About these instructions

The installation instructions come as part of the Duravit product and must be read carefully prior to installation.

Target readership and qualifications

This is a professional grade product. A working knowledge of construction techniques and code compliant plumbing installation are required for proper installation and user satisfaction. The product must be installed by a licensed plumber.

Explanation of the key words and symbols

NOTICE

Is used to address practices not related to physical injury.

Inspection (e.g. for scratches)

Inspect for leaks and that all connections have a watertight seal

Indication of the length of time (e.g. 10 minutes)

> Action required

Safety instructions

Product and/or property damage

The breach of local and country-specific regulations and standards can cause damage to the product and/or property damage.

- > Observe the local installation regulations and any country-specific standards at all times.

Careless handling can result in damage to the surface of lacquered bathtubs.

- > Protect the bathtub from knocks and scratches during installation and transport.

Prior to the installation

Please read the specifications sheets prior to the installation. Specification sheets are available for download at pro.duravit.us.

Products are in compliance with the following codes:

- Uniform Plumbing Code (UPC®)
- National Plumbing Code of Canada

Recommended accessories (not included)

790112 (Tile Flange)

791264 (plastic)
790250 (brass)
Cape Cod version includes factory
installed drain.

Drop-in bathtub drain

791281 (PVC)
791282 (ABS)

- > Inspect bathtub for any potential damage that may have occurred during transport.
- > Do not install if any damage is visible.

NOTICE

- Only use straps
 - > Only move the tub with the lifting straps.
 - > Always lift the whole tub, do not lift only one edge.

- > Ensure floor area is clear and level.
- > Compensate irregularities by adjusting tub feet.

- > Connect waste and overflow (preinstalled with Cape Cod).
- > Refer to manufacturer's installation instructions for drain/waste fitting.

- > Place bathtub.
- > Make sure the bathtub is level.
- > Adjust feet if necessary.

- > Measure height from the floor to bottom edge.

en

- > Mark edges.

For Luv back-to-wall version:

- > Mark position of mounting brackets on the wall.

For Cape Cod and DuraSquare back-to-wall version:

- > Mark position of mounting brackets on the wall.

For Luv corner version:

- > Mark position of mounting brackets on the wall.

For Cape Cod and DuraSquare corner version:

- > Mark position of mounting brackets on the wall.

⚠ WARNING

Fatal injury by electric shock!

Contact with electrical wiring can lead to electrical shock.

- > Make sure that there are no electrical wires or heating running under wall or floor which could be affected by the installation.

> Attach 2 brackets to the wall frame.

> Weight of the tub should be distributed on the bottom.

> Clean area under bathtub.

> Clean the bathtub.

> Attach tile flange (not included).

en

- > Set bathtub into designated frame area.

- > Slide lifting straps under the bathtub.

- > Connect waste and overflow to the drain system.

- > Fill the bathtub with water.
- > Inspect for potential leaks.
- > Make sure to water test fittings.

- NOTICE**
- > Apply silicone recommended for mineral cast bathtubs only.

- > Let it sit for 24 hours before draining.

Concernant ces consignes

Les consignes de montage font partie intégrante du produit Duravit et doivent être lues attentivement avant le montage.

Groupe cible et qualification

Il s'agit ici d'un produit de niveau professionnel. Des connaissances pratiques des techniques de construction et des installations de plomberie conformes aux normes sont requises pour assurer une installation correcte et la satisfaction du client. Le produit doit être installé par un installateur sanitaire qualifié.

Avant l'installation

Veuillez lire les fiches de spécifications avant l'installation. Les fiches de spécifications peuvent être téléchargées sur pro.duravit.us.

Explication des avertissements et symboles

ATTENTION

S'utilise pour répondre à des pratiques sans risques de blessures physiques.

Les produits sont conformes aux codes suivants :

- Uniform Plumbing Code (UPC®)
- Code national de la plomberie du Canada

Inspection (par ex. des rayures)

Vérifiez la présence de fuites et si tous les raccords sont étanches à l'eau

Indication de la durée (par ex. 10 minutes)

> Action requise

Instructions de sécurité

Dégâts matériels et/ou endommagement d'une caractéristique du produit

Le non-respect des réglementations et normes locales ou spécifiques à un pays peut entraîner des dégâts matériels et / ou d'une caractéristique du produit.

- > Les prescriptions d'installation des sociétés de distribution locales et les normes nationales doivent être respectées sans réserve.

Une manipulation négligente peut causer des dommages sur les surfaces des baignoires laquées.

- > Protégez la baignoire contre les chocs et les rayures durant l'installation et le transport.

Accessoires recommandés (non fournis)

790112 (bride de carrelage)

791264 (plastique)

790250 (laiton)

La version Cape Cod comprend une évacuation installée d'usine.

Évacuation pour baignoire à encastrer

791281 (PVC)

791282 (ABS)

- > Vérifiez la présence sur la baignoire d'éventuels dommages pouvant être survenus durant le transport.
- > Ne pas installer si des dommages sont visibles.

ATTENTION

- Utilisez uniquement des sangles.
- > Déplacez uniquement la baignoire à l'aide des sangles de levage.
 - > Soulevez toujours la baignoire complète et pas seulement sur un côté.

- > Assurez-vous que le sol est dégagé et à niveau.
- > Compensez les irrégularités en ajustant les pieds de la baignoire.

- > Raccordez l'évacuation et le trop-plein (préinstallé dans Cape Cod).
- > Voir les consignes de montage du fabricant pour les raccords d'évacuation.

- > Mettez la baignoire en place.
- > Assurez-vous que la baignoire est nivelée.
- > Ajustez les pieds si nécessaire.

- > Mesurez la hauteur entre le sol et le bord inférieur.

fr

- > Marquez les bords.

