

Narrate®

Kimball®

Designed by Jay Henriott

Kimball International Industrial Designer

Design can't be underestimated when creating a workplace culture. Narrate makes it easy to compose compelling environments with its adaptable infrastructure. Utilize the versatile framework to create diverse layouts and accommodate varying privacy levels. This modular system easily supports open spaces for collaboration and dedicated areas for focus.

Narrate panels can be created with custom graphics, mixed materials, and hues that span from subtle to bold and timeless to contemporary. The flexibility of Narrate, from its broad statement of line to its spectrum of materiality, combines in seemingly endless ways to support comfort, productivity, and change.
