Daymora®
Designed by Claudio Bellini

Designed by Claudio Bellini

Driven to create a solution that offered an elegant and soft aesthetic as well as emotional comfort, Bellini created a modern and flexible lounge solution.

"From the beginning, I wanted something very clean, simple, and minimal. But at the same time sophisticated, unique, and special. We had to find that balance and we achieved it with Daymora. The sofa is really important to shape a space but also to create the right ambiance. Daymora allows people to enjoy a different atmosphere."

A stylish silhouette dedicated to comfort.

Daymora is a modern and comfortable lounge collection that includes freestanding and modular seating and occasional tables. With a design that was inspired by clouds, the pronounced cushions are soft and plush. The wide, flat piping around the perimeter of the arms, back, and seat conveys sophisticated elegance, while the metal base detail and optional contrasting fabric locations advance Daymora's versatility.
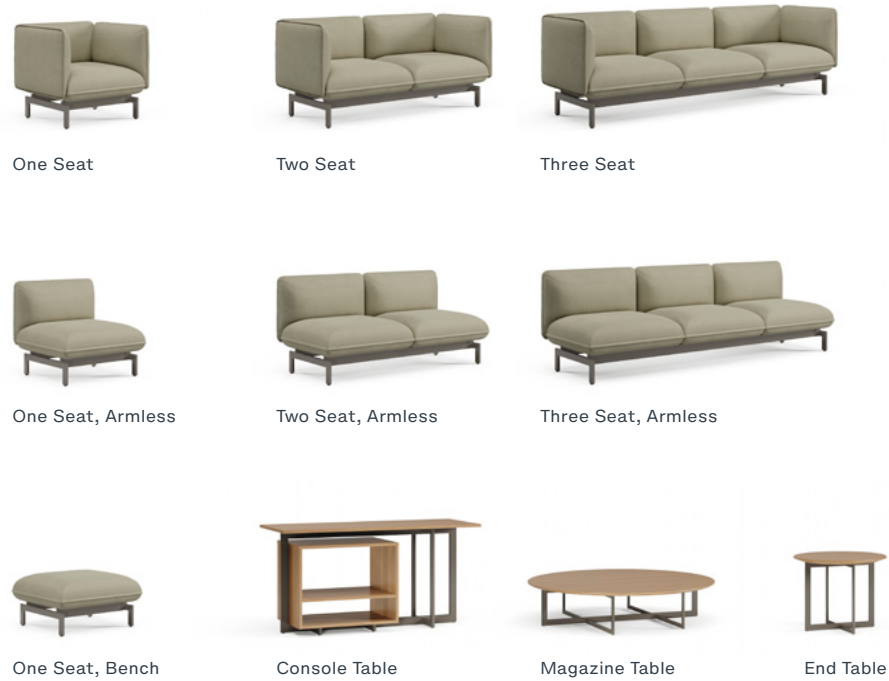

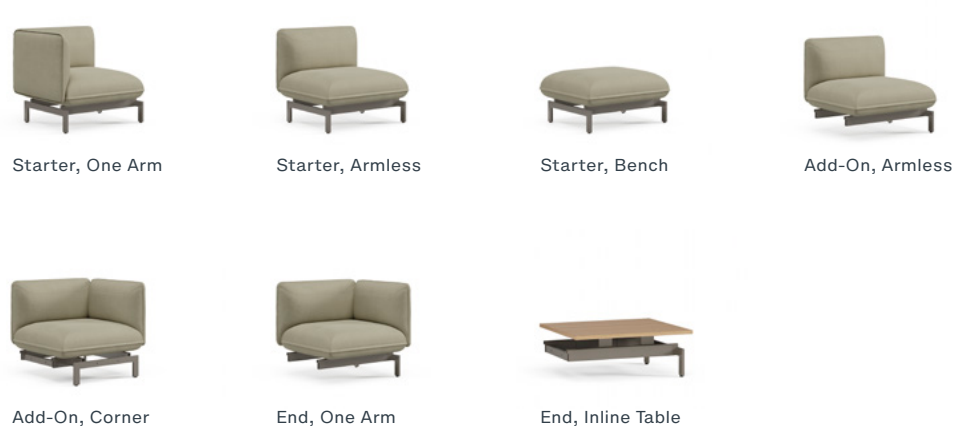

Create spaces that are comfortable and stylish with Daymora's enveloping European design, organic shape, pronounced cushions, and plush feel. Its table collection incorporates sleek design and unique storage compositions.
