

INTRODUCING  
**METRO**

Arc|Com

The Arc-Com design studio  
delivers a contemporary,  
architecturally inspired, mid  
scale geometric with the  
launch of pattern **Metro**.

Refined and complex weave structures create a pleasantly distressed, time worn effect on **Metro's** geometric forms. An irregular, thick and thin polyester slub yarn is used to create additional textural surface interest.

The seven colors offered for pattern Metro are sophisticated and subdued. Subtle hints of color are revealed through a framework of light and dark neutrals.
