Steelcase
Flex Collection

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at www.steelcase.com/finishlibrary/.

▶ For a list of all trademarks, refer to the last page of this specification guide. © 2024 Steelcase Inc.

For Canadian Pricing
Canadian factor can be found at www.steelcase.com/CADpricing. Calculate in the following order to avoid rounding errors:
· Multiply the base price and each option by the Canadian factor.
· Round each to the nearest dollar.
· Add base and options for total list price.

Working with This Specification Guide

Steelcase Flex Collection, continued

Ten Tips:
How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

· Product Drawing
· Actual Dimensions
· Product Details
· Connections
· Wiring and Cabling
· Surface Materials
· Application Topics

Product Drawing shows you what the product looks like and points out important features.

**Product Details** gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.

Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Tip 5

Refer to the specifying pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:
• Product Drawing
• Standard Includes
• Required to Specify
• Options
• Related Products
• Specification Information
  • Dimensions
  • Style Number
  • Price

Standard Includes
(under the red or dark grey band) provides a list of what comes standard with the product.

Required to Specify
(under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information
(under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing
shows you what the product looks like.

Options
(under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products
provide specification information for products that are directly related.

Tip 6

Required to Specify

Specify *with Customiz Stain*

Italic typeface on specifying pages usually identifies wording that you should use in your order.
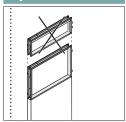

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.
Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8

Learn what you cannot do by looking for drawings crossed out with an "X."

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers.

Tip 10

Style Number	Page
TS7042BL	131
TS7042S	130
TS7048BL	131
TS7048S	130
TS7060BL	131
TS7060S	130
TS7072BL	131

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

Additional Resources

Flex products are supported with informational materials, tools, and software to help you plan, specify, and order an installation efficiently.

Printed Materials

Other Specification Guides

Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the www.steelcase.com web site or at village.steelcase.com.

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools–Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

Digital Publications

You can access these digital publications at www.steelcase.com or village.steelcase.com.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering or product assistance,

please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to http://www.steelcase.com/warranty/.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

Sustainability

At Steelcase, we believe business can be a force for good. We create long-lasting products that are better for people and better for the planet. Our products and operations use life cycle thinking to meet our commitment to reducing climate change. This commitment is reinforced by practices such as designing to minimize global warming and other life cycle impacts, ensuring material health, and enabling end-of-use strategies. To learn more at a corporate level, visit: *https://www.steelcase.com/discover/steelcase/esg-overview/environmental/* Product Environmental Profiles, which provide key environmental attributes such as recycled content, embodied carbon and recyclability, as well as product certifications can be found by searching for Steelcase at *Origin.build*.

Rectangle Height-Adjustable Desks and Bases

Rectangle height-adjust-able desks bring mobility and wellbeing, allowing users to change posture and loca-tion to suit their work needs. Optional integrated power includes a single power cord that comes out of the desk for ease of movement.
▶ Specifying pages 73 and 79

Desk has a wood core with a High-Pressure Laminate, wood veneer surface, and is 1" thick.

Edge is available in 3 mm edge profile, when High-Pressure Laminate is selected.

Square edge is available in 3 mm edge profile, when wood veneer is selected.

Basic height-adjustable base adjusts from 27⅗"H–46⁹⁄₁₀"H in any increment.

Push button simple touch controller adjusts height at a rate of 1½" per second.

Base supports a maximum distributed weight load of 360 pounds (2-leg).
Tip: When calculating lift-ing capacity, subtract the weight of the worksurface, understructure, and options selected.
▶ See page 23 for *worksur-face weights*.

Lifting column is controll-ed by central control box for synchronization. Columns are precision balanced to minimize surface vibrations.

Extended height-adjustable base adjusts from 22⅗"H to 48⁷⁄₁₀"H in any increment.

Active touch controller is Bluetooth-enabled; is standard and includes digital display, two preset buttons, double-tap automatic drive, and active motion posture reminders.
Tip: Steelcase Rise mobile app is available that pairs with any active touch control-ler to support preferences, presets, and activity tracking.

Directional rollers provide intentional user mobility.

Brakes are available as an option or can be specified separately. Brake can be activated by the user to fix the mobile desk into place and is engaged by spinning the ring to the floor.
Tip: Brake is recommend for use on hard floors.

Product Details

High-Pressure Laminate Desks

Edge profile is available in 3 mm edge profile.

PVC-free, 3 mm edge profiles are proprietary polyolefin blend for all solid colors and woodgrain finishes.

Edge profile finishes are specified separately from laminate color.

Radius corners are standard and have a 5" radius on all four sides with a continuous user edge. Radius corners eliminate sharp edges and are appropriate for mobile furniture.

Wood Veneer Desks

Edge profile is wood veneer with a square (3 mm) radius.

Simple touch controller is available as an option and easily adjusts height of desk, at a rate of 1½" per second, by lifting or pressing down on the controller.
Tip: Available with an antimicrobial option.

Active touch controller is Bluetooth-enabled; is standard and includes digital display, two preset buttons, double-tap automatic drive, and active motion posture reminders.
Tip: Mobile app is available that pairs with any active touch controller to support preferences, presets, and activity tracking.

Obstruction sensing technology is standard with all Flex desks. The worksurface will backtrack when it makes contact with an object.

The overall depth of the worksurface is 23"D, 24"D, 29"D, or 30"D.

Desk overhang for CPU holder or layering of low storage and pedestals is available as an option. The overhang is 9" and available on 58"W or larger desks. Desk widths 70"W or larger allow for single or dual overhang.

Extended height Flex desks adjust 22⅜"H to 48⁷⁄₁₀"H in any increment. Basic height-adjustable base adjusts from 27⅗"H–46⁹⁄₁₀"H in any increment.

Wiring and Cabling

Low surge electric motor with quiet operation adjusts at 1½" per second. Motor is 110V and includes a 10' power cord. Motor has 0.1W standby power.

Chicago requires that desks shipping into Illinois ship with a 9' power cord.

Flex desks and bases are listed by ETL.
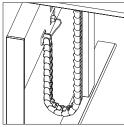

Cable trays are available as an option or can be ordered separately. 46"W–57¹⁵⁄₁₆"W desks use the 28" cable tray. 58"W–72"W desks use the 40"W cable tray. When specifying a desk overhang, see the chart below for additional guidelines.

Overhang	Worksurface Width			
	46"W–57¹⁵⁄₁₆"W	58"W–65¹⁵⁄₁₆"W	66"W–69¹⁵⁄₁₆"W	70"W–72"W
None	28"W Cable Tray	40"W Cable Tray		
Left or Right		28"W Cable Tray	40"W Cable Tray	
Left and Right				28"W Cable Tray

Integrated power is optional and is located in the understructure of a desk. Integrated power consolidates technology to provide one cord out of the desk for convenience to the user. Two versions are available: underworksurface only and underworksurface plus worksurface clamp on convenience power. Worksurface power has two power outlet options, either dual USB-A or USB-C. Desks 57¹⁵⁄₁₆"W and under receive three power outlets in the understructure and desks 58"W and above receive five power outlets. Over-current power protection is standard on the integrated power option. If the over-current protection trips, reset by pushing the button located on the face of the understructure.

Integrated power is standard with a 10' standard black power cord. A 20' cord option is available if additional length is needed. For extra color, braided cord option is available.

Integrated power is available with either a standard three prong NEMA plug for use with standard receptacles or with Steelcase's proprietary thread low-profile plug for use with one-door and two-door low-profile connectors.

Cable riser, with fence connection, inside dimensions are 1"D x 1"W to accommodate a variety of cord sizes. Overall depth is 2".

Magnetic cable clips are optimized for the Flex braided one-cord out solution. However, the magnetic cable clips will work on Ology, Migration SE, and the standard Flex power cords. The clips are used to manage power cords out of the users way. Orderable as a separate style number.

Cable brackets, ordered separately, support horizontal cable management below the worksurface.
▶Specifying, page 109

Inside dimensions of cable brackets are 6"D x 2¼"W x ⅛"H.

Braided Cord Color Matrix

Braided cord samples are not available to order. Use matrix below that compares the braided cord finish to the nearest Steelcase finish color for color reference purposes. *Tip: Braided cord color is defaulted to 9007 Sterling.*

Finish	Similar Steelcase Color
9003 Fuchsia	PerfectMatch
9004 Marlin	4AZ5 Marlin
9006 Chili	6338 Chili
9007 Sterling*	6059 Sterling Dark Solid
9008 Honey	4CZ5 Honey
9009 Black	0835 Black
9010 Light Peacock	4CZ8 Light Peacock
9011 Seagull	4858 Seagull

*Default finish on integrated power.

Application Topics

Moving desks can collide with other components. Do not install overhead storage, desk-height power, or desk accessories in the path of height-adjustable desks.

Universal boundary screens are not permitted on height-adjustable desks, as they do not pass minimum safety requirements which could result in the desk tipping over.

On extended height desks, any storage higher than 19" will impede the height range of the desk. On basic height desks, any storage higher than 23⁷⁄₁₀" will impede the height range of the desk. *Tip: Do not place storage underneath controller.*

When mounting CPU holders, specify the overhang option.
Tip: CPU holders that require less than 12"D clearance may be mounted inboard of legs.

