## **ZEKER MODULAR SEATING**

### **Product Overview**

With its plush, contoured design and versatile modularity, Zeker Modular Seating prioritizes comfort and place making.

Zeker offers ten thoughtfully designed models that offer unparalleled flexibility in configuration and soft-seated comfort. Select from single and multi-user units as well as linear and curved units to empower different experiences, to collaborate in casual meetings, relax, study, or engage in being "alone together."

A variety of postures and sit preferences are supported with Zeker's generous sit surface and low back height.

With Zeker you can create a look that is uniquely yours. Contrast colors and textures, whether contrasting the back from the seat and base, color blocking, or keeping a monochromatic design. Zeker can be customized to fit your style.

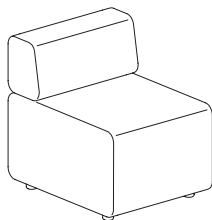

Select Zeker models can be equipped with a power module which provides one power outlet, one USB-A and one USB-C port, ensuring you stay connected and powered up, while ganging kits ensure configurations stay tight, neat and tidy. Features that make Zeker not just a seating solution, but a functional addition to any modern space.

# ■ Zeker Modular Seating - Introduction

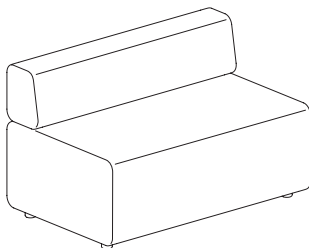

## Planning Guide

### Statement of Line

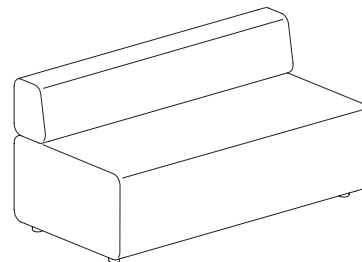

### Zeker Low-Back Modular Seating

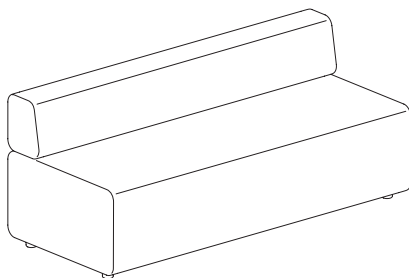

**Lounge Chair**  
24" W x 30 $\frac{1}{2}$ " D x 29 $\frac{3}{4}$ " H  
ZK010

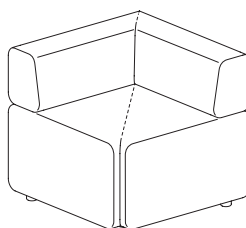

**48" Rectangle**  
48" W x 30 $\frac{1}{2}$ " D x 29 $\frac{3}{4}$ " H  
ZK020

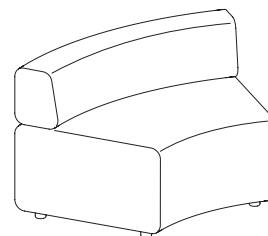

