tekunion

what is emote

what is emote

Emote transforms the private office into the creative office, one with a fresh look and the freedom to move and function in multiple ways.

Emote offers a new expressive language applied to wood furniture that surprises and inspires while maintaining the natural, tactile appeal of wood.

With Emote, one can make a statement, inspire creativity or offer a sense of home away from home.

Emote supports the agile worker with the freedom to function in multiple ways.

The following layouts are available on the Teknion Planning Tool.

Emote, designed by Mario Ruiz, is a collection of 21 distinct furniture elements that includes desks, cabinets, towers, thought boards and accessories.

What does your Emote office have to say?

- Emote finishes and furniture options allow for individual and corporate expression

Transform the private office into the creative office by playing with neutral, contrasting or bold color combinations to convey a desired personality or culture.

home away from home

show your true colors

freedom of expression

make a statement
