How to Specify

As a standard procedure, KI applies seating upholstery as swatched by the textile distributor. Reference distributor’s website. Upholstery that is required to be applied differently than is swatched, will need a Product Modification Request written specifying the direction the upholstery is to be applied.

Seating upholstery requiring specific positioning of intricate patterns or patterns repeats on seats and backrests, will need a Product Modification Request written including a sketch noting the specific requirements, as in Diagram A.

When directional or patterned fabrics are used, they often require more yardage than solid colors.

C.O.M. must be supplied in continuous yardage.

C.O.M. yardage requirements accompanying products in the pricing section are for 10 chairs/seats or less, 54" wide nondirectional material. On larger orders, less material is required.

Leather hides must be a minimum of 50 square feet of usable material. The outer edges cannot be calculated as square feet or yardage. To determine square footage, multiply unit yardage by 18 square feet to obtain the total square footage required per unit.

For exact production yardage requirements, call 1-800-424-2432, ext. 2707.

Production

Customer’s upholstery must be approved prior to acceptance for production.

After approval, a memo swatch of the C.O.M. from the textile distributor must accompany the order. KI assumes no responsibility for wear, defects, or performance of C.O.M. upholstery.

C.O.M. not received into the appropriate facility 3 weeks prior to acknowledged delivery date may go on hold. See KI C.O.M. Shipping Location listing for the correct facility address by product.

Testing

When KI requires testing, actual yardage to upholster one chair may be required. The C.O.M. Specialist will confirm model and fabric testing requirements when applicable.

Approved test samples will be applied to the order or will be held for 6 months. After 6 months, the sample will no longer be applied to your order. For all product testing, send fabric samples to the manufacturing facility. See KI C.O.M. Shipping Location listing for the correct facility address by product.

All C.O.M. must be labeled with the KI product order number and customer purchase order number.

Treated Materials

If C.O.M. requires processing such as a stain resistance treatment or acrylic backing, it may shrink. To prevent delays in delivery or back ordering due to shrinkage, please have your processor verify measurement after processing and assure adequate yardage shipped.

Split Orders

If a portion of the shipment which does not require C.O.M. application is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Excess Upholstery Material

KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

Cancelled or Changed Orders

KI assumes no responsibility for extra C.O.M. due to a change of upholstery or cancellation of an order. If it the customer’s responsibility to arrange for return of the material.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to request a split order.

Diem - sensible seating for every day

- A.** Backrest has poly frame and elastomeric mesh for long-term stretch and support day after day - in Black, Grey or White.
- B.** Weight-activated back tilt moves freely or locks in 3 positions.
- C.** Adjustable arms support forearms and keep shoulders relaxed - 4D arm (arm height and width adjustable; plus arm pad moves forward/backward, side-to-side and pivots) or 1D arm (height adjustable) - armless also available.
- D.** Seat cushion - 3.5" thick, highly resilient molded foam with contoured curves provides impressive comfort.
- E.** Seat depth (optional) adjusts 2.5" to prevent pressure on knee backs.
- F.** Seat height adjusts from 17.5 to 22.25" to accommodate people of all sizes (add 0.75" with optional seat depth adjustment).
- G.** 26" diameter, glass-reinforced nylon, five-star base in Black (optional Polished Aluminum base).
- H.** 55mm dual-surface casters are designed for use on both hard floor and carpet surfaces.
- I.** Stool has adjustable height (22"-30" range). 18" diameter chrome footring.

Tested to 300 pound weight rating. 15-year warranty.

TECHNICAL SPECIFICATIONS

Mechanism

A weight-activated mechanism passively adjusts backrest tilt tension based on occupant weight. The mechanism is made of stamped steel with a black plastic trim cover. One lever operates the height-adjust cylinder and a second lever allows the backrest tilt mechanism to move freely, or locks it in one of four positions.

Seat

Plywood seat board with 3 1/2" thick molded urethane foam is upholstered using a drawstring method. Optional seat depth adjustment range of 2.5".

Backrest

Reinforced nylon frame with mesh insert. Backrest frame and mesh are available in black, grey or white.

Base

Chair and stool have an injection-molded, glass-reinforced black nylon 5-blade base or a polished die-cast aluminum 5-blade base. Standard chair cylinder available in Black or Chrome. Standard stool cylinder available in Chrome only.

Casters

Casters are 55 mm O.D., double-wheel high-impact thermoplastic, and are designed for use on both commercial carpet and hard floors.

Foot Ring

Task stools are equipped with an adjustable-height foot ring with black, die-cast aluminum hub and spokes, with an 18" diameter chrome-plated tubular steel ring.

Arms

Optional height-adjustable arms are molded in black reinforced plastic with molded black polyurethane arm caps. Armrests mount directly to the seat board.

1D Arms

1D Arms are height-adjustable with a range of 3 1/4".

4D Arms

4D Arms are two-way adjustable, by width and height. Forward-slanting arms with ergonomic, maximum mobility arm top (button-activated and lockable arm pad; 1" side-to-side, 2" forward and back, and pivoting). Adjustable-height range of 4 1/4". Adjustable width range of 1 3/4" per side.

HOW TO ORDER

- Indicate the following information on order form:
1. Quantity of each item.
 2. Model number, including options. See “How To Build a Model Number”.
 3. Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.
- B**Select backrest color.
Refer to the **Product Color Options** page in this price list.
*Backrest Assembly includes frame and coordinating mesh color.
- C**Select fire code.
NFR - Compliance to TB 117-2013
FR - Compliance to TB 133
See FR upcharge under Options.
- D**Select base finish.
Refer to the **Product Color Options** page in this price list.
*; add \$141 for polished aluminum base.
- E**Select seat upholstery.
Refer to [ki.com/fabrics](#)
