SW_1 COLLECTION

Scott Wilson + Minimal

coalesse®

Change your point of view.

Lower and more intimate.
Wider and more comfortable.
Lounge-inspired yet task-oriented.
The backs breathe. The bases swivel.
The tablets come to you. A whole
system of collaborative possibilities
for meeting spaces.

——————— Three inches lower than conventional seating and tables, the SW_1 collaborative height offering is a conference/lounge hybrid that creates a more intimate and comfortable environment.

——————— Lounge chairs support "lean back" activity while offering more space for postural changes. Sophisticated, seamless knit is available in 9 colors. Automatic swivel return ensures the chair is always placed appropriately.

Flexible.

SW_1 moves effortlessly from conference room to public spaces for a wide range of collaborative options. Two new power modules and enhanced cable management for SW_1 Tables provide a refined yet robust solution to support today's tech needs.

——————— The height-adjustable Conference Chair provides the SW_1 seating aesthetic for conventional conference-height tables.

——————— SW_1 tables are available with Simple or Performance Power, or a coordinating grommet to host PowerPod. Cable trays and wire management systems route cords down the leg.

Collaborative.

While the collection is cohesive and sleek on its own, SW_1 tables also pair well with many different conference chairs, letting you sit however you choose.

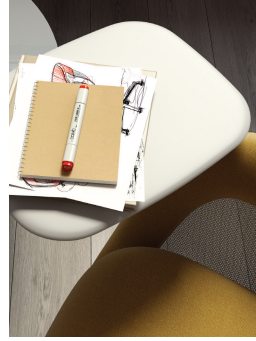

SW_1 Conference Tables shown with Marien152 Conference chairs (top), Bob Guest chairs (middle), and mid-back Massaud Conference chairs (bottom).

Comfortable.

Pairing the SW_1 Lounge Chair with a tablet arm and Ottoman invites you to put up your feet and work in a relaxed posture. The Conference Chair provides long-term comfort at standard height.

————— Enhance the SW_1 Lounge Chair by adding a tablet arm to create a work surface to host mobile devices for training settings, meetings or focused work.

————— SW_1 Occasional Tables complement the SW_1 Lounge but also stand beautifully on their own.

————— A swivel return mechanism on 4-star base chairs will return to the fixed position, while the 5-star base includes a 360° swivel mechanism for range of motion.

Collaborative Height (26"H) Solutions

Conference Height (28.5"H) Solutions

Product Features

A. Tabletops. 1/2" thick tops available in glass, veneer, Corian or laminate.

B. Pull-out tablet. Bring your work to you. Available as an option on select 26" high tables only.

C. Performance Power. Pill-shaped modules feature simplex power, USB-A/USB-C and openings for customer-supplied data.

D. Simple Power. Round modules feature simplex power and USB-A/USB-C options.

E. Cable Tray and Vertical Wire Manager. Trays conceal and route cords along the underside of the table, and wire managers route cords down the leg.

F. PowerPod Grommet. These finished openings in the tabletop allow the Coalesse PowerPod to be used while concealing and routing cords down the leg.

G. 4-star base with glides. Aluminum glides include non-marring plastic inserts.

H. 5-star base with casters. Black, dual wheel hard casters.

I. Table glide. Adjusts 3/4" for leveling on uneven floors.
