CALLA® Health Zone™ AirAssure®

Tegular & Square Lay-in smooth texture

CAD/Revit® drawings at: armstrongceilings.com/cadrevit

Seamlessly integrates with Armstrong VidaShield UV24™ Air Purification System to improve air quality

Calla Health Zone AirAssure Square Tegular panels with Suprafine® XL® 9/16® Exposed Tee suspension system

Smoothest mineral fiber ceiling available with factory-gasketed edges contributes to cleaner, safer, indoor air quality for every healthy space. Meets or exceeds USDA/FSIS, FGI, HIPAA and ANSI S12.60 guidelines.

KEY SELECTION ATTRIBUTES

- Factory-gasketed edges reduce air leakage through the ceiling plane to direct airflow more effectively and improve indoor air quality
- Get total noise control and floor plan versatility with Total Acoustics* ceiling panels: NRC + CAC = Total Acoustics Performance
- Anti-Bacterial/Mold/Mildew BioBlock® Plus performance resists the growth of odor and stain-producing bacteria as well as mold and mildew on the ceiling tile surface

COLOR

- Improved sound-blocking performance – provides some of the highest speech privacy in the Total Acoustics portfolio with a CAC 40
- Part of the Sustain® portfolio, and meet the most stringent industry sustainability compliance standards today
- Clean Room Performance up to ISO Class 5 (Class 100) using standard non-gasketed suspension systems
- Exceptional durability & cleanability
 smooth, durable finish impact-, scratch-, and soil-resistant
- CleanAssure[™] safe for use with disinfectant cleaners
- AirAssure® ceilings enable easy conversion to negative or positive pressure-controlled spaces (without hold-down clips)
- · Energy-saving, high light-reflective finish
- 30-Year Limited System Warranty against visible sag, mold, mildew, and bacterial growth
- Made in the U.S.A. of domestic and global content
- Build America, Buy America (BABA) Act compliant

TYPICAL APPLICATIONS

- Office conference rooms, lobbies, cafe
- Education nurses office, locker room, bathrooms
- Healthcare patient rooms, nurses stations, treatment rooms
- Emergency rooms and 24-hour care
- · Assisted living facilities
- Manufacturing control and break rooms
- · Clean Rooms
- Pressure-controlled spaces

SUSPENSION SYSTEMS

PHYSICAL DATA

Material

Wet-formed mineral fiber with acoustically transparent membrane and polyethylene foam. Surface Finish

Acoustically transparent membrane with

factory-applied latex paint.

Fire Performance

Class A: ASTM E84 and CAN/ULC S102 surface burning characteristics. Flame Spread Index of 25 or less. Smoke Developed Index of 50 or less (UL® labeled).

ASTM E1264 Classification

Type A, Form A2.2, Pattern G; Fire Class A

Humidity/Sag Resistance

HumiGuard® Plus ceiling panels are recommended for areas subject to high humidity, up to, but not including, standing water and outdoor applications.

Anti-Bacterial/Mold/Mildew

Ceiling panels with BioBlock® Plus performance resist the growth of odor and stain-producing bacteria as well as mold and mildew on the ceiling panel surface.

VOC Emissions

Third-party certified compliant with California Department of Public Health CDPH/EHLB/Standard Method Version 1.2, 2017. This standard is the guideline for low emissions in LEED®, WELL Building Standard®, Living Building Challenge® (LBC), CalGreen Title 24, ANSI/ASHRAE/USGBC/IES Standard 189; ANSI/GBI Green Building Assessment Protocol.

High Recycled Content

right necycled content Classified as containing greater than 50% total recycled content. Total recycled content based on product composition of post-consumer and pre-consumer (post-industrial) recycled content per FTC guidelines.