All assemblies meet or exceed ANSI/BIFMA standards.

⚠WARNING

Read base only warranty limitations.

Keyboard assemblies are not allowed for use on height-adjustable desks. They do not meet minimum safety requirements.

Installation

Desks ship with pre-drilled holes for mounting bases.

Height-adjustable base requires attachment to the worksurface.

Base supports a maximum distributed weight capacity of 360 pounds.
Tip: When calculating lifting capacity, subtract the weight of the worksurface, understructure, and options.

Tip: A label applied to the underside of the worksurface will include the load-capacity for each desk.

Tip: Flex 90° desk mounted wraps will work on Flex rectangular height-adjustable desks 23"D x 52"W and above.

Worksurface Weight

*For detailed curved screen information, see page 33.

120° Height-Adjustable Desks

120° height-adjustable desks bring mobility and wellbeing, allowing users to change posture and location to suit their work needs. Optional integrated power includes a single power cord that comes out of the desk for ease of movement.
▶ Specifying, pages 75–79

Edge is available in 3 mm edge profile, when High-Pressure Laminate is selected.

Desk has a wood core with a High-Pressure Laminate, wood veneer surface and is 1" thick.

Base is available in extended or basic height: extended height-adjustable base adjusts from $22^3/_5$"H to $48^7/_{10}$"H in any increment.

Base supports a maximum distributed weight load of 540 pounds (3-leg).
Tip: When calculating lifting capacity, subtract the weight of the worksurface, understructure, and options selected.

Basic height-adjustable base adjusts from $27^3/_5$"H–$46^9/_{10}$"H in any increment.

120˚ Straight

120˚ Corner

Lifting columns are controlled by a central control box for synchronization. Columns are precision balanced to minimize surface vibrations.

Push button simple touch controller adjusts height at a rate of $1^1/_2$" per second.

Active touch controller is Bluetooth-enabled; is standard and includes digital display, two preset buttons, double-tap automatic drive, and active motion posture reminders.
Tip: Steelcase Rise mobile app is available that pairs with any active touch controller to support preferences, presets, and activity tracking.

Slide glide on 120° height-adjustable desks provides intentional user mobility.

Product Details

High-Pressure Laminate Desks

Edge profile is available in 3 mm edge profile.

PVC-free, 3 mm edge profiles are proprietary polyolefin blend for all solid colors and woodgrain finishes.

Edge profile finishes are specified separately from laminate color.

**Radius corners** are standard with a continuous user edge. Radius corners eliminate sharp edges and are appropriate for mobile furniture.

Wood Veneer Desks

Edge profile is wood veneer with a square (3 mm) radius.

Simple touch controller is available as an option and easily adjusts height of desk, at a rate of 1½" per second, by lifting or pressing down on the controller. *Tip: Available with an antimicrobial option.*
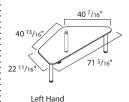

Active touch controller is standard and includes digital display, two preset buttons, double-tap automatic drive, and active motion posture reminders. *Tip: Mobile app is available that pairs with any active touch controller to support preferences, presets, and activity tracking.*
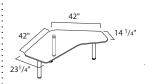

Obstruction sensing technology is standard with all Flex desks. The worksurface will backtrack when it makes contact with an object.

120° Straight

Left Hand

Right Hand

120° Corner

Left Hand

Right Hand

Extended height Flex desks adjust 22⅗"H to 48⁷/₁₀"H in any increment.

Basic height-adjustable base adjusts from 27⅗"H–46⁹/₁₀"H in any increment.

Modesty panels are available on the 120° height-adjustable desks as an option, or can be ordered separately. The two piece design provides modesty for the user, and attachment for the magnetic cable clips to keep the height-adjustable power cord out of the users way.
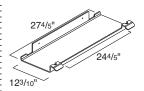

Monitor arms approved for use with Flex 120° height-adjustable desks are: **CSFSTDDUALBAR, CFINTRODSLIDE, CFINTRO.**

Wiring and Cabling

Low surge electric motor with quiet operation adjusts at 1½" per second. Motor is 110V and includes a 10' power cord. Motor has 0.1W standby power.

Chicago requires that desks shipping into Illinois ship with a 9' power cord.

**Flex desks and bases** are listed by ETL.

120° cable tray is available on the 120° height-adjustable desks as an option, or can be ordered separately.

Integrated power is optional and is located in the understructure of a desk. Integrated power consolidates technology to provide one cord out of the desk for convenience to the user. Two versions are available: underworksurface only and underworksurface plus worksurface clamp on convenience power. Worksurface power has two power outlet options, either dual USB-A or USB-C. Desks receive five power outlets. Over-current power protection is standard on the integrated power option. If the over-current protection trips, reset by pushing the button located on the face of the understructure.

Integrated power is standard with a 10' standard black power cord. A 20' cord option is available if additional length is needed. For extra color, a braided cord option is available. Curly cord is also available for extra cord management.

Integrated power is available with either a standard three prong NEMA plug for use with standard receptacles or with Steelcase's proprietary thread low-profile plug for use with one-door and two-door low-profile connectors.

Cable riser, with fence connection, inside dimensions are 1"D x 1"W to accommodate a variety of cord sizes. Overall depth is 2".

Magnetic cable clips are optimized for the Flex braided one-cord out solution. However, the magnetic cable clips will work on Ology, Migration SE, and the standard Flex power cords. The clips are used to manage power cords out of the users way. Orderable as a option on the 120° Flex height-adjustable desks, or as a separate style number.

Cable brackets, ordered separately, support horizontal cable management below the worksurface.
▶Specifying, page 109

Inside dimensions of cable brackets are 6"D x 2¼"W x ¹⁄₁₈"H.

9011 Seagull	4858 Seagull

*Default finish on integrated power.

Application Topics

Moving desks can collide with other components. Do not install overhead storage, desk-height power, or desk accessories in the path of height-adjustable desks.

Universal boundary screens are not permitted on height-adjustable desks, as they do not pass minimum safety requirements which could result in the desk tipping over.

On extended height desks, any storage higher than 19" will impede the height range of the desk. On basic height desks, any storage higher than 23⁷⁄₁₀" will impede the height range of the desk.
Tip: Do not place storage underneath controller.

All assemblies meet or exceed ANSI/BIFMA standards.

⚠WARNING

Read base only warranty limitations.

Keyboard assemblies are not allowed for use on height-adjustable desks. They do not meet minimum safety requirements.

How to Calculate Power Needs
Use This to Determine How Many Power-Ins You'll Need

When planning a power network, you must calculate the amperage requirements of all your electrical components so you can provide sufficient electricity to power them.

If your usage is not known in advance:
The National Electrical Code (NEC) allows a maximum of 13 receptacles on each 20-amp circuit. This provides up to 30 receptacles for each 3-circuit power-in.

If your usage is known in advance:
Add up the amperage used by each piece of equipment in the workstation. Whenever you reach 60 amps (20 amps times 3 circuits) from items that are likely to be used at the same time, you have reached the limit for a single power-in. Specify another power-in and continue until all equipment is powered.

If the circuits will normally be subject to a continuous load (three or more hours of continuous use, such as lights or computers), the NEC requires that circuit capacity be "de-rated" by 20 percent. Therefore, treat circuits used for continuous loads as if they were rated at 16 amps instead of the regular 20 amps.

Try to anticipate future increases in power requirements and build some excess capacity into your plan.
▶See table at right for typical and actual amperage usages for components.

To calculate amperage when the wattage of a device is known, divide watts by 120.

Some appliances, such as large copiers, coffee makers, or space heaters require most of the current available on a 20-amp circuit. It is recommended that such devices be supplied with their own receptacle/circuit, directly from the building. This leaves the capacity of the furniture circuits available for the more dynamic requirements of the office equipment.

Local electrical codes vary. Consult a qualified electrical contractor or engineer for the proper planning of electrical circuits in your locale.

Approximate power consumption for common devices

• Device	• Wattage	• Amperage	• Voltage	• Number of Devices Supported on Single 20 Amp Circuit

Tip: These calculations are estimations and are meant solely for informational purposes. It is important to conduct proper power planning for each installation to prevent overloading a circuit.
* Refer to the Height-Adjustable Desks Specification Guide *for specific product information.*

Work Tables and Slim Tables

Steelcase Flex work tables are a family of standing and seated height tables that span a wide array of team activities; from an individual desk for focus work, to collaborative work-surfaces for the team, and in-between spaces.
▶Specifying, pages 81–87

Pegs are standard on all four legs and provide a convenient place to hang a backpack, cable catch, power hanger, or accessory cup.

Wheel housing finish matches the wheel/glide finish selected.

Radius corners are standard on the top and have 5" radius on all four corners with a continuous user edge.

Legs come standard with four glides on standing and seated height tables. Mobile two wheels and two glides is available as an option. Slim tables are only available with four glides.
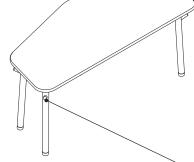

Legs are 2" diameter.

Footrest on standing height table supports change of posture and brings comfort for sitting all day.

Wheels provide intentional user mobility.

Cable catch, optional, attaches to the pegs to assist cord and cable routing.