**60" Rectangle**  
60" W x 30 $\frac{1}{2}$ " D x 29 $\frac{3}{4}$ " H  
ZK030

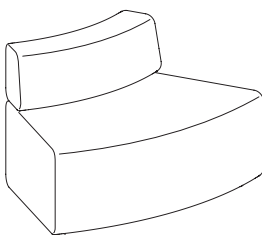

**72" Rectangle**  
72" W x 30 $\frac{1}{2}$ " D x 29 $\frac{3}{4}$ " H  
ZK040

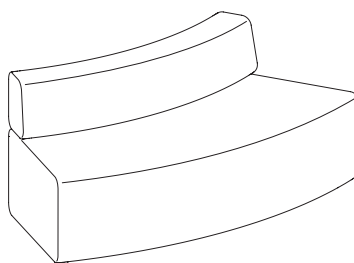

**Corner\***  
32" W x 32" D x 29 $\frac{3}{4}$ " H  
ZK050

**Inside Curve**  
51 $\frac{3}{4}$ " W x 30 $\frac{1}{2}$ " D x 29 $\frac{3}{4}$ " H  
ZK060

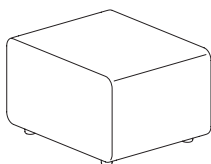

**Outside Curve**  
51 $\frac{3}{4}$ " W x 30 $\frac{1}{2}$ " D x 29 $\frac{3}{4}$ " H  
ZK070

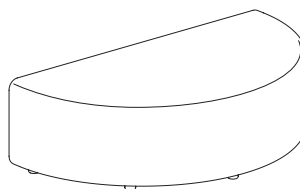

**Extended Outside Curve**  
75 $\frac{3}{4}$ " W x 30 $\frac{1}{2}$ " D x 29 $\frac{3}{4}$ " H  
ZK080

### Zeker Backless Modular Seating

**24" Backless**  
24" W x 30 $\frac{1}{2}$ " D x 18 $\frac{1}{2}$ " H  
ZK090

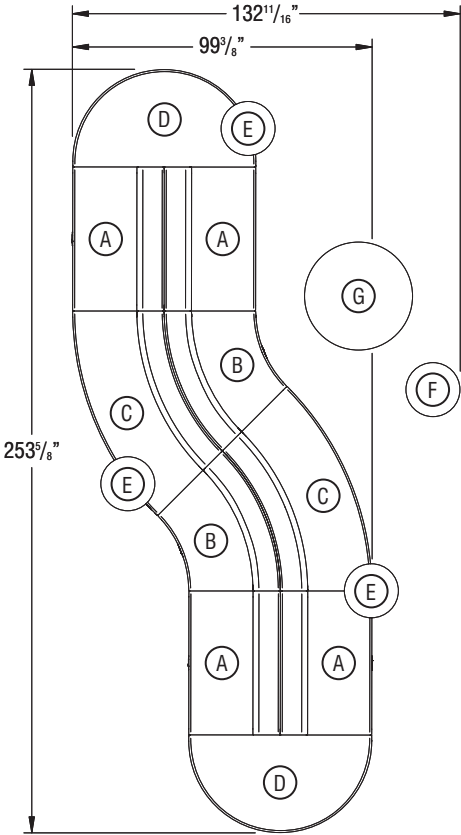

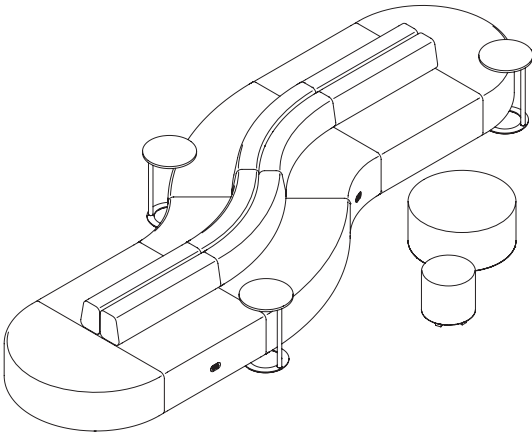

**Half Round**  
61" W x 32 $\frac{1}{2}$ " D x 18 $\frac{1}{2}$ " H  
ZK092

\*Space Planning Recommendation: Design the corner unit with complementary modular units on both sides to enhance the overall aesthetic appeal.

Typical Configurations

Typical Configuration 1

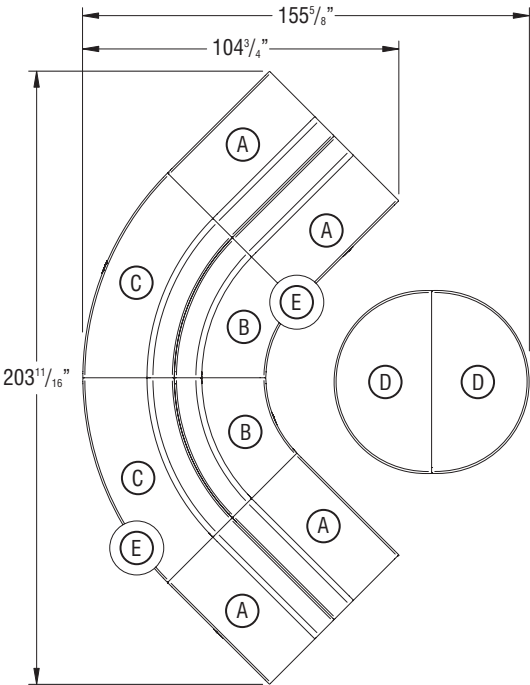

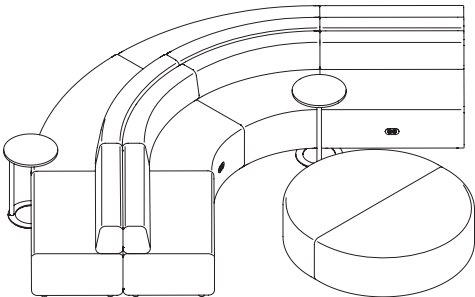

Item	Qty	Model
A	4	ZK020
B	2	ZK060
C	2	ZK080
D	2	ZK092
E	3	CTABLE
F	1	M18R
G	1	M36R

\*Optional ganger kits are available for connecting units to one another (ordered separately).

Typical Configuration 2

Item	Qty	Model
A	4	ZK020
B	2	ZK060
C	2	ZK080
D	2	ZK092
E	2	CTABLE

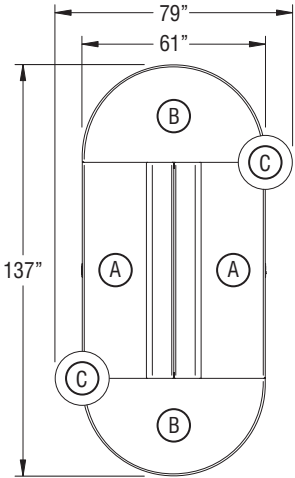

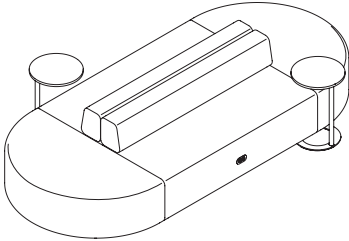

\*Optional ganger kits are available for connecting units to one another (ordered separately).

