

Kimball®

Footprint®  
Enhancements

With an extensive portfolio of worksurfaces and storage, Footprint can adapt to any environment or workspace requirement. Through a new array of storage configurations, the Footprint collection has evolved to more effectively accommodate flexible spaces and unique needs. The enhancements offer new configurations of freestanding and undersurface storage, including islands and storage towers.

ENHANCEMENT  
FEATURES

- Laminate front option on metal storage
- Electronic locks
- Mobile pedestals with open access options
- Undersurface pedestals in 12” door width and open access options
- Suspended pedestals for use with height-adjust tables
- Island components
- Storage tower heights that align with Etarran™ and Narrate® panel systems
