How to Specify

As a standard procedure, KI applies seating upholstery as swatched by the textile distributor. Reference distributor’s website. Upholstery that is required to be applied differently than is swatched, will need a Product Modification Request written specifying the direction the upholstery is to be applied.

Seating upholstery requiring specific positioning of intricate patterns or patterns repeats on seats and backrests, will need a Product Modification Request written including a sketch noting the specific requirements, as in Diagram A.

When directional or patterned fabrics are used, they often require more yardage than solid colors.

C.O.M. must be supplied in continuous yardage.

C.O.M. yardage requirements accompanying products in the pricing section are for 10 chairs/seats or less, 54" wide nondirectional material. On larger orders, less material is required.

Leather hides must be a minimum of 50 square feet of usable material. The outer edges cannot be calculated as square feet or yardage. To determine square footage, multiply unit yardage by 18 square feet to obtain the total square footage required per unit.

For exact production yardage requirements, call 1-800-424-2432, ext. 2707.

Production

Customer’s upholstery must be approved prior to acceptance for production.

After approval, a memo swatch of the C.O.M. from the textile distributor must accompany the order. KI assumes no responsibility for wear, defects, or performance of C.O.M. upholstery.

C.O.M. not received into the appropriate facility 3 weeks prior to acknowledged delivery date may go on hold. See KI C.O.M. Shipping Location listing for the correct facility address by product.

Testing

When KI requires testing, actual yardage to upholster one chair may be required. The C.O.M. Specialist will confirm model and fabric testing requirements when applicable.

Approved test samples will be applied to the order or will be held for 6 months. After 6 months, the sample will no longer be applied to your order. For all product testing, send fabric samples to the manufacturing facility. See KI C.O.M. Shipping Location listing for the correct facility address by product.

All C.O.M. must be labeled with the KI product order number and customer purchase order number.

Treated Materials

If C.O.M. requires processing such as a stain resistance treatment or acrylic backing, it may shrink. To prevent delays in delivery or back ordering due to shrinkage, please have your processor verify measurement after processing and assure adequate yardage shipped.

Split Orders

If a portion of the shipment which does not require C.O.M. application is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Excess Upholstery Material

KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

Cancelled or Changed Orders

KI assumes no responsibility for extra C.O.M. due to a change of upholstery or cancellation of an order. If it the customer’s responsibility to arrange for return of the material.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to request a split order.

TECHNICAL SPECIFICATIONS

Mechanism

Basic Syncrotilt Mechanism

The mechanism housing is constructed of stamped steel, shrouded with a black plastic trim cover. Seat height lever adjusts with 4 1/2” of travel, from 17 1/2” to 22”. The back tension knob has seven distinct adjustment positions. The back travel knob has five tilt-stop positions, from upright to full recline. The seat depth lever provides for 3” of seat front to backrest travel, from 17” to 20”.

Advanced Syncrotilt Mechanism

The mechanism housing is constructed of stamped steel, shrouded with a black plastic trim cover. Seat height lever adjusts with 4 1/2” of travel, from 17 1/2” to 22”. The back tension knob has seven distinct adjustment positions. The back travel knob has five tilt-stop positions, from upright to full recline. The seat depth lever provides for 3” of seat front to backrest travel, from 17” to 20”. Full rotation of the back angle knob clicks into 48 distinct micro-positions, equaling 7-degrees of total change. The forward tilt lever is inward of the back travel knob and flips down to adjust forward tilt angle, then recline the backrest until a click sound is heard to engage the 2-degrees of forward seat angle change. Flip the forward tilt lever up, recline against the backrest and hear a click sound to return the seat to level.

Seat

Plywood seat board with high resiliency (HR) foam with simple waterfall front edge. Optional seat depth adjustment range of 3”.

Backrest

Reinforced nylon frame available in black or grey, with mesh insert available in black, blue, or grey. An upholstered option is available to cover the front of the mesh, for added comfort and aesthetic choices, which uses a 1.15 lb polyurethane open cell cut foam, that passed CA TB-177 standard. The back of the upholstered backrest is always black mesh. The backrest upholstery is evenly tensioned and stapled over the top of the foam and mesh, then clamped between the inner and outer nylon frame.

Base

Chair and stool have an injection-molded, glass-reinforced black or cool grey nylon 5-blade base or a polished die-cast aluminum 5-blade base. The chair and stool cylinders are available in either Black or Chrome.

Casters

Casters are 55 mm O.D., double-wheel high-impact thermoplastic, and are designed for use on both commercial carpet and hard floor.

Foot Ring

Task stools are equipped with an adjustable-height foot ring with black, die-cast aluminum hub and spokes, with an 20” diameter chrome-plated tubular steel ring.

Arms

Optional height-adjustable arms are molded in black reinforced plastic with molded black polyurethane arm caps. Armrests mount directly to the seat board.

ID Arms

ID Arms are height-adjustable with a range of 6 1/2” to 14 3/4” above the seat.

4D Arms

4D Arms are two-way adjustable, by width and height. Forward-slanting arms with ergonomic, maximum mobility arm top (button-activated and lockable arm pad; 1 1/4” side-to-side, 2” forward and back, and pivoting). Adjustable height ranges from 7 1/2” to 15” above the seat.

Conference Arms

Conference arms are made of ADC12 aluminum and go through a 5-step polishing process to achieve arm features a leather covered arm pad consisting of a plastic upholstery liner and 6 mm thick foam pa are not adjustable.

Compliance

Passes BIFMA x5.1-2017 and KI’s internal standard testing for 300-pound capacity.

HOW TO ORDER

Indicate the following information on order form:

1. Quantity of each item.
2. Model number, including options. See “How To Build a Model Number”.
3. Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See “How To Build a Model Number”.
- Any special service required.

Note:

- The ☐ indicates that a choice is required.
- The absence of the ☐ indicates that no choice is required.
- Alpha-numeric characters in place of ☐ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A**Select basic model.
- B**Select fire code.

NFR - Compliance to TB 117-2013
- C**Select mesh color.

SBL - Black

SBU - Blue

SCG - Grey

Refer to [ki.com/fabrics](#)
- D**Select lumbar support.

NLS - No lumbar support (lumber option under development)
- E**Select base finish.

Refer to the **Product Color Options** page in this price list.

*add \$130 for polished aluminum base.

NOTE: On a plastic base, the back/arm color always matches the base. If a polished aluminum base is selected, a back/arm color selection is required.

- F**Select back/arm frame finish.

Refer to the **Product Color Options** page in this price list.

NOTE: Only select if polished aluminum base.
- G**Select caster.

MSC - Multi-Surface Caster
- H**Select seat upholstery.

Refer to [ki.com/fabrics](#)
