

The Touch Collection

thoroughly explores
texture and materiality
and offers up innovative
surfaces that can enhance
both physical and
psychological comfort in
modern interior spaces!

This collection employs advanced multicolored spinning, twisting and yarn dying techniques.

Caress employs two different color variations of an innovative multicolored twist yarn that are woven in both the warp and the weft direction. The result is a visually dynamic, rugged texture with heightened surface dimension.

Connect explores a different yarn twisting technique that binds five individual yarns together to create a thickened novelty yarn with a wavy textural quality mimicking the look of a heavy gros point.

CARESS

Content 100% Polyester

Environmental AB-2998 Compliant: Flame Retardant Free

Antimicrobial Free | Antibacterial Free Non-PFOA, Non-PFOS Stain Resistant Finish