Pegs are standard on all four legs and provide a convenient place to hang a backpack, power hanger, or accessory cup.
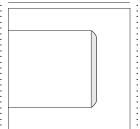

Glides provide 1" of leveling and are used for installation on uneven floors.

Actual Dimensions

Product Details

High-Pressure Laminate Worksurface

Edge profile is available in 3 mm edge profile.

PVC-free, 3 mm edge profiles are proprietary polyolefin blend for all solid colors and woodgrain finishes.

Edge profile finishes are specified separately from laminate color.

Radius corners are standard with a continuous user edge. Radius corners eliminate sharp edges and are appropriate for mobile furniture.

Wood Veneer Worksurface

Edge profile is wood veneer with a square (3 mm) radius.

Cable catch joined between two tables acts as a simple trough cable management. Cable catch is not an option for the 120° seated height or slim work table.

Cable catch is felted PET and will stretch or conform, dependent on the weight of the cords stored. Do not place items within that restrict airflow to electrical components.
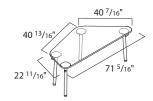

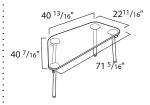

Frame, pegs, and footrest for rectangle work tables can be specified in different colors.

120° Seated Height Work Table
Left Hand

Right Hand

Base only style numbers are available for customers who want to provide their own tops for rectangle work tables. Tops for rectangle work tables can be sized with no more than 8" overhang on all sides and be no more than 60 pounds. Tops for slim tables can be sized with no more than 6" overhang on all sides and be no more than 30 pounds. Tops need to be a minimum of 1" thick to use the provided screws.

Modesty panels are available on the 120° seated height work table as an option, or can be ordered separately. The two piece design provides modesty for the user, and attachment for the magnetic cable clips to keep the height-adjustable power cord out of the users way.

Mobile Power

Mobile power is a sleek, smart mobile power solution that gives teams and individuals the freedom to work anywhere they want.
▶ Specifying, page 99

Mobile power is ordered and shipped as a kit of five mobile power units and one mobile power charging tray.

Integrated handle for portability, light bar to indicate power level and light dot to indicate use.

A 7-segment LED power level gauge displays the remaining power in the mobile power unit.

Mobile power charging tray can charge five mobile power units simultaneously in less than eight hours.

Bumper is an option on mobile power charging tray. Order without bumper option for mobile power integrated into the Steelcase Flex mobile power-charging cart. *Tip: Bumper can be added or un-installed in the field.*

Plastic housing with a flexible handle make for easy portability.

Three USB-C power delivery ports and one USB-A port.

Three USB-C ports allow three users to charge their laptops via USB-C simultaneously all day. One USB-A port included for legacy devices like phones and older tablets.

Product Details

Mobile power units have a capacity of 218-watt hours each and can provide up to 117-watt of power simultaneously to up to four devices.

Mobile power charging tray can be specified as standalone freestanding tray, with a bumper on the outside with rubber feet, or without the bumper so it can be integrated into the Steelcase Flex mobile power-charging cart.

Mobile power charging tray ships with a freestanding 200-watt power supply. The power supply comes with a $8^{4/5}$' cord when specified as freestanding or a $6^{2/5}$' cord when specified without the bumper.

Surface Materials

Flex mobile power kit (tray and power units always match)

Length	$11^{2/5}$"	$16^{1/10}$"

Steelcase
June 2024

Curved Screens

Curved screens provide user adjustable privacy and modesty for rectangle height-adjustable desks and rectangle work tables.
▶Specifying, page 92

Curved screens are attached to the worksurface with magnetic brackets allowing for user adjustability between privacy and modesty modes.

Curved screens are pin tackable.

Curved screens can be ordered as single or pair to optimized privacy needs.

Product Details

Curved screens perform to an NRC rating of 0.45.

Application Topics

Curved screens are sized to work with modular size desks. Mounting a pair of screens on a parametric sized desk will create a gap between screens.
Tip: It is recommended that CET SmartTools be used to evaluate the gap on the desk.

Curved screen is mounted with a ⅝" cord drop.

Fabric is applied in a warp horizontal direction. Due to the size of the screens, fabric is unable to be applied in a warp vertical direction.

Privacy configuration provides 11½" of screen above the worksurface and 5½" of screen below the worksurface. The height is measured from the top of the mounting surface to the top of the screen, and from the bottom of the mounting surface to the bottom of the screen. Screens are meant to be handled by the user. Choose fabrics colors that will wear well over time.

Modesty configuration provides 3½" of screen above the worksurface and 13½" of screen below the worksurface. The height is measured from the top of the mounting surface to the top of the screen, and from the bottom of the mounting surface to the bottom of the screen.

When ordering a single screen, selecting the correct hand is important. Handedness is assigned from the user position when the curved screen is mounted in privacy mode.

Single curved screens mounted to a modular size desk will cover half the width of the desk. If more coverage is desired, order the next size larger of screens.
Tip: It is recommended that CET SmartTools be used to evaluate the placement of the screen on the desk.

Surface Materials

Weight	1.9 lb, 3.7 lb, 5.5 lb
Depth	½"

Freestanding Screens

Freestanding screens offer infinite possibilities for space division, personal privacy, and keeping information visible.
▶ Specifying, page 93

Radius corners have a 3^1/$_2$" radius.

Freestanding screens are pin tackable.

Glide on bottom of freestanding screen protects fabric from wear.

Magnetic edge allows freestanding screens to attach to each other.

Product Details

Freestanding screens are lightweight for ease of use in both portrait and landscape modes. 47"H screens weigh under 8 pounds, 60"H screens weigh under 9 pounds, and 71"H screens weigh under 11 pounds.

Rectangle freestanding screens at 71"H x 35^1/$_2$"W are the same size as the markerboards and can be displayed in the same locations: board cart, team cart, stand, and wall rail.

Flex freestanding screens perform to a NRC rating between 0.40-0.65 dependent on fabric type and use.

Magnet edge allows for 360° of attachment to other screens. Straight line, T, or X applications are possible.

Fabric is applied in a warp vertical direction. Due to the size of the screens, fabric is unable to be applied in a warp horizontal direction.

Screens are meant to be handled by the user. Choose fabrics colors that will wear well over time.

Color scheme can have contrasting color as long as it is within the same fabric family. (For example, 5H16 Indigo can be specified for Surface 1 and 5H19 Cumulus can be specified for Surface 2; both are Billiard Multi-Use by Designtex.)

Magnet edge and glide
• 6527 Merle

Actual Dimensions

• Feature	• Overall Depth	Modular Width	Actual Width	Modular Height	Actual Height
Rectangle screen	^{15}/$_{32}$"	24", 30", 36", or 42"	23^5/$_8$", 29^1/$_2$", 35^7/$_8$", or 41^1/$_4$"	47", 60", or 71"	47^1/$_4$", 60", or 70^7/$_8$"
Angled screen	^{15}/$_{32}$"	47"	47^1/$_4$"	47"	47^1/$_4$"

Tip: Rectangle screens are also available parametrically in width to the ^{1}/$_{16}$" between 24" and 42". Parametric specification defines actual screen width.
Tip: Screens ordered parametrically may not align exactly with modular screens. It is highly recommended to use CET SmartTools to confirm all dimensions before ordering.

Acoustic Boundary

Steelcase Flex acoustic boundary improves acoustic performance and creates flexible space division.
▶Specifying, page 94

Skins are made of formed felted PET and available in two colors with a molded organic pattern.

Board clips are optional and lock markerboards and screens in place, either in portrait or landscape mode.

Cups hang on the board clips to keep dry erase markers and erasers easily accessible.
▶See page 108 for accessory cups.

Handle allows for ease of movement within a team space.

Locking casters ensure stability when working with supported markerboards and screens.

Product Details

2"   2"

Aligning of boundary units to reduce gaps where sound can travel allows for optimal acoustic performance.

Short boundary fits through a standard door opening, allowing for ease of movement throughout an office environment.

Avoid pendant lighting when moving acoustic boundaries through office environments. Top of boundary must be two feet lower than ceiling height to allow clearance for fire suppression systems.

No clip or single sided clip option is available if a clean aesthetic is desired.

Due to recycled content of PET, there may be slight color variation between skins.

**Acoustic boundaries** perform to an NRC rating of 0.75.

Media Cart

Technology agnostic and effortlessly mobile, Steelcase Flex media cart keeps up with people, projects, and organizations on the move.

Media cart is ordered and shipped without technology.
▶Specifying, page 96

Media basket, optional, attaches to the VESA mount to house cord, cable, and technology.

Pegs are standard on media cart frame and provide a convenient place to hang cords, power hanger, or accessory cup.

Media cart includes 360° rotating casters. Front casters are locking and back casters are non-locking.

Product Details

The Flex media cart is a technology agnostic solution, allowing one to bring their own technology application to the table. Customers are responsible for bringing and integrating technology and audio-visual components.
Tip: Consult an AV or IT professional early in the design process for potential technology applications.

No larger than 65" monitors should be used on the mobile media cart with a maximum 50 pounds weight capacity.

400
300
200

200
300
400

Mobile media cart includes a universal 200x200 VESA mounting plate with the ability to option a flexible adapter bracket to support monitors with a 400 VESA mounting pattern.

Cord management system allows different power and data cords to easily be secured on each leg.