Typical Configurations (cont.)

Typical Configuration 3

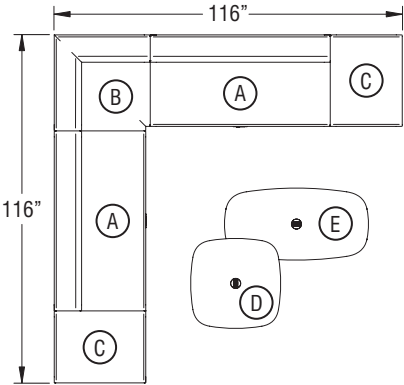

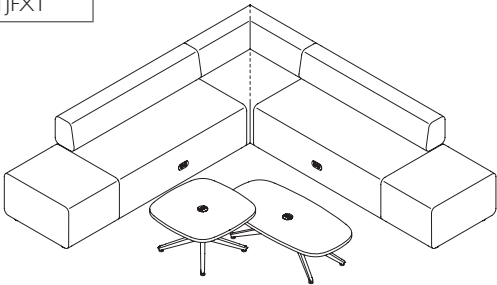

Item	Qty	Model
A	2	ZK040
B	2	ZK092
C	2	CTABLE

\*Optional ganger kits are available for connecting units to one another (ordered separately).

Typical Configuration 4

Item	Qty	Model
A	2	ZK030
B	1	ZK050
C	2	ZK090
D	1	TJCZR
E	1	TJFXT

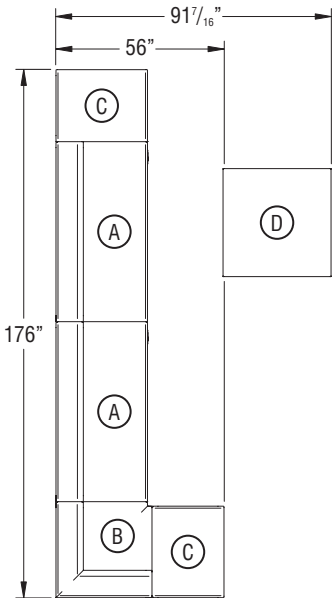

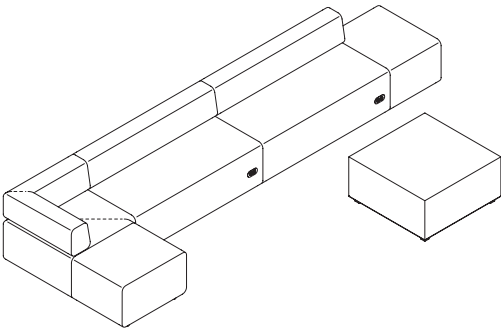

\*Optional ganger kits are available for connecting units to one another (ordered separately).

Typical Configurations (cont.)

Typical Configuration 5

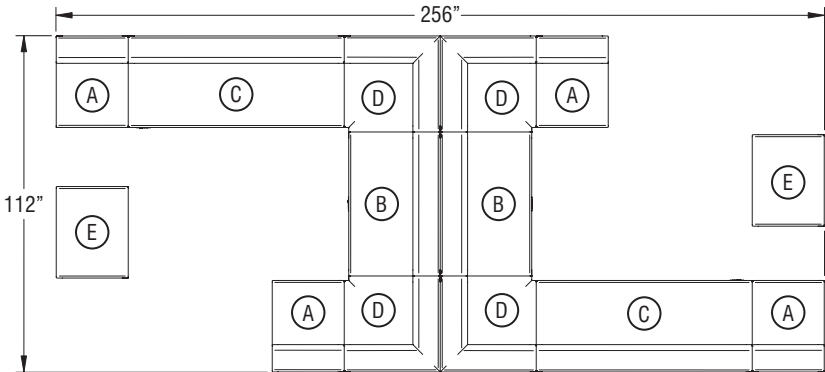

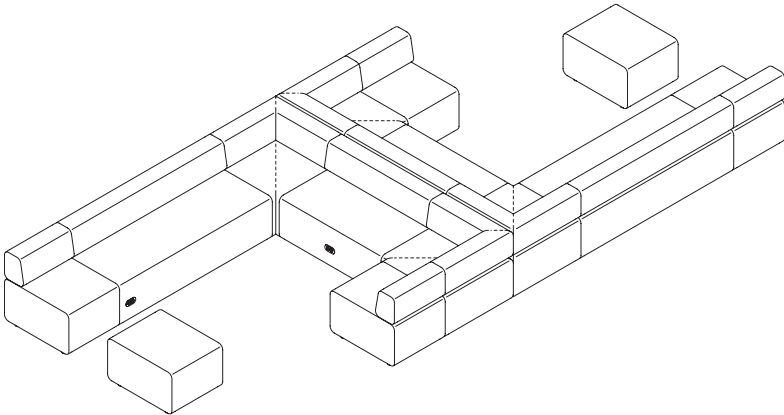

Item	Qty	Model
A	2	ZK030
B	1	ZK050
C	2	ZK090
D	1	M36S

\*Optional ganger kits are available for connecting units to one another (ordered separately).

