## Phenolic LT — LOFT Series

### LOFT Series Features

- Exclusive new Phenolic LT material
- Robust and durable
- Light weight, designed for easier install
- Flush surface construction
- Frameless construction with no visible hardware
- Maintenance-free, 110° pivot slow-close hinge (with finger protection)
- Available in a range of standard and custom colors

### Construction

Solid "sandwich-type" construction 1.4 inches (36 mm) thick with a 0.1-inch (3 mm) solid grade face sheet laminate on both sides with a moisture-resistant, foam core and aluminum framing around the edges.

Phenolic LT materials are impact and scratch resistant. Anti-bacterial coating and non-porous surface reduce spread of germs.

### Panels

Panels are 1.4 inches (36 mm) thick, constructed from 1/8-inch phenolic face sheets and are encased in an aluminum profile.

### Doors

Doors are 1.4 inches (36 mm) thick, constructed from 1/8-inch phenolic face sheets and are encased in an aluminum profile. Interior rebated door catcher is flush integrated into the wall section. Integrated rubber bumper included for silent operation.

### Pilasters

Pilaster are 1.4 inches (36 mm) thick, constructed from 1/8-inch phenolic face sheets and are encased in an aluminum profile.

### Door Hardware

Integral, self-closing hinges are available for in-swing doors only. This 110° self-closing hinge is hidden in the structure of the door. Out-swing doors are equipped with 180° self-closing barrel hinges. Concealed (non integral) self-closing hinges are also available for in-swing or out-swing doors. All doors are provided with an individual coat hook and door bumper. Stainless steel door knob has an easy-to-manuever paddle built into the locking wheel on the inside. A white/red indication latch and emergency unlocking feature is integrated on the outside of the door knob. The emergency release uses a 4 mm (5/32 inch) allen key that is inserted into the center of the door knob from the outside to unlock the door. ADA door pull is not included as a default. It is available at an additional cost.

### Brackets

Continuous U-brackets are provided.

### Feet

Feet are constructed of aluminum.

### Height

Standard height of 81.9 inches (2080 mm) including the 4-inch (101.6 mm) floor clearance.

### Headrail

A 1.2-inch (30 mm) x 1.2-inch (30 mm) aluminum headrail. Sits flush on top of the pilaster and door.

Verify all rough-in dimensions prior to installation.

Consult local and national codes. Conformity and compliance to local and national codes is the responsibility of the installer.
