

Created for diverse environments.

Fringe 2.0 is an extensive offering of lounge seating and tables that can be combined to create everything from large configurations for lobby spaces or community areas to individual nooks for privacy and focus. Fringe 2.0 complements the Fringe series, but features a thinner arm and back style. This lighter scale profile and slender silhouette, combined with unique club chairs, guest seating, and lounge components make Fringe 2.0 a beautiful solution for any scenario.

Designed for today's high-demand spaces.

Fringe 2.0 includes one, two, and three seat units, as well as curved units, and all are available in multiple back heights with clean out as standard.

Fringe 2.0 addresses specific needs for humanized spaces within workplace, education, and health environments.