Typical Configuration 6

Item	Qty	Model
A	4	ZK010
B	2	ZK020
C	2	ZK040
D	4	ZK050
E	2	ZK090

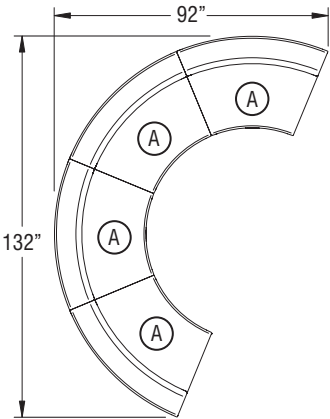

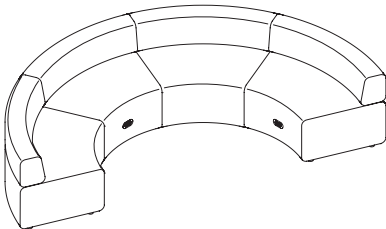

\*Optional ganger kits are available for connecting units to one another (ordered separately).

Typical Configurations (cont.)

Typical Configuration 7

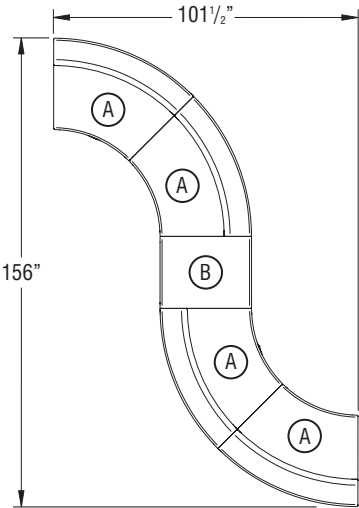

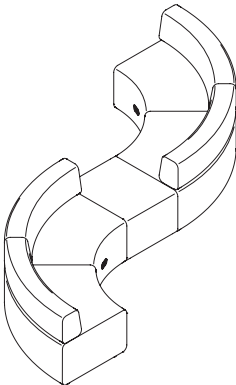

Item	Qty	Model
A	4	ZK060

\*Optional ganger kits are available for connecting units to one another (ordered separately).

Typical Configuration 8

Item	Qty	Model
A	4	ZK060
B	1	ZK090

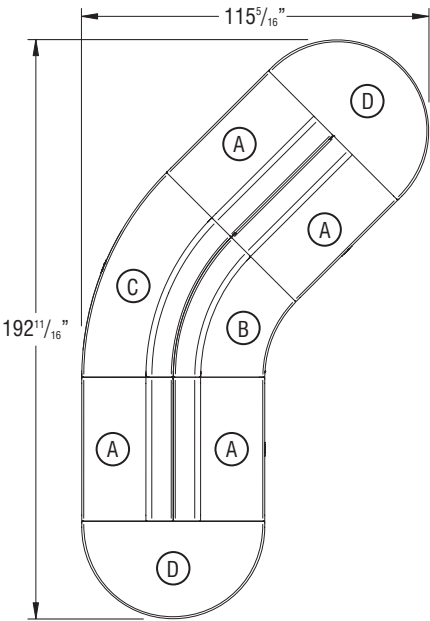

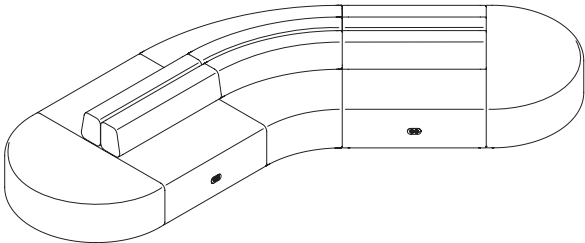

\*Optional ganger kits are available for connecting units to one another (ordered separately).

Typical Configurations (cont.)

Typical Configuration 9

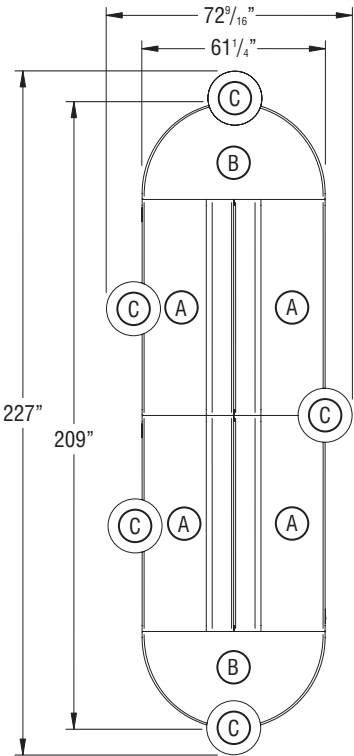

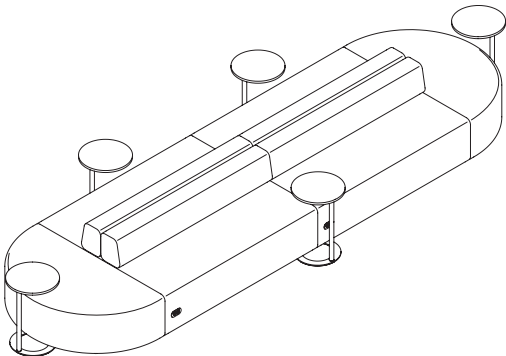

Item	Qty	Model
A	4	ZK020
B	1	ZK060
C	1	ZK080
D	2	ZK092

\*Optional ganger kits are available for connecting units to one another (ordered separately).

