

INTRODUCING
COUTURE

Arc Com

The Arc-Com design studio
modernizes a traditional
tweed look with the
introduction of pattern
Couture.

"Chanel-esque" in its feel and flavor, Couture is inherently sophisticated and savvy yet chameleon-like in its ability to blend perfectly in traditional as well as non-traditional settings. Couture provides a splendid solution to the ever-present demand for interesting and versatile textural fabrics with high style and a fresh new look.

Couture's luscious surface texture is created through a novelty weave that combines multicolored chenille yarns as well as spun yarns of varying thicknesses.
