FEATURES	
 Boards that have continuity between them, thus achieving the optical effect of much longer formats	 Imitates the surface of wood
 Beveled cut on the long sides of the board in order to create a continuity effect	 Installation system where gluing the boards to the floor is not necessary. They are placed on a foam, joined together, as long as the product does not already have a foil on the back of the piece.
 20 20 year warranty for domestic use valid for laminate floors that have been installed in rooms where they are exposed to normal wear and tear for their recommended End Use Category in accordance with EN 13329.	 5 5 year warranty for commercial use valid for laminate floors that have been installed in rooms where they are exposed to normal wear and tear for their recommended End Use Category in accordance with EN 13329.
 Format where only one board has been used to finish the entire base surface	 Is suitable for installing on water radiant heating
 PanEuropean Forest Certification that guarantees to consumers the origin of the products from sustainably managed forests	 Safety and joint durability are the main features of this easy installation system that guarantees the elimination of gaps between boards throughout the floor's lifetime. The pressure exerted between boards reinforces the union and prevents it from being carried out incorrectly.