Typical Configuration 10

Item	Qty	Model
A	4	ZK040
B	2	ZK092
C	5	CTABLE

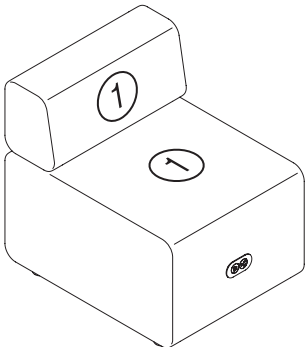

\*Optional ganger kits are available for connecting units to one another (ordered separately).

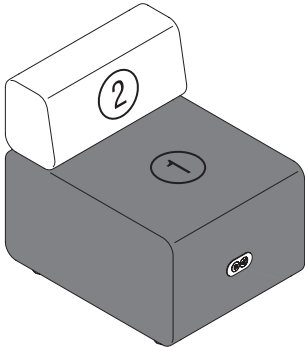

Upholstery  
Orientation

Planning Guidelines

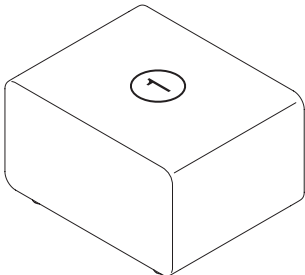

- Zeker can be specified as non-contrast (same fabric on entire lounge) or with fabric contrast. Two fabrics are available on units with low backs (Selection 1: Seat and Back, Selection 2: Back). Backless units are available as non-contrast only (one fabric on entire lounge).

Low-Back Modular Seating  
(lounge chair shown)

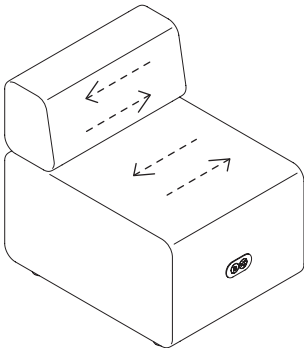

Low-Back Modular Seating  
(lounge chair shown)

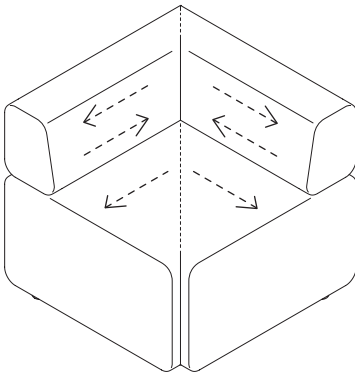

Backless Modular Seating  
(24" backless shown)

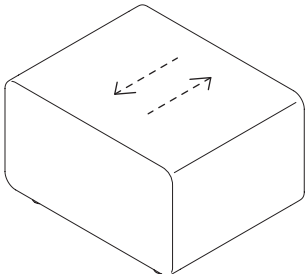

- Zeker units are available to accommodate patterned fabrics on seats. Arrows indicate fabric direction of seat.

## Ganging Guidelines

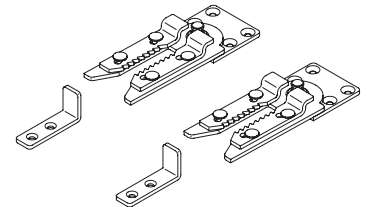

### Planning Guidelines

- All units can be freestanding or ganged to one another.
- Ganging kits (ZK901GNG) are ordered separately and must be installed.
- Ganging kit includes two gangers per kit and all hardware necessary to secure gangers.
- One ganging kit to be specified for each lounge-to-lounge connection.

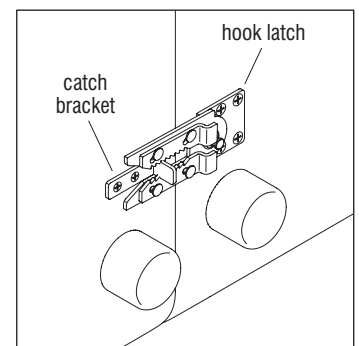

### Ganger Kits

Ganging Kit (ordered separately from Zeker modular seating units)

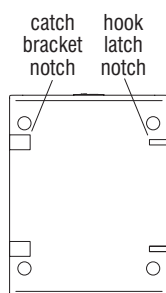

Ganging Kit (ZK901GNG)

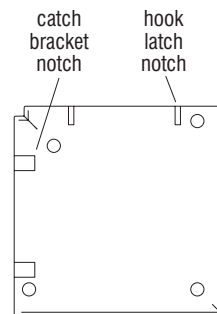

Ganger Kit (engaged)