Media cart power is optional and is in the media basket for a more integrated solution. Integrated power consolidates technology to provide one cord off the media cart for convenience to the user.

**Two versions** are available, basket power only and basket power plus worksurface clamp on convenience power.

Cart shelf power has two power outlet options, either dual USB-A or USB-C. Over-current power protection is standard on the integrated power option and prevents media cart from drawing more than 15 amps of power. If the over-current protection trips, reset by pushing the button located on the face of the understructure.

Integrated power is standard with a 10' standard black power cord. A 20' cord option is available if additional length is needed. For extra color, braided cord option is available.
Tip: Chicago requires that cart shipping into Illinois ship with a 9' power cord.

Integrated power is available with either a standard three prong NEMA plug for use with standard receptacles or with Steelcase's proprietary thread low-profile plug for use with one door and two-door low-profile connectors.

Tip: Braided cord color is defaulted to 9007 Sterling.

Markerboard Solutions

Steelcase Flex markerboard solutions are lightweight and mobile for creating, sharing, and moving your work.
▶Specifying, pages 97–98

Wall rails offer additional display options for markerboards and screens and can activate otherwise blank walls.

Markerboards are lightweight and easily portable bringing information wherever it is needed.

Stand provides freestanding space division with boards and also serves as a podium for active collaboration and quick meet-ups.

Pegs are standard on the stand and provide a convenient place to hang a backpack, power hanger, or accessory cup.

Actual Dimensions

Feature	Overall		
	Depth	Width	Height
Stand	16" Dia.	N.A.	38"
Markerboard	$1/2$"	36"	47" or 71"
Wall rail	4"	48"-96"	N.A.

1¹⁄₅"

Wall rails mount directly to structural wall. When used with a markerboard there is a 1¹⁄₅" clearance between the wall and the inner markerboard.

Wall rail tracks are sized for ¹⁄₂" or thinner boards. Wall rail is not intended for glass.

Wall rail is only intended for use with Steelcase Flex Collection screens and markerboards.

Wall rail package contains a top and bottom set of wall rails and four 71"H markerboards.

When applying markerboards or screens to wall rails, consult with your local officials for code compliance details.

Maintenance

Markerboard
- Use any high-quality dry erase marker. *CAUTION! The use of Low Odor markers may cause ghosting to occur. If Low Odor markers have been used, the surface can be completely cleaned by following the cleaning instructions below.*

Maintenance and Care
- Use clean dry eraser or microfiber cloth to remove ink.
- Use Expo cleaner or other markerboard cleaner with microfiber cloth. If the markerboards are used daily, cleaning may be required 2-3x per week.
- For heavily used markerboards and persistent markings, clean with 91% isopropyl alcohol with a microfiber cloth.

Surface Materials

Stand base
- 6053 Seagull
- 6527 Merle

Stand top
- Plywood

Wall rail
- 4799 Platinum Metallic
- 7360 Merle

Accessory cups
- P635 Heather Navy exterior with P630 Medium Heather Grey interior
- P636 Light Heather Grey exterior with P631 Dark Heather Grey interior
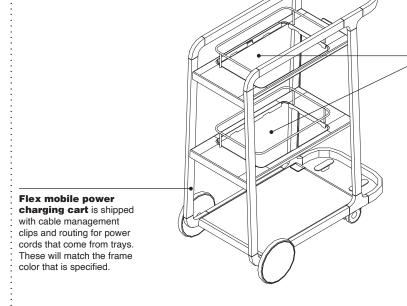

Mobile Power Charging Cart

Mobile power charging cart allows for convenient charging for up to 10 mobile power units with one cord to connect to an outlet.
▶ Specifying, page 100

Flex mobile power charging cart is shipped with cable management clips and routing for power cords that come from trays. These will match the frame color that is specified.

Two charging shelves always ship with cutout and railing to accommodate two mobile power charging trays. Mobile power ordered separately, see page 32.

Product Details

Top two shelves are specifiable in either black or white and should be selected based on mobile power color that will be purchased.

Bottom shelf color will always match cart frame.

Mobile power charging cart does not accommodate clips or hooks for hanging accessories or markerboards.

Mobile power charging cart is available with either a standard three prong NEMA plug for use with standard receptacles or with Steelcase's proprietary thread low-profile plug.

Surface Materials

Frame and bottom shelf
• Paint

Top two shelves
• 7204 Black
• 7241 Arctic White

Wheels and casters
• 6053 Seagull with sterling dark solid tread
• 6527 Merle with Merle tread

Height	41³/₈"

Steelcase Flex Collection Specification Guide

Steelcase
June 2024

Perch Stool

Perch stool is a short-term seating solution that nests for easy use and storage in your agile team spaces. Its beautiful design, flexibility, and light weight make it the perfect perching option for stand-ups, team huddles, and working sessions. Pair Perch stool with your current Steelcase Flex Collection applications for a seamless integration.
▶Specifying, page 101

Frame and seat are one molded piece, available in five colors.

Seat is designed with a 7.2° angle, ideal for perching.

Plastic frame is a 4-leg base available in five colors.

Plastic glides are suitable for hard floors or carpet.

Product Details

Perch stools are available in one height option, have a 4-leg base, and come standard with glides. Choose from single or 4-pack.

Seat and frame are molded out of ChemCycled™ nylon and are 100% recyclable.

One-piece molded design make it easy for Perch stools to be cleaned and sanitized. See *Surface Materials Reference Guide* for detailed cleaning instructions.

Glides are available in one type suitable for both hard floors and carpet. Glides are designed with texture to keep Perch stool in place during use.

Perch stool can support up to 300 pounds.

Textured seat provides adequate grip ideal for perching.

Perch stools nest on the floor in rows. There is no limit to the number of Perch stools that can nest as long as you like.

Surface Materials

Frame and seat
- 6527 Merle
- 6697 Fog
- 6302 Baltic
- 6BE2 Light Peacock
- 6BD7 Saffron

Glides
- Soft plastic glides are made of Thermoplastic Polyurethane and come standard on all models of Perch stools on 6205 Black.
- Felt glides are unavailable for use with Perch stools.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:
- Visit *www.steelcase.com*

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Docking Station

Docking station is a next-generation thunderbolt 4 docking station that provides a one-cord-in connection between a laptop and the monitors, hardwired data, and USB peripherals at a workstation. With a patented above-the-desk design, the docking station gives users the access they need to power while managing all cords and connections to the workstation at the back of the dock and out of sight.
▶ Specifying, page 102

Illuminated power button used to power on or off. Button Illuminates when dock is powered on.

3.5 mm audio jack.

Upstream Thunderbolt 4 port. Connect to provide PD charging of your Thunderbolt & USB-C laptops at 90W. When connected to a non-Thunderbolt USB-C laptop, the performance may be affected.

USB-A port supports BC1.2 with charging speeds up to 5V-1.5A. Supports transfer at speeds up to 5 GB/s.
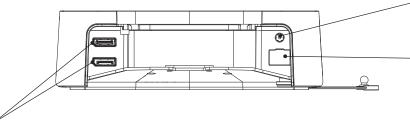

USB-A port with charging speeds up to 5V-0.9A when a laptop is connected to the docking station. Supports transfer at speeds up to 5 GB/s.

Downstream Thunderbolt 4 port. When connected to Thunderbolt laptops, this port will provide video, USB 3.0, and USB 2.0 data speeds and provide daisy chain capability. Charge at a maximum output of 5V–3A, 15W. Data transmission rate up to 40Gbps and maximum resolution of 8k at 30Hz.

DC Input. Connect to the power outlet using the included power cable.

Ethernet port. Connect to a router or modem at 10/100/1000 Mbps. For 1000 Mbps data speed, must use a Cat 5e or later ethernet cable.

Display port video outputs. Please refer to the video output resolution chart.
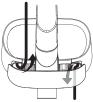

Product Details

Docking station is compatible with CF Series, CF Series modular, and CF Series intro arms with the standard top-down C-clamp.

Docking station provides 90W of power delivery to laptops connected via the included Thunderbolt 4 cable.

Video output of 4K video resolution for up to 2 monitors is supported.

Cable management included on the back collar allows for cables to be routed above the dock to monitors or below the dock to connect to power and ethernet under the desk.

Compatible operating systems:
– Windows: Win10 10.0.18363 or above
– Chrome: v84 or above
– macOS 11 Big Sur or later
– iPadOS 14.4 or later

AC adapter
– Input voltage: 100-240 V~ 2.0A, 50-60Hz
– Output voltage: 22V~5.45A

0.7m Thunderbolt 4 cable with docking station tether is included. *Note: Only use Thunderbolt cable provided with unit, other cables may void product warranty. If cable replacement is required, please contact your Steelcase dealer.*

Surface Materials

Docking station is available in pewter, pearl snow, and black.

Environment

Temperature—Operating	0°C to 40°C
Temperature—Non-operating	-40°C to 80°C

Note: The video out ability depends on the user's laptop and the monitor specification.
Note: MacBooks with the new M1 chipset will only display to a single monitor due to chipset limitations.

Personal Spaces
120° Freestanding Privacy Wrap

Tackable acoustic privacy wrap offers acoustic privacy and personalization for the user.
▶Specifying, page 103

Integrated light option minimizes shadows under privacy wrap, and enhances backdrop for video calls. *Tip: If light is selected, the light cord is concealed and run intentional through the wrap. Light cord can exit at any of the three glide points.*

Upholstery details continue the curvature of the wrap.

