ROMBINI

STONESOURCE

# Rombini

Rombini is a journey made of ceramic vibration. The collection presents different modules of great chromatic strength, that can be combined to give the interiors an architectural aesthetic: Triangle, a three-dimensional element specifically developed for walls. On the occasion of the new edition, the already existing variants Triangle Large and Small are joined by the new Extra Small format in the size 2x31.5cm, as well as by a new Glossy finish in the colours Blanc, Gris, Rose, Vert and Brun, declined on the entire range. Using the traditional double-firing production technique allowed to enhance the preciousness of surfaces, coated with a transparent, polished and bright glaze. Especially, the shades Vert and Brun are obtained by applying a reacting enamel typical of handcrafted pieces, that guaranteed an exceptional colour rendering.