### Ganger Kit Mounting Locations

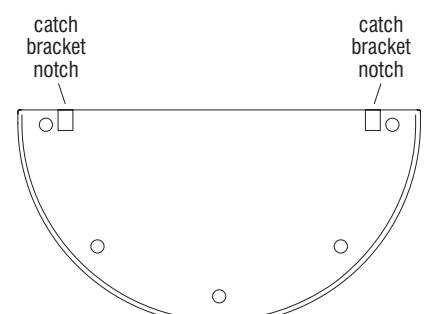

- On the bottom of all units are notches to accommodate the ganger kits. The narrow notches are for the catch latches and the larger notches are for the hook latches.
- When facing the front of the unit, all units except half rounds have large notches on the left side of the unit, and narrow notches on the right. Half round units have two large notches.
- When ganging units together, it is recommended to first start with inline units and add on any half round units last.

Lounge Chair, 48" Rectangle,

Half Round  
Ganger Notch Locations  
(bottom view)

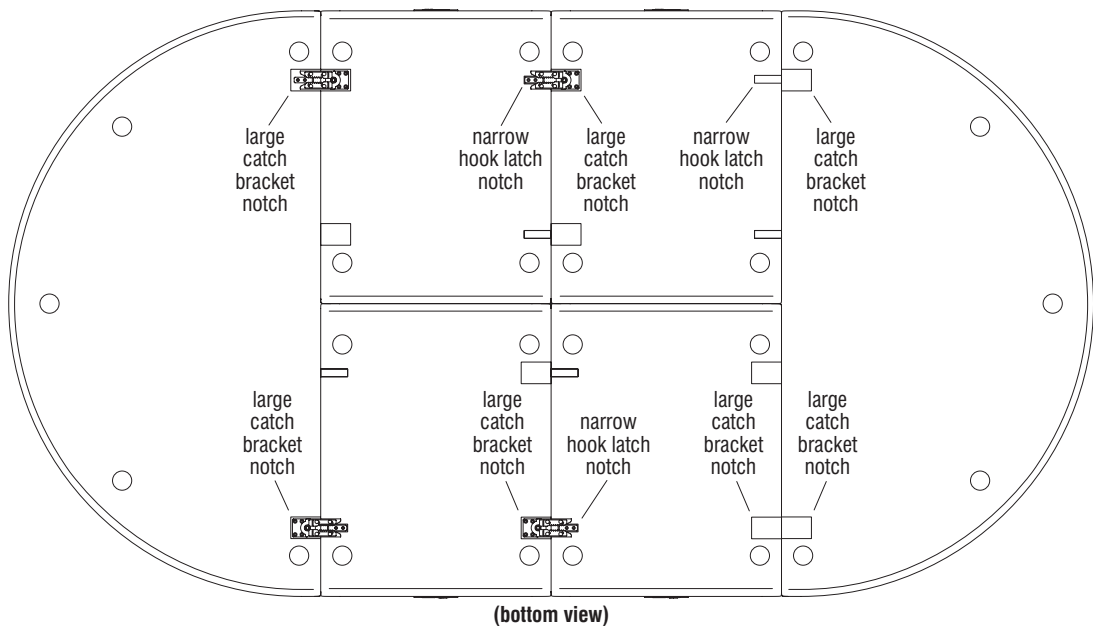

**Ganging  
Guidelines  
(cont.)**

**Ganger Kit Mounting Locations (cont.)**

- When ganging two half round units, one large notch will utilize the hook latch for one unit while the catch bracket is installed in the center of the large notch on the opposite half round unit.

- When ganging half round units to back-to-back inline units, it is recommended to first gang inline units together. Ganging inline units first allows the installer to easily determine the correct location of hook latches and catch brackets to be installed to the underside each unit. Once gangers are installed to the inline units, it will be easier to determine which part of the ganger kit will need to be installed in the large notch on the adjoining half round unit.

