.

How to Order

Select pattern numbers and quantities required for your complete installation. Product questions can be addressed in the specific sections of this guide or by contacting your sales representative or customer resource representative at 1-800-343-5665.

Next, select options (if required), along with colors and finishes appropriate to each product. Reference the Finishes and Fabrics pages for color designations.

On large installations, an item's "designated area" can be specified to assist in product organization and handling.

To expedite complete / correct entry of your order, be certain all pattern numbers, quantities, colors and area identifications are completely specified. Also, include complete purchase order numbers, bill-to and ship-to addresses, a contact name and specific factory shipping dates required.

Mail all orders to:

Knoll, Inc. 1235 Water Street P.O. Box 157

East Greenville, PA 18041 Attention: Order Entry

Once your order is entered at Knoll, an acknowledgment will be mailed to you. You will be advised of your scheduled shipping date within five days of the original acknowledgment. If it is necessary to revise your order, please contact your customer resource representative.

Sustainability Statement

Sustainable design is a key component of Knoll's environmental focus. Our commitment to social responsibility and a healthy environment has prompted us to further articulate our longstanding environmental programs and, with encouragement and support from our colleagues in the industry, we have re-energized our focus on such "green" initiatives as life cycle analysis and LEEDTM certification. Knoll is proud to have contributed to projects that have received LEED certification from the U.S. Green Building Council.

For the latest information on Knoll products that help our customers achieve LEED certification, log on to knoll.com, click on "About Knoll" and then "Environmental Focus."