Pour la version murale de Luv :

- > Marquez la position des supports d'installation à la cloison.

Pour la version murale de Cape Cod et DuraSquare :

- > Marquez la position des supports d'installation à la cloison.

Pour la version d'angle de Luv :

- > Marquez la position des supports d'installation à la cloison.

Pour la version d'angle de Cape Cod et DuraSquare :

- > Marquez la position des supports d'installation à la cloison.

⚠ AVERTISSEMENT

Blessures mortelles par choc électrique!

Un contact avec les fils électriques peut entraîner un choc électrique.

- > Assurez-vous qu'il n'y a pas de fils ou de chauffage électriques derrière la cloison ou sous le plancher pouvant être affectés par l'installation.

- > Fixez deux supports au cadre de la cloison.

- > Le poids de la baignoire doit être réparti sur l'ensemble du sol.

- > Nettoyez la surface sous la baignoire.

- > Nettoyez la baignoire.

- > Fixez la bride de carrelage (non fournie).

fr

- > Placez la baignoire dans le cadre prévu.

- > Faites glisser les sangles de levage sous la baignoire.

- > Raccordez l'évacuation et le trop-plein au système d'évacuation.

- > Remplissez la baignoire d'eau.
- > Vérifiez la présence d'éventuelles fuites.
- > Veillez à vérifier l'étanchéité à l'eau des fixations.

ATTENTION

- > Appliquez uniquement le silicone recommandé pour les baignoires en fonte minérale.

- > Laissez reposer pendant 24 heures avant de vider.

Acerca de estas instrucciones

Las instrucciones de instalación son parte del producto Duravit y deben leerse con atención antes de la instalación.

Lectores destinatarios y cualificaciones

Este es un producto de calidad profesional. Para su correcta instalación y garantizar la satisfacción de los usuarios, se requieren conocimientos prácticos sobre técnicas de montaje así como cumplir la reglamentación de fontanería. La instalación del producto solo puede llevarse a cabo por un fontanero profesional.

Explicación de las palabras clave y de los símbolos

AVISO

Se utiliza para describir prácticas no relacionadas con lesiones físicas.

Inspección (p. ej. por si hubiera arañazos)

Comprobar que no haya fugas y que todas las conexiones sean estancas al agua

Indicación del tiempo (p. ej. 10 minutos)

> Se requiere una acción

Instrucciones de seguridad

Daños materiales y/o en el producto

El incumplimiento de las normas y reglamentos locales y específicos de cada país puede provocar daños materiales y/o en el producto.

- > Observar en todo momento los reglamentos locales de instalación y las normas específicas de cada país.

Un manejo descuidado puede causar daños en la superficie de las bañeras lacadas.

- > Proteja la bañera de los golpes y los arañazos durante la instalación y el transporte.

Antes de la instalación

Leer las fichas técnicas antes de la instalación. Las fichas técnicas pueden descargarse en www.pro.duravit.us.

Los productos cumplen los siguientes códigos:

- Código de fontanería uniforme (UPC®)
- Código canadiense de fontanería

Accesorios recomendados (no incluidos)

790112
(cinta selladora para juntas de azulejos)

791264 (plástico)
790250 (metal)
La versión Cape Cod incluye un
desagüe instalado de fábrica.

Desagüe para bañera empotrada

791281 (PVC)
791282 (ABS)

- > Inspeccionar la bañera por si hubiera ocurrido algún daño durante el transporte.
- > No instalar el producto si hay daños visibles.

AVISO

Utilice solamente correas

- > Mueva la bañera solamente con las correas de elevación.
- > Levante siempre la bañera entera, no levante solo un lado.

- > Asegurarse de que la zona del suelo esté limpia y nivelada.
- > En caso de irregularidades, compensarlas ajustando las patas de la bañera.

- > Conectar la tubería de residuos y el rebosadero (preinstalado con Cape Cod).
- > Consulte las instrucciones de instalación del fabricante para el ajuste del desagüe/residuos.

- > Coloque la bañera.
- > Asegurarse de que la bañera esté nivelada.
- > Ajustar las patas en caso necesario.

- > Mida la altura desde el suelo hasta el borde inferior.

- > Marcar las esquinas.

Para la versión antepared Luv:

- > Marque la posición de los soportes de montaje en la pared.

Para la versión antepared Cape Cod y DuraSquare:

- > Marque la posición de los soportes de montaje en la pared.

Para la versión de esquina Luv:

- > Marque la posición de los soportes de montaje en la pared.

Para la versión de esquina Cape Cod y DuraSquare:

- > Marque la posición de los soportes de montaje en la pared.

⚠ ADVERTENCIA

¡Peligro de lesiones mortales por descarga eléctrica!

El contacto con el cableado eléctrico puede producir descarga eléctrica.

- > Asegurarse de que no haya ningún cable eléctrico ni ningún circuito de calefacción detrás de la pared o debajo del suelo, ya que podría afectar la instalación.

- > Monte 2 soportes en el marco de la pared.

- > El peso de la bañera se debería distribuir por el suelo.

- > Limpiar la zona debajo de la bañera.

- > Limpiar la bañera.

- > Pegar la cinta selladora para juntas de azulejos (no incluida).

- > Encajar la bañera en el área designada en el marco.

- > Deslizar las correas de elevación por debajo de la bañera.

- > Conectar la tubería de residuos y el rebosadero al sistema de desagüe.

- > Llenar con agua la bañera.
- > Inspeccionar por si hubiera posibles fugas.
- > Asegurarse de que los accesorios sean a prueba de agua.

AVISO

- > Aplicar solamente silicona recomendada para bañeras de material mineral.

- > Dejar que la silicona se asiente durante 24 horas antes de vaciar la bañera.