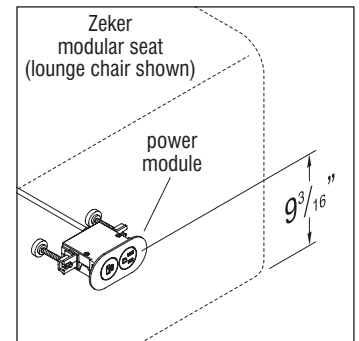

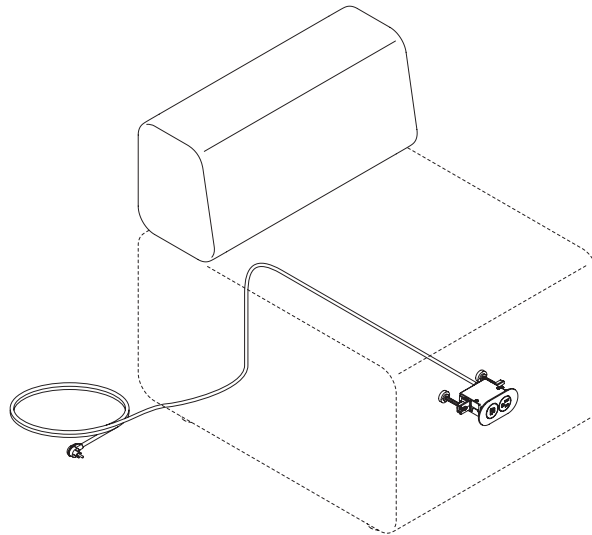

## ELECTRICAL

### Planning Guidelines

#### Power Modules

- Zeker modular seating can be equipped with Byrne round Mini-Tap® power modules, each providing one 15-amp, 125 volt AC simplex receptacle with one 2.1-amp, 5 volt DC USB Type A, and one Type C port per module. Modules will be factory installed into the front of modular seats. Round Mini-Tap power module color options are Black, White, Cool Grey, or Warm Gray.
  - **Byrne Round Mini-Tap® power modules with 72" cord and 3-prong plug**
    - Recommended for minimal power needs when a single module is enough power.

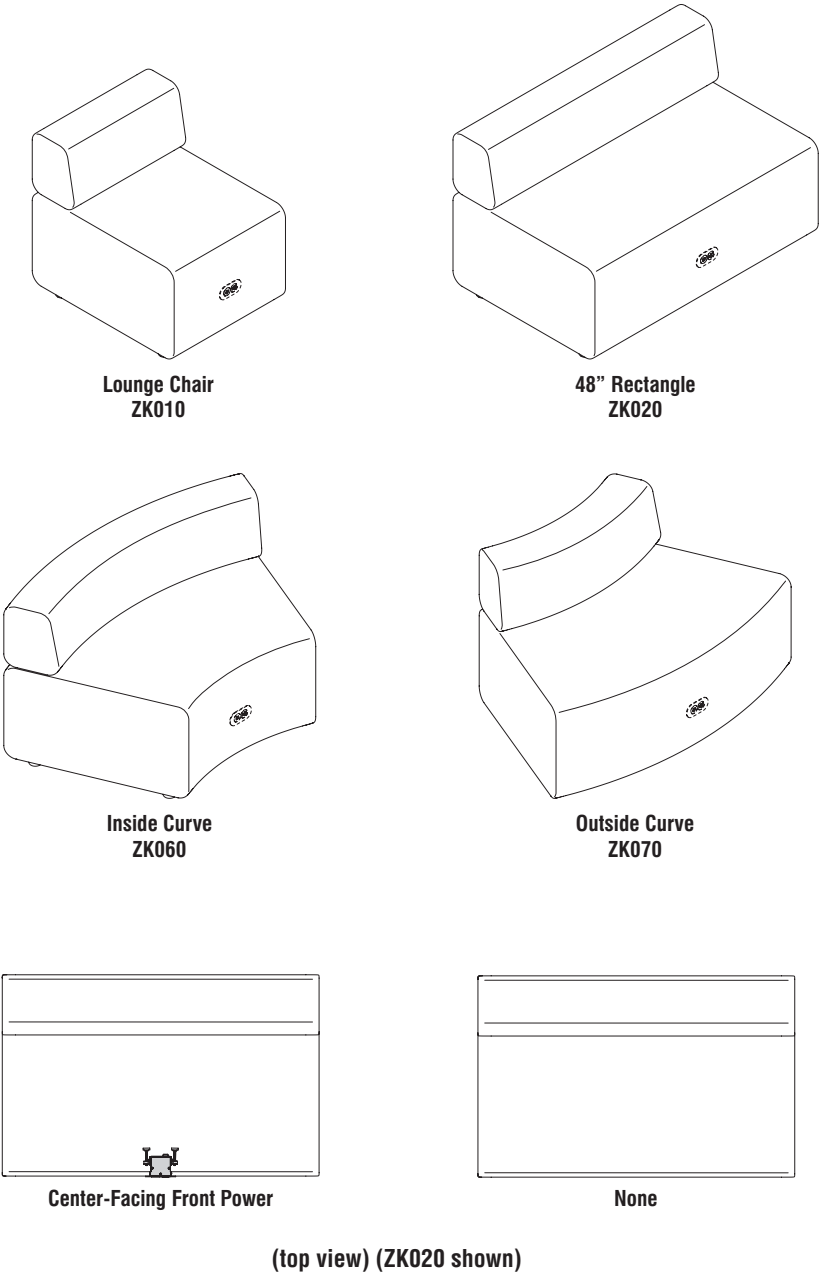

**Center-Line Height of Power  
Module to Floor**

Power Module Locations

Planning Guidelines

Lounge chairs (ZK010), 48" rectangles (ZK020), inside curves (ZK060), and outside curves (ZK070) units can accommodate one center-facing round Mini-Tap power module when specified.