Internal metal frame can accept magnetic name tag or Flex freestanding screens to add personalization and privacy to the workstation.

Wrap knit covers the entire frame creating a warm and enclosed privacy element.

Glides, three adjustable glides sit within the footprint of the frame. Adjustment up to $1/2$".

Integrated light option cord can exit the wrap at any of the three glide locations. Light cord placement is determined at install.

Actual Dimensions
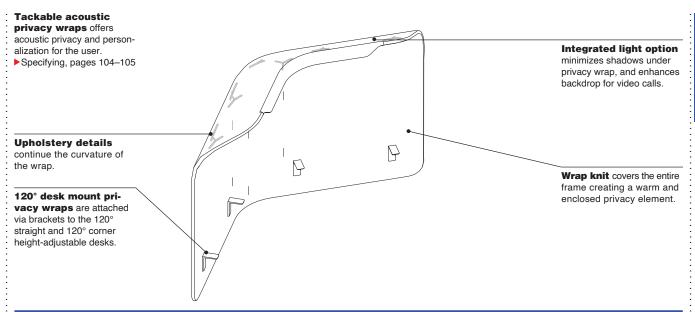

Width Left	40$^9/_{10}$"
Width Right	40$^9/_{10}$"
Height	74$^1/_2$"

Personal Spaces
Desk Mount Privacy Wraps

Tackable acoustic privacy wraps offers acoustic privacy and personalization for the user.
▶Specifying, pages 104–105

Upholstery details continue the curvature of the wrap.

120° desk mount privacy wraps are attached via brackets to the 120° straight and 120° corner height-adjustable desks.

Integrated light option minimizes shadows under privacy wrap, and enhances backdrop for video calls.

Wrap knit covers the entire frame creating a warm and enclosed privacy element.

Actual Dimensions

120° Privacy Wrap

Width Left	40^9/$_{10}$"
Width Right	40^9/$_{10}$"
Height	45^1/$_4$"

Integrated light option minimizes shadows under privacy wrap, and enhances backdrop for video calls.

90° desk mount privacy wrap attaches to Flex rectangular height-adjustable desks, and worksurfaces that offer a 5" radius corner.

Upholstery details continue the curvature of the wrap.

Frame can accept magnetic name tag or Flex freestanding screens to add personalization and privacy to the workstation.

Personal Spaces
Back Wrap

Tackable acoustic privacy wrap offers acoustic privacy and personalization for the user.
▶Specifying, page 106

Wrap knit covers the entire frame creating a warm and enclosed privacy element.

Frame can accept magnetic name tag or Flex freestanding screens to add personalization and privacy to the workstation.

Glides, three adjustable glides sit within the footprint of the frame. Adjustment up to $1/2$".

Back wrap bracket, connects back wrap into Answer panel and Answer fence.
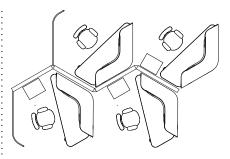

Freestanding privacy wraps nest into 42"W Answer segments in hex application planning.
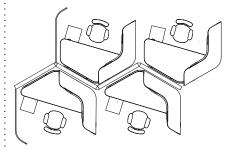

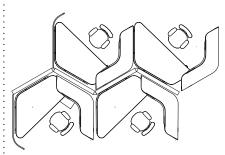

120° straight height-adjustable desk nests into freestanding privacy wrap for optimal privacy.
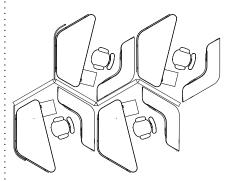

Actual Dimensions

Depth	12.8"
Width	40.9"
Height	60"

Freestanding privacy wraps are optimized to be planned in a hex or hybrid application allowing for reconfiguration, creating privacy in the open plan.
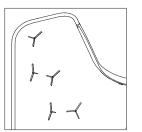

Flex 90° desk mount wraps will work on Flex rectangular height-adjustable desks 23"D x 52"W and above.
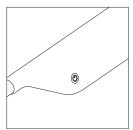

Flex 90° desk mount wraps 23"D x 52"W and above also work on Migration SE height-adjustable desks with 5" radius corners.

Freestanding privacy wraps can be used in the open plan to create added privacy to ancillary settings.
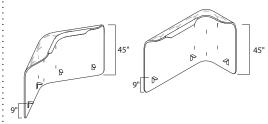

Freestanding privacy wraps have a modern upholstery detail.

Privacy wraps with a light have three light settings. Controlled by a power button on the left hand side of the light.
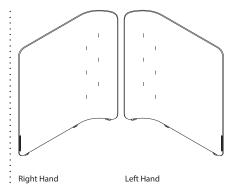

Desk mount wraps attach to desks with 6527 Merle finished brackets.

Desk mount wraps are 45"H; providing 9"H of modesty and 36"H privacy above worksurface.

Desk mounted wraps give a 1" gap from the back of the worksurface to the front of the screen.

Height-adjustable desks can move independent of privacy wrap to multiple positions when planning in a hex application.

Right Hand   Left Hand

Back wrap is offered in left and right handedness.

Accessories

Flex accessories can be used across the collection to provide functionality and personalization.
▶Specifying, pages 107–112

Cups hang from the pegs on work tables and stand.

Baskets and cups are made of formed felted PET and available in two color combinations: navy or grey.

Baskets and cups are sold in packages of four.

Magnetic name tag attaches to all privacy wraps for personal notes in the workstation. Name tags have an erasable finish and are sold in packages of two or ten.

Power hangers are available in two configurations: four power and three power with USB.

Power hangers hang from the pegs on work tables.

Magnetic cable clips manage the height adjustable power cord. Cable cliips are sold in packages of two or ten.

Braided Cord Color Matrix

Braided cord samples are not available to order. Use matrix below that compares the braided cord finish to the nearest Steelcase finish or Pantone color for color reference purposes.

Finish	Similar Steelcase Color
9003 Fuchsia	PerfectMatch
9004 Marlin	4AZ5 Marlin
9006 Chili	6338 Chili
9007 Sterling	6059 Sterling Dark Solid
9008 Honey	4CZ5 Honey
9009 Black	0835 Black
9010 Light Peacock	4CZ8 Light Peacock
9011 Seagull	4858 Seagull

Tip: Braided cord color is defaulted to cover finish but can be changed if desired.

Actual Dimensions

	Depth	Width	Height
Cup	5½"	6"	5²⁄₅"
Basket	11½"	13½"	7³⁄₅"
Power Hanger	2³⁄₁₀"	10"	1³⁄₈"

Product Details

Power hangers are standard with a 10' standard black power cord. A 20' cord option is available if additional length is needed. For extra color, braided cord option is available.

Power hangers are available with either a standard three prong NEMA plug for use with standard receptacles or with Steelcase's proprietary thread low-profile plug for use with one-door and two-door low-profile connectors.

Power hangers are weighted and have a rubberized back to allow them to sit firmly on the worksurface.

Power cords should not be routed in walkways or where subject to damage.

Over-current protection is standard on power hangers. The reset button is located on the side of the power hanger. If the over-current protection trips, reset by pushing the button back into place.
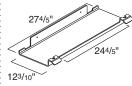

Baskets and cups are cleanable with a damp cloth.

Rectangular cable trays are available as an option or can be ordered separately. 46"W–57^{15}/$_{16}$"W desks use the 28"W cable tray. 58"W–72"W desks use the 40"W cable tray. When specifying a desk overhang, see additional cable tray specifying details chart on page 17.
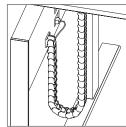

27^4/$_5$"

24^4/$_5$"

12^3/$_{10}$"

120° cable tray is available on the 120° height-adjustable desks as an option, or can be ordered separately.

Cable catch, optional on rectangle work tables, attaches to the pegs to assist cord and cable routing.

Cable riser, with fence connection, inside dimensions are 1"D x 1"W to accommodate a variety of cord sizes. Overall depth is 2".
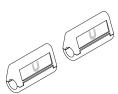

Cable brackets, ordered separately, support horizontal cable management below the worksurface.
▶ Specifying, page "Standard Includes" on page 109

Inside dimensions of cable brackets are 6"D x 2¼"W x ¹/₁₈"H.

Magnetic cable clips are finished in 6053 Seagull with a 6527 Merle magnet logo.

Flex Active Frames

Active frames are made up of structures. They are either 1 wide or 2 wide and come in a minimum of 2 unit high and stretch up to 5 unit high. Frames are steel and can be specified in any paint finish.
▶Specifying, pages 113–122
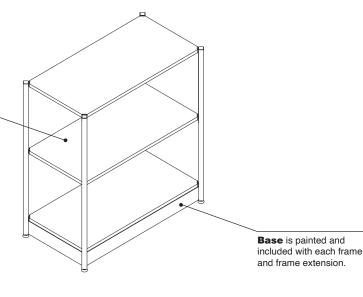

Four top caps are provided to finish the top end of the upright tubes.

Tubes are a painted 25 mm square, set at a 45° angle, and available in 2 unit, 3 unit, 4 unit, or 5 unit heights.
Tip: Four tubes come standard with the frame and two tubes come standard with the frame extension.

