Features and Highlights

- Three Plastic Bumpers (fixed to underside of worksurface)
- Spiral Stack up to Six High
- Available in Standard KI Finishes

Description	Modification #
Ruckus Triangle Stacking Desks	21-293297

Active Classrooms – Ruckus desks make it easy (and fun!) to transition the classroom layout from traditional rows to collaborative pods. And when desks need to be stowed away for a time, Ruckus triangle stacking desks are easy to move, pick up and stack in a neat spiral.

Design for Success – Modified Ruckus stacking tables feature inconspicuous bumpers to keep worksurfaces safe and scratch-free when stacking. Create a consistent look throughout the building when specifying standard KI laminate and powdercoat finishes.
