

Fast Drying Primer

Interior/Exterior Oil-Based

Successful Painting Jobs Start Here.
Hiding Power with Stain Blocking and
Gets the Job Done Fast

Alkyd Formula Blocks Stains
Recoat in One Hour

Get the job done quickly when an oil-based primer is desired with Sherwin-Williams Fast Drying Primer. Allows for faster production and recoats in one hour. The alkyd formula can be used on both interiors and exteriors providing stain blocking with good wet and dry hide. VOC compliant in many areas.

Key Benefits:

- Fast drying primer
- Stain killing, penetrating sealer
- Hides dark colors and most stains
- Helps block tannin bleed
- Adheres without scuff sanding
- Assures uniform appearance of interior and exterior topcoats
- Great application characteristics
- Topcoat with latex or oil paints
- Use for new construction or repainting
- Can be applied down to 40°F

Use on:

- Wood
- PVC Piping
- Hardboard
- Previously Painted Surfaces