Leveling guides adjust for installations on uneven floors. Adjustability range is 1⅞".

Shelves have a wood core with a High-Pressure Laminate surface. Shelves connect to the tubes with accompanying shelf connectors. A top and bottom shelf are required to specify on each frame and extension. Additional shelves are available to connect at various heights within the frame or frame extension. The bottom shelves cover the base and can be lifted to access the opening. The top of the unit is also a shelf, so there is actually one more shelf than the height of the unit. When installing, shelf with tipping label cannot be placed at top shelf location. It will default from second from bottom or to top shelf if bottom shelf is not present.

Base is painted and included with each frame and frame extension.

Frames (FLXAFFRAME) consist of a base, four tubes, four leveling glides, four top caps, and a counterweight(s) if necessary. All tubes in a frame will be the same height. A top shelf and base shelf will be required to specify and designers will be able to select the number of additional shelves within each frame. Two wide, two unit high shown.

Frame extensions (FLXAFFRAMEEXT) consist of a base, two tubes, two leveling glides, and two top caps. The tubes in a frame extension may be different heights. A base shelf and top shelf are required with each extension, designers will be able to select the remaining number of shelves within the extension. Two wide, two unit high shown.

Frames and frame extensions are available in 1 wide (15¾"W) or 2 wide (31½"W). Frame tube heights are expressed in units and are available in 2 unit (36¼"H), 3 unit (52⅛"H), 4 unit (67⅞"H), or 5 unit (83¾"H). All heights are when glides are fully compressed.
Tip: Tube heights on frame extensions can be specified separately to allow for a variety of configurations.

Only one frame (**FLXAFFRAME**) consisting of four tubes will be needed per configuration. A frame extension (**FLXAFFRAMEEXT**) with two tubes will be required to build out the remainder of the unit. Please refer to SmartTools for details.

Tube hole configuration

(1R) (2R)

(3R) (4R)

*2R Tube to 2-base system* *Tube install locations*

Connection holes refers to the number of faces of the tube (upright) that have holes for attaching shelves. When an upright has 1 connection hole, shelves can only be attached to one side of the upright. These uprights are always on the ends of a configuration. When an upright has 2 connection holes, shelves can be attached on two consecutive sides of the upright. These intermediate uprights are always used to connect frames and extensions that are assembled in a single row. Uprights with 3 connection holes can attach to shelves on three sides. These intermediate uprights are used for L- or T-configurations. Uprights with 4 connection holes can attach to shelves on all four sides. Please refer to SmartTools for details.

**Upright connection holes for frame and frame extensions** can be specified as 1, 2, 3, or 4 holes per tube side, allowing for a variety of shelf placements and configurations. *Tip: If choosing to omit a shelf, there will still be connection holes along the tube.*

Base is 3⅕"H x 15¾"W (1 wide) or 31½"W (2 wide). A base is included with each frame and frame extension. Tubes will connect to the base using a flanged hex socket head screw with H5 drive in all four corners.

Top and bottom shelves are required in each frame configuration. Top and bottom shelf connects to the tubes with accompanying shelf connectors, washers and flanged hex socket head screw with H5 drive. One shelf in each frame will have stability guidance and may be installed at any height within the frame except as the bottom shelf.
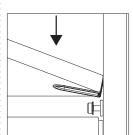

Shelves are 15¾"D x 15¾"W (1 wide) or 31½"W (2 wide) and ⅘" thick. Additional shelves are available and connect at various heights within the frame. All four corners must attach using the shelf connector and screw.
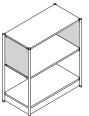

Shelves are High-Pressure Laminate and are available in contrasting finishes. High-Pressure Laminate woodgrain direction will always be horizontal.

1 wide shelves have a weight limit of 49 pounds.

2 wide shelves have a weight limit of 98 pounds.
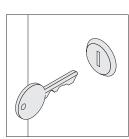

Nickel-plated shelf connectors come installed in the shelves and are recessed within each corner of the shelf. The shelves are fastened to the tubes at all four corners of the shelf by clamping the shelf connector with a washer, and a flanged hex socket head screw with a H5 drive. A H5 ball tip allen extension bit is included with the frame **(FLXAFFRAME)** to aid in shelf installation.
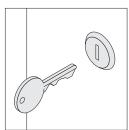

Infills are available and are ³⁄₅" thick and either 15³⁄₄"W (1 wide) or 31¹⁄₂"W (2 wide) and are available in High-Pressure Laminate or PET. Infills connect in all four corners at the top and bottom of the coordinating shelves and tubes using a plastic connection. Infills are available as a single unit. A maximum of three infills can be installed per shelf. High-Pressure Laminate woodgrain direction will always be horizontal.

Doors are available and are ³⁄₅" thick and either 15³⁄₄"W (1 wide) or 31¹⁄₂"W (2 wide) in High-Pressure Laminate with plastic door rails that will secure on the corresponding infills. High-Pressure Laminate woodgrain direction will always be horizontal. Door pulls are a striped fabric looped material with light elasticity and included with each door.
*Tip: You must also specify three High-Pressure Laminate infills in addition to the doors.*

Locks are available field-installed. Optional field-installed locks are available with consecutive, specific, and random keying options.
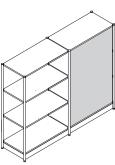

Field-installed lock cylinders (LOCK9201FR or LOCK9250FR) must be specified separately. When cylinders are ordered, the factory will omit lock cylinders from all doors.
▶ Lock and Keying, page 146
Locks are not supported on doors containing electrical appliances or receptacles, as this could violate the national electrical code.

Optional locks on doors are located centered on the door panel and directly above the door pull.
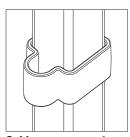

Fixed boards are available and connect to the frame in six places. The bottom of the fixed board must align with a shelf to install on the frame. Fixed boards are available 3 high and 4 high in PET/PET or whiteboard/PET finish.

Fixed Board

	3 H	4 H
1 W	●	●
2 W	●	●

Book ends fit on the front side of a shelf and come in quantities of two.

Cable management clips are plastic and come in packages of six. Cable management clips fit on the frame to help manage cords and wires. Cable management clips can manage a maximum of 0.38" dia. cord or wire.

Toolbox comes in a package of four. Toolboxes are molded PET in a light grey finish and come with name tags.

Mobile board clips fit securely on the front of the tube and can move up and down the frame to integrate with Flex mobile boards **(FLXMB)**. Flex cups **(FLXCUP)** and Flex power hanger **(FLXPH)** can hang from the front of the clip for easy accessibility. Mobile board clips come in a package of four.

The maximum weight capacity of each mobile board clip is 8 pounds. Mobile board clips may only move along the frame when they are in the unlocked position.

Two wide coat rod

One wide coat rod

Coat rod is available in one wide and two wide and secures under a shelf on each side. The coat rod can be moved on the shelf from front-to-back for desired placement. The one wide coat rod can be oriented in the width or depth direction.

A one wide coat rod has a weight limit of 25 pounds.

A two wide coat rod has a weight limit of 52 pounds.

Maintenance

Markerboard
• Use any high-quality dry erase marker.

⚠ NOTICE

The use of low odor markers may cause ghosting to occur. If low odor markers have been used, the surface can be completely cleaned by following the cleaning instructions below.

Maintenance and Care
• Use clean dry eraser or microfiber cloth to remove ink.
• Use Expo cleaner or other markerboard cleaner with microfiber cloth. If the markerboards are used daily, cleaning may be required 2-3 x per week.
• For heavily used markerboards and persistent markings, clean with 91% isopropyl alcohol with a microfiber cloth.

Flex Active Frame Media Towers

Flex Active Frame Media Tower Internal Mount

**Flex active frame media towers** are configured with the same base and extension logic as active frames. Media towers can support a standing and seated posture. To maintain a proper monitor height, standing posture is only available in 5 high and seated posture is only available in 4 high.

Media tower is an agnostic technology solution, allowing one to bring their own technology application to the system. Customers are responsible for bringing and integrating technology and audio-visual components. Customers must follow all instructions and warnings, for all products involved.
Tip: Consult an AV or IT professional early in the design process for potential technology applications.

Monitor back panel has a wood core with a High-Pressure Laminate surface.

3 high side infill is available with a High-Pressure Laminate. Only available for internal mounted media tower.

Base is painted and is configured with a 1 wide base, 2 wide base and 1 wide base. The center 2 wide base has an oblong grommet for wire and power routing. Base has a 12"x12" square cutout.

4 High Seated or Lounge

4 wide top shelf has a wood core with a High-Pressure Laminate surface. Shelves connect to the tubes with accompanying shelf connectors. Top shelf is required and will always have a an oblong grommet for ceiling power or data routing.

Fixed boards for media towers are suggested to help conceal cords and monitor mount. If selected, two 1 wide and one 2 wide fixed boards will be added.
Tip: Fixed boards are required for open plan applications, but not included in the base price.

400x400 VESA mounting plate attaches to the active frame tubes with monitor frame brackets and supports various mounting patterns.

2 wide non-locking door underneath the monitor provides easy storage and access to additional power and technology. Three infills are required to complete the door kit.
Tip: Door and infills are required but not included in base price.

