RECOMMENDED USE

Porcelain Solutions U.S. Concrete is recommended for indoor floors, walls, countertops, and outdoor walls in commercial and residential application. It is not recommended for outdoor application or horizontal exterior surfaces. A offset no greater than 30% is recommended, if a staggered pattern is required for tiles of 20” inches or longer.

CARE AND MAINTENANCE

Do not apply any wax or sealer to the product after installation. Regular cleaning is the best way to keep these tiles looking good. Use clean, hot water (add household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth to prevent water spots.

- Be sure to use tiles belonging to the same caliber.
- Tiles can be slippery when wet. We recommend to make sure that the surface is always dry.
- Information provided can be subject to change.

The color of the tiles printed in this catalog may differ from actual tiles. Tile color reproductions in this brochure are representative only. Slight tone and shade variations are inherent in porcelain tiles. Before selecting a color, we recommend that you contact a CTL sales representative before selecting.
