

# EMU COLLECTION

From Coalesse

coalesse®

## Natural habitat.

Research shows that working outdoors can increase creativity and productivity. Whether for socializing or quiet concentration, outdoor settings are prime destinations where we connect, collaborate and rejuvenate. They are the natural extension of great workplaces.

The EMU Collection, available from Coalesse, inspires fresh and inviting outdoor workspaces. Established in Italy in 1951, EMU builds upon decades of traditional metalwork and creativity in collaboration with international designers. EMU is known for making exceptionally crafted modern furniture that is beautiful, durable and comfortable.

### EMU Heaven

*Jean-Marie Massaud, Italy*

#### Graceful weave.

Through a unique process of weaving and welding, metal mesh drapes like fabric in the EMU Heaven Series by Jean-Marie Massaud — creating seating with an ethereal lightness and a finely gauged softness.

### EMU Lyze

*Florent Coirier, France*

#### Modern mesh.

Technical and timeless, the EMU Lyze Series by Florent Coirier revisits an iconic wire construction. Unusual stainless steel backrests are attached to aluminum seats and come in sophisticated color combinations. Small fiber cement top tables add stylish function anywhere.

**EMU Pattern**  
*Arik Levy, Italy*

**NOTE: PRODUCT LINE CULLED 2022**

**Structural lightness.**

The EMU Pattern Series by Arik Levy plays with a structure of transparency and lightness. When immersed in the landscape, the perforated metal dissolves into dappled outlines — bringing modern technology into harmony with natural beauty.

Shown with EMU Kira Table

**EMU Rio R50**  
*Anton Cristell and Emanuel Gargano, Italy*

**Modern yet historic.**

Rio, EMU's most iconic chair originally designed in the 1970's, has been reimagined by Anton Cristell and Emanuel Gargano. With its reintroduction in 2020, Rio R50 is celebrating its 50-year anniversary.

**EMU Round**  
*Christophe Pillet, Italy*

**Slingback simplicity.**

The EMU Round Series, designed by Christophe Pillet, is characterized by an elemental design of snug and comfortable shapes, with simple slingback profiles that provide unexpectedly soft seats.

**EMU Terramare**  
*Studio Chiaramonte/Marin, Italy*

**Lounge and leather.**

Simple cane-and-canvas furniture is reinvented for lounge and dining in the EMU Terramare Series by Studio Chiaramonte/Marin. Generous shapes have innovative elegance in die-cast aluminum, pillowy outdoor cushions and sculptural eco-leather with vintage details.

# Product Features

- A. Geometric pattern detail on EMU Pattern Table and Chair