5 High Standing

Center 2 wide shelves include an oblong grommet for easy cable and power routing.

Leveling guides adjust for installations on uneven floors. Adjustability range is 1⁷⁄₈".

Media tower internal mount 4 high (FLXAFFRAMET1) consist of three bases, eight tubes, eight leveling glides, eight top caps, monitor back panel, top 4 wide shelf, two left 1 wide shelves, two right 1 wide shelves, two center 2 wide shelves, 3 high left and right side infills, a 400x400 VESA mounting plate, monitor mounting frame brackets, and a counterweight(s) if necessary. Bases consist of a 1 wide base, 2 wide base and a 1 wide base. Six tubes in a media tower will be the same height. A base shelf and top shelf is required with each extension or frame.

Media tower internal mount extension (FLXAFFRAMEEXTT1) 4 high consist of three bases, six tubes, six leveling glides, six top caps, monitor back panel, top 4 wide shelf, two left 1 wide shelves, two right 1 wide shelves, two center 2 wide shelves, 3 high left and right side infills, a 400x400 VESA mounting plate, and a counterweight(s) if necessary. Bases consist of a 1 wide base, 2 wide base and a 1 wide base. Two tubes in the back will always be the same height. Two tubes in the front will be short. Two end tube heights will depend on height of what unit is connected to. A base shelf and top shelf is required with each extension or frame.
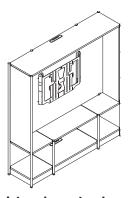

Internal mount and internal mount extension are also aviable in 5 high and include an additional center 2 wide shelf, left 1 wide shelf and right 1 wide shelf.

Internal media tower and internal media tower extension are available in 1 deep (15³/₄"D) and 4 wide (63"W).
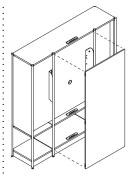

2 wide non locking door and infills directly beneath monitor provide easy storage and access to additional utility power and technology. Three infills are required to complete the door kit.
*Tip: Door and infills are required but not included in base price.*

High-Pressure Laminates with grain direction can be applied in a vertical or horizontal direction. Monitor back panel is available in horizontal grain direction only.

Shelf and infill finishes will be the same for all shelves and infills unless contrasting is selected.

Fixed boards for media towers are suggested to help conceal cords and monitor mount. If selected, two 1 wide and one 2 wide fixed boards will be added. *Tip: Fixed boards are required for open plan applications, but not included in the base price.*

Fixed boards are available and connect to the frame in six places. The bottom of the fixed board must align with a shelf in order to install on the frame. Fixed boards must always align with top of media tower but not required to extend to the floor.

Fixed boards are available 3 high and 4 high in High-Pressure Laminate, PET/PET or whiteboard/PET finish. 5 high fixed boards are available in High-Pressure Laminate only.

Wiring and Cabling

Monitor back panel and infill (for door) include a round grommet for easy cable and power routing.

Center 2 wide shelves and top shelf include an oblong grommet for easy cable and power routing.

Media utility power is available with a 9' or 10' standard black power cord. A 20' cord option is available if additional length is needed. For extra color, braided cord option is available.

Media utility power is available with either a standard three prong NEMA plug for use with standard receptacles or with Steelcase's proprietary thread low-profile plug for use with one-door and two-door low-profile connectors.

Media towers include a universal 400x400 VESA mounting plate with the ability to accommodate various mounting patterns.

VESA mounting plates are available in two mounting configurations: internal mount **(FLXAFFRAMET1** and **FLXAFFRAMEEXTT1)** and external mount **(FLXAFRAMEEXTT2)**

Optional monitor mount hardware package is available and includes hardware to accommodate a variety of monitors.

No larger than 65" monitors should be used on the media tower with a maximum 66 pounds weight capacity.

Flex Active Frame Media Towers

Flex Active Frame Media Tower External Mount

Media tower external mount has two heights, 4 high supports seated/lounge postures and 5 high supports standing posture. External mount extension requires an extension and base frame on either side of the media tower.

4 High Seated or Lounge
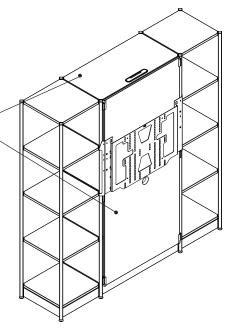

High-Pressure Laminate fixed board with round grommet provides clean aesthetics and conceals cable, power, or other cords. Fixed board is required for external media tower and must be same height as the unit.
Tip: Infill is required but not included in base price.
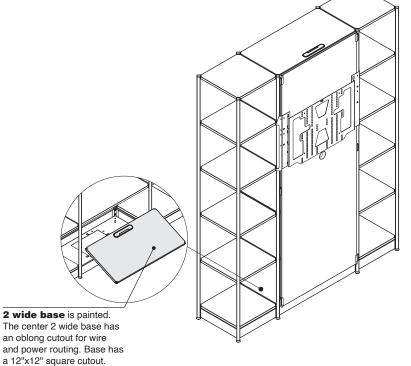

Center 2 wide shelves include an oblong grommet for easy cable and power routing at every center shelf location.

5 High Standing

2 wide base is painted. The center 2 wide base has an oblong cutout for wire and power routing. Base has a 12"x12" square cutout.

Media tower external mount extension (FLXAFFRAMEEXTT2) consist of one 2 wide base, two tubes, two leveling glides, two top caps, top shelf, three center shelves, and a 400x400 VESA mounting plate.
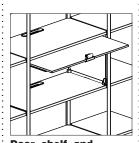

Media tower external mount extension requires an extension and base frame on either side of the media tower.
Tip: Additional frame and extensions are required but not included in the base price.

External media mount extension is available in 1 deep (15^3/$_4$"D) and 2 wide (31^1/$_2$"D).

Door, shelf, and grommet infill are required on external media towers to house additional power and technology. The door is always located on the third shelf from the bottom on both 4 high and 5 high external media towers.

Door and infills are always placed on the third shelf from the bottom for both 4 high or 5 high media tower external mount extensions.
Tip: Door and infills are required but not included in base price.

2 wide non-locking door and infills directly behind monitor provide easy storage and access to additional utility power and technology. Three infills are required to complete the door kit.
Tip: Door and infills are required but not included in base price.

Fixed board is required for media towers to help conceal cords and monitor mount. Fixed board must be same height as the unit.
Tip: Fixed board is required, but not included in the base price.

2 wide non-locking door and infills directly beneath monitor provide easy storage and access to additional utility power and technology. Three infills are required to complete the door kit. The rear infill has a round grommet for cable management.
Tip: Door and infills are required but not included in base price.

High-Pressure Laminates with grain direction can be applied in a vertical or horizontal direction. Shelves available in horizontal grain direction only.
Shelf finishes will be the same for all shelves unless contrasting is selected.

Flex Active Frames Work Island

Work islands are configured with the same base and extension logic as active frames. To maintain a proper gathering height, work islands are only available 2 high. To reach the proper gathering height, a 4" high piling shelf is added to the 2 high unit.

The width of work islands is fixed and can be filled by the combination of 1 and 2 wide frames and extensions.

A work bridge can be configured when a knee space is needed to accommodate stools. The same $80^2/5$" overall width applies, but this unit can have a minimum $14^1/2$" to maximum 46" wide knee span. Both ends of the unit need to be supported by frames of either size and the configuration does not need to be symmetrical.

Work islands are available as 1 or 2 deep configurations.
▶ Specifying, pages 130–131
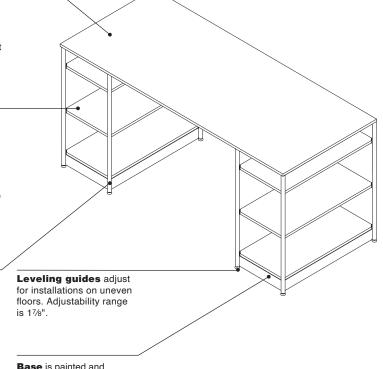

Continuous top is $78^3/4$"W (5 wide) x $15^3/4$"D (1 deep) or $31^1/2$"D (2 deep) and 1" thick. Continuous top is available in High-Pressure Laminate with a 3 mm edge profile to match top finish. Corners are always square with no overhangs on the left or right. Pilot holes always present to accommodate all configuration options.

Shelves have a wood core with a High-Pressure Laminate surface. Shelves connect to the tubes with accompanying shelf connectors. A top and bottom shelf is required in all applications. Additional shelves are available to connect at various heights within the frame or frame extension.

Tubes are a painted 25 mm square, set at a 45° angle, and available as an end or intermediate.
Tip: Four tubes come standard with the frame and two tubes come standard with the frame extension.
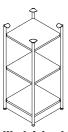

Leveling guides adjust for installations on uneven floors. Adjustability range is $1^7/8$".

Base is painted and included with each frame and frame extension.
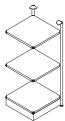

Work bridge application consists of a continuous top with two work island frames and an opening between the two. Each work island frame consists of four tubes and four leveling glides. Additional shelves are available. When no extension is used with a frame, all three shelves are required.
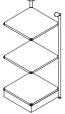

Work island frames (FLXAFCTFRAME) consist of a base, four tubes, and four leveling glides. Additional shelves are available.