ZK010, ZK020, ZK060, & ZK070 Power Module Locations

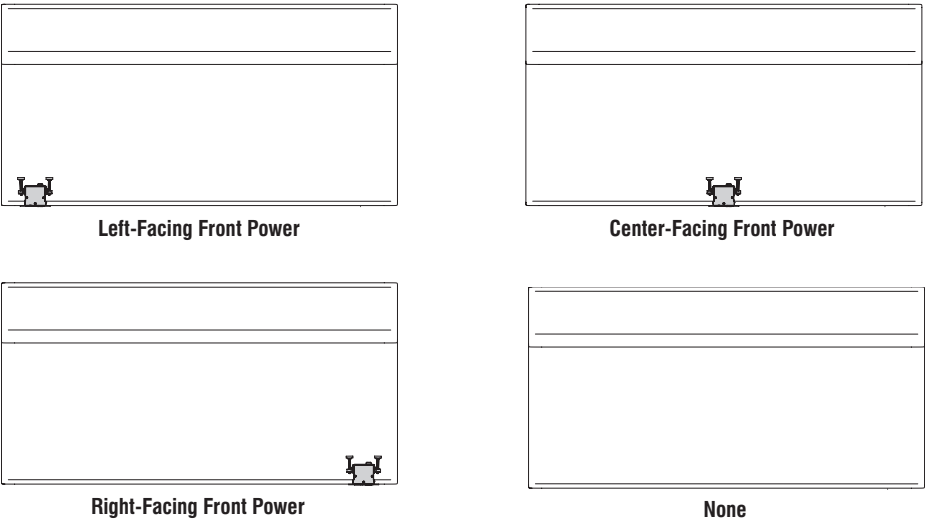

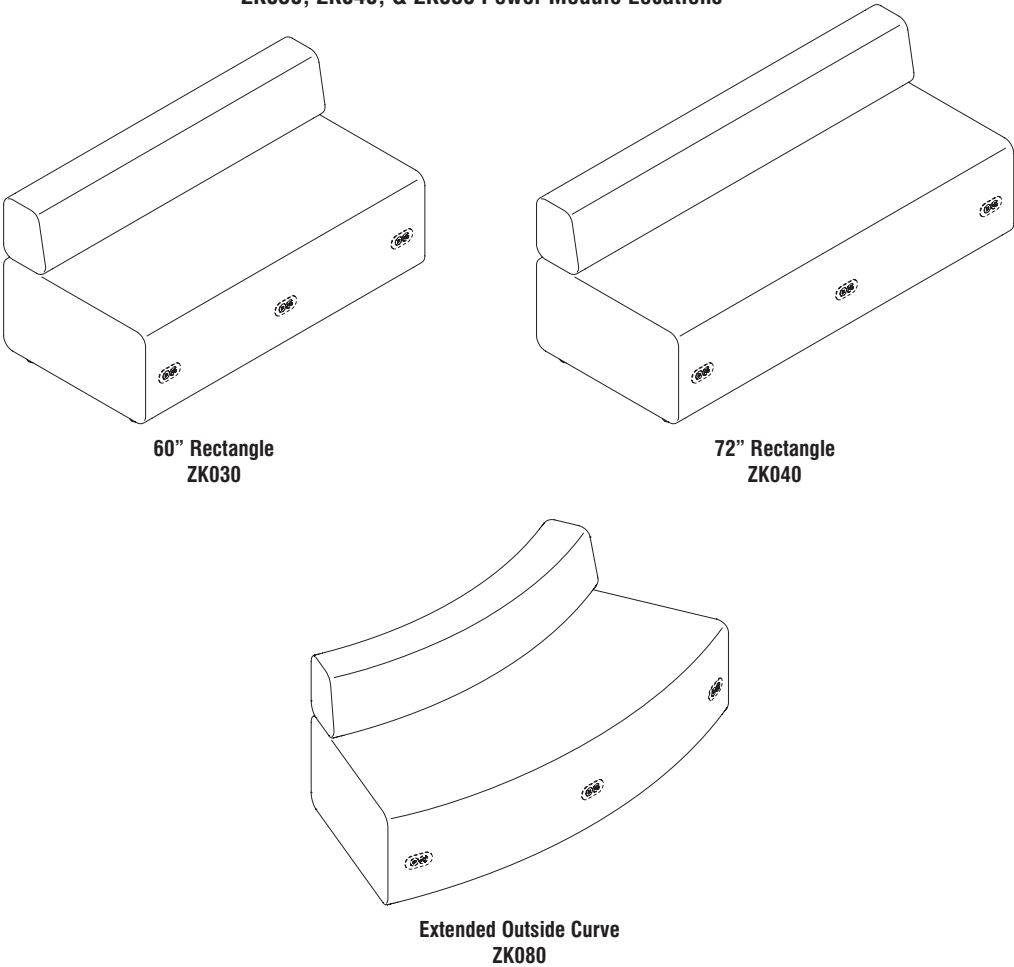

Power Module  
Locations (cont.)

Planning Guidelines

60" rectangles (ZK030), 72" rectangles (ZK040), and extended outside curves (ZK080) can accommodate one round Mini-Tap power module at one of three locations when specified, right-, left- and center-facing.

ZK030, ZK040, & ZK080 Power Module Locations