Work island frame extensions (FLXAFCTFRAMEEXT) consist of a base, two tubes, top shelf, and two leveling glides. Additional shelves are available.

1 wide x 1 deep

2 wide x 1 deep

Work island frames and work island frame extensions are available in 1 wide (15¾"W) or 2 wide (31½"W) and 1 deep (15¾"D) or 2 deep (31½"D).

Only one frame (FLXAFFRAME) consisting of four tubes will be needed per configuration. Two to four frame extensions (**FLXAFFRAMEEXT**) with two tubes will be required to build out the remainder of the unit. Please refer to SmartTools for details.

Connection Holes		
	1	2
Work Island Frame		
Upright 1	●	●
Upright 2	●	●
Work Island Extension		
Upright 1	●	●
Upright 2	●	●

Upright connection holes for work island frame and work island extension can be specified as 1 or 2 holes per tube side, allowing for shelf placement. Upright 1 and 2 must have same number of connection holes.
Tip: If choosing to omit a shelf, there will still be connection holes along the tube.

Shelves are 15¾"D x 15¾"W (1 wide) or 31½"W (2 wide) and ⅘" thick. When attached to an extension, the middle shelves are optional and connect at various heights within the frame. All four corners must attach using the shelf connector. Shelves are available in contrasting finishes.
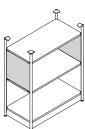

Nickel-plated shelf connectors come installed in the shelves and are recessed within each corner of the shelf. The shelves are fastened to the tubes at all four corners of the shelf by clamping the shelf connector with a washer, and a flanged hex socket head screw with a H5 drive.

Center panels are required on a 2 deep work bridge or work island frame to separate the space between the two sides. Center panels can be used with doors on both sides or doors on no sides, however not with a door on only one side. Center panel and side infill finish must match.
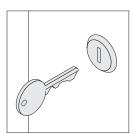

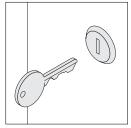

Infills are available and are ⅜" thick and either 15¾"W (1 wide) or 31½"W (2 wide) and are available in High-Pressure Laminate or PET. Infills connect in all four corners at the top and bottom of the coordinating shelves and tubes using a plastic connection. Infills are available in a single infill.

Doors are available and are ⅜" thick and either 15¾"W (1 wide) or 31½"W (2 wide) in High-Pressure Laminate with plastic door rails that will secure on the corresponding infills. Door pulls are a striped fabric looped material with light elasticity and included with each door.
*Tip: You must also specify three High-Pressure Laminate infills in addition to the door infills and center panels.*
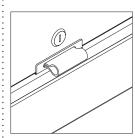

Locks are available or field-installed. Optional field-installed locks are available with consecutive, specific, and random keying options.
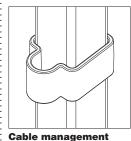

Field-installed lock cylinders (LOCK9201FR or LOCK9250FR) must be specified separately. When cylinders are ordered, the factory will omit lock cylinders from all doors.
▶ Lock and Keying, page 146

Optional locks on doors are located centered on the door panel and directly above the door pull.

Book ends fit on the front side of a shelf and come in quantities of two.

Cable management clips are plastic and come in packages of six. Cable management clips fit on the frame to help manage cords and wires. Cable management clips can manage a maximum of 0.38"dia. cord or wire.

Toolbox comes in a package of four. Toolboxes are molded PET in a light grey finish.

Rectangle Height-Adjustable Desks

Tip: Height-adjustable desks shipping to Illinois will receive 9' power cord.

Tip: Attachment hardware is intended for worksurfaces 1" thick only.

Tip: The 9" overhang is available on 58"W or larger desks.

Tip: Desks 70"W or larger allow for single or dual overhang.

Tip: When specifying a desk overhang, see understanding for additional cable tray specifying details.

Tip: Cost for OLL Price Group 1 is in addition to cost of laminate.

Tip: Veneer Group 02, Veneer Group 03, and Veneer Full Fill upcharge is in addition to the Veneer Group 01 cost.

Tip: Composite Veneer Group 02 upcharge is in addition to the Composite Veneer Group 01 cost.

Tip: On 23"/24"D and less than 58"W desks, only single and dual flat panel monitor arm applications are permitted for use. See Steelcase Worktools Specification Guide.

Tip: For desks 29"/30"Dx 58"W and greater additional monitor arm configurations are allowed. See Steelcase Worktools Specification Guide.

Tip: Standard plug is a NEMA 5-15 3-prong plug.

Standard Includes

- Worksurface:
  – High-Pressure Laminate price group 01 with 3 mm plastic edge
  – Wood group 01 veneer with matching 3 mm square edge, if selected
- Electric height-adjustable sit-to-stand base: paint price group 01
- Active touch controller
- Foot: paint price group 01
- Roller: plastic
- Modular widths: 46", 58", or 70"
- Attachment hardware
- No overhang on worksurface
- Power cord: 10' with standard plug

120° Height-Adjustable Desks

Tip: Height-adjustable desks shipping to Illinois will receive 9' power cord.

Standard Includes

- Worksurface:
  – High-Pressure Laminate price group 01 with 3 mm plastic edge
  – Wood group 01 veneer with matching 3 mm square edge, if selected
- Electric height-adjustable sit-to-stand base: paint price group 01
- Active touch controller
- Power cord: 10' with standard plug
- Slide glide: plastic
- Attachment hardware

Tip: Attachment hardware is intended for worksurfaces 1" thick only.

Surface Materials

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual*. Additional details, like product approvals by geography and finish number conversions, can also be found in the Surface Materials Reference Manual or see steelcase.com/surface-materials.

Surface Materials Binders include:
• Surface Materials Reference Manual
• A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of $102 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

Enter the required edge finish as you would a standard laminate. Laminate Approval and Material Requirements to confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:
• Visit www.steelcase.com

For additional information, refer to the *Surface Materials Reference Manual.*

ⓔ = Established

Wood

Applies to:
• Height-adjustable desk worksurface
• Single tables
• Tables

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:
• Do not store products in trailers
• Store products in areas that simulate office temperatures (60°F to 90°F)
• Store products in areas that maintain constant, office–like humidity levels
• Keep product away from light. Cover products to make sure they are not exposed to light.

Steelcase Surfaces

Veneers are matched for proper balance and consistency. Veneers are available quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open–pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

3P51   OP Planked Maple
3P61   OP Planked Oak
3P71   OP Planked Walnut
3VFX   OP Unmarked Oak

Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

Full-Fill

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood worksurface or field-installed top only.

3084   FC/FF Washed Walnut

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is available as Wood Group 3 as part of our Select Surfaces program and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on *village.steelcase.com* for sample information and product line availability. All premium veneers are in clear-coat.

Wood Group 3

Quarter-Cut Open-Pore
3832   QC/OP Figured Anegre

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit *steelcase.com/surface-materials* under the Select Surfaces section.

Composite Veneer

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are Select Surfaces as Wood Group 1 pricing.

Composite Veneer Group 1

Composite Flat-Cut Open-Pore

3LJX   QC/OP Ebony on Walnut Composite

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A $500 stain-matching fee applies on CUSTOMIZ requests (Exception: The $500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The $500 fee covers the cost of formulating the Customiz color finish and applies ssregardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A $1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a $1,000 fee at any point within five years after the $1,500 initiation fee was paid. If the finish is not reactivated within five years after the $1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the $1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual.*

Lock and Keying Options

Flex Active Frames

All locking products are standard with factory-installed, keyed-random locks. Consecutive, specific, and random keying are available as field-installed options.

Exceptions: Individual locking drawers are only available with field-installed locks. Overfiles are only available with factory-installed locks.

Lock face ring

Lock cylinder

Locks consist of a factory- or field-installed lock cylinder and a factory-installed lock face ring.

Two types of locks are available — the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Factory-Installed Keying

Factory-installed locks are always key random (standard) or master key random (option). Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). All locks within a unit will be keyed alike.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify field-installed, key specific or key consecutive lock cylinders.

XF1011 ⎤
XF1042 ⎬ XF Master Key
XF1011 ⎦

Required to Specify

Master key random	+$36	Specify *with master key random.*

Field-Installed Keying

Field-installed locks are only available on products that include factory-installed lock mechanisms.
Exception: Overfiles are only available with factory-installed locks.

Specify "plug" when specifying furniture, and the product will ship with a plastic plug in place of the lock cylinder.
Tip: For products with optional lock colors, make sure to specify the color for both the lock and lock face ring.

Front-removable lock cylinders must be specified separately. You must also order a special lock tool to install or remove lock cylinders in the field.
Tip: Lock tools are reusable. You do not need to order additional lock tools with every furniture order.

Lock cylinders will be shipped separately so that you can install the locks when you are ready.

Three keying choices are available for field installation—random (standard), specific, and consecutive. All three are also available with master keying, which means that all locks can be opened with a single master key.

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).
Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key specific or key consecutive lock cylinders.

Key specific means that you can specify any key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). This option can be used to key all the furniture units in a workstation or department the same.
Tip: Designate the quantity per key number in your specification.
▶ See example at right.

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

Example of a typical lock cylinder specification is shown below:

10	LOCK9201FR	FR320
5	LOCK9201FR	FR350
15	LOCK9201XF	XF1100
30	Total
